Town and Country.

The Nackawick and Keswick rivers are clear of ice.

Hay is selling in the market at $14 per ton—a high rate.

It is expected that the Legislature will be prorogued not later than Thursday next.

Messrs. R. A. & J. Stewart have purchased Sheriff Temple's mill property at Bathurst.

R. J. Ritchie. Esq., M. P. P., is to lecture on Temperance at Woodstock to-night, before St. Gertrude's Total Abstinence Society.

☞ IF YOU HAVE to work early and late, and get little or no exercise take Hanington's Quinine Wine and Iron to give you strength.

Mr. Gibson says he has no immediate intention of starting a shoe factory, as a city contemporary reported. Some papers have a great facility for coining news.

It is said that June 16th at Sussex, has been fixed as the time and place for the assembling of the New Brunswick Volunteers in camp.

The ice in front of the city is becoming quite dangerous. On Tuesday two or three teams broke through and were extricated with considerable difficulty.

Mr. Geo H. Davis, Druggist, calls the attention of all buyers of seeds to his early expected importation of seeds from one of the first English houses. See advertisement.

Sir Charles and Lady Tupper sailed from Halifax, on Saturday, for England, in the *Sarmatian*. It is hoped the sea voyage will be of much benefit to Sir Charles.

We direct the attention of the "growers of tomatoes" to Mr. Bell's advertisement in another column. Mr. Bell is engaged in the lobster canning business in Richibucto, and the tomatoes he advertises are for canning.

Mr. Gillmor Brown, C. E., left here yesterday for Temiscouata County, Quebec, where he is to survey a large tract of land for James Murchie, Ex-M. P. P. Mr. Murchie is the owner of 96,000 acres in that locality.

York County Court opened on Tuesday, Mr. Justice Steadman presiding. The only cause entered for trial was Wm. McKeen vs the Commercial Insurance Company, Rainsford & Black for plaintiff—Harrison & Burbidge for defendant. The trial was concluded yesterday, and resulted in a non-suit.

Randolph K. Jones, Esq., was reelected Mayor of Woodstock on Monday, without opposition. Mr. Jones is extremely popular in the position and we congratulate him on this renewal of confidence by his fellow citizens.

Chas. Gregory, Esq., brother of Ex-Mayor Gregory is suing Sir Hugh Allan and the Canada Improvement Company for breach of contract in connection with the Eastern Extension Railway of Nova Scotia. The damages are put at $100,000.

Mr. George Leek's residence, two miles above Spring Hill, was destroyed by fire at an early hour on Monday morning. The fire originated in the ell. The most of the furniture was saved, although quite a stock of provisions was burned. The loss is a heavy one to Mr. Leek.

There is every prospect that the Bill before the Legislature, providing for the appointment of a commission to divide the St. John Relief Funds will be defeated. Parties for and against the Bill have been exhaustively heard before a special Committee, which has reported adversely.

Robert Swim, Esq., of Doaktown, returned on Monday from a five weeks tour in the Eastern, Western and Southern States. He visited his brothers in Wisconsin and Florida and found them prosperous under the Stars and Stripes. Mr. Swim was much pleased with his trip and returns in excellent health.

Mr. Henry B. Mitchell of Lincoln has been appointed Sheriff of Sunbury, *vice* White, resigned. It is understood that Sec-Treas. Hamilton of Maugerville was disappointed in not receiving the office, having had the promise of it. But more powerful influence intervened for Mr. Mitchell and hence his appointment.

Mrs. Fleming, Keeper of the Alms House' has resigned that position, and there are numerous applicants for the vacancy. Among them we have heard the names of Wm. Hawthorne, Thomas Morris, Jacob Barker, Israel Atherton, Thomas L. Simmons and Benjamin Atherton mentioned. There ought to be no difficulty in making a selection.

Mr. Anthony McCoy of Doak Settlement has purchased a fine four year old horse of the "Messenger" and "Hunter" stock, from Mr. Daniel Donnelly, the well known breeder of Oromocto, paying the sum of $120. The horse is a beautiful animal, weighing 1100 lbs. has a nice action and is dark in color. The price paid is considered very reasonable.

