Town and Country.

A cargo of steel rails for the Fredericton Railway, arrived last week.

Work has been commenced on the foundation of the Marysville Cotton Mill.

Wm. Boyle had one of his hands seriously injured in Morrison's mill on Tuesday of last week.

A man named Roderick Grass was accidentally drowned from a boat at Oromocto, on Wednesday last.

The members of the W. C. T. U. intend establishing a Reading Room, in connection with their Coffee House.

The Fredericton Branch Railway Company, are receiving sufficient new rails to lay eight miles of their road.

The annual meeting of the Synod of the Church of England, will be held in Fredericton, commencing July 4th.

Mr. Arthur Jack who sprained his ankle at the University Sports, has been quite lame since. He is improving however.

The Provincial Teacher's Institute, will meet in the Normal School building on the 17th of July, continuing till the 19th.

Mr. Edward McMinnamin is putting the S. Ann's Club Boat House in repair. It will soon be ready for use for the season.

Mr. Burkhardt's large photographs of the University, and of the city from the University cupola have been greatly admired.

Rev. Wm. Mitchell, formerly of St. Andrew's Church, St. John, has accepted a call from the Congregational Church, Westboro, Mass.

Lizzie Robinson, keeper of a house of ill-fame on Saint John street, was fined $60 and costs by Police Magistrate Marsh last week.

Trinity Term of the Supreme Court opens on Tuesday the 12th inst. Judge Fraser will hold his first circuit in York, commencing June 26th.

At a meeting of the Maritime Bank held in St. John last week, Sheriff Sterling was elected a Director to represent the Fredericton stockholders.

The Council passed a Bye-Law last evening in reference to the running of large of cattle. It is useless for the Council to make laws if they are not enforced.

A fire occurred in the upper story of Mr. Inches building, Queen Street on Monday, occupied by Mr. J. G. McNally. Fortunately for the occupants of the building it was extinguished before it got under headway.

Geo. Hatt & Sons have been awarded the contract for supplying the Alms House with groceries, Dr. Jacob for medical attendance, Geo. H. Davis for medicine, H O'Neill for bread and Thos. Peppers for beef.

The Mayor of St. John has arranged for the Bands of that city to play on the squares twice a week during the summer months. Our Mayor should see that Fredericton is not neglected in this respect this season.

The *Telegraph* publishes a very favorable notice of Mr. Geo. Botsford's plumbago mine near the Suspension Bridge, St. John. Mr. H. S. Botsford is managing the mine, which is likely to become a paying piece of property.

Several accidents occurred at Gibsons Cotton Factory on Monday. The master stonecutter had one hand badly injured, and another workman received a severe wound by the guy from the derrick falling and striking him on the head.

The Bazaar which the ladies' of the Methodist Church in this city propose to hold on Dominion day, will be one of the chief attractions of the holiday. The strangers in the city will patronize it liberally, no doubt, especially at meal times.

Rev. Mr. Chappell, who after leaving the Portland, N. B., Methodist church, has labored for two years on the Pacific Slope, has been transferred back to the N. B. and P. E. Island Conference and will take a circuit in this Conference after his return.

"KIND WORDS can never die," and there are none but kind words spoken regarding Hagyard's Yellow Oil, that old reliable remedy for external and internal use. It cures rheumatism, deafness, croup, sore throat, and all soreness and wounds of the flesh.

Rev. Dr. Maclise, pastor of the Calvin Presbyterian Church, St. John, died at his residence in that city on Friday evening last. The deceased gentleman was 59 years of age, and had been pastor of Calvin Church for ten years. He was an Irishman by birth, an eloquent preacher, and a faithful and loving pastor.

The Dominion Geological Survey this year will be in charge of Professor Bailey of the University. His chief assistant will be Mr. Wm. McInnes, whose devotion to and knowledge of the subject, has obtained him a good permanent position on the Geological Survey Staff. Mr. Wallace Broad has left the Department and gone into business with his father in Milltown.

The Fredericton Cricket Club has been organized for the season with the following officers:—President, A. F. Street; Vice do., C. J. R. Kerr; Secretary, L. C. Macnutt; Treasurer, R. S. Barker; Captain, H. C. Rutter. The name has been changed to the Fredericton Cricket and Amateur Athletic Club, and we are sure it will give a good account of itself during the season.

