☞ As Mr. F. Beverly of St. John is sole agent in New Brunswick for Curtain Stretchers, parties in Fredericton can be supplied by calling at Mrs. Beverly's, Brunswick Street. Also wringers sold on the fifty cents a week instalments.

For cheapness, they are determined that none in this city shall undersell them, and they ask the public for further liberal patronage.

The Fredericton Lawn Tennis Club was organized at the Officers' Quarters, Friday evening, with the following officers for the current year: *Patron*, His Honor the Lieut. Governor; *President*, Lt. Col. Maunsell; *Vice-Presidents*, Mr. Temple, M. P., Major Gordon; *Committee*, Lieut. Young, H. Wilmot, A. G. Beckwith, T, Carleton Allen, C. J. R. Kerr; *Sec'y.-Treas.*, Lt. Hemming; *Auditors*, Dr. Brown, T. G. Loggie.

It is that impude nt paper, the Moncton *Times*, which says:—"This is the one hundredth anniversary of the existence of Fredericton. As the place is about one hundred years behind the age, instead of celebrating its centenary it should call it square and take a fresh start." Fredericton got a long way ahead of Moncton on the Military School business, and has never been forgiven by the mud be-dimmed denizens of that country village.

The order issued some months ago prohibiting the military in Halifax from shaving has been cancelled, and the barbers are happy once more. Not that the soldiers ever patronized the barbers to any extent, but as it is the correct thing in Halifax to ape the military, all the young dudes who had been diligently scraping away every day to try and force a moustache, immediately let their beard grow in immitation of "the officaws you know."—*Antigonish Aurora,*

The Toronto *Globe* concludes from the letters of its correspondent, who has visited Westmorland and Kings Counties to enquire into the working of the Scott Act, that the facts he has elicited go far to prove that New Brunswickers are now a remarkably sober people, whatever they may have been in times past. In St. John, the *Globe* correspondent had an interview with Mr C. H. Lugrin, who said that he could not conscientiously say that the Scott Act has been even a moderate success in New Brunswick, but it had not had a chance.

The new caps for the Fredericton Brass Band have arrived from the manufacturer, Mr. Robert Magee, St. John, who has done his work very creditably indeed. They are of blue serge, have a band of silver around the base, a double cord of silver across the top, in the front a circlet of golden leaves, enclosing the letters "F, B. B." The one intended for Mr. Williamson, the leader of the Band, is decorated with gold instead of silver, and on the front is inscribed "Leader F. B. B." The caps are very tastefully gotten up, and with the handsome new uniforms procured by the Band last winter, will add greatly to the appearance of its members. The new caps and uniforms will be worn for the first time by the Band at the University sports on Friday.

Recent railway news is encouraging. Three different routes for the Short Line are being surveyed from New Brunswick to the Upper Provinces, and when the reports of the engineers, are submitted, it is said the Government will select the shortest and let the contracts for construction at once. Work will soon be resumed on the Nova Scotia portion of the line. The Miramichi Valley it is alleged, is to be pushed forward at once. It is expected that to-day, men will be at work on the Chatham end, and that construction on this end will follow shortly. The Central Railway Company have not yet contracted for their line, but before long they anticipate active work on their road. In Northumberland, Government engineers are locating the branch line from Derby to Indiantown, where trains will run before the snow flies.

One of Mr. Blair's recently appointed Justices of the Peace in York not long ago, came into town to be sworn in. After the oaths of office and allegiance to Her Majesty had been duly administered by the proper official, the newly fledged Justice assuming all the importance of his position, addressed the official thusly: "Mr. Wulson, what *supervision* have I in this matter." "Jurisdiction you mean, Mr. R," slyly returned the Clerk of the Peace. "Yes, jurisdiction, be Hiven's that's it," was the reply, and after the explanation, the clerk adjourned to add a new anecdote to his already large collection.

Recent appointments include J. A. Freeze to be a notary public, and R. Barry Smith, Moncton, to be clerk of the circuits in Westmorland, vice, J. B. Peck resigned. Twenty-six new Justices of the Peace are added to the list, among whom, we observe Mr. John C. Brown, manager of the Kent Northern Railway. What wrong has Mr. Brown done that he should be made a Justice of the Peace. Under the recent act for the examination of lumber scalers, the board of examiners is composed of James Buttimer and Robert Ellis, at Bathurst; Robert Ritchie and Robert Loggie, at Chatham; R. Melville Jack and Wm. A. Turner at Fredericton.

The new Presbyterirn Church at Barony, York Co., which was built by the energetic and enterprising spirit of Messrs. John Anderson and John Scott, was dedicated on Sunday, the 11th inst. The dedicatory sermon was delivered by the Rev. Mr. Mullin of Stanley. Miss Lizzie Anderson presided at the organ, and assisted by the choir, furnished music for the occasion. The ministers present, were Rev. Mr. Ross of Prince William, Rev. Mr. McKay of Richmond, and Mr. Mullin of Stanley. Considering the inclemency of weather, a very large number of people were present from the surrounding settlements.

THE UNIVERSITY SPORTS!

A Good Programme for Friday.

There is every promise of a most successful afternoon's sport on the University Athletic Club grounds, Friday afternoon. The young gentlemen of the club, have gone to a great deal of labor and expense in preparation for their annual event, and have arranged a splendid programme, which will be found below. Much of the labor has devolved on Mr. M. A. Quigley, the energetic and affable President of the club. The meeting on Friday afternoon will doubtless draw a large gathering of our citizens, who look forward with very great pleasure to the annual sports. We believe the young athletes of the University will look handsomer than ever this year, and that the record in many cases will be lowered. The best the FARMER can do to further the success of the gathering, is to wish its young University friends "Queen's weather."

A Reliable Witness.

