his latter days were spent like those of an ungovernable *roue*. His widow will now inherit a handsome fortune.

The friends of temperance are on the alert. The new National Temperance League is busy and preparing to be busier still. The *Weekly Record* has reduced its price from 2d. to 1d, and the organ of the Alliance continues to be one of the cheapest newspapers in the world.

For a week past the weather has been delicious. No other word would rightly distinguish it. The sweet smell of the new hay penetrates into the alleys of London, and at every turn of the street moss roses at a penny a piece are thrust before the eye. Of some kinds of fruit a scarcity is predicted, and the orchards so "gay with apple blossoms" are reported to be chary of their juicy produce. It would be too much to look for an abundance of everything the earth can yield; and how sad the fact, that as God dispenses, man too often dissipates His bounty. Be ours, as He is filling our cup of gladness to overflowing, to pour at his feet the cup of gratitude, which he will graciously accept, for "His mercy endureth for ever. B.

DOMESTIC.

Provincial Legislature.

THURSDAY, July 17th.

The Legislature assembled at Fredericton this day. The Hon. Charles Simonds was elected Speaker of the House of Assembly, without opposition. It will be seen by the following Speech of His Excellency that the only subject to be dealt with during this session is the PROHIBITORY LAW!

GOVERNOR'S SPEECH.

LEGISLATIVE COUNCIL CHAMBER, FREDERICTON, July 17, 1856.

Mr. President and Hon. Gentlemen of the Legislative Council.
Mr. Speaker and Gentlemen of the House of Assembly.

I have gladly avoided myself of the first opportunity of meeting after having recurred to the sense of the people.

The Law which prohibits the importation and manufacture of, and traffic in, intoxicating liquors, forms a subject for earnest deliberation, and I trust that a measure on this subject, which will be submitted to you without delay by the Government, will receive at your hands the consideration which its importance issue really demands.

I do not doubt that your decision on this question, which so deeply effects the social and financial interest of the community, will be satisfactory to the people, and it will afford me the most sincere pleasure to find that the exercise of a power, entrusted to me by the Constitution, has been productive of consequences so beneficial to the Province.

You may be assured that I have no wish but to consult the general welfare, and by a uniform adherence to the principles of the constitution, to uphold in their just balance the rights of each branch of the Legislature, and thus to secure the maintenance of liberty and order.

I leave you to your deliberations with the heartfelt prayer that Providence may bless them for the peace and prosperity of the Province.

MELANCHOLY ACCIDENT.—We regret to state that a little daughter of John G. Campbell, Esq., aged 4 years, fell from a second story window of her father's house, (opposite the Centenary Chapel, Princess Street,) on Tuesday evening, and came to the ground head first; the poor little thing remained insensible from that time until next morning, when she expired. A few weeks since a daughter of Mr. Yardy, (Royal Gazette Office,) Fredericton, likewise fell out of a second story window, and was severely, but not fatally, injured.—*Nbkr.*

INFANTICIDE.—An Inquest was held on the 9th instant, on view of the body of a new born female child found in the Kennebeccasis river. A verdict of Infanticide was brought against Mary McGuire. The woman has not yet been apprehended but the proper officers are instituting a strict search for her.

☞ On Sunday forenoon the body of Patrick Tuff, the driver of a horse and cart, was found on the flats near the end of the Ballast Wharf. The last was seen of the unfortunate man was about 11 o'clock at night, when he drove the cart through the lower Barrick Gate, and when challenged by the sentry on duty, it is said no answer was given. His whip was found near the edge of the wharf, over which he was no doubt precipitated in the darkness of the night. He was an industrious man, and leaves a wife and family.

The body of a man named Jas. Doherty, a resident at Salmon River, in Queen's County, was found early on Sunday morning in the water at the foot of the Steam Ferry Landing. From all appearances the body had been in the water for several days. A small sum of money was found in his pockets.

On Saturday, a child belonging to Mr. Smith, residing in Brussell's-street, was run over by a horse and dray, driven by a small boy named, Hugh Cusick, and so severely injured that he died on Sunday morning.