On Friday morning, Mr. W. K. Allen the retiring book keeper of the Gibson Leather Co., was presented with a handsome meerschaum pipe by the employes of the establishment. The presentation was made in felicitous terms by Mr. Gardner, and was happily replied to by the recepient of the gift. Mr. Allen who was very popular and an efficient officer, has commenced his duties as accountant of the Fredericton Boom Company.

The Encœnial Exercises at the University will be held this year on June 28th. The Oration on behalf of the faculty will be delivered by Dr. Bailey, while Mr. C. G. D. Roberts, B. A., will speak for the Alumni Society. The valedictory address for the class of '82 will be delivered by Mr. Kierstead, and we are safe in predicting that the attendance as usual will be large and fashionable. The Alumni Society and Senate meet on the day preceding the Encœnia.

If the contractors for laying the pipes of the Fredericton water service have any difficulty in keeping track of their Italian laborers in consequence of their jaw-breaking names, they might find it an advantage to follow the plan of numbering them, adopted by the West Shore, Ontario, railway folks—to wit:—

The number of each Italian is painted in plain figures on the seat of his pantaloons. Before beginning work in the morning and at noon and again at night, the men are formed in line, and the foreman passes in the rear of them and takes down each number, in order to ascertain who is present, as well as who is absent. The plan is beneficial in two ways—the men are easily recognized, and they are also kept from sitting down too much for fear of rubbing out the figures on the seats of their pantaloons.

"Gabe" is one of the greatest celebrities of the London Fisheries' Exhibition. The Canadian *Gazette* in referring to the Canadian section, says that that portion of the exhibition can boast of being connected with a special attraction which will certainly become one of the great popular sights in the exhibition. For an Indian chief named Gabe Acquin has been brought over to this country to illustrate the aboriginal methods of fishing, and this interesting individual has put up his wigwam of birch bark in a corner of the promenade on the west side of the Dominion court. In the lake close at hand he will give practical illustrations from his canoe of the Indian mode of spearing fish. Gabe Acquin, it ought to be added, is quite a celebrity. He frequently accompanies the Governor-General's in their hunting expeditions, and has had the honor of fishing and canoeing with members of the Royal Family.

When Mr. Gibson's store at Marysville was opened on Monday morning, it was discovered that some parties had been attempting to burglarize the safe on Sunday night or at least some time after the store was closed on Saturday. A large opening had been made in the brick vault, and the safe inside had been tampered with. Being burglar proof it had withstood the attempt made upon it, but the lock was so injured that the safe could not be opened for a long time. It is probable that the burglars were at work all day Sunday, as it appears that they ate a large quantity of provisions while in the store. There was a considerable sum of money in the safe, and had the burglars been successful they would have reaped a rich harvest.

An attempt was also made on Monday night to rob Mr. R. A. Estey's safe in his office at the west end of Queen street, by blowing it open with gunpowder, but it also proved unsuccessful. Speedy justice should overtake the rascals who are committing these crimes.

The Fredericton Brass Band will give an open air concert to-morrow evening in the Officers' square.

The work of laying the water pipes is progressing favorably. The Italians are now digging in front of the Parliament Buildings.

The market is well supplied with Hay the past week, the price ranging from $9 to $11 per ton. Butter has been rather scarce and sells for from 23 to 24 cts. Eggs bring 14 cts.

The American Express Co'y. have now offices for doing business at Grand Falls, Edmundston and St. Leonard's. This will be a great accommodation to the people in this section of the country.

The City Council gave the Chief Engineer a grant of $175 to purchase Helmets and Belts for the Fire Department, and a further sum of $50 towards assisting the firemen in their display on Dominion Day.

Jerry Cohan & Co.'s Mirror of Ireland and variety entertainment, will show in the City Hall on Monday and Tuesday evenings of next week. This troupe has been travelling through the Dominion, and is highly spoken of by the press.

At the City Council meeting last evening, on motion of Ald. Moore, an extension of the time for allowing the 5 per cent. Discount on Taxes to the 1st of August was carried. This was a proper move on the part of Ald. Moore, and will be appreciated by the citizens.

Ald. Farrell pressed and carried his motion at the Board last evening, to arrive at an understanding and settle the question of Presbyterian Row extension. It was decided in the affirmative by a vote of 7 to 3. Alds. Burchill, Macpherson and McKay, voting nay.

