after advising with the cabin passengers, who fully concurred in this opinion, readily undertook the difficult and hazardous operation which tries the skill of the most experienced surgeons, and on Sunday following the rescue, amputated the limb above the knee.—Since then the ship has experienced a succession of gales, which have, in consequence of the prolonged length of the voyage and the violent motion of the ship, been most unfavourable for the patient. Notwithstanding these untoward circumstances, though his sufferings have been intense, he has been gradually improving, and is believed now to be in a fair way for recovery. It is hoped his case and the utterly destitute condition of his crew will receive immediate and suitable aid from their Government. The conduct of Captain Cutting on this trying occasion demands the highest praise, for though his duty was indeed a painful one, he showed himself fully competent for the occasion, and exhibited a degree of skill and steadiness of nerve in this his first surgical operation of which an experienced practitioner might well be proud.—[Liverpool Mercury, Dec. 2.

One Week Later from Europe!

ARRIVAL OF THE ARABIA.

HALIFAX, Dec., 15, 1858.

The Arabia, Capt. Stone, from Liverpool at 9 A. M., on the 4th, arrived at Halifax at 10 o'clock on Thursday evening, the 16th.

The Cochin Chinese were concentrating one hundred thousand men around the capital against French and Spanish forces.

Commissioners Reed and Baron Gross were at Japan.

Much anxiety is felt for the troop ship Bombay, with 300 soldiers, on board, bound for India. The ship was dismasted and lost some of her crew as she was proceeding bound to Cork for additional troops; she was afterwards seen battling against a storm in the worst condition, but still later was spoken making good headway under jurymast, for Plymouth.

The Lord Lieutenant of Ireland has issued a proclamation against Ribbonism and other secret societies.

From the Daily News city article dated Friday evening:—Funds to-day experienced a slight fluctuation, and the general tendency was downward. Consols closed at a decline of nearly one quarter per cent., so that the improvement which took place yesterday has been entirely lost. In most of the other departments of the Stock Exchange the variations were upon a limited scale, a large number of bills falling due to-day. The discount market was very active.—About £52,000 in gold was withdrawn from the Bank for exportation to the continent. The £283,100 in gold by the Agincourt came to hand to-day, and the whole was taken for the same destination. It was believed that the £127,000 in gold by the West Indian Steamer Parana will likewise be sent away.

Exchange at Bombay appears to be a trifle more unfavourable.

The "Dover Castle," with £338,900 in gold, has now been 97 days at sea from Melbourne, and the "Marco Polo," with £178,500, eighty-seven days. The whole of this sum, £526,400, may now be considered due.

Foreign exchanges this p. m. were firm as regards paper. On Holland the rates were a trifle higher. Bills on Vienna and Trieste, however, continue in demand.

From the Times' City article:—The English funds opened this morning with a good appearance, but later in the day there was a complete change in the market, and securities of several kinds were pressed for sale. The ultimate reaction was attributed to a series of speculation sales, on reports of the disaffected condition of Lombardy, coupled with the adverse statements as to the tone of France towards Austria. The fact of some gold having been taken from the Bank for the continent, notwithstanding the delivery of the amount by the "Agincourt," likewise operated unfavorably.

There was increased demand for money to-day in the discount market, in preparation for to-morrow, the 4th. On the stock exchange loans are still abundantly offered at 2 per cent.

The Times says that the intelligence from China imparted additional firmness to the tea market, and a good amount of business has taken place, dealers manifesting general confidence. Black leaf Congou attracts much attention, closing at one shilling to one and a penny.

Common Congou has advanced to eleven pence.

AUSTRIAN SECURITIES.—Prices at Vienna do not indicate any uneasiness with regard to the state of affairs at Milan, and the prospects of unfriendliness in any other quarter. Five per cents are very little below the point at which they have stood for the past week or two, the telegraphic quotations being 85 to 80.

FRANCE.—The "Moniteur" of the 2nd announces that in consequence of the anniversary of the second December, the Emperor relieves M. de Montalembert from the penalties of the sentence passed upon him.

The London "Times" claims the act as a triumph of the English press, but at the same time censures the Emperor for the numerous instances of vacillation he has displayed.

Subscriptions to M. Lesseps' Surz Canal project have closed. The amount subscribed exceeded the required sum, and the formation of the company would be proceeded with. The Chamber of Commerce of Paris voted a subscription for the Canal.

