Mr. Sayre has become a veritable sorehead, and is as dead politically as ever man was.

Mrs. Mary Austin, who lately died at Washington, had forty-four male children, eleven of whom survive. She was a doctor of medicine and surgeon, and served through the war with the rank of major. Dr. Mary Walker is small potatoes indeed as compared with this lady, never having ever had twins, while Mrs. Austin had triplets six times.

The reason given by the Public Works Department to the city authorities for refusing the use of the dredge, "New Dominion," in connection with the water works is quite feasible. She has gone into winter quarters and her hands are discharged. After all, we do not know that the Dominion Government is under any particular obligation to the city of Fredericton, and the refusal under any circumstances would not have been surprising.

Mr. H. V. B. Brydges, who assumed the Principalship of the Park Barracks School to-day, is only twenty years of age and graduated from the University when under eighteen. He won prizes and honors during his college course and at the recent examination for teachers' license carried of a Grammar School certificate, with an excellent average. We hope he may be as successful in his new position, as in the pursuit of knowledge.

John Adams, Esq., a native of Miramichi, and brother of Hon. M. Adams, is a candidate for Congress in New York. The New York *Sun* in noticing his nomination says:—

Mr. Adams is a graduate of Columbia Law School, and was a law partner of Gen. Foster, late Assistant United States District Attorney. Mr. Adams was brought up in this city. He had charge of H. B. Claflin's law business for ten years, and is a man of energy, ability and integrity, deserving the support of all honest men.

Saturday night the Presbyterian congregation of St. Paul's is to celebrate the fiftieth anniversary of its dedication in this city. A collation will be spread at 6 o'clock in the Sunday School Room, and at 8 o'clock a literary and musical programme will be commenced and continued during the evening. Mr. Geo. F. Gregory is to preside, Prof. Rivet will read an historical sketch of the church, and Rev. Dr. Macrae of St. John will discuss Presbyterianism, to be followed by other speakers. The members of the congregation anticipate a pleasant reunion.

For four years, commencing with Mayor Fenety's regime, the salary of the Mayor of Fredericton, $200 per year, was donated to paying off the interest on the City Hall Clock. Mayor Fisher has now applied for the two years' salary accruing to him and does not intend offering again.—*News.*

We presume Mayor Fisher if he wished to draw the salary would not have to *apply* for it, as the Council regularly orders quarterly cheques which have not, we believe been drawn by His Worship who, however, if he thinks proper, may take the salary without violating anything but a precedent set by Mr. Fenety, who was quite able and willing to serve the city gratuitously. We believe the *News* is also astray in announcing that Mayor Fisher does not intend offering again.

Mr. Gibson entertained his men to dinner at the Marysville Hotel last night.

Mrs. Grannan was fined $50 on Saturday for violation of the Scott Act.

Josiah Wood, Esq., M. P. Sackville, has purchased from Mr. John Slipp, of Hampstead, a fine Durham bull, 4 years old, sired by "Imperial Butterfly," purchased at Bow Park stock farm. His dam is the breeder of "Lady of the Forest." His weight is 2,000 lbs.

We regret to learn of a painful accident that befel Chas. Tupper, eldest child of Henry Wilmot, Esq., Private Secretary to His Honor the Lieut. Governor, yesterday. The little fellow fell from a hay loft into the stable below, a distance of ten feet, breaking one of his legs above the knee. He was attended by Drs. Atherton and Currie.

The *Capital* says:—"Mr. Wm. McInnes, of this city, will leave soon for Ottawa, where he will reside during the winter, having secured a position in the Geological Survey Department. For two seasons Mr. McInnes has been assisting in the work of the Geological Survey, and his many friends in Fredericton and elsewhere will hear of his well-deserved promotion with pleasure."

On the County Court resuming at 2 P. M., yesterday the trial of the Lees on the charge of attempting to shoot Police Magistrate Marsh, was called, Dr. Tuck, Q. C., and Mr. H. B. Rainsford appearing for the Crown, and Mr. E. L. Wetmore Q. C., for the prisoners. After some delay the following jury was empannelled:—Spencer Inch, Hamilton Sheppard, Charles Sloot, John A. Murch, Henry Gill, John James, David Lipsett, Jas. Artis, J. L. Ryan, James Johnston, John Greer, Jas. Manzer, and the trial proceeded, the Police Magistrate being the first witness examined. The trial of the prisoners on the charge of attempting to shoot Policeman Vandine, will come next, and by the time the County gets rid of the prisoners there will be some heavy bills to foot in Counsel and Jury fees and other expenses. The Jury alone costs over thirty dollars a day.