In the Annual Report of the Nova Scotia Mines, lately laid before the House of Assembly, it is stated that the sale of coals for 1880 amounted to 954,659 tons, being an increase over the previous year of 266,035 tons.

The total yield of gold for 1880 was 13,234 ounces, against 12,801 ounces in 1879.

The receipts for the Department of Mines for the year from royalty, licenses, &c., amounted to $70,440.

William Wilkinson, Esq., Q. C., of Chatham, has been appointed Judge of the County Courts of Restigouche, Gloucester and Northumberland Counties vice Hon. Edward Williston resigned on account of ill health. Judge Wilkinson made his first appearance on the bench at Bathurst on Tuesday, and received a congratulatory address from the jury. We also congratulate him on his accession to the position, and at the same time would express a hope that the late incumbent, Hon. Mr. Williston, may speedily find his health much improved.

The Agricultural Committee of the House of Assembly, which is composed of one member from each County, at a meeting on Tuesday, passed a resolution recommending the Board of Agriculture to expend the Legislative appropriation of $10,000 in the purchase of stock on this side of the Atlantic. It is urged by several members that this course would be preferable from the fact that the required animals can be purchased more cheaply here than in Great Britain, and their quality will be quite equal if not superior. But the prevalence of a disease among the cattle in England is, perhaps, the best reason that can be given why the Board should accept the Committee's recommendation.

The Silver Ice Pitcher, ordered by the Officers of the 71st Batt., for presentation to Lieut. Col. Maunsell, D. A. G., has arrived and is a very handsome affair. It is frosted silver with porcelain lining, and is beautifully mounted. Attached are two mugs and a sink each bearing the monogram of the Colonel. On the lid of the pitcher is the inscription.

"Presented to Lieut. Col. Geo. J. Maunsell, D. A. G., by the Officers of the 71st York Batt., of Infantry, Fredericton, N. B., March 1881."

This splendid testimonial was procured from Taunton, Mass., by Mr. John Babbitt. It is to be presented to Col. Maunsell, at his office on the afternoon of Monday the 28th inst., when all officers of the Batt., are requested to be present. The Colonel will leave for his new sphere of labour, the following day, and will be received at the station by a guard of honor, consisting of No. 5 Company.

G. G. King, Esq., M. P. for Queens, was in town Monday and Tuesday on his return from Ottawa via I. C. R. and St. John. He looks well after his lengthened stay at the Capital. Mr. King says the reports of the illness of members were largely exaggerated. The deaths of Messrs. Keeler and Connell frightened a good many, but the only other gentlemen who were really dangerous were Sir Charles Tupper, and Mr. Killam, of Yarmouth. The latter was so ill when Mr. Connell died that his friends dare not disclose the news to him for a week after the sad event. Sir Charles Tupper, Mr. King says, was much worse than people believed, but his illness was altogether due to overwork and he will speedily recover with rest. Mr. King says it is something remarkable if Sir Leonard is sick. He never know him during the entire session to have anything more serious than a headache, and that was just after the delivery of the Budget speech. Sir Leonard has an iron constitution. Mr. King drove through to his home at Chipman Tuesday afternoon.

Course of Instruction.

The following are a few very brief selections from the School Inspectors' Reports, in the numerical order of the Inspectoral Districts:—

Inspector Cox of No. 1 says:—"The longer the work of the Schools has been conducted according to the requirements of the Course of Instruction, the more satisfactory are the results."

Inspector Landry of No. 2:—"The prescribed Course of Instruction was not at first appreciated, but meets with more favor as it is better understood"

Inspector Smith of No. 3:—"When the Course of Instruction was really understood, the apparent difficulties vanished and the teachers continued their work with renewed zeal."

Inspector Wetmore of No. 4:—"I am glad to be able to state that the opposition to the Course has now greatly passed away."

Inspector Dole of No. 5 had no Report. He did not forward any Report for his District, but the following is the testimony of a First Class Teacher of St. John to one of his friends here.—"I have followed the Course of Instruction to the letter, and to-day I am willing to let my school speak for me and for the course. Indeed I am quite sure that I never attained such results in teaching as I have during the term now nearing its close."

Inspector Oakes, of No. 6:—"It is gratifying to observe how rapidly and cheerfully the majority of the Teachers are overtaking the new work of the Course of Instruction."