The monthly settlement on the Paris Bourse went off very heavily, and funds declined, The three per cents, closed on the 3rd at 74.

LATEST.—*Paris, Friday.*—Montalembert writes to the Moniteur to the following effect:—"I have appealed against the sentence passed upon me; no power in France up to the present has had a right to remit a penalty not definitive.—I am one of those who still believe in right, and I do not accept the pardon. I beg you, and, if necessary, demand you, to insert this."

A letter from Montalembert to the Archbishop of Paris, published in the Independence Belge, declines the Archbishop's intercession for remission of the penalty. Montalembert lodged a formal appeal against his sentence on the 2nd instant.

SWITZERLAND.—Negociations between France and Switzerland for the purchase by the former of the Valle des Dappes were still pending, and objections were being raised, both in Switzerland and Austria, on strategetic grounds.

SPAIN.—The nomination of Ecuague as Captain General of Madrid was considered a strong indication of a military dictatorship being resolved upon if the Cortes prove ungovernable.—Letters from Seville say that much activity prevailed in the artillery department, with the view of getting ready soon as possible, the siege battery which is to be sent to Cuba.

The Queen opened the Cortes in person amidst much enthusiasm.

PRUSSIA.—A Berlin telegram says that Dahtzic and Swinemunds are to be made ports of war

Prayers were being offered in the churches for the safe delivery of the Princess Frederi-William.

AUSTRIA.—An ordinance had been issued reducing the stamp duty on newspapers.

MEDITERANEAN.—The Vienna correspondent of the *Times* in allusion to the attempt of Russia to purchase the principality of Monaco, says that during the late war the principality was ceded to the United States, but that the convention was never ratified, because some of the European Governments entered a protest against the transaction.

TURKEY.—All letters from Candia confirm the reports that the agitation in Candia is increasing, on account of the oppression and violence of the government. The inhabitants were buying arms and ammunition. Sami Pachi fearing a general rise, has applied for fresh reinforcements.

The Government intends increasing taxes on the whole empire, especially on tobacco, and to establish a tax on landed property.

INDIA.—The Bombay mail of November 9th, has been telegraphed to Malta. The campaign commenced on the 18th of October.

Seven engagements are reported, each resulting in victory on the British side, and heavy losses to the enemy.

On the 20th, the rebels were defeated near Moodpore. On the 21st, the fort of Berwha was taken by storm; and the same day, the strong fort of Birra was captured On the 23d, a detachment was assailed by 5,000 rebels, but they were repulsed with loss of men and guns. On the 27th, the fort of Roheo was taken; and on the 29th, Bence Medho with two hundred men, were repulsed with loss.

Tantia Topee was a fugitive, his force having been routed with loss of their guns and six hundred killed.

The number of rebels was still very large, at the lowest estimate 50,000, but they are scattered about in small bodies.

The proclamation in which the British Crown assumes entire command, in India, and promises amnesty on certain conditions, was read throughout India on the 1st Nov., and is said to have given great satisfaction to all parties.

Tantia Topee had applied to know on what terms he could surrender.

Bombay markets steady. Oil and seeds rather lower. Freights low. Exchange 2s. 1d.

MARKETS AND SHIP NEWS.

Consols 98 1-8. Cotton 1 8d. lower.

Breadstuffs dulls and slightly declined.

Antidote for Poison.

THE PAIN KILLER.—Rev. T. Allen, writing from Tavoy, Burmah, Jan. 5th, 1857, says: within the past four years I have used and disposed of about five hundred bottles, but am now out. Please send me a fresh supply (through the Mission Rooms) as soon as you can, say two hundred bottles. I dare not be without it myself, and there are endless calls for it, both by Burmans and Karens. I always take it with me into the jungles, and have frequent occasions to use it, both on myself and others. One night, while sleeping in an open Zayate, I was awoke by a most excruciating pain in my foot. On my examination, I found I had been bitten by a Centipede, I immediately applied the Pain Killer, and found instant relief. In less than one hour I was again asleep."

Rev Mr Hibbard, writing from Burmah to his father, says: I have used Perry Davis' Pain Killer for coughs, colds, summer complaints, burns, and for the sting of scorpions with uniform success. We always keep it where we can put our hand on it in the dark, if need be.