Yesterday was Nomination day in Kings, and there seems to have been a lively time. An immense crowd of electors were present and Prof. Foster made a telling address, followed by Mr. Domville. He has thoroughly canvassed the County, and addressed the electors in every parish, while Mr. Domville has relied on a personal canvas. It is stated that Mr. Domville's friends have said they will contest the election every time Prof. Foster is elected, a very senseless threat to. which the electors of Kings should administer a severe rebuke by giving Prof. Foster an overwhelming vote, and burying forever Mr. Domville's pretensions.

The Water Works arrangements are progressing quite favorably. Mr. Kennedy is getting on nicely with the crib well and guard crib. He has lots of visitors who are interested in the action of the 2200 lb. hammer which drives the biles. The pump well has been sufficiently sunk and the masonry will be commenced at once. A crew of men are engaged digging the trench for the conduit which is to connect the crib and pump well, which, however, will not be laid this season, as the use of the dredge cannot be secured. Mr. Limerick has commenced the erection of the building for the engines, and will have it completed this fall. No pipe will likely be laid this season. The large iron conduit cast by Messrs. McFarlane, Thompson & Anderson is about completed. It is sixteen inches in diameter. Mr. Neill is fast fulfilling his contract for pipe, and when a cargo arrives that is now on the ocean, he will have furnished already 350 tons, or about one half his contract. Pipe laying will probably be commenced within a week, and it is expected that Queen, King and Brunswick Streets, as far as Regent, and the cross streets intervening, will be completed this fall.

Ellis, the evangelist, charged with having committed adultery in St. John with Mrs. Rose of Thomastown, Me., was tried in the St. John County Court last week, found guilty, and sentenced to pay a fine of $400 or to be imprisoned in the common jail for a term not exceeding two years. This is the second trial for adultery in New Brunswick, of which there is a record, the first having been that of Wm. Egre, who was convicted in the County Court of Gloucester before Judge Wilkinson in 1877, of adultery with a single woman. The case was carried to the Supreme Court on appeal, the question reserved being whether it was an offence under the Statute unless both parties were married. Chief Justice Allen, in giving judgment, said the offence was clearly against the Act which was entitled "Offences against Public Morals and Decency," and the offence proven was undoubtedly against public morals, but if both parties had been married the offence would have been aggravated, and, in a social sense, greater. The Court considered the act an outrage on public decency and morals and affirmed the conviction.

The election on the Scott Act last Thursday resulted in the Act being sustained by a majority of forty-one votes. Following are the returns by Wards:—

	For.	Against.
Wellington	37	26
St. Ann's	97	42
Carleton	73	52
Queen's	37	77
King's	36	40
Non Residents	13	15
Total	293	252

Majority for the Act 41.

The election was quietly conducted, but there was considerable excitement at the close of the poll, and in the evening the Scott Act party celebrated their victory by a general illumination of the Reform Club Rooms, firing of rockets, and by a meeting in the City Hall afterwards, previous to which the Fredericton Brass Band performed in front of the Hall. Sheriff Temple, Returning Officer, declared the result as above at the County Court House, at 10 A. M., Saturday.

There was considerable excitement on Friday when it became known that the Returning officer for St. Ann's Ward had neglected to initial the ballots cast there, as required by law, and the Anti-Scott party talked of demanding a scrutiny of the votes, with a view of having St. Ann's which cast a majority of 55 for the act thrown out, thus giving a majority of 14 against the act, and changing the result of the election, but it is understood the idea has been abandoned.

The Canada Temperance Act is in force for three years longer and it should be the duty of the supporters of it to rigidly enforce it. There is no use in passing a law and allowing it to look after itself afterwards. The temperance party had a meeting Monday night to take action in enforcing the Act.

An Honest Opinion.

John Taylor, of Toronto, says he has tried every known remedy for rheumatism, and can honestly recommend Hagyard's Yellow Oil as the best of all; he has been a sufferer from rheumatic pains for years.

Richibucto Briefs.

Inspector Landry examined the schools on Thursday and Friday, Oct. 26th and 27th. All of the schools were ranked first.

The "Bazaar" which was held in the Masonic Hall, on Wednesday, Oct. 18th, under the auspices of the Church of England Sewing Circle, was a success, both socially and financially. About $90 were realized.

