THE CONSECRATION.—We received this morning, too late, we regret to say, for publication to-day an account of the consecration of the Cathedral at Fredericton. Our correspondent informs us the day was fine and the concourse of people so great that not one third could gain admittance within the edifice. The collection amounted to the handsome sum of £265.

Yesterday the Bishop delivered his Charge to the Clergy, which occupied an hour and quarter in delivery.

THE CELEBRATION.—The preparations for the 12th of this month are getting every day more formidable. Marching and counter marching, meetings and adjourned meetings, are the order of the day, and all are harmonising to celebrate the event—when the first sod will be turned, which will be the commencement of a Railway in New-Brunswick. We believe it is intended to make a general holiday on the occasion, and that all places of business will be closed. Where will we put the strangers that will visit the City, seeing that our Hotels are already full. We hope a committe will be appointed to see that all are accommodated.

☞ We received this morning, from Mr. O'Brien, the *New York Journal*. We shall speak of this beautiful publication in our next issue.

☞ The Rev. E. N. Harris, Seamen's Chaplain, and a worthy and zealous member of Mariner's Division, S. of T. has been appointed a delegate from the St. John Total Abstinence Society to the World's Temperance Convention, which is to be held at New York on the 6th of September.—*Temperance Telegraph.*

☞ U. S. sloop of war Cyane, Capt. Hollins, from Eastport, arrived in our harbour this morning, and saluted, which was returned from the battery, lower cove.

THE CARBONIANS.—We regret to learn that the bad blood, which this regiment has raised against themselves, is like to break out into serious trouble if it is not removed. On Saturday evening, the band at the request of the Lessee, played in the Theatre, and the audience expressed their ill-will against them, so vociferously, that they were compelled to leave. After getting outside the Theatre, some of the people hissed the soldiers, and an Officer foolishly ordered the men to seize one of the hissers. On this he was struck by a bystander but nothing more happened. Had it not been for the excellent management of Mr. Buckland, and the great good feeling towards his company among the citizens, things might have been worse. The band will not be asked to attend again, so harmony will reign as usual.

On Sunday evening, three citizens were passing the Barracks, and one of them improperly called out "Ready—present," the guard turned out and took them prisoners,—without any legal authority, —and keept them until the police were sent for. They were fined yesterday, rather an excessive fine, considering the trival offence, and the station of life of the offenders. Their friends have made up, or will make up, the amount to-day, we are told. There was great excitement in the Police Office during the examination and the Recorder was severely spoken of for his excessive fine.

On the same evening two of the men were beaten near Dalhousie Square. Two or three citizens were passing them, and made some remark, about the 9th of June, when the soldiers replied that they only waited the chance of doing so again. One or both the soldiers were knocked down, but the parties made off.

Her Majesty's troops have always been popular in this city, but we much fear, that the present change of feeling will result in assaults of a more serious character than the above.

We do not presume to offer advice in such matters, but it is for the General commanding to consider, whether for the sake of humanity it will not be better to change the quarters of this corps, before worse comes of it.—*From the Montreal Gazette. Aug. 16.*

DESTRUCTION OF THE U. S. STEAMSHIP CHEROKEE.—*Loss of nearly half a million dollars worth of property.*—The U. S. Mail steamship Cherokee, plying between New York and Havana, was burnt to the water's edge at New York at the Pier, foot of Warren street, on Friday night. Nearly half a million of dollars worth of Property was destroyed. The fire was first discovered by the night-gate watchman in the employment of the Steamship Company, and was issuing from one of the side port holes aft of the main gangway. The flames in a few minutes burst forth from the cabin stairway and soon spread over the deck amidships, communicating to the cook's galley and other houses between the wheel-houses. The bright light which illuminated the sky, and the loud alarm of the bells, brought great numbers of people to the spot. The wharves and vessels in the vicinity of the burning steamer, were filled with one dense mass of human beings, it being estimated that from 25,000 to 30,000 persons were present. The Tribune says—

"The shipping lying at the wharves on either side of the burning steamer, and the Jersey shore opposite, were brilliantly illuminated, presenting a grand spectacle. Apprehensions being entertained of an explosion taking place from the powder magazine, several members of Engine Company No. 42 rushed on board the vessel, and succeeded in bringing ashore a large box containing the dangerous explosive. The boilers being filled with water, it was feared that they would explode. The flames continued to make great headway, and seemed to defy the efforts of the firemen. It was determined at length to tow the steamer, and accordingly a hawser was made fast to the steamboats Corning, P. Carey, and Cataline, lying in the stream. The hawser, however, parted, when it was concluded to scuttle her in her berth. The firemen continued throwing great quantities of water into the ship and upon the flames, but despite their efforts the steamer was burned nearly to the water's edge."

The Cherokee was built by Wm. H. Webb, for Messrs. Howland & Aspinwall, for the Transfer Line, but was subsequently purchased by the U. S. Mail Steamship Company, George Law, Esq., W. O. Roberts, Esq., and others, proprietors. She was heavily laden, and ready for sailing to-day for Havana, via New Orleans. The cargo consisted of 1,500 packages of merchandise, and 100 firkins of butter, the whole value of which may be set down at $250,000. The invoices showed that there were 300 shippers.

