THE LOCAL PAPER.—What tells so readily the standard of a town or city as the appearance of its paper? And its youth or age can as well be determined by the observing as by a personal notice. The enterprise of its citizens is depicted by advertisements, their liberality by the looks of the paper. Some papers show a good, solid, healthy foundation, plethoric purses, and a well-to-do appearance generally; others show a striving to contend with the grasping thousands around them, trying hard to wrench an existence from their close-fisted communities. An occasional meteoric display in its columns of Telegraph or local editorials, shows what it can do if it had the means; but it cannot continue in the expensive work until support comes, which ought to be readily granted. A newspaper is like a church—it wants fostering in the commencement, and for a few years: then, as a general thing, it can walk alone, and reflect credit upon its location. Take your home paper—it gives you more news of immediate interest than any other paper can possibly do; it talks for you when other localities belie you, it stands up for your rights; you always have a champion in your home paper, and those who stand up for you should certainly be sustained. Your interests are kindred and equal, and *you must rise or fall together*. Therefore, it is to your interest to support your home paper, not grudgingly, but in a liberal spirit; as a pleasure, not as a disagreeable duty, but as an investment that will amply pay the expenditure.—*Exchange.*

HABIT.—"I trust everything, under God," says Lord Brougham, "to habit, upon which, in all ages, the lawgiver, as well as the school master, has mainly placed his reliance; habits which makes everything easy, and casts all difficulties upon the deviation from the wonted course. Make sobriety a habit, and intemperance will be hateful and hard; make prudence a habit, and reckless profligacy will be as contrary to the nature of the child grown an adult as the most atrocious crimes are to any of our lordships. Give a child the habit of sacredly regarding the truth,—or carefully respecting the property of others—of scrupulously abstaining from all acts of improvidence which can involve him in distress, and he will just as likely think of rushing into the element which he cannot breathe, as of lying, or cheating, or stealing."

A clergyman who owned a farm, found his plowman sitting on his plow resting his horses. Quoth the clergyman:—"John, wouldn't it be a good plan for you to have a stub scythe here, and be cutting a few bushes along the fence, as the horses are resting a short time?"—"Wouldn't it be well, sir," said John, "for you to have a tub of potatoes in the pulpit, and when they are singing, peel 'em awhile to be ready for the pot?"

A nervous man, whose life was made miserable by the clattering of two blacksmiths, prevailed upon one of them to remove, by the offer of a liberal compensation. When the money was paid down, he kindly inquired what neighborhood they intended to remove to. "Why, sir," replied Jack, with a grin on his phiz, "Tom Smith removes to my shop and I to his."

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion, Listlessness, Languor** and **Loss of Appetite**, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers**, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa**, but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back** and **Loins**, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical swellings**, they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

Iron in the Blood

IS

NATURE'S OWN VITALIZER.

Important to all Invalids.

PERUVIAN SYRUP
FROM DYSPEPSIA — DEBILITY
AN IRON TONIC
DROPSY — HUMORS &c.
MAKES THE WEAK STRONG

The Peruvian Syrup, a Protected Solution of the Protoxide of Iron, is so combined as to have the character of an aliment, as easily digested and assimilated with the blood, as the simplest food. It increases the quantity of Nature's Own Vitalizing Agent, Iron in the blood, and cures "a thousand ills," simply by Toning up, Invigorating and Vitalizing the System. The enriched and vitalized blood permeates every part of the body, repairing damages and waste, searching out morbid secretions, and leaving nothing for disease to feed upon.

This is the secret of the wonderful success of this remedy in curing Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrhœa, Boils, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Diseases of the Kidneys and Bladder, Female Complaints, and all diseases originating in a bad state of the blood, or accompanied by debility or a low state of the system. Being free from Alcohol, in any form, its energizing effects are not followed by corresponding reaction, but are permanent, infusing strength, vigor, and new life into all parts of the system, and building up an Iron Constitution.

Certificate of A. A. HAYES, M. D., of Boston, Assayer to the State of Massachusetts.

"It is well known that the medicinal effects of Protoxide of Iron are lost by even a very brief exposure to air, and that to maintain a solution of Protoxide of Iron without further oxidation has been deemed impossible. In the PERUVIAN SYRUP this desirable point is attained by COMBINATION IN A WAY BEFORE UNKNOWN; and this solution may replace all the proto-carbonates, citrates, and tartrates of the Materia Medica. It is also eminently adapted to take the place of any Protoxide of Iron which physicians have used in Scurvy, or scorbutic attacks; and, to meet such cases, the Syrup should be found in the medicine-chest of every ship."

