and are to be of, at least, 1,500 tons, and 250 horse power.

From this statement it will be seen, that in every other place where steamers have been established, for the first time, on long routes where the traffic was not sufficient to keep them going, it has been considered expedient to make some considerable allowance for the mail service. And we trust, in our own case, we may not be left behind the age on account of any mistaken economy on the part of the Legislature, more especially when it is probable that a large portion of the subsidy will return to the public chest in the shape of increased revenue.—*Courier.*

MR. JOHN HOOPER.

In the *Morning Times* of the 3d inst. Mr. John Hooper makes his lugubrious appearance in an article with the very appropriate heading of "COOL IMPUDENCE;" indeed had he said *lying impudence*, he would have come nearer to the mark.

So far from inducing Mr. H. to go to Fredericton, for the purpose of reporting the Debates of the last session, as alleged by him, we distinctly informed him when he first broached the subject to us, that we had a Reporter already engaged to do such work as we required, and in whose *experience* and *ability* we had the most implicit confidence. Mr. H. subsequently prevailed upon us to insert a few of his reports, *the heading of which was written by himself*, and this concession was made by us, in order, as we were informed by him, that if reporters were to receive a compensation for their services, it would be manifested that he had a claim as well as others. Finding however, his utter incompetency, and that Mr. Hooper's style of reporting,—mixed up, as it too frequently was, with gratuitous and flippant observations of his own—was not at all adapted to our purpose, namely, to afford the public correct and impartial intelligence, we promptly gave it the cold shoulder, and entirely relied upon the labors of another.

We now repeat, that we made no arrangement with Mr. Hooper to report during the session of '53. 2dly. What small portion of his reports was published by us, was done at his own request, and to suit his own views; and lastly, his assertion that we promised to *use interest with the members to procure payment for him out of the public chest*, is utterly untrue. In fact, his charges against us, are, as he truly designates them, a mere specimen of "cool impudence," and utterly unworthy of the pains we have taken to refute them.

We must apologize to the public for the space we have occupied in thus refuting the malignant assertions of Mr. Hooper, whilst we beg leave to add, that it is within the knowledge of the senior Editor of the *Courier*, that according to the admission made to that gentleman by Mr. H. himself, the latter proceeded to Fredericton in 1853 to report the debates, and *solely relying upon an appropriation from the Legislature as a remuneration for his services.*

☞ *Holloway's Pills, a Safe and Certain Cure for Coughs, Colds, and Asthmatical Complaints.*—The Autumnal quarter is the one when coughs, colds, and wheezing on the chest are more prevalent; such are the properties of Holloway's Pills, that if taken at the commencement of the attack the virulence of the disease is very much abated, so that the patient suffers little or no inconvenience, but if neglected, it frequently occurs that the foundation of incurable disorders is laid; therefore those who are liable to attacks of this nature are particularly recommended to try these valuable pills.

The Boston Mercantile Journal gives the following notice of the most popular remedy of the day

Wild Cherry Balsam.

We speak in praise of Wistar's Balsam of Wild Cherry, because we believe from our own knowledge of the article that it is one of the best in the market for the complaints for which it is recommended.

This medicine, coming from such a respectable source, and carefully prepared by an experienced and skilful physician, is received by the public with confidence. Its efficacy has been proved in many obdurate cases of disease, and its fame has rapidly extended. It has been extensively used in every part of the country, particularly in the middle and Northern States; and strong testimony from intelligent and highly respectable persons, has been adduced in favour of its merits as a remedy for colds and coughs, affections of the chest, diseased liver, &c. &c.

THE GENUINE AND ORIGINAL

Wistar's Balsam of Wild Cherry,

on account of its great popularity has been extensively counterfeited in Philadelphia, and some thousand bottles of the spurious imitation thrown into the market and extensively circulated.