Inspector Mullin, of No. 7:—"The prescribed Course of Instruction is now fully in operation, and has been generally endorsed by the best talent of the teaching profession. I am pleased to be able to report that it is being very faithfully and intelligently worked out in the great majority of the Schools."

Inspector Gaunce of No. 8:—"The Course of Instruction is energising and systematizing the work of our Schools. It is helping both Teacher and pupil, and correspondingly the work of education."

Such confirmatory testimony as the above, from men who know whereof they affirm, speaks for itself.

Carlyle's Bequest.

The late Thomas Carlyle, bequeathed his estate of Craigenputtock, valued at £300 stg. a year, to the Edinburgh University, for the foundation of ten busaries to poor students, in the Faculty of Arts. "The deed of mortification" in favor of that body, (a copy of which is published in the London *Telegraph*, March 1st,) has the marks of the genius of the great but eccentric author. Craigenputtock, he says—

"Was for many generations the patrimony of a family named Welsh, the eldest son usually a "John Welsh," in series going back think some, to the famous John Welsh, son-in-law of the reformer Knox. The last male heir of the family was John Welsh, Esq., Surgeon, Haddington. His one child and heiress was my late dear, magnanimous, much-loving and, to me, inestimable wife, in memory of whom and of her constant nobleness and piety towards him and towards me, I am now—she having been the last of her kindred—about to bequeath to Edinburgh University with whatever piety is in me this Craigenputtock, which was theirs and hers, on the terms and for the purposes and under the conditions underwritten. Therefore I do mortify and dispose to, and in favor of the said University of Edinburgh, for the foundation and endowment of ten equal bursaries, to be called the "John Welsh Bursaries," in the said University, heritably and irredeemably, all and whole the lands of Upper Craigenputtock."

After stating the conditions of the bequest Mr. Carlyle concludes:—

"And so may a little trace of help to the young heroic soul struggling for what is highest spring from this poor arrangement and bequest. May it run for ever, if it can, as a thread of pure water from the Scottish rocks, trickling into its little basin by the thirsty wayside for those to whom it veritably belongs. Amen."

No LADY who delights in flowers, and likes to see them do well and bloom abundantly, should be without Hanington's Food for Flowers. Ordinary packages, 30 cents; sufficient for twenty plants for one year.

An Electric Lantern

An ingenious machinist of Comstock, Nevada, who is too modest to allow his name to be mentioned, appears to have left Edison far behind and out in the cold, as regards the use of electricity for illuminating purposes. While Mr. Edison has been labouring for grand, wholesale results, to find a means of illuminating all the cities of America and of the world at a stroke, our modest friend started to do but a little thing, and, in accomplishing this, we are inclined to believe that he has, at the same time, succeeded in doing that which the other has thus far failed to satisfactorily perform.

Our inventor set himself to work to make light on a small scale and at a small cost, and has succeeded beyond his most sanguine expectations. We have had the pleasure of seeing in operation a lantern in which his electric light was burning. An electric lantern was, indeed, just what he started to make, and he has made a lantern far ahead of anthing ever before seen in that line.

The lantern is of about the same size and shape as an ordinary miner's lantern, and may as readily be carried in the hand or on the arm. At a little distance it presents much the same appearance as the fancy lanterns carried by railroad conductors, except that the bottom part is somewhat deeper. In this bottom is the apparatus which produces the electricity that makes the light. All that is necessary to be done is to insert a key (like a large clock key) at the side, and wind the apparatus up when light is wanted. The light appears as soon as the machine starts, and disappears very soon after it is stopped. When fully wound up, the clockwork will run for six hours; but it can at any time be instantly stopped by turning a small button. The amount of electricity required is so small that it could hardly be measured, as we are informed. There are neither platinum nor charcoal burners; indeed, no burnsrs at all. The light is neither from flame nor from a substance heated to incandescence.

Just how the light is produced is still the inventor's secret. He says that Mr. Edison has all along been wandering from the true road with metal, charcoal and other burners. What is seen inside of the lantern is simply that which appears to be a Florence flask, about two inches in diameter at the largest part of the bulb, the neck descending into and connecting with the apparatus in the bottom part of the lantern. This reversed flask is completely filled with a liquid of a greenish-yellow color. Two small wires are seen coming up through the neck of the flask to about the centre of the bulb, where they are bent toward each other like the handles of a pair of small forceps.