From W. R. CHISHOLM, M. D., of New Bedford, Mass.

"I have employed the PERUVIAN SYRUP successfully in cases of DYSPEPSIA, CHRONIC DIARRHŒA, NERVOUS DEBILITY, NEURALGIA, ERYSIPELAS, BOILS, and DISEASES OF THE SKIN; also, CHLOROSIS, LEUCORRHEA, PROLAPSUS UTERI, and in FEMALE COMPLAINTS generally. As an alterative tonic the Syrup ought to be used by clergymen, editors, cashiers, clerks, lawyers, and others who use their brains more than their muscles; as well as operatives, printers, tailors, shoemakers, seamstresses, and all those whose occupation confines them in ill-ventilated and ever-heated rooms, who are liable to suffer more or less from nervous debility."

From the venerable Archdeacon Scott, D. D.

DURHAM, C. E.

* * * "I am an inveterate Dyspeptic of more than twenty-five years standing."

* * * "I have been so wonderfully benefitted in the three short weeks during which I have used the Peruvian Syrup, that I can scarcely persuade myself of the reality.—People who have known me are astonished at the change."

"I am widely known, and can but recommend to others that which has done so much for me."

From a distinguished Jurist.

"I have tried the Peruvian Syrup, and the result fully sustains your prediction. It has made a *new man of me*, infused into my system new vigor and energy; I am no longer tremulous and debilitated, as when you last saw me, but stronger, heartier, and with larger capacity for labor, mental and physical, than at any time during the last five years."

From the Rev. J. C. Mallory, Pastor of the Baptist Church in Sarona, N. Y.

"I take great satisfaction in commending the PERUVIAN SYRUP to the notice of Dyspeptics, as being a reliable remedy for that distressing complaint, while as a general Tonic I think it has no equal.

Thousands have been changed by the use of this remedy, from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.

A pamphlet of 32 pages, containing certificates of cures and recommendations from some of the most eminent physicians, clergymen, and others, besides much other valuable and interesting matter, will be sent FREE to any one sending us their name and residence.

See that each bottle has PERUVIAN SYRUP blown in the glass.

Proclaim the Glad Tidings!

THAT the Great Shoshonees Remedy and Pills, of the Eminent Indian *Medicine-Man*, Doctor Lewis Josephus, of the Great Tribe of Shoshonees, British Columbia, is working the most marvelous and astonishing Cures the World ever heard of.—Never in the annals of Canadian Medical History has such success attended the introduction of any medicine heretofore.

WHY?

SIMPLY BECAUSE the numerous valuable active medicinal vegetable ingredients, (some of which we will mention, such as the extracts of Wild Cherry Bark, Podophyllum, Juniper, Quassia, Smartweed, Dandelion, Hyoscyamus, Compound Extract of Colocynth, Jalap, Socatrine Aloes, Capsicum, &c., &c.) which enter into the composition of the combined medicine, are sure and so harmoniously classified and compounded, that it is made the most searching crative in the known world, and cannot help but act on the system in a very satisfactory and desirable manner. No matter what your ailment may be, or of how long standing, it will find the spot and astonish you by the rapid manner in which you are restored to perfect health and full vigor.

This Medicine is pleasant and safe to take, and is warranted, and may positively be relied upon to make a permanent cure for all diseases of the Throat Lungs, Liver, Kidneys, Digestive Organs, &c. &c., as well as Scrofula, the various Skin Diseases, Humors, and all diseases arising from impurity of the blood, excepting the Third Stage of Consumption. Further information, with full directions for using the Great Shoshonees Remedy and Pills, and containing Testimonials and Certificates of Cures, can be obtained by securing the Treatise, the Hand-book, or the Almanac and Circulars from any respectable Druggist in the Dominion—free.

THE DIAMOND GLASSES,

Manufactured by

J. E. SPENCER & CO., N. Y.,

Which are now offered to the public are pronounced by all the celebrated Opticians of the World to be the MOST PERFECT, Natural, artificial help to the human eye ever known. They are ground under their own supervision, from minute Crystal Pebbles, melted together, and derive their name, "Diamond," on account of their hardness and brilliancy. The Scientific Principle on which they are constructed brings the core or centre of the lens directly in front of the eye, producing a cl