R. N. Wheeler, of Everton, speaks highly of Hagyard's Pectoral Balsam, having seen its effects in his own case, a severe inflammation of the lungs and distressing cough, was quickly and perfectly cured, which has resisted other treatment.

A singular example of military discipline has been lately brought before the House of Commons by Mr. Roundell. According to the notice given by the hon. member it appears to be alleged that, on April 18, Private Slater, of the 4th Lincolnshire Battalion of Militia, having spit whilst on parde, was ordered by the Adjuctant Captain Hodgson, to fall out of the ranks; that thersupon the Adjutant ordered him an extra half.hour's drill with a stone in his mouth; that, in consequence of the refusal of Private Slater, to submit to such an order, he was ordered by the Adjutant to be handcuffed, and was locked up for the night in a cell; that, on the following morning he was brought before the Adjutaut and charged with having refused to drill for half-an-hour with a stone in his month; that, in consequence, he was sentenced by the Adjutant to forty-eight hours in the cells with hard labour, which consisted of breaking stones for road-mending; and that this sentence was accordingly carried out.

A detachment of troops has arrived at Birmingham and been stationed inside the jail in which the dynamiters Daly, Egan and McDonnell are confined.

The Australian cricketers visiting England have played their first match there, and defeated the old countrymen by an inning and six runs.

Davis Quinine Iron and Wine, is a tonic that at once invigorates the digestive organs, improves the appetite, and for all impurities of the blood, is unsurpassed. Price 50 cents, at George H. Davis'.

By the destructive fire which occurred recently in Mandalay the great temple of Gaudama was completely destroyed. All the gold leaf stuck on the brass image of the Gaudama Buddha by successive generations of worshippers, and valued at from $400,000 to $500,000, has been melted off by the heat. This result of the fire appears to have caused great consternation, being held by the superstitious to be a sure sign of the downfall of the Burmese Empire.

"The meanest man in the world" is said to have been one who lately died at Walden, N. Y. He was worth between $30,000 and $40,000, but sent his mother to the poor-house in her eightieth year. She had a great horror of the poor-house, and her sons was aware of it. He told her that he would see that she was taken care of. He purchased her a new pair of shoes, and then walked her twenty miles to the country alms-house. Taking the shoes from her at the poor-house he went away without a word. She survived the disgrace she had long fought against but a few days, and was buried a pauper.

Spring Cleaning.

Every good housewife will renovate the entire house at least every Spring and Fall. Our systems often need renovating also, and there is nothing better to make pure blood and cleanse and regulate all the secretions than Burdock Blood Bitters, preventing diseases incidental to the season's changes.

The purchase is just now being closed up by a syndicate of London capitalists who represent $25,000,000 of a piece of ground in New York on Broadway and Recter streets, near Wall, for which $7,000,000 is to be paid, existing improvements included. The old buildings are to be torn down, and one grand new office structure costing $3 000,000 to be put up instead. This new building is to be the largest and most perfectly constructed of its class in America. There are to be a eleven hundred officers, and the total income is expected to reach $1,000,000 per annum. The projectors claim that by erecting so extensive a structure they can reduce rents much lower than they now are for similar offices and yet receive a satisfactory interest on their money.

Wish to be kindly remembered for all time to come. If so send half a dozen of TAPLEY'S REMEDY to those of your sick friends who are suffering from Neuralgia, Nervous or Sick Headache of long standing, or Sciatica. It acts directly upon the nervous system, and if properly used will bring joy and comfort where the most distressing pains now exist. Hundreds of persons have been made happy by its use during the last year.

The North British & Mercantile, Commercial Union, Liverpool & London & Globe, London & Lancashire, and other Companies as equally high standing, are represented here by Julius L. Inches.

The Old and the New.

There was a time when the medical faculty, in dealing with their patients, appeared to act upon the "kill or cure" principle. The most powerful drugs and the most heroic doses were employed, and if the patient escaped death from disease he stood a capital chance of dying from drugs. So it was often an open question whether a patient should die of disease or be killed by the doctor. To physic, vomit and salivate were mild remedies while phyiscians thought nothing was being done unless the head was made to swim, the back to ache, the stomach and liver to rebel against natural diet. But times have changed and with them the practices of physicians and people. Coughs, colds and Bronchitis are now cured by Humphreys' Homeopathic Specifics Nos. one and seven, and not only coughs and colds, but diseases of a far graver nature like Pneumonia and Chronic Lung Diseases, or Consumption, are also arrested. Dyspepsia with its kindred attendants of Indigestion, Weak Stomach, Low Spirits and Constipation is the bane of life to many, but Humphreys' Homeopathic Specific No. Ten is mild, pleasant and agreeable and has cured its thousands. Try it. So of Catarrh, of Rheumatism, of Croup or Headache; each has its Specific and its cure.—*Ex.*

FREDERICTON.

FREDERICTON, N. B., Dec. 15, 1882.

I take pleasure in certifying that I have sold DR. WISTAR'S BALSAM OF WILD CHERRY for thirty years, and know it to be one of the oldest as well as the most reliable preparations in the market for the cure of COUGHS, COLDS AND THROAT AND LUNG COMPLAINTS. I know of no article that gives greater satisfaction to those who use it, and do not hesitate to recommend it.

Having sold PERUVIAN SYRUP since its first introduction, and knowing that its use has been attended with great success in cases of DYSPEPSIA, GENERAL DEBILITY OF THE SYSTEM, and diseases originating in a bad state of the blood, I am satisfied that it is a remedy of great power, and deserves the attention of invalids.

Both articles have given very general satisfaction to my customers and are esteemed as household remedies. Owing to the uniform character of these articles they have maintained their hold upon the public here for very many years without any puffing or extra advertising.