This is the appearance until the clockwork is started. Then a change is instantly seen. The liquid within the bulb begins to glow and in a few seconds it presents the appearance of molten metal at a white heat, yet there is no heat. When the door of the lantern is opened and the hand placed upon the bulb there is a barely perceptible warmth.

The light given out is very white and pure. We do not know much about the candle-power of any light, but as this lantern made a room 14x20 appear as light as day, the light must have had the power of fifteen or twenty candles—the inventor says thirty. At all events it is enough for all ordinary uses, and would be better than anything ever before seen for use in the lower levels of mines.

The secret of the whole thing is evidently in the fluid with which the bulb is filled. What this is the inventor refuses to say, as it is for it he expects to obtain the patent he is taking steps to procure.

The inventor says but three articles, and those very cheap, are used. These cost but a trifle to begin with, are never consumed and never deteriorate. At a very small cost table lamps and all kinds of lights, both movable and stationary, may be made. Where they are stationary—suspended from the ceiling of a room or fixed against walls, a stationary clockwork would be put up, with wires running to all the lights in a building.

HANINGTON'S QUININE WINE AND IRON, take according to directions, produces *buoyancy of spirits, vigor of mind*, and gives *lasting* strength to the whole system.

Band Concert.

The Reform Club Band Concert in the City Hall to-night, will be the musical event of the season. From the programme which is given below, it will be seen that the leading musical talent of the city is to take part and able assistance will be given by Miss Hartt of St. John, whose reputation needs no commendation from us. The selections are made with excellent taste, and will prove especially entertaining to those of our citizens who have great regard for the day—St. Patrick's.

The Band has never been in a more efficient state, and its part of the programme will excel all former efforts. The Members of the Legislature, under whose patronage the Concert is given, have seldom had a better opportunity to witness a fine musical performance. The Band will perform several selections in front of the City Hall at 4 p. m. to-day. The programme for to-night is appended.

FANTASIA—"Erin go Bragh," Band, introducing "The Minstrel Boy," "Garry Owen," "The Harp that once thro' Tara' Hall," "The Pretty Girl milking her Cow," "Erin go Bragh," "Loves Young Dream," "Kate Kearney," "Eveleen's Bower," "Paddy Whack," "Let Erin remember the days of old," "Paddy Carey," "St. Patrick's Day," &c., Grand Finale.

DUETT—'I heard a voice in the tranquil night,' Miss Laura Wood and Mrs. Flewelling.

SOLO—"Should He Upbraid," Miss Hartt.

CORNET SOLO—"La Belle France," Mr. J. H. Williamson.

WALTZ SONG—"L'Estasy," Miss Laura Wood.

CORNET POLKA—"First Success," Band. Solo by Mr. J. H. Williamson.

BALLAD—"Farewell," Mr. Charles Hatt.

SONG—"Dermot Astore," Miss Agness Martin.

DUETT—"On Mossy Banks," Miss Laura Wood and Mr. Charles Hatt.

FANTASIA—"Religious," Band.

SOLO—"The Clang of the Wooden Shoon," Miss Prudie Hartt.

BALLAD—"Across the far blue hills, Marie," Mr. Felix McMullin.

VIOLIN SOLO—"5th Air Varie," Mr. E. A. Smith.

QUARTETTE—"Old Folks at Home," Messrs. Hatt, McMullin, McAdam and Winter.

FANTASIA (Descriptive)—"Relief of Ekowe," Band, by request, comprising: "Assembly," "Muster of Troops," "Preparation," "The Alert" "Zulu March in distance," (descriptive) "War Cry," "Advance," "Britons strike home," "Enemy in sight," "Commence Firing," "Hurrah! Hurrah!! Hurrah!!!" Finale, "God save the Queen."

York CensusTa kers

John Black, Esq., Census Commissioner, for York County, has received the following list of enumerators for his district, from Ottawa:—

FREDERICTON.

Wellington and St. Ann's Wards—Wm. E. Russell.
Carleton Ward—James Farrell.
Queen's Ward—C. Sterling Brannen.
King's Ward—Mark Neville.

