The Grit Refrain.

Oh where, oh where, has our candidate gone,
Oh where, oh where can he be:
With his "career" cut short, and his face very long:
Oh where, oh where can he be.

The death is announced at Newcastle, of Mrs. Anslow, wife of W. C. Anslow, editor of the *Advocate*, aged 43 years, leaving a husband and seven children, one a mere infant, to mourn the loss of an affectionate wife and mother. Mrs. Anslow was a woman of sterling qualities, active in church and temperance work, and by her death the Methodist church of Newcastle has lost an energetic member, and the poor, a kind and generous friend. The FARMER unites in sympathy with the bereaved husband.

An *affaire d'honneur* between a University student and a graduate, was the leading sensation in collegiate and other fistic circles yesterday. The advantage of scientific training over suburban muscle is said to have been made strikingly apparent in the encounter. The contestants were rescued from their perilous position by their friends before the services of coroners Coulthard, Brown and Currie were necessary, but the result of the encounter, will be a temporaty withdrawal from from high social circles of two promising young men.

A "Trooper" in the Kings County Cavalry, writing from Shediac to the Moncton *Times*, says: "Our new commander, Capt. G. S. Maunsell, is a son of Lieut. Col. Maunsell, Deputy Adjutant General of this Province, and we are led to believe that he is well fitted for that position. He will be ably assisted by Lieuts. Murray and McDougall, who are deservedly popular with the boys; in fact we think the new officers of F troop will acquit themselves on all occasions with credit to themselves and the county they represent."

Mr. Justice Fraser is presiding in the Sunbury Circuit Court, which opened yesterday. The defence is, that Collins made no effort to save the property and prevented others from extinguishing the fire. Mr. E. L. Wetmore, Q. C., for plaintiff, Mr. M. B. Dixon of St. John, and Mr. George F. Gregory, for the defendant.

The survey of the Fredericton and Woodstock Railway was completed by Mr. H. A. Hancox, C. E., and his party last week. The line will be 62 miles long. It crosses the post road shortly after leaving Fredericton, and follows the bank of the river closely for the entire distance. Mr. Hancox states that a a very feasible route has been secured, but that some heavy rock cuttings will be necessary in Prince William and Kingsclear, and considerable side hill filling and excavation will be called for over almost the entire line. The gratles will be easy and the bridging light. On the whole the engineering difficulties will be greater than those of the Northern & Western Railway.

The new councillors for Sunbury, are as follows:—

Sheffield—Coun. C. J. Burpee and T. P. Taylor.

Lincoln—Coun. Parker Glasier and Albury Grass.

Blissville—Coun. J. Murphy and D. E. Smith.

Maugerville—Coun. Rand Foster, and Geo. Banks.

Burton—James Holden and George Armstrong.

Gladstone—Gilbert Hayward and Charles L. Tracey.

In Northfield the old councillors, John Welton and Robert Linton were defeated, but we have not heard the names of the new men.

The Marysville ladies held a very successful tea and fancy sale in the cloth room of the cotton mill Thursday evening for the benefit of the Band of the village. There were hundreds of people in attendance, many being present from the city, and the affair has an unqualified success. The music furnished by the Marysville Band, under the leadership of Mr, Frank Bryson of this city, was wonderfully good, considering the organization has only been practising since midsummer. Among the ladies who took a prominent part in getting up and conducting the evening's entertainment were: Mrs. Alexander Gibson, Mrs. John T. Gibson, Mrs. James Gibson, Mrs. C. H, Hatt, Miss J. Robinson, Miss Libbey, Mrs, Ernest Tapley, Mrs. Woodman and Miss Copeland.

At a meeting of the N. B. Historical Society held in St. John one evening last week, Mr. J. W. Lawrence, read a paper on the "first printers and newspapers of Fredericton, (1806.) "The paper contained much of interest not only to Fredericton pioneers of the press, but of the early printers and newspapers of St. John. In a note to the editor of the FARMER, Mr. Lawrence says the paper he read is a part of the manuscript of a work he proposes publishing, with the title of "the printers and newspapers of New Brunswick in its first sixty years." The first newspaper published in this city, was the *Telegraph*, and it was discontinued during its first year. The first *Royal Gazette* was published here March 10th 1815, and the Kings printer then was Mr. George K. Lugrin, grandfather of the Secretary of the Board of Agriculture.