We learn that Mr. W. F. Watson, the teacher of the Writing Department of Houlton Academy of Maine, during the summer vocation of that institution intends opening classes in penmanship here, providing a suitable hall and sufficient number of pupils can be obtained.

The Central Fire Insurance Company have donated $10 to the firemen to assist them in their demonstration on Dominion Day. It is expected the other Insurance Companies will follow suit, as they have every reason to be thankful for the manner in which the firemen of this city do their duty when called upon.

The air is fragrant with orange blossoms. On Monday morning Mr. F. H. Risteen, of the Daily *News*, son of Mr. J. C. Risteen, of this city, entered into the bonds of matrimony, with Miss Minnie Staples, daughter of Major Staples of St. Mary's. Rev. J. W. Wadman, was best man, and Miss Mitchell, of Fredericton, was bridesmaid. Mr. Risteen's friends of the press unite in wishing him and his fair bride a great deal of happiness. They have gone west to spend the honeymoon.

On Tuesday morning another happy event took place, in which Mr. Henry Estey, the obliging and efficient Receiving Teller of the People's Bank, and Miss Emma Spurden, daughter of the late Rev. Charles Spurden, were the principals. We extend our hearty congratulations.

From the *Sun's* report of the closing exercises at the Mount Allison Educational Institutions, we clip the following report of a Fredericton boy's performance:—

Mr. Arthur C. Edgecombe of Fredericton, brother of F. B. Edgecombe, Superintendent of the Fredericton Railway, amused the audience in a fifteen minutes address. He embodied his thoughts on education, pointing himself out as an example in ability and culture of what results from masterly activity and indomitable perseverance. This declamation convulsed the audience with laughter, and Mr. Edgecombe was frequently interrupted with applause. Prof. Paisley prefaced Mr. E.'s effort with the remark that the faculty did not assume the responsibilty of the speaker's ideas on the subject, which however was very cleverly and humorously treated.

Another Murder.

Thomas Morrison, of Portland, St. John, was fatally shot at Shediac yesterday afternoon, by a woman named Sarah Smith, whose reputation is said not to have been very bad. It seems that the unfortunate man, who was baggage master on the Intercolonial, had been drinking, and tried to gain admission into this woman's house, but was refused, and while standing in front of the door was fatally shot. The ball entered the stomach, and he lived only a short time after receiving the wound. Mrs. Smith was immediately placed under arrest. An inquest is being held to-day.

Mr. W. H. Murray's Mill.

One might spend a lifetime in St. John without ever seeing this seat of industry, which is situated a few rods above the islands at the head of the Falls, and perhaps an eighth of a mile from the Douglas road. Except from some portions of Lancaster, it is almost utterly hidden from observation, with its surrounding dwellings and tireless activity. Mr. Murray's mill is perhaps one of the best appointed in the vicinity of St. John; its machinery seems to be as nicely adjusted as that of a clock—hardly a jar was observed by our reporter as he was being shown through its various departments. The mill is fitted with two gangs of saws, and two shingle and other minor machines, and produces daily about 120 M. of deals and 100 M. laths, which are disposed of in both the English and American markets. Aside from the above, Mr. Murray manufactures large quantities of pickets, staves, shingles, nail keg heading, etc. Skilled machinists on the premises make most of the repairs which are incidental to such an establishment; fresh water for the boilers is conveyed through an aqueduct from an artificial pond on the hill overlooking the mill; the furnace is so capacious as to consume all the refuse, while the mill is in operation; sufficient hose is kept in convenient positions to convey water in case of fire, with the aid of a donkey engine, to any part of the premises, and among the men there is a regularly organized bucket brigade. In the vicinity of the wharves, the river has been dredged, so that no difficulty is experienced in loading large American vessels almost at the tail of the mill. Notwithstanding his large export business, Mr. Murray gives special attention to the retail trade. The mill gives employment to about 125 men. Aside from the manufacture of lumber, Mr. Murray has cut 20,000,000 feet of logs on the Aroostook the past season, all of which are now in the St. John.—*Telegraph.*

ACKNOWLEDGMENTS.