New Maryland—Lewis Fisher.
Manners-Sutton—Alex. Hay.
Kingsclear—John C. Murray.
Prince William—Geo. Ingraham.
Dumfries—Henry S. Strange.
Canterbury—G. R. Crawford, Luke Lawson.
North Lake—Hiram H. Veysey.
Southampton—Asa D. Brooks.
Queensbury—John Caverhill, Jr.
Bright—Jacob H. Barker, M. D.
Douglas—Rev. J. E. Rued, William E. Johnston.
Stanley—William Currie.
St. Mary's—James McLaggan, Benjamin Close.

The Bridge Bill.

The Special Committee of the Assembly, who have had under consideration the St. John Bridge Bill have reported favorably on the Bill, but suggest amendments which will define clearly the location thaough Portland and at the point of junction with the Intercolonial Railway, name a limit of time for the commencement and completion of the work, enlarge the per centage of capital required, to be paid up before the commencement of the undertaking, ensure equal rights to all lines of Railway to make connections and to transport freight and passengers, provide for the proper regulation of the tolls to be imposed for the carriage of freight and passengers, specify and limit the issue of bonds, amend the mode of settling land and other damages, and restrict the amount of tax exemption.

The entire Anti-Temperance Ticket has been re-elected to the Moncton Town Council.

Mr. David Irvine, ex-M. P. P. of Wicklow, it is said, is to oppose Dr. Connell in Carleton County. His prospects for success are small.

The Choir of St. Dunstan's Church, assisted by Mr. Bryson's Band, are to give a concert in St. Dunstan's Hall this evening. The admission fee is 10 cents.

The debate on the Grand Southern closed at 9 o'clock last night, and the Government amendment was carried by 24 to 12,—a strictly party vote. The absentees were Messrs. Cottrell, Sayre, and Crawford.

We would call the attention of our readers to the advertisement of Messrs. Jardine & Co., St. John, in another column. Theirs is an old and most reliable house and well worthy of patronage and confidence.

Ald Wilson, lectured before the Methodist Institute, Tuesday night; subject, "Thought," which he handled in a masterly way. There was a large attendance, and the lecture was admirably delivered. The chair was occupied by Mr. J. R. Mace.

We learn from an excellent source that Hon. H. L. Langevin, Minister of Public Works, will visit this Province in June, and will come to this city. He intends inspecting the locality near Oromocto where the dredging is to be done. We can assure the Hon. gentleman a hearty welcome to New Brunswick.

We have heard of a most revolting case of cruelty to a dumb animal, within our county. There can be no excuse for such horrible treatment to a poor brute, and the party who would be guilty of it, is deserving of the utmost contempt, and severe punishment. We hope soon to see the formation of a branch of the S. P. C. A. here, that will look after such offenders.

Mr. John A. Edwards, has been appointed Agent for the Vapor Light in this city, and is prepared to receive orders. He has testimonials of its efficiency from a number of leading gentleman in St. John. The gas gives a brilliant light, and is cheap and adaptable to all purposes. Parties wishing to inspect, will be kindly attended to by calling on Mr. Edwards at the Queen Hotel.

Lieut.-Col. J. Wimburn Laurie, late Deputy Adjutant General of Nova Scotia, who has been in England for several months, has volunteered himself to the British Government for service against the Boers in South Africa. His offer has been accepted, and he is now on his way to the Cape. Col. Laurie served with much distinction through the Crimean War, and we may expect to hear of him performing many brave acts among the Boers. His absence from Nova Scotia is much regrettdd, for since his residence there he has been a most public spirited gentleman. For several years he has been President of the Nova Scotia Board of Agriculture, and the warm interest he took in its affairs has given great impetus to the art.

Messrs. Johnston & Co.'s Agricultural Machinery.—Last week's Newcastle *Advocate* states that this firm are erecting a branch office and warehouse (30x50ft.) on the public wharf at Newcastle for the convenience of their business in the northern counties. Mr. Geo. Hilderbrand, well known at Fredericton has been placed in charge and will have several sub agents and canvasers with whom to develop trade. Mr. Nicholas Burden who worked in Fredericton the past year, has been sent to Bathurst as general agent for Gloucester and Restigouche counties. In the firm's office, at Fredericton, which has lately been remodelled, there may be seen a large frame containing the eleven diplomas awarded to Johnston & Co. at the last Provincial Exhibition for many of the articles exhibited by them, an exhibit which it will be remembered was the finest display of agricultural machinery ever made in this Province by any one establishment. Two car loads of stock have already been received by them here in anticipation of an early demand for ploughs, harrows, etc., to commence spring work.