Quite a gay party left Oromocto last Wednesday afternoon for Swan Creek, to attend the marriage of Mr. George H. Clowes, son of Sheriff Clowes of Oromocto, to Miss Lizzie Hoben, daughter of the late Reuben Hoben of Burton. The ceremony took place at the residence of Mr. Henry Estabrooks, brother-in-law of the bride, at 7 o'clock, P. M. Rev. Mr. Stewart of Portland, St. John, officiated, assisted by Rev. Mr. Beckwith. The bride, who was attired in a cream nun's veiling and satin dress trimmed with Oriental lace, long tulle veil and orange blossoms, looked charming. She was attended by Miss Annie Coy of Upper Gagetown, and Mr. Chas. B. White of Oromocto, supported the groom. After the ceremony, about fifty guests sat down to a sumptuous supper. The bride was the recipient of a great number of handsome and useful presents.

The Young Peoples' Association in connexion with St. Paul's church, met Monday evening in the vestry and organized for the winter season. Mr. W. C. Murray, vice-president, in the absence of president Forgan, occupied the chair, and the meeting was opened with devotional exercises conducted bo Rev. Mr. Mowatt. After a preliminary address from the chairman in which he spoke of the excellent work accomplished by the Association and of the warm interest manifested in it by Mr. Forgan, the officers for the current quarter were elected as follows: *Hon. President*, Rev. A. J. Mowatt, (re-elected); *President*, D. R. Forgan, re-elected); *Vice Presidents*. Miss Janie Harvey, H. V. B. Bridges; *Secty-Treas.*, C. S. Everitt, (re-elected); *Executive Committee*. Miss Howie, Miss Johnston, Miss Bessie Everitt, W. C. Murray, L. C. Macnutt, E. A. McKay. The association will meet every Monday evening during the winter.

The staff council of the Salvation Army have just issued the following order in London, which may be interesting to the members of the force in Fredericton:—"That in future no sanction will be given to courting or any arrangement of the male lieutenant. He must get promoted to the rank of captain before anything of the kind can be recognized. No captain is to expect headquarters' consent to his marriage, either after two years' service or more, unless he has proved himself an efficient and successful officer, and is backed by his divisional officer, who in consenting to his marriage agree to give him three stations. In future no marriage will be agreed by the headquarters unless we have consented to the engagement at least twelve months before. The old rule remains in force that there must be at least twelve months' service in the field as a commissioned officer before any agreement can be sanctioned, Communication with regard to engagements must be made by the divisional officers, who will refer the matter to headquarters."

A very quiet wedding was celebrated at the manse, King street east, last evening, the contracting parties being Mr. J. E. B McCready, editor of the *Daily Telegraph*, and Miss Louise Bennett, daughter of Rev. Jas. Bennett, D. D. Only a few of the more immediate friends of the family were present, no invitations having been issued. The ceremony was performed by the bride's father, who was assisted by the Rev. Mr. Gates, pastor of Germain street Baptist church The bride and bridegroom were attired in travelling costume, and after they had been pronounced man and wife, were the recipients of the hearty congratulations of all present, There were no bridesmaids, and the groom was without a "support" on the trying occasion. The bride received many elegant presents, a silver salver and elegantly designed glass goblets from the Home Missionary Society of the Presbytery of St. John (accompanied by a very warm letter) being among the number. Mr. and Mrs McCready took the western train for a trip that will include Boston, New York and Montreal, and which will occupy about a fortnight. At the station many friends congregated to speed the happy couple on their journey and wish them a safe return, emphasizing their thoughts and words by a goodly share of rice as the train bore them away.—*Telegraph. Oct. 28th.*

[The FARMER joins with Mr. McCready's numerous friends in wishing him and his bride every happiness.]

THE FIRE DEPARTMENT.

Chief Engineer Lipsett's Annual Report to the City Council.

The Fires of a year.

At the meeting of the City Council last night, Chief Engineer Lipsett submitted the following report:—

To His Worship, the Mayor, and Aldermen of the City of Fredericton:

GENTLEMEN.—Again it becomes my duty to submit to you the Annual Report of the Fire Department, for the year ending 31st October, 1886.

During the year two of our leading manufacturing industries—Messrs. Edgecombe & Sons, and Cooper & Pinder—had a narrow escape, but owing to our almost perfect water supply were saved (as well as the adjoining properties) from total destruction. Blair & Kitchen's Sash & Door Factory was pretty well destroyed, the fire seemingly to have full possession of the building before any alarm as given. The building was left a complete wreck, but the machinery sustained very trifling damage.

