☞ The *Liverpool Mail* of the 18th February, in a lengthy article extending over three columns of that journal, furnishes a particular account of the preparations for War which are making throughout Great Britain. In England, the troops as they are marching for embarkation, are enthusiastically cheered by the populace; but alas, we learn from the *Anthony Hecker* that the Roman Catholic priests throughout the country are warning their dupes against being allured by the "Saxon shilling." Oh popery! popery!

Mr. MALONE RAYMOND.—It is sufficient to say that on occasion of the two entertainments given by this talented gentleman, the Mechanics' Institute was crowded to excess. He will give his last intellectual treat this evening, and we have no doubt will be as well patronised.

"An appeal to the Public, from well authenticated results of the *Maine Law*," and the "Second Annual Report of Parish Schools in New Brunswick," have been received at this office, and which we shall notice in future.

We have received the March No. of "*the New-York Monthly*." It is well filled with interesting matter, and is one of the best publications of the kind we have seen. For sale by B. O'Brien, King street.

We have likewise to acknowledge the receipt of some numbers of "*The Life of the Duke of Wellington*," from the Agent of Tallis & Co., Mr. Hunter, Market Square. This publication should be on everybody's table.

☞ It is reported that the hull of the Great Republic is to be converted into a steam frigate for government house. Her late commander, Captain J. McKay, was a passenger in the ship Lightning for Liverpool, it is said, for the purpose of completing the necessary arrangements.

Government Contract Mole.—Some time ago a certain department of the government sent to three large houses to tender for a certain article of which it would seem there was not a very large quantity to be obtained. One of these gentlemen was had in and asked how much of the article he could supply, and at what price. He replied he so much as he could procure. "No more?" "No!" He signed a bond for the amount and price, and was ushered out another way. A second was called in, and the same done; and lastly, the third.—Happening to meet just after, says the first to the others, "I have the contract." "No," says the second, "I have it; here is the bond." "How can that be," says No. 3, "when here is my bond?" At this they all stared, and came to the conclusion, as more had been contracted for than the market would supply at the terms, that the worthy officials had risen too early, and been a little too sharp for them.—Can any one after this say that we have not cute men in office.—*He epith.*

☞ *Holloway's Ointment and Pills the best Medicine in the World.*—Mrs. Jackson of 17, Upper Brook street, Derby, was afflicted nearly twenty years with a scrofulous ulcer on the wrist, the pain from which was incessant and excruciating. She resorted to all kinds of remedies without avail, and was for a long time a patient in the hospital, but received no relief whatever, until she had recourse to Holloway's Ointment and Pills. These excellent medicines soon caused a portion of the bone to come away, and notwithstanding the dreadful state of the wound, it has perfectly healed, and her health is entirely re-established.

The Boston Mercantile Journal gives the following notice of the most popular remedy of the day

Wild Cherry Balsam,

We speak in praise of Wistar's Balsam of Wild Cherry, because we believe from our own knowledge of the article that it is one of the best in the market for the complaints for which it is recommended.

This medicine, coming from such a respectable source, and carefully prepared by an experienced and skillful physician, is received by the public with confidence. Its efficacy has been proved in many obdurate cases of disease, and its fame has rapidly extended. It has been extensively used in every part of the country, particularly in the middle and Northern States; and strong testimony from intelligent and highly respectable persons, has been adduced in favour of its merits as a remedy for colds and coughs, affections of the chest, diseased liver, &c. &c.

THE GENUINE AND ORIGINAL

Wistar's Balsam of Wild Cherry,

on account of its great popularity has been extensively counterfeited in Philadelphia, and some thousand bottles of the spurious imitation thrown into the market and extensively circulated.

EXAMINE CLOSE BEFORE PURCHASING!
LOOK WELL TO THE MARKS.

The genuine Balsam is put up in bottles, with the words "Dr. Wistar's Balsam of Wild Cherry, Phila." blown in the glass; each bottle bearing a label on the front, with the signature of

I. WISTAR, M. D.

This will be enveloped with a wrapper; copyright secured, 1844; on which will always appear the written signature of I. BUTTS,

S. L. TILLEY, Agent, St. John New-Brunswick.

☞ V. B. PALMER, the American Newspaper Agent, *is the only authorized Agent* for this paper in the cities of Boston, New York, and Philadelphia and is duly empowered to take advertisements and subscriptions at the rate as required by us. His receipts will be regarded as payments. His Offices are—Boston, Scollay's Building; New York, Tribune Buildings; Philadelphia, N. W. cor. of Third and Chestnut streets.

Spring and Summer Fashions, 1854

C. D. EVERETT & SON.

HAVE been busily engaged for the last month in making up and are now prepared to furnish the public with Hats and Caps, of all qualities and prices, of the Spring and Summer styles for 1854. We believe that the Spring style of Hats will be much admired. We have on hand, just made up, a very large and excellent assortment of Summer CAPS.

Our prices are as usual, low. Notwithstanding the large advance in prices of Goods generally throughout the community, we have not advanced one penny on any article of our manufacture.

The remainder of our winter stock of Buffalo ROBES, Fur Caps, &c., will be disposed of at *extraordinary low prices.*

March 3. 12, North side King-st.

C. D. EVERETT & SON.

Hartley's Patent Rough Plate GLASS,

For Horticultural and other Purposes.

A Quantity of the above article is expected in April, of various sizes.

The above is slightly rough on the surface, which has the important effect of dispersing the Sun's rays, instead of concentrating them. It is the eighth of an inch thick, admirably adapted for Horticultural purposes, from its great cheapness, and its diffusing of light, without that scorching heat which makes its way in summer through all ordinary Glass.

It is now used in England for covering Ship Yards, Cow Houses, Glazing Mills, &c. Samples can be seen at

JOHN KINNEAR'S.
March 3. Prince Wm. street.