Isaac Davis, Hibernia, Queens Co., $3.50; Benjamin Evans, Royal Road, 50 cts.; Addington S. Yerxa, Boston, $1 00; Jas. B. McIntosh, Spring Hill, $2 00; E. H. Wilmot, Fredericton, $1.00; Mrs. Monaghan, Fredericton, $1.00; James Henry, Sr., Maugundy, $1.00; John McKenzie, Alnwick, $1.00; William Cathels, Fredericton, $1 00; John A. Joslyn, Lower Prince William, $2.00; J. F. Patterson, Middle Southampton, $3 00; J. Duncan, Dalhousie, $3.00; Thos. Waugh, Fredericton, 50 cts.; G. H. Dykeman, Macnaquack, $1 00; Barclay Yerxa, Fredericton, $1 00; J. Caverhill, Upper Caverhill, $1.00; T. Saunders, Hamtown, $1.00; John A. AFTER YEARS OF SUFFERING, persons who have vainly sought remedial help from other sources, have obtained the long desired relief from Northrop & Lyman's Vegetable Discovery and Dyspepsia Cure, which puts a stop to the torments of Dyspepsia, renews activity of the Bowels and Liver, relieves maladies incident to the gentler sex, and builds up failing health and strength, gives purity to the blood, and tone the whole system. Sold by John M. Wiley.

Orin Catlin, 49 Pearl Street Buffalo, N. Y., says: I tried various remedies for the piles but found no relief until I used Dr. Thomas' Eclectric Oil, which entirely cured me after a few applications.

I CERTIFY that I obtained immediate relief during a severe case of bronchitis, when in Camp Sussex this year, by the application of Minard's Liniment.

C. CREWD-READ, Lieut.-Col.
St. John, 13th November, 1882.

The cheapest medicine in use is Dr. Thomas' Eclectric Oil, becauses so very little of it is required to effect a cure. For croup, diphtheria, and diseases of the lungs and throat, whether used for bathing the he t and throat, for taking internally or inhaling, it is a matchless compound.

The Brooklyn Bridge Horror.

The Brooklyn Bridge seems to have undergone a terrible baptism of blood from first to last. By the crush which occurred on it on Decoration Day, twelve people were killed and twenty-six injured, some fatally. The whole accident was caused by a woman screaming, having lost her presence of mind, and the scream proved the death knel of many in the crowd, who instantly supposed that the bridge had given way, and rushed to save themselves. Speaking of this bridge, a contemporary says:—

"In the thirteen years during which work progressed on the bridge over twenty fatal accidents occurred. The first, which cast a deep gloom upon the work and well nigh killed the project in its birth, was that resulting in the death of the Chief Engineer-John A Roebling, in 1867. He was locating one of the bridge piers on the Brooklyn side at the time, standing with one of his feet resting on a stick of timber on top of the ferry slip, into which a boat was coming. The boat struck the spring pile, which, rebounding, caught Mr. Roebling by the foot crushing it to a jelly. He was taken home; lockjaw ensued, and in ten days, after having endured the most intense agony, he died from suffocation. The deadly derrick, the slippery condition of the footpaths and ropes in winter, hurled nineteen workmen into eternity. One man in attempting to jump over a piece of masonry, sprang in the air as a derrick fell. It crushed him face downwards to the masonry into a space not eight inches in height. We have spoken only of the deaths from actual violence; it would be impossible to estimate the victims of the caisson disease, so called, caused by the charge from the compressed atmosphere, 35 pounds to the square inch of the caissons to the normal atmosphere. Inside the caissons the heat was above 80 degrees and the air very moist. Workmen emerging from the caissons looked like a procession of ghosts, and week by week their ranks were thinned by suffering and sudden death."

CATARRH OF THE BLADDER.

Stinging irritation, inflamation, all Kidney and Urinary Complaints, cured by "Buchupaiba." $1.

65 St. George Hypolite Street, St. Jean Baptiste Village,
Montreal, Feb 17th, 1883.

Mr. L. A. Knight:

DEAR SIR,—I have suffered from Asthma since 1876, and since 1879 have had it constantly until I found relief in your medicine.

I commenced taking your ASTHMA CURE the 1st, of last Sept., and in a very few days after taking it and bathing as directed, I was greatly relieved.

Since that time I have constantly kept it in my house taking it as needed.

KNIGHT'S ASTHMA CURE is the best medicine I have ever taken.

I send this testimonial as an appreciation of what it has done for me and for the benefit of suffering Asthmatics.

Yours truly,
NAPOLEON PAQUETTE.

Knight's Asthma Cure for sale by J. M. Wiley, Fredericton N. B., and druggists generally, also by L. A. Knight, 372 Notre Dame St. Montreal. Pamphlet and full information on application.