Inquests were held before the Coroner on view of the bodies of the above yesterday, and verdicts in accordance with the evidence produced were returned.—*New Bruns.*

The body of a man named Travis Totten, a carpenter, from the parish of Portland, was found on the side of the Marsh Road, about two miles from the city, on Tuesday night, by Sergeant Forbes and Constable Charles Laird, and taken to the dead house. It appears, from the statement of a woman named Ellen McDonald, now in jail, that Totten came to the Alms-house after her, and she went with him to the house of a Mrs. Gray. They then left Mrs. Gray's house and went to Mrs. Hayes' in the Marsh Road, and were drinking gin and ale. They found two men, in the house, and leaving after some time, they were followed by these two men, who came up with them and struck Totton in the face knocking him down. They then ran off. The woman says she does not know the two men, and that they had their caps drawn over their eyes. Money to the amount of £1 15s. was found on the dead body.—*Cou.*

A CURE FOR ASTHMA.—There are many well attested cases of cures of this distressing complaint by the use of the Wild Cherry, as combined by Dr Wistar, in his famous Cough Balsam, which medicine has achieved a world reputation.

We learn from the *Examiner* that a serious fire occurred at Charlottetown on the morning of the 28th ult. Several buildings were laid in ruins, and a Mr. Scantlebury loss property to the amount of £8000.

EUROPE.

ARRIVAL OF THE "NIAGARA."

Seven Days Later from Europe.

HALIFAX, July 15th.

The Niagara from Liverpool about 11 o'clock, Saturday the 5th, arrived at Halifax on Tuesday the 15th, at 7½ P. M. 99 passengers for Boston. She arrived at Liverpool, 10 A. M., on Sunday, 29th.

The Indian arrived in the Mersey, just as the Canadian left. The Fulton sailed from Southampton, Wednesday, P. M., 2nd for New York. The Chester, five hundred and sixty seven tons, hundred horse power, first ship of the London and Montreal line, sails 23rd. Fulton carried intelligence that Mr. Moore's motion for vote of censure on the Government for the American enlistment, was debated two nights in the Commons and eventually thrown out by a majority of 194. Fulton also ratifies that Mr. Crampton has written a letter, dated Foreign Office, London, complaining that the United States have treated him shabbily. Fulton has further London papers which contain the following paragrah:—"Negotiations between England and the United States with a view to the settlement of existing differences were resumed on Monday last, 30th under circumstances which justify the belief that matters are already in a fair train towards an amicable adjustment of the points at issue."

BRITAIN.—It is believed that Parliament will be prorogued on the 31st inst., and that no further party motions will be made this session.

The following is the only reference made to America, since the *Fulton* sailed:—Mr. Baillie asked Lord Palmerston whether Mr. Dallas, as U. S. Representative to Her Majesty's Government, had full power to settle the Central American dispute, or whether he had any other powers than those of his predecessor, Mr. Buchanan. Lord Palmerston said it was understood that Mr Dallas had full power to discuss with Her Majesty's Government, on the Central American question. Mr. Buchanan had no instructions whatever, to enter on this subject.

A prospectus is issued of the New Brunswick and Canada Railway and Land Company to purchase and complete the St Andrews and Quebec Railroad.

The weather continues magnificent for harvest, and another fortnight of the same, will secure the farmers from all danger of a change of prospects, but in consequence of the supply on hand being so short, holders of wheat shop great caution and still demand firm rates.

There is an increasing demand for American securities since the political aspect of affairs between England and the United States has improved.

New Zealand dates to Mary 3rd are received by ship at London, bringing one thousand bales of wool from Canterbury. New settlements are progressing favorably. Grain crops were all harvested and abundant, potatoes short from heavy rains.

The Earl of Shelburne is appointed under Secretary of States for Foreign Affairs, and will be raised to the peerage by this present title. Sir W. F. Williams, of Kars, will succeed him as representative of Calne.

FRANCE.—Reports have been some time current that unpleasantness existed between the Courts of France and Russia, and that Count Mornay's departure for St. Petersburg was delayed in consequence; as Morney is now about ready to embark, differences are probably arranged.

The Report of the committee of the Corps Legislatif, refusing to accord to the Emperor the power of granting pensions, is published,—it is respectful but firm, and is considered that the severest check that Napoleon has yet met from his government.

The Bill granting pensions to the Orleans Princesses was voted unanimously, although Count Montalambert wrote a strong letter against it, and the Duchess of Sax Coburg indignantly refuses the money.

The juvenile Count of Paris has written a letter to M. Roger, repudiating the pension, and saying that himself, his mother and brother do not recognise the interference of the other members of the Orleans Family, but that he reserves himself for the future. These letters have made considerable sensation in Orleanist circles, and the Orleans Princes have written angry letters respecting the juvenile's interference.

