Lower Windsor.

As no items have appeared in the ADVERTISER for some time, I thought a few from my quill would not be amiss.

The recent heavy rains have caused the farmers in this section to lay by their hoes for the present. We have every prospect of an abundant crop of hay, but your correspondent is of the opinion that the grain crop will not be up to the average if wet weather continues much longer.

Our school closed today. About twenty-five visitors were present at the examination. Mr. and Mrs. Ackerman and daughter, Miss Faulkner and the Misses Tedford from Windsor proper were to be seen among the visitors. We feel safe in saying that under the fine teaching qualities of Miss Ericson, who has taught here for two years, that she leaves this school in a position second to none in the Parish of Brighton. And while she goes to spend her holidays at her home in Newcastle she takes with her the best wishes of both parents and children. We must congratulate the trustees of Mount Pleasant on being so fortunate as to secure her services for the next term.

A lot of our boys have gone to Sussex to the annual drill. No doubt when they return they will be qualified to help Uncle Sam lick Spain.

Rev. G. A. Giberson paid a pastoral visit here last week and held services in the East Windsor church. He has been engaged for another year, so your correspondent was informed. It is now about nine years since he took charge of the church at East Windsor.

The trustees have engaged Mr. Ross for the coming term. We hope he may be just as successful as our former teacher, Miss Ericson.

It is reported that an Orange Hall will be erected here in the near future at Belyea's Corner. How much this building will cost is not for me to say, but it will be away up in the hundreds no doubt.

Chronic Eczema Cured

One of the most chronic cases of Eczema ever cured is the case of Miss Grace Ella Aiton, of Hartland N. B. On a sworn statement Mr. Aiton says: I hereby certify that my daughter Grace Ella was cured of Eczema of long standing by using four boxes of Dr. Chase's Ointnent. William Thistle, druggist of Hartland also certifies that he sold four boxes of Dr. Chase's Ointment which cured Grace Ella.

Bloomfield.

Charles Cheney has purchased a building-lot from Isaac Graham and has er ected a large structure, which he is to fit up as a general store next week.

Mrs. G. H. Stokoe has a young son; born the 8th inst.

We had no preaching service last Sunday as our ministers were attending Conference at Charlottetown, P. E. I., but there will be meeting tomorrow evening again.

Miss Pearl Stokoe has resigned her position as teacher at Lower Bloomfield. The closing exercises consisting of 4 dialogues, 10 recitations and 4 compositions interspersed among the lessons, took place yesterday afternoon and were well attended by the people of the district. The school here, under Miss Janie Smith, and the one at Upper Bloomfield, under Mrs, Harold, also closed yesterday. The same teachers are expected to take charge of them again after vacation.

Havelock Black has just erected a granary.

Mrs. Joseph Cheney's sister, with her husband and little boy, from Boston, Mass., is visiting at Mr. Cheney's.

Everybody is engaged in strawberry-picking. The berries are very plentiful this season, and people are laying in a good supply as they did not get many last year.

Miss Idella Black has returned from attending school at Jacksonville. She expects to go to Woodstock Tuesday to write the Normal School entrance examinations. Miss Pearl Stokoe intends driving out with her to visit friends in Woodstock and vicinity. Miss Ida Beckin who has been attending school at Long's Settlement, also intends writing the exams.

Mrs. E. A. Stokoe spent a few days of last week here before going to Jacksonville to stay with her aunt, Mrs. Jane Kearney, whose eyesight has been failing for some time and who is now almost entirely blind.

Mrs. T. A. Stokoe has recovered from a slight attack of pneumonia which lasted over three weeks.

Revs. Dystant and Leard, two of the ministers on our circuit have been ordained and appointed to new fields of labour. Although we rejoice at their success, we are very sorry to lose them.

We are very glad to have Rev. G. A. Seller returned to us. He has no permanent assistant to take Mr. Leard's place as yet, but expects Rev. Stanley Young to help him until college opens, and we hope to have some one else by that time. We understand that Rev. Jarvis Rice takes Mr. Dystant's place.

Last Wednesday, Miss Minnie Crandlemire was united in marriage to Mr. Scott Emery of Williamstown. The ceremony was performed by Rev. Jas. Jahill in the presence of a number of invited guests. After the ceremony the bridal pair drove to their future home at Williamstown.

Paine's Celery Compound,

Is the world's great nerve medicine.

This is the month when overworked men, women and girls in the home, workshop, store and office feel nervous, tired, dull, irritable, languid and weak. These conditions result from weak and unstrung nerves.

The nerves regulate the blood supply through the body. Upon the healthy action of the nerves, health and happiness depend. People who have their nerves out of repair in the hot weather are the most miserable of mortals.

Paine's Celery Compound is the only true and safe epecific for diseased nerves—it is the one medicine for the banishment of all hot weather ills and weaknesses. Physicians recommend it eve.y day; it is the favorite lifegiver with millions on this continent. Take no substitute from your dealer; "Paine's" is the kind that cures.