No additional Hose has been purchased for the Department during the year. The Hose has been well taken care of, and, I consider, is still in good serviceable condition. One of the reasons why the Hose gives longer service than formerly is, it is not subject to the fluctuating pressure of the Steam Fire Engine, the pressure now being regular, and more easily regulated at the Hydrants. Another reason is, that a much lesser stretch of Hose is now required, the Hydrants being so thickly placed through the city.

I feel much pleasure in referring to the re-organization of the Department in May last. Although much credit is due to those young men who came forward at the time of the strike, still it was plain to be seen that if a fire occurred, where the full force and effects of the Department would be required, it could not be given, and serious results would have been sure to follow. Then, the property of the Department needed careful looking after, which was not being done, and, in view of these facts, I considered it necessary and my bounden duty, to get back, if possible, those men who had had the experience and a thorough knowledge of the work. This was accomplished with a very slight increase in the total pay of the Department.

I would again bring under your notice, the necessity of having a Hydaant placed on Queen street, between York and Westmorland streets. I could not suggest anything more desirable for the protection of property in this neighborhood, than the placing of a Hydrant where suggested.

I would recommend that Nos. 1 and 5 Hose Stations be supplied with new winter Hose sleds, the same as the Central and No. 4 Stations. Those now in use, are old and too heavy, and are not suitable for the work required of them under our present water system.

Some needed repairs and improvements are now being made on No. 1 Station, for which this very efficient Company, I am sure will feel very grateful. The repairs on the Central Station are to be commenced immediately. The Stations and apparatus should always be kept in such a manner, that the men would feel a pride in them, and which would, without doubt, be the means of their taking a greater interest in their work.

The following are the alarms and fires that have occurred during the year, with insurance received for same:—

False alarm from Edgecombe's Block, corner York and King streets, on Sunday afternoon, 6th December.

Alarm from Geo. Hatt & Sons, on morning 16th of December, caused by coffee roaster taking fire. No damage.

Fire was discovered in Burkhardt's Photograph Saloon about 12.30 A. M. on morning of 1st February. Insurance for loss of stock $460. The building, which belongs to the Grieves Estate, and which was insured, was damaged to the extent of $200.

On morning of 5th February, about 7.30 o'clock, Cooper & Pinder's carriage factory was discovered on fire. Owing to the inflammable materials, it was with much difficulty confined to the upper stories, where the fire originated. Loss on building $1000, and on stock $1200, both of which were fully covered by insurance. This was one of the coldest mornings of the season.

On Sunday, 7th February, about 11.30 A. M., the residence of D. McCatherin was discovered on fire. Loss on building $95.60, and on furniture $130, covered by insurance.

About 4 30 A. M., on morning of 8th February, an alarm was given from the residence of Mr. McDade, fire caused by placing ashes in wooden box. Damage slight.

On Sunday evening, 14th February, the residence of D. Hatt was found to be on fire, caused by a lamp exploding, Mr. Hatt's loss was $2 50, and to building $20, covered by insurance. No alarm given.

On the afternoon of the 21st February, an alarm was given from the residence of John Moore, stone cutter. Damage $20, covered by insurance.

On the afternoon of 25th February, an alarm was given from S. Nealis' dry goods store, caused by can of varnish taking fire. No damage.

About 10 A. M., on morning of the 28th February, the dwelling occupied by Geo. Clarke, was discovered on fire, caused by defect in chimney. Loss on building $275, and on furniture $75. Insured.

On the morning of the 31st March, an alarm was given from H. Lugrin's residence, caused by children playing with matches. Loss trifling.

On the morning of the 21st of April, an alarm was given from James Tibbitts' warerooms on Campbell street, caused by the rise of water in river slacking lime. No damage to building. Stock damaged to extent of $150. No insurance given.

At noon on the 10th May, an alarm was given from the Park Barracks, caused by roof taking fire from burning chimney. No damage.

At 8 P. M., on evening of 4th June, fire was discovered in the small tenement in "Bowery Lane," occupied by Richard Davis. Loss $70, covered by insurance.

An alarm was given on afternoon of 15th June, fire being discovered on the roof of S. Cook's house, King street. No damage.

Shortly after noon on the 22nd June, an alarm was given from the residence of the late Judge Fisher. The conservatory, barns and outbuildings were destroyed. $8,000 insurance was received on buildings, and $1,500 on furniture.

On Sunday morning, 27th June, about 8 A. M., fire was discovered in Brown & Palmer's tannery, caused by the slacking of lime. Loss trifling.

