THE ELECTION.—The official announcement states that the nomination of Candidates will take place on Tuesday next at the Court House, and that the Polling will come off on the Saturday following, 18th inst. It is thought by some that an active canvass will continue up to that time—we however, entertain a very different opinion. The

RETIRING FROM BUSINESS.

EXTENSIVE AND VALUABLE SALE OF STOCK OF
Stationary, of all kinds;
FANCY GOODS, IN EVERY VARIETY;
Books of all classes;
BINDERS STOCK, PRESSES, MACHINERY, &c. &c.

To the Independent Freeholders of the City and County of Saint John.

GENTLEMEN,—

HAVING been appointed Surveyor General of the Province, and one of His Excellency's advisers, my seat in the Legislature has become vacant; and I have now to request your suffrages to return me

JOHN KINNEAR,
(In Messrs. WIGGINS' new Brick Building,)
PRINCESS WILLIAM STREET,

HAS on hand, for Sale in quantities, and by retail—Rose and Clasp Head wrought NAILS, of all the usual sizes;
Horse, Boat, and Pressed Nails;
Cut Nails of every size;

spite of the filth with which he has been so unmercifully bespattered, WILMOT IS THE MAN! "Truth is powerful and will prevail." The people have discovered beyond the probability of a mistake, that throughout, the green eyed monster, has been the presiding deity of the Radicals; and assurances of support from north, south, east and west, meet us at every turn.

A TREAT FOR CONNISSEURS.—A beautiful little brig, 265 tons, called the *Acanthus*, built by Mr. Samuel Carson of Quaco, for Captain P. Burns, is now lying at the Custom House wharf, and is well worth a visit from those skilled in Naval Architecture. She is built of the best materials, substantially fastened, and for symmetry and finish, is pronounced by judges to be a perfect picture.

A CALL TO THE INITIATED.—If the Alderman and Councillor of Queen's can possibly spare the time now in those busy days of canvassing, we would direct their attention to the very many "Corporation traps," existing at the Ferry Landing and the Fish Market, in Water Street. We would further urge that it were well done, and done quickly, rather before than after the Liege's have broken their legs from the neglect.

BOILER EXPLOSION.—On Friday last, the boiler of the Steam Saw Mill, at the Vulcan Foundry, from some mismanagement exploded, and shocking to relate, scalded several persons employed in the mill, in such a dreadful manner, that one man has since died; and another, a boy, is despaired of.

BOAT RACE.—The lovers of aquatic sports will again be delighted on Thursday next at 4 o'clock, by a race coming off between the rival crews of Indian Town and Carleton. The boats are good and the men better, and tight and tight will be the order of the day.

CHEAPER THAN THE CHEAPEST.—The mammoth steamer *Great Britain*, is preparing to bring emigrants to this country at the unprecedented price of *thirty shillings sterling* per head. It is expected she will accommodate fifteen hundred persons.

☞ We are indebted to Favor's Express, Capt. Belyea, and Mr. True, of the Creole, for late files of American papers.

MELANCHOLY ACCIDENT.—On Friday afternoon last, H. J. Phair and W. W. Street, Esquires, Barristers at Law, left the residence of the former on a shooting excursion among the islands in the River Saint John, lying some two miles above this City. Mr. Phair's servant boy, and English lad, named John Williams, requested his master to take him out with him, and they then left together in a canoe. A short time after can down, Mr. Phair had occasion to reload his gun, and handed the needle to the lad, who sat in the middle. While in the act of loading, the lad suddenly fell over the side when both gentlemen attempted to catch hold of him, and in doing so the canoe upset, and all three were left scrambling in the river in about ten feet of water, and with the exception of the lad, neither knew how to swim. Fortunately Mr. Phair and Mr. Street were able to get hold of the canoe, one at either end, and in this position they remained for nearly an hour paddling with their feet and hands until they reached the shore of one of the islands almost exhausted, when they were taken to the main land by a person living on the opposite side of the river, who heard their shouts while in the water, and came to their rescue with a canoe. They saw nothing of poor Williams after the canoe upset. On Saturday, Sunday, and Monday, diligent search was made for the body of Williams, which was recovered on Monday afternoon and brought to town, where an inquest was held before Henry Fisher, Esq., Coroner, and a verdict of "Accidental death by drowning," returned. The body of Williams was taken charge of by Mr. Phair, who employed an undertaker to have it properly prepared for decent interment. On the following morning a Hearse was in attendance, and both the gentlemen who had so narrow an escape for their own lives, followed the body to the grave.