GREAT FIGHT BETWEEN THE INDIAN TRIBES OF THE WEST.

Immense slaughter on all sides.

INDEPENDENCE, MO., Aug. 3, 1853.

Some returned Californians give the following account of the great battle between the Indians already referred to. The contest was between the Sioux tribe, aided by the Cheyennes, in all 5,000 strong, and the Pawnees, aided by the Jawns, Sacks, and Pottowatomies, numbering about 3000. The fight lasted all day—the killed on both sides being from 500 to 600. It took place within 50 miles of fort Kearney, and the Sioux party were defeated.

A person just in from Fort Laramie, says the above account is greatly exaggerated, but nevertheless great demonstrations had been made, and had not the Pottawatomies interfered, the Pawnees would probably have been whipped. He states the numbers at probably hundreds instead of thousands, and the estimate of the killed likewise much exaggerated.

☞ *Holloway's Ointment and Pills again Successful in the Cure of a Bad Leg.*—Extract of a letter from Mr. Brotherton, of Stangrat, near Bootle, January 15th, 1853.—"To professor Holloway.—Sir—After my wife's confinement in 1848, she caught a severe cold, which settled in her right leg and foot, causing it to swell to an alarming size, ultimately forming into about twenty wounds, or ulcers, presenting a more fearfull appearance. The pain she endured was almost insupportable, and the treatment of her medical attendants did no good whatever. She therefore resolved to give your Pills and Ointment a trial, and I am happy to say they have effected a perfect cure."

July 8. THOS. R. JONES.

Wistar's Balsam of Wild Cherry, was introduced in the year 1838, and has been well tested in all the complaints for which it is recommended. For ten years it has proved more efficacious as a remedy for coughs, colds, influenza, bronchitis, asthma, and consumption, in its incipient stages, than any other medicine.

What time establishes and consecrates, what experience adopts and confirms, what all men in all places unite in saying is good and valuable, is so, no doubt. A popularity of this sort fixes in society its roots so deep and so strong, that time cannot destroy it. The success which has attended this medicine for several years past, has overcome the prejudices of all reasonable men, and the article has taken a stand among the first class of discoveries and blessings of the age; and when resorted to in season, eradicates the disease for which it is recommended.

[From the Boston Evening Traveller.]

It is perhaps but an act of justice to the proprietors of Wistar's Balsam of Wild Cherry for us to say that our personal experience in the use of this article has impressed us most favourably. One of the proprietors of the Traveller was entirely cured of a severe cough of four months continuance, by the use of this Balsam; and several of our friends and acquaintances who have tried the article, have found it of great service in relieving them of severe coughs and shortness of breathing, with which they had been afflicted.

New Brunswick Hotel,
Charlotte street, nearly opposite the Country Market, Saint John, N. B.

THE Proprietor of the above Establishment thankful for past favors, would respectfully inform the travelling Public, that having erected a large addition in rear of the main Building, he is now prepared to furnish ample accommodation to 70 or 80 Boarders. The Proprietor is determined to leave no means untried to merit the patronage of the community.

Travellers arriving late at night will find the House always open and ready to recive them.

The Sleeping Rooms are large and well ventilated, and the improvements and conveniences which have been made render it emphatically the House of the stranger.

It has always been a Temperance House and the Proprietor is dtermined to adhere strictly to the Total Abstinence principle.

This House is centrally located, and is well supplied with well furnished apartments, clean beds, good fare, the best attention, and reasonable charges, which should render it worthy the support of Travellers.

A Large STABLE has been erected on the premises, capable of accommodating 70 Horses.

Good Hostlers are always in attendance.
July 8, 1853. E. W. FLAGLOR.

E. VERNON, M. D.,
Graduate of the Toronto Board of Medicine and of the Jefferson Medical College, Philadelphia.

TAKES this method of informing the inhabitants of St. John and the surrounding country, that he has established himself on the North side of King's Square, two doors west of Gables' Corner, for the purpose of practicing his profession, viz., Physic, Surgery, &c. Dr. Vernon has devoted great care to the study of diseases in all their forms—and all the modern improvement in their treatment, in a number of the largest Hospitals in America—as well as in his own private practice for several years.

He likewise feels prepared to give the EAR and EYE, those most delicate and necessary organs, that care and attention which they may require—very many cases of deafness that have been considered as hopeless can be entirely cured by a proper and judicious treatment. Diseases and deformities of the Eye, as Inflammation—Cataract, Strabismouth, or Cross Eyes, &c. &c., are a few of the cases that will receive particular attention—and in all cases of disease of those organs, if the parties are not helped, the money will be returned. Sub acute and Chronic diseases of the respiratory organs will in most cases be treated by the inhalation of Medicated vapours. Nervous diseases will be treated principally with Electricity, which is the safest and most efficient means.

For the benefit of the poor, Dr. V., will remain in his office from 9 till 12 A. M. on Mondays, where he will be happy to consult, gratuitously, as many as can make it convenient to call.

N. B.—Office hours from 9 till 11 A. M. and from 3 till 5 P. M. through the week.