On morning of 14th July, about 3 A. M., an alarm from the Sash and Door Factory was given. The machinery (on which there was no insurance) escaped with very little injury. The building was insured for $700.

On the morning of the 22nd of July, about 12.30 A. M., Edgecombe & Sons Carriage Factory was discovered on fire. The upper stories and basement, in which the fire originated, were pretty well wrecked. Insurance received as follows:—on buildings, $1,665; stock, $1,668; machinery, $600.

On afternoon of 29th July, an alarm was given from Edgecombe & Sons, caused by clothes taking fire on roof of blacksmith shop. No damage.

About 2 P. M., on the afternoon of 16th August, an alarm was given from residence of Robt. H. Rainsford, corner Smyth and Charlotte streets, caused by sparks setting fire to roof. Damage $12.50. Insured.

OUR WOODSTOCK LETTER.

A very Interesting Budget of News.

(*From our own Correspondent.*)

WOODSTOCK, Nov. 1.

Since my last letter to the FARMER, Woodstock has been seriously agitated over the electric light. When it was proposed to adopt the electric light for the purpose of illuminating the town at night, a good deal of opposition was manifested. Within the Council were found obstructionists who did all they could to prevent the so-called innovation. Without the Council, were found citizens equally opposed to the project. A petition was presented to the mayor, signed by many signers, urging him to appeal to the electors before the Council decided to adopt the electric light. The mayor, however, confident in his ideas, refused to be bulldozed, and the consequence is that Woodstock by this month, will be luxurating in a bright and shining light.

The weather has been unusually dry and somewhat cold for the season. Yesterday it rained quite hard, and perhaps we may be in for a regular fall wetting. The crops have all been harvested in good order, and have in all cases shown a good return from the seed sown.

On Wednesday last the choral union of the Deanery of Woodstock and Aroostook, was held in St. Luke's church. The service was musical throughout, and most satisfactorily rendered. The Metropolitan, "old man eloquent," as I have heard him called, preached a most instructive sermon, mainly dwelling on the solemn meaning implied in the word *Amen*. It may be a matter of taste, whether or no, people like the service intoned. I can quite conceive of people preferring it read, but it should be remembered that according to the ritual of the church of England, it implies no departure from the rules to have the services intoned, to be "said or sung" is in almost all cases the directions the ritual give.

The amusement for the young men of Woodstock during the coming winter, is to be curling. A club is to be formed, and the game commenced the coming season. I hope it will be successful, more so than cricket has been. Certainly the Woodstock cricket club, since its organization has not covered itself with glory.

Mr. Chas. Dibblee with a surveying party, has began the preliminary survey of the projected railroad from Hartland. It will soon be "railroads, railroads everywhere." I confess the line from Woodstock to Fredericton, following as it does, the post road for many miles below the former town, is not an unmixed blessing to the residents below town. It will cut up their intervales badly, and spoil the beauty of the drive below Woodstock. But the beautiful must give way before the useful and we must all bow to the inevitable, though as we bow we may be allowed to sigh.

A prominent Orono, Maine, business man writes to the Bangor *Whig* as follows: Noticing the prevalence of diphtheria in Bangor I send you for insertion in your paper, if you think proper, a remedy tried in Minneapolis with success, when in East Minneapolis there were 600 cases: Take two teaspoonsfuls of liquid tar and two teaspoonfuls of turpentine, put it in a basin and set it on fire; put a large pan under it on account of its burning over. Burn it in the room where the patient is. It makes a heavy smoke. The patient is relieved immediately, and in a short time commences to raise the membrane and in two or three days is entirely well. I have heard of this before, but have not seen it tried. The remedy is harmless at any rate and may do what is claimed for it.

DEDERICK'S HAY PRESSES. See testimonials, editorial notices, against all other presses. The customer keeping the one that suits best.

Manufactory at 90 College Street, Montreal, P. Q.
Address for circular P. K. DEDERICK & CO., Albany, N.Y.

N. B.—Other manufacturers combined against the original patentee (DEDERICK), to appropriate his continuous bale chamber, falsely publish challenges and premiums over Dederick. Get any of them if you can, on any conditions, to meet in the field the inventor of the press they copy. Dederick guarantees his press the best, or failing will buy the best for the customer. Give the inventor of the continuous press at least a competitor's chance during the time for which his patent was granted. Unquestionably the invention has greatly benefitted the public.
