The Report of the King's College Commission was next taken up in Committee, and advocated in an elegant speech of three hours by Mr. Gray.—Mr. Connell next occupied the floor in opposition, and moved an amendment to the effect that the Report be not received, and that the Provincial grant to the College be forthwith suspended by the Government. After sundry explanations, the House adjourned, with the understanding that the subject is to be resumed at an early date.

FREDERICTON, March 27th.

A long discussion took place to-day on Mr. End's Alien Bill, and at one stage of the proceedings, a division was taken on it, showing 15 in its favour and 16 against it; but, before the chairman reported several absent members dropped in, and another debate followed, the result of which was that it was lost, yeas 16 nays 21.

The Hon. Surveyor General and Hon. Mr. Ritchie, with Messrs. End, McAdam, Gillmor, Hatheway, and English, in its favour; the House the Speaker, Hon. Mr. Smith, and Hon. Sol. General, with Messrs. Ryan, Tibbets, Gray, Montgomery, Street, and others, opposed it.

The Prohibitory Liquor Bill was passed on its third reading, yeas 21 nays 12. Mr. Gilbert, the Chairman, supported the Bill, when under discussion, and Mr Rice, who was absent on leave on the former occasion, voted in nay.

House went next in Supply, and a grant of £300 passed for the Female Branch of the Sackville Academy. This grant was once fully sustained by His Hon. the Speaker, and Hon. Messrs Smith and Ritchie, Steadman, Gray, Wilmot, McLellan, and Ryan; the vote stood, 17, 13.

Half past four, House went in Committee on the Bill for Supervision of Great Roads and other Public Works—Atty General speaking. Progress reported on St. John Board of Health Bill in Council.

FREDERICTON, March 28.

The Board of Works Bill was resumed this morning in committee and elicited pretty long discussions while proceeding from section to section. Some amendments were moved, some especially by Mr. Gray, for defending the holders of pecuniary offices of political privilege, but no single principle of the Bill could be affected, and it passed without the slightest amendment.

At 3 o'clock the House went into Supply and the Road Grants being the Subject there was a good deal of feeling displayed by their respective advocates.

In the Council also there has been a long debate on the new street to be opened in St. John, and an amendment, moved by the Hon. Mr. Odell, to exempt the owners of property from seven eights of the cost of making the street has been carried.

The Appropriations followed, with some animated debates as in the House below. Agrant for a drawback of duties to Mr. Inches, for goods lost by water, was passed after a sharp conflict.

THURSDAY, March 29.

A Bill committed and progress made, and the principle sustained, to grant the Bye Road monies in grants to the different parishes, to be expended by Commissioners elected by the rate-payers at the Parish Elections, and to come into operation March, 1856.

House in Committee of Supply at 12 o'clock.—Madras School grant of £100, and some Parish School grants, passed.

The N. B. and N. S. Land Company Road grant discussed, and £200 granted. A grant of £6,500 for collection and protection of the Revenue, passed, and a long debate on a grant to Silas McMackin, for costs incurred in certain law-suits relating to Coal Mines in Queen's County, £64 4s. 2d. passed. Adjutant General's grant lost on a division.

In the Legislative Council, Hon. Messrs Seely, Hatch, Robertson, Odell, Todd, Saunders and Botsford have spoken on the Liquor Bill—Odell and Botsford against it. It will probably pass by a majority of two.

Arrival of the "Asia" at Halifax

The steamer "Asia" arrived at Halifax at 11 o'clock last night, but owing to the Telegraph Wires having been suddenly put under the influence of somnambulism, by some interested parties, for motives the most ignoble, up to 12 o'clock the only portion of the news brought by her, which reached the News Room, was the confession of the late Emperor, and the Death of the Grand Duke Michael, of his wounds.

By degrees up to one o'clock, the slips from the Telegraph Office came to the News Room, but the only additional information, besides the above, was the taking of the redoubts by the Allies, which the French (whose loss in killed was about 100 men) afterwards blew up not being able to defend them against the overwhelming hosts of the enemy.

Our readers may rely on it we shall leave no means untried to ferrit out at whose instigation the Wires (in the most perfect order up to seven o'clock last evening, at which hour a Telegraphic Despatch was left at our Office) got so suddenly unfit to perform their important functions, which unhappily prevents us from placing the despatch in extenso before the public.

The great redoubts around Sebastopol being now destroyed, the grand attack upon that strong fortress was next to follow; and no doubt ere this Sebastapol only exists in name.

JAMES COLWELL.

Carleton, March 30, 1855.

To the Electors of Kings Ward.

GENTLEMEN,—One the first Tuesday of April I shall offer myself as a Candidate to represent you in Common Council for the ensuing year.

You have had the privilege of the franchise for years and what, I ask have you gained by it? With a real estate property and a vast rent roll unprecedently increased in value—

Have your Corporate Body paid of the City Debt? *No*; but have they attempted to do so? *No!* But is it not increased yearly, in consequence of their not being able to pay the interest? *Yes!* And why is this not remedied? I will tell you, fellow-citizens, from one of two causes; either they are interested in keeping things as they are, or they want the ability to grapple with any one of the many ways which present themselves for that purpose. Should I have the honour to be returned I will pledge myself to use my best efforts to cleanse the Augean stable, and that too without any increased taxation. I would again ask you, fellow-citizens, how have they expended the money on the streets? have they covered them with mud or with broken stones; ask the streets themselves, and their reply will be *deep in mud*, neither scraped nor carried off. This too, if elected, I will endeavour to remedy and with the same amount of outlay as is now uselessly squandered. With respect to Sanitary Regulations, I am prepared with a properly digested plan for thoroughly cleaning and purifying the city, both in street and back yards, and at one-tenth of the price of the contemplated scheme of Sewerage, and I have no hesitation in saying it will be done more efficiently than by the expensive plan under consideration. If, fellow citizens, these measures are important to you, you must choose a man that possesses both the skill and zeal to carry them out. If not, if you are content with the prospect of *bankruptcy, cholera, and increased taxation*, then I say, continue to wallow in the slough of despond, or tender yourselves solvent, cleanly, and free from imposition by electing your humble servant
