A Wonderful Journey.

A N. B. Boy's Travels Across Africa.

Mr. A. W. Crawford, only son of the late Dr. Crawford of Andover, N. B., is getting notoriety for himself. He started from Capetown, South Africa, last March on a pair of "road skates" with the intention of travelling up to East Coast, either by way of Bulawayo, Fort Salisbury or Delagoa Bay, going overland to Zanzibar, and eventually pushing on to Abyssinia. When the roads are rough the plucky lad takes off his skates and pushes forward on his own sturdy feet.

The simple thought of the trip the young man is making is astounding if one gazes upon the map and considers what kind of a country Africa is.

Mr. Crawford is a "lanky" but well-set, muscular looking specimen of a young Canadian, 20 years of age. He went to Capetown last December for his health, lung trouble necessitating a change of climate. He intends to describe his journey in a New York paper, but the primary object of his undertaking is simply to regain lost health.

A long article in the East London Daily Dispatch gives a very interesting account of the young man's experiences and the ADVERTISER would reprint it, did space permit.

A curious peculiarity of the Irish nature is the whole limit to which relationship is extended. 'Do you know Pat Meehan?' a peasant was asked. 'Why he's a near relation of mine. He wance proposed for my sister Kate.'

'I spent an awful night last night.'
'What was the matter, old man?'
'Oh, I forgot the combination of the safe where we kept the plate, and lay awake all night, wondering what in thunder I'd do if burglars came.'