Williams had no relatives in the Province. He was known to be subject to epileptic fits, and is more than probable that it was in one of these fits that he fell overboard. His master, however, was not aware of the infirmity under which he laboured.—*Head Quarters.*

The Trip of the Season.—The Steamer Anna Augusta left Indian Town on Tuesday morning last a little after 10 o'clock, and was moored at the wharf here at 5 minutes to 5 o'clock. This is probably the best trip made by any of the steamers on the River this season.—*Ib.*

☞ At the solicitation of many of the advertising portion of the community, and to meet the requirements of our numerously increasing friends, we have concluded to publish the *Chronicle* in future THREE TIMES A WEEK, so soon as we can obtain from the Type Foundry, such an addition of material as is requisite. The *Chronicle* always on the side of PROTECTION, will thereby be enabled to make it one of its most prominent features. To the bone and sinue of the country, we need scarcely say, it is your duty to PATRONIZE, as it shall be ours to ADVOCATE the good cause.

☞ In consequence of one of the boys of this office having absconded, some irregularities have occurred in the delivery of the paper; subscribers not having proper attention lately, will please give us a hint.

A SETTLED FACT.

It is not the partial conviction, but the earnest opinion of every one who has used it, that BOGLE'S A-B-C-D-E is the best article for Shaving known to the public. It softens the beard, and prepares it for the razor, more efficiently than any other preparation, and protects the skin from the effects of exposure afterwards. Sold by the inventor, William Bogle, 227 Washington street, Boston.

Sold also by S. L. TILLEY, Druggist, St. John.

EXCELSIOR AND TWO SHOP MASTERS.—Gunter Hutchinson, Jr., of this City, having procured a superior Astronomical Clock, and suitable Apparatus for correcting, is now prepared to ascertain accurately the error and rate of Chronometers at the old stand of William Hutchinson, Coffee House corner, where all kinds of TIME pieces and Nautical Instruments are carefully repaired.

VALUABLE TESTIMONY FROM THE SOUTH.

We like, at all times, to give credit when credit is due, and at the same time, we can believe the disinterested, we are doubly gratified; we, therefore, give the following voluntary testimony as to the excellence of Wistar's Balsam of Wild Cherry, by the editor of the Columbia South Carolinian, who appears to have obtained great relief by its use.—(Old Dominion, Portsmouth, Va.

WISTER'S BALSAM OF WILD CHERRY.

We seldom resort to puffing medicines, having a great respect for the skill of the regular profession, but chance after the close of the last session of the Legislature, which our lungs were almost dried up by the highly rarified atmosphere of our nave-warmed State House. The Balsam immediately relieved us of a most harassing cough, which threatened our health in a serious degree. We feel that we are indebted to it for some fifteen pounds of animal weight—which addition once FELT, cannot be forgotten.

For sale by S. L. TILLEY, King street, Saint John, N. B.

application of which will exterminate them forever from your premises. Prepared by John G. Sharp, Chemist. Sold in Bottles at 1s. 3d. to 2s. 6d. each.

Sharp's celebrated vermin and insect EXTERMINATOR! for the destruction of Rats and Mice, Cockroaches, Beetles, Crickets, Bugs, &c., &c.

The "EXTERMINATOR" is designed to supersede the use of Common Poisons, by furnishing a preparation convenient and safe to sell, at the same time attractive to the Vermin.