All the gossip of the town at present is about the proposed new Rolling mill. The prospects are that this new enterprise is an event of the near future. It is said that already about $20,000 worth of Stock has been subscribed.

Never Allow it.

Never allow the bowels to remain in a torpid condition, as it leads to serious results, and ill health is sure to follow. Burdock Blood Bitters is the most perfect regulator of the bowels, and the best blood purifier known,

THE AVERAGE BOY,

and a good-sized lump of maple candy, form the materials from which we might deduct self-evident conclusion regarding the facility with which attachments are formed in early life, when the circumstances are at all favorable. Among other good illustrations we might also particularize the case of the little fellow, who, as an inducement to his indulgent maternal relative to make an addition to his customary dose of

Robinson's Phosphorized Emulsion,

suddenly brought the matter to a focus by exclaiming, appealing—'Just gim'me one more teaspoonful and I'll go right off to sleep."

Prepared solely by Hanington Bros., Pharmaceutical Chemists, St. John, N. B., and for sale by druggists and General Dealers. Price $1.00 per bottle; six bottles for $5.00

Mr. T. C. Wells, Chemist and Druggist, Port Colborne, Ont., writes: "Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure sells well, and gives the best of satisfaction for all diseases of the blood." It never fails to root out all diseases from the system, cures Dyspepsic, Liver Complaint, etc., purifies the blood, and will make you look the picture of health and happiness.

Dr. W. Armstrong, Toronto, writes: "I have been using Northrop & Lyman's Emulsion of Cod Liver Oil and Hypophosphites of Lime and Soda for Chronic Bronchitis with the best results. I believe it is the best Emulsion in the market. Having tested the different kinds, I unhesitatingly give it the preference when prescribing for my consumptive patients, or for Throat and Lung affections.

Mr. G. W. Macully, Pavilion Mountain, B. C., writes: "Dr. Thomas' Eclectric Oil is the best medicine I ever used for Rheumatism. Nearly every winter I am laid up with Rheumatism, and have tried nearly every kind of medicine without getting any benefit, until I used Dr. Thomas' Eclectric Oil. It has worked wonders for me, and I want another supply for my friends, &c."

THE ROCK ON WHICH MANY a constitution goes to pieces is Dyspepsia. The loss of vigor which this disease involves, the maladies which accompany it, or which are aggravated by it, the mental despondency which it entails, are terribly exhaustive of vital stamina. Its true specific is Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, which likewise overcomes bilious maladies, female ailments, and those coupled with impurity of the blood.

THE COMMON EXPRESSIONS, "I feel so dragged," "My food don't digest," "I do not feel fit for anything,' which we so often hear during the Spring and early Summer months, are conclusive evidence that the majority of people require at that season especially a reliable medicine that will strengthen the organs of digestion, stimulate the circulation of the blood, and "tone up" the debilitated constitution. Hanington's Quinine Wine and Iron, and Tonic Dinner Pills, taken according to directions, produce buoyancy of spirits, vigor of mind, and give lasting strength to the whole system. Beware of imitations. See that you get "Hanington's," the *original* and *genuine*. For sale by all druggists and general dealers in Canada.

READ and REMEMBER
THAT
GATES' LIFE OF MAN BITTERS,
And combined medicines, are no quack. All that we ask is a fair trial, and if they do not do all that we say of them, we are willing to stand condemned before the public. They are manufactured entirely from the Roots and Plants of the Vegetable Kingdom and do not contain any calomel or mineral of any name or nature. Get a pamphlet showing remarkable cures, taken before Justices of the Peace. If you have been given up by your Doctor, don't despair, but get at once Gates' Life of Man Bitters and Invigorating Syrup, and if the disease be curable, by this combined use a cure may be confidently looked for, and your testimony added to the hundreds already proclaiming.
Sold by druggists and dealers throughout the provinces at 50 cents per bottle; and at wholesale by T. B. Barker & Sons, and R. W. McCarty, St. John.

These Shifting Tops have no rival, as a glance at the cut will show for itself; it is so simple. It requires only one person to take it off or put it on, and when off no one would think a Top had been on, as no unsightly ends are sticking out. When the Top is on it is as firm as a rock. It can be put on any carriage in use. Persons ordering Buggies or Canopy Top Carriages should see that they have this Rail, as it will be greatly to their interest.
These Tops were awarded a Diploma at the Provincial Exhibition in October, 1880