The accounts of the weather and crops throughout the country, even in the lately inundated districts, are favourable. The harvest has commenced in the South. The vineyards also look well.

SPAIN.—Papers begin to bring accounts of the recent roits at Badajoss, Valladolad, and other cities. They seem to have been serious, and of the magnitude of an insurrection. The high prices of food was the ostensible cause, but they were really excited by political emissaries. Numerous arrests were made, and prisoners short.

ITALY.—Affairs in Parma are becoming worse, and insurrection is feared. The Clerical journals of Turin say that France has addressed a note to Sardinia, counselling moderation on the Italian question.

Italian papers publish by telegraph that Mr. Dallas and all his suite, attired in frock coats, demanded admission into the Queen's presence, and when refused, went away in a flaming passion.

THE EAST.—Crimean letters to June 14th mention nothing but the continued embarkation of the troops. Gen. Rudiger is dead.

The Mondo-Wallachian frontier commission advances but slowly. Topographical difficulties completely neutralizing the intentions of the treaty.

Letters received at the Religious Intelligencer Office during the week ending July 17th.

No Family should be without Them.
☞ We speak of M'Lane's Liver Pills, which have become an indispensable Family Medicine. The frightful symptoms which arise from a diseased Liver manifest themselves, more or less, in every family; dyspepsia, sick headache, obstruction of the menses, ague and fever, pains in the side, with dry, hacking cough, are all the results of hepatic derangement—and for these Dr. M'Lane's Pills are a sover ign remedy. They have never been known to fail, and they should be kept at all times by families.
DIRECTIONS.—Take two or three going to bed, every second or third night. If they do not purge two or three times by next morning, take one or two more. A *slight breakfast* should invariably follow their use.
The Liver Pill may also be used where purging is simply necessary. As an anti-bilious purgative, they are inferior to none. And in doses of two or three, they give astonishing to relief sick headache; also in slight derangements of the stomach.
☞ Purchasers will be careful to ask for Dr. M'Lane's Celebrated Liver Pills, manufactured by Fleming Bros, of Pittsburgh, Pa. There are other Pills purporting to be Liver Pills, now before the public. Dr M'Lane's genuine Liver Pills, also his celebrated Vermifuge, can now be had at all respectable drug stores. None genuine without the signature of

OXGYENATED BITTERS IN EUROPE.
From Rev. L. Doolittle, a highly respectable Clergyman.
PARIS, November 1, 1851.
DEAR SIR:—About two years since I made use of a few bottles of your OXYGENATED BITTERS, for a stomach complaint, which was at that time relieved.
Since my stay in England and France, I have found my old enemy, irritablility of the stomach, returning again. I have not found any prescription to afford me relief, and I made inquiries in London for your OXYGENATED BITTERS, but could not find any. I write now to be; you will do me the favor to send by the earliest steamer to Havre, half a dozen bottles, care of Livingston, Wells & Co, 8 Place de la Bourse, Paris.
An old friend of mine in England Captain Jackson, of the British Army, I found, on my arrival, suffering from Asthma, manifestly the result of dyspepsia. Send an additional half a dozen bottles, I should like to have the Captain try the medicine.
I beg to observe, as I am not aware that my name is known to you, that I have been the resident clergyman for some twenty-three years, in Sherbrook and Lennoxville, Canada East, to which charge I hope to be able to return in the spring.
I remain, dear sir' your obedient servant,
L. DOOLITTLE.

Valuable Freehold Property.
FOR SALE IN LOTS.
THAT very valuable Proyerty immediately adjoining the Government Grounds on Carleton Heights, and within eighty rods of the Westerly boundary of the City of St. John, has been laid out in Building Lots, by Deputy C. L. Surveyor Whipple, each Lot commanding an excellent view of the Bay of Fundy, and many of them having also a view of the harbour and City of St. John.
Inclining to the South, and therefore having the more direct benefit of the sun's rays and the warm Southerly breezes, while they are protected by higher Ground from the Northerly blasts, they are probably the most desirable and healthy Lots in the vicinity of the City.
Being easily approached by excellent roads, requiring no excavation or filling in, and having a soil well adapted for Gardening purposes, many of the expenses ordinarily entailed on the purchasers of lots in the vicinity of the city are saved to the purchasers of these Lots.
Intending purchasers can be furnished with every information respecting the property, and also have an opportunity to examine the plan, by applying at the store of C. D. EVERETT & SON,
