HALL'S Vegetable Sicilian HAIR RENEWER

was the first preparation perfectly adapted to cure diseases of the scalp, and the first successful restorer of faded or gray hair to its natural color, growth, and youthful beauty. It has had many imitators, but none have so fully met all the requirements needful for the proper treatment of the hair and scalp. HALL'S HAIR RENEWER has steadily grown in favor, and spread its fame and usefulness to every quarter of the globe. Its unparalleled success can be attributed to but one cause: *the entire fulfilment of its promises.*

The proprietors have often been surprised at the receipt of orders from remote countries, where they had never made an effort for its introduction.

The use for a short time of HALL'S HAIR RENEWER wonderfully improves the personal appearance. It cleanses the scalp from all impurities, cures all humors, fever, and dryness, and thus prevents baldness. It stimulates the weakened glands, and enables them to push forward a new and vigorous growth. The effects of this article are not transient, like those of alcoholic preparations, but remain a long time, which makes its use a matter of economy.

The Christmas and New Years' Holiday season finds our mercantile people with lots of business on the hands, and their stocks complete to meet the demand for holiday goods of all kinds. There is no Provincial town outside of the commercial metropolis itself, where the merchants make a more attractive display of their wares than Fredericton. The present season is no exception, and although the want of snow has rendered trade dull up to the present, there is every possibility that for the next two weeks at least, our business men will have their time fully occupied in supplying customers with the necessities and luxuries of the season. To enable our friends in the city and county to purchase to the best advantage, we publish below, a brief review of the leading houses who make the Holiday trade a specialty.