Money well Invested.

It is very obvious that the opinion of an experienced person, conveys far greater force than an aggregation of outside testimony; personal experience, or observation, being much more convincing than mere assertion. It becomes then a matter of duty to bring such testimony to the knowledge of all suffering with lingering ailments too numerous to mention, unless it be those prevalent diseases-Kidney trouble, Nervous Debility Gout or Rheumatic Affections of the Heart, in order that they may effectually and inexpensively cure themselves. The transition from the unhappy condition of illness to one of permanent health, has been so rapidly effected by thousands of provident ones, who never neglect to provide themselves with Humphreys' Homœpathic Specifics and Montor, that had we space to give them, even the merest mention, our readers would have a winter's Literature before them. But this is impractical, therefore, we can only say that the uniform testimony of thousands—respecting these wonderful Specifics—in the affirmative, must be regarded as decisive, at least, so far as human evidence can make it.

Hop Bitters are the Purest and Best Bitters Ever Made.

They are compounded from Hops, Malt, Buchu, Mandrake and Dandelion,—the oldest best, and most valuable medicines in the world and contain all the best and most curative properties of all other remedies, being the greatest Blood Purifier, Liver Regulator, and Life and Health Restoring Agent on earth. No disease or ill health can possibly long exist where these Bitters are used, so varied and perfect are their operations.

They give new life and vigor to the aged and infirm. To all whose employments cause irregularity of the bowels or urinary organs, or who require an Apetizer, Tonic and milk Stimulant, Hop Bitters are invaluable, being highly curative, tonic and stimulating, without intoxicating.

No matter what your feelings or symptoms are, what the disease or ailment is, use Hop Bitters. Don't wait until you are sick, but if you only feel bad or miserable, use Hop Bitters at once. It may save your life. Hundreds have been saved by so doing. $500 will be paid for a case they will not cure or help.

Do not suffer or let your friends suffer, but use and urge them to use Hop Bitters.

Remember, Hop Bitters is no vile, drugged, drunken nostrum, but the Purest and Best Medicine ever made; the "Invalid's Friend and Hope," and no person or family should be without them. Try the Bitters today.

A Life Worth Living.

Emerson says, "the truest test of civilization is not the census, nor the size of cities, nor the crops, but the kind of men the country turns out." Now the kind of men the country turns out depends pretty much upon his physical condition, or what use to the world would a race of invalids prove? Such people have no individual independence, and their usefullness and achievements—if any—are of the most meagre and ordinary character when compared with those of the hale, hearty man who takes the world as he finds it, makes the most of it, and leaves it the better for his having passed through it. I remember asking one such how it was he appeared to enjoy such an immunity from disease during especially sickly seasons. His reply came unhesitatingly: "Because I pay prompt attention to the premonitary symptoms of disease, and thus baffle continued illness." "But" how is this effected so readily," I asked, "when you so rarely have recourse to the physicians?" "Well," he replied reflectively, some years ago, I learned that men and women could in no small degree, become their own physician through the medium of a book—Humphreys' Homœpathic Mentor, or Family Adviser—the gift of a friend. After a careful reading I came to the conclusion that it was the most practical volume I had looked into for years, and resolved to test the medicines, or Specifics, it advocated for family use. I ordered a family case, also a Veterinary one for the stables, and since then have become, with splendid results, not only my own physician, but the "friend in need," to many around me—there is so much in Homœpathy.

Marriages.

At the residence of the bride's father, on the 4th inst, by the Rev. Howard Sprague, D. D., Mr. Frank H. Risteen, of the St John *Evening News*, and Minnie C. Staples, only daughter of Jeremiah Staples, Esq., of St. Mary's, York County.

SHERIFF'S SALE.

TO be sold at Public Auction, in front of the County Court House, in Fredericton, in the County of York, on SATURDAY, the 1st day of September next, between the hours of 12 o'clock noon and five p. m., all the right, title, interest, property, use, possession, claim and demand, whatsoever, at law or in equity, of Richard Carman, of, in and to that certain tract, piece or parcel of land situate in the parish of St. Mary's, in the County of York, and bounded as follows: Beginning at lower corner of the lot lately sold at Sheriff's sale to E. Byron Winslow and running south-east to the county line; thence a north-easterly course along the said county line till it strikes land owned by William Good; thence in a north-westerly course 20 rods more or less, or till it strikes the upper line of lands lately sold by the Sheriff of York, to said Winslow; thence in a line parallel with the county line aforesaid to the place of beginning, and being the lower half of lands in the occupation of Richard Carman, and containing fifty acres more or less, with the improvements thereon, the same having been seized and taken by virtue of an execution issued out of the Supreme Court at the suit of John McDonald against the said Richard Carman.

