The Infantry Corps.

To the Editor of the Maritime Farmer:

MR. EDITOR.—Can it be possible that there is no Dress Regulations to govern the staff of the Military School now established in this city. The reason I ask this question is, that I have seen, what I consider a great lack of uniformity among the Sergeants, as to dress. Some have their tunics covered with gold lace where there is any possible chance of putting it on. Then others have their pants cut and made up after the latest New York fashion, while some wear their belts outside and some inside their tunics. I also notice that the gold cross guns are worn. This, I suppose, is to let the public (probably the ladies) know, that these represent the best marksman in the corps, but I was not aware of Company A having done any target practice as yet. The latest piece of conceit is the wearing of the commissioned officers' new pattern cap, and the next thing I expect to see worn in this branch of the service, will be the spurs. I also notice that there is a new way of *carrying arms* when on the march, which was not allowed when I was in the army.

Yours, &c.,
BRASS BUTTON.

The Secret Out.

The secret of beauty has been at last revealed. Without good health, pure blood and a fair clear skin none can possess good looks. What is more repulsive than pimples, blotches, and a sallow or party complexion? Burdock Blood Bitters reveal the fact that all can gain pure blood and freedom from the repulsive diseases of the skin that result from impurities.

FREDERICTON, N. B., Dec. 15, 1882.

I take pleasure in certifying that I have sold DR. WISTAR'S BALSAM OF WILD CHERRY for thirty years, and know it to be one of the oldest as well as the most reliable preparations in the market for the cure of COUGHS, COLDS and THROAT and LUNG COMPLAINTS. I know of no article that gives greater satisfaction to those who use it, and do not hesitate to recommend it.

Having sold PERUVIAN SYRUP since its first introduction, and knowing that its use has been attended with great success in cases of DYSPEPSIA, GENERAL DEBILITY OF THE SYSTEM, and diseases originating in a bad state of the blood, I am satisfied that it is a remedy of great power, and deserves the attention of invalids.

Both articles have given very general satisfaction to my customers and are esteemed as household remedies. Owing to the uniform character of these articles they have maintained their hold upon the public here for very many years without any puffing or extra advertising.
