**TO MERCHANTS, SHIPMASTERS AND SAILMAKERS.**

THE SUBSCRIBER would most respectfully inform the public, that he has invented and patented an improved WROUGHT IRON THIMBLE, suitable for Iron Clews, and all kinds of books that are used on board of vessels of all sizes. The advantage of this thimble over the old plan, is that no serving or leather is required to keep the rope from chafing. The thimble is made in such a manner that the rope cannot touch the lower parts of the eyes in which it is spliced.

The Subscriber would Caution parties against making, or in any way infringing on the said Patent Thimble without his permission as such infringement would be prosecuted according to law.