A. A. STERLING,
Sheriff.

AYER'S
Sarsaparilla

cures Rheumatism, Neuralgia, Rheumatic Gout, General Debility, Catarrh, and all disorders caused by a thin and impoverished, or corrupted, condition of the blood; expelling the blood-poisons from the system, enriching and renewing the blood, and restoring its vitalizing power.

During a long period of unparalleled usefulness, AYER'S SARSAPARILLA has proven its perfect adaptation to the cure of all diseases originating in poor blood and weakened vitality. It is a highly concentrated extract of Sarsaparilla and other blood-purifying roots, combined with Iodide of Potassium and Iron, and is the safest, most reliable, and most economical blood-purifier and blood-food that can be used.

Inflammatory Rheumatism Cured.

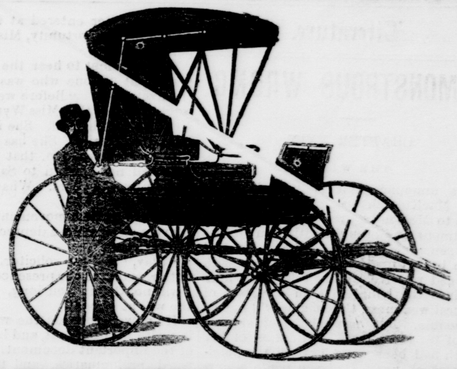
"AYER'S SARSAPARILLA has cured me of the Inflammatory Rheumatism, with which I have suffered for many years.
W. H. MOORE."
Durham, Ia., March 2, 1882.

"Eight years ago I had an attack of Rheumatism so severe that I could not move from the bed, or dress, without help. I tried several remedies without much if any relief, until I took AYER'S SARSAPARILLA, by the use of two bottles of which I was completely cured. I have not been troubled with the Rheumatism since. Have sold large quantities of your SARSAPARILLA, and it still retains its wonderful popularity. The many notable cures it has effected in this vicinity convince me that it is the best blood medicine ever offered to the public.
E. F. HARRIS."
River St., Buckland, Mass., May 13, 1882.

"Last March I was so weak from general debility that I could not walk without help. Following the advice of a friend, I commenced taking AYER'S SARSAPARILLA, and before I had used three bottles I felt as well as I ever did in my life. I have been at work now for two months, and think your SARSAPARILLA the greatest blood medicine in the world.
JAMES MAYNARD."
520 West 42d St., New York, July 19, 1882.

AYER'S SARSAPARILLA cures Scrofula and all Scrofulous Complaints, Erysipelas, Eczema, Ringworm, Blotches, Sores, Boils, Tumors, and Eruptions of the Skin. It clears the blood of all impurities, aids digestion, stimulates the action of the bowels, and thus restores vitality and strengthens the whole system.

PREPARED BY
Dr. J. C. Ayer & Co., Lowell, Mass.
Sold by all Druggists; price $1, six bottles, $5.



EBEN MILLER & CO.,
BUILDERS OF
FINE CARRIAGES,
King Street, - - Fredericton, N. B.

Concord Wagons, Piano Box Wagons, Iver's Wagons,
Miller Spar Wagons, White Chapel Wagons, Top Phætons,
Brewster Wagons, Croning Wagons, Open Phætons.

See Manufacturers of Miller's Patent Shifting Rail.

These Shifting Tops have no rival, as a glance at the cut will show for itself; it is so simple. It requires only one person to take it off or put it on, and when off no one would think a Top had been on, as no unsightly ends are sticking out. When the Top is on it is as firm as a rock. It can be put on any carriage in use. Persons ordering Buggies or Canopy Top Carriages should see that they have this Rail, as it will be greatly to their interest.

These Tops were awarded a Diploma at the Provincial Exhibition in October, 1880

Particular attention given to orders. Repairing done in the best manner, and at the shortest notice

Price List.—BUGGY TOPS, $32 to $50; CANOPY, $15 to $25

Patented