Mrs. Arnot, of Fort Saskatchewan, North West Territory, recently gave birth to twins, which resemble the Siamese twins, being joined together at the side.

New Advertisements.

CARD.

THE subscriber takes this method of informing his friends and the public generally, that he has this day purchased the Stock and Trade of the late **THOMAS LOGAN**, in whose employ he has been for the last FIFTEEN YEARS.

The **STOCK** will be kept up in the same first-class style, as has characterized it in the past, as arrangements have been made for BUYING IN THE BEST MARKETS KNOWN.

The subscriber hopes by strict and prompt attention to business, to merit a continuance of the patronage so liberally bestowed on his late lamented predecessor.

Our motto will be in the future, as in the past, "Good Goods at Fair Prices."

☞ Your patronage is respectfully solicited.

JOHN J. WEDDALL,
Successor to the late Thomas Logan.

F'ton, February 25th, 1881.—2ins.

NOTICE OF DISSOLUTION
—OF—
CO-PARTNERSHIP.

THE Partnership heretofore existing between the undersigned, under the name of DYKEMAN & VANWART, has been this day dissolved by mutual consent, the said W. G. Dykeman retiring therefrom. The business will be continued by the said William H. Vanwart, who will discharge the liabilities of the said Firm, and receive all debts due said Firm.

WILLIAM G. DYKEMAN,
WILLIAM H. VANWART.

Fredericton, March 12, 1881.

In making the above announcement, I wish to thank the Public for the liberal patronage given the late Firm of Dykeman & Vanwart, and request a continuance of same. I will keep in store, at the old stand, a general assortment of first class groceries, to be sold at bottom prices, wholesale and retail.

WM. H. VANWART.

AYRSHIRE BULL
FOR SALE.

THE pure bred Bull, **JOE LAMBERT**, bred by T. S. Cooper, Esq., of Linden Grove, Pa., and will be three years old next August. His color is Red and White, with rich orange next the skin. He is fair size, and very kind and docile. He was got by the celebrated bull "Pride of the Hills," and his Pedigre can be seen at the office of this paper.

As I have no use for him whatever, he will be sold for a low figure.

JOHN BERRYMAN, M. D.

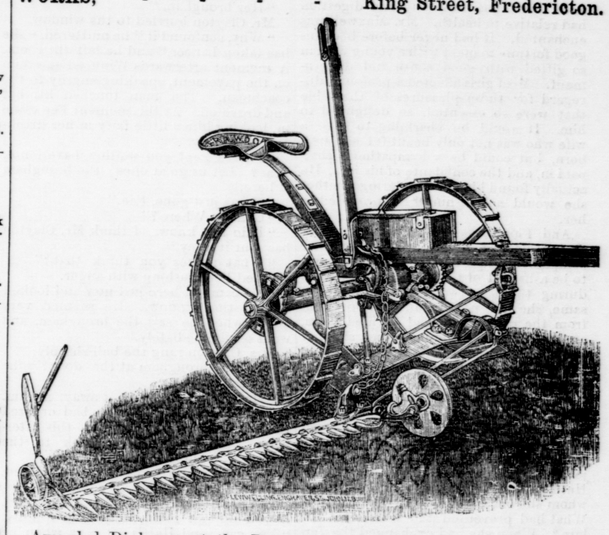
McFARLANE, THOMPSON & ANDERSON'S
Celebrated Agricultural Implements for 1881.

WORKS, - - - - King Street, Fredericton.



Awarded Diplomas at the PROVINCIAL EXHIBITION held in St. John in October, 1880, for the best **Mower, Reaper and Horse Rake,** in competition with Cossitt's Mower, Reaper and Rake, and the Toronto Mower and Reaper, and others on exhibit. Now that ours is the **recognized Standard Implements,** farmers would do well, before signing orders or buying, to ascertain **our terms and prices for 1881,** *and keep the money in the country.*