Directions for using the "Exterminator."—Roll it up in pieces the size of a small marble, and throw it into their holes; or spread it on fresh baked bread, with a thin piece of wood, and cut it into small pieces and distribute it about the places they frequent. Put up and Sold by the Proprietor, in boxes at 1s. 3d to 2s. 6d. each. ☞ None genuine unless signed John G. Sharp, *Pharmaceutical Chemist*, St. John N. B.

COCOA NUT OIL FOR THE HAIR.

This is one of the best articles ever offered to the public, for *cleaning, strengthening, and promoting* the growth of the Hair. Sold in pots at 1s. 3d. to 2s. 6d. each. Prepared only by J. G. SHARP, Chemist, &c., St. John, New Brunswick.

Married.

At St. Ann's Rectory, Musquash, on the 7th inst., by the Rev. Thomas W. Robertson, Rector, Mr. James Tiner, to Miss Maria, third daughter of Mr. David Belding, all of the Parish of Lancaster.

On the 3d inst., by the Rev. I. W. D. Gray, D. D., Mr. John Hickson, of St. John, to Miss Mary Ann Hagerty, of Springfield, K. C.

On Wednesday morning, at St. Ann's Chapel, Fredericton, by the Rev. Charles F. Bliss, Missionary at Harvey, George J. Bliss, Esq., Barrister at Law, to Susanna Mary, second daughter of George I. Dibblee, Esq., of that City.

At Salisbury, on the 20th ult., by the Rev W. N. Boyer, Mr. Jas. McAllister, of Shediac, to Miss Margaret S. Wright, of Newcastle.

At Cape Tormentine, on the 1st inst., by the Rev. J. Jonstone, Mr. John Avard, to Miss Nancy Dobson, both of Bentford.

At West Concord, Vermont, on the 1st inst., Mr. George C. Patten, of Boston, formerly of St. John, N. B., to Miss Melissa Whiting, of Littleton, New Hampshire.

Died.

This morning, at her late residence, Charlotte Street, Mrs. Mary Donohue, in the 44th year of her age.

On the 5th instant, at Fredericton, Mary Ann Elizabeth, wife of the Hon. Chief Justice Carter, in the 32nd year of her age, deservedly and deeply lamented by all her friends.

Wednesday morning, at his residence Germain Street, Captain Thomas Butters, a native of England, in the 70th year of his age. The greatest part of his life was spent actively and usefully as a shipmaster, he was well known in that capacity, both in this port and Quebec; and highly respected for his integrity, and upright conduct, by all with whom he had dealings.—He leaves a widow and three daughters; and a numerous circle of friends, who sincerely lament his demise. In his last illness he suffered much in body, but with a heart free from guile, all was calm within. "Peace to his manes."—The funeral will take place on Saturday at 2 o'clock, P. M., when friends and acquaintances are requested to attend.

On Tuesday afternoon, after a short illness, Margaret, wife of Mr. Joseph Houlston, in the 25th year of her age, leaving a husband and two young children to lament their bereavement.

october 1.

NEW PROSPECTUS
TO MECHANICS,
Inventors and Manufacturers.

Seventh Volume of the SCIENTIFIC AMERICAN.

MESSRS. MUNN & CO., American and Foreign Patent Agents, and Publishers of the SCIENTIFIC AMERICAN, respectfully announce to the public that the first number of VOLUME SEVEN of this widely circulated and valuable journal was issued on the 20th of September in AN ENTIRE NEW DRESS, printed upon paper of a heavier texture than that used in the preceding volumes.

It is published weekly in Form for Binding, and affords, at the end of the year, a SPLENDID VOLUME of over FOUR HUNDRED PAGES, with a copious Index, and from FIVE to SIX THOUSAND *ORIGINAL ENGRAVINGS*, together with a vast amount of practical information concerning the progress of INVENTION & DISCOVERY throughout the world. There is no subject of importance to the Mechanic, Inventor, Manufacturer, and general reader, which is not treated in the most able manner—the Editors, Contributors, and Correspondents being men of the highest attainments. It is, in fact, the leading SCIENTIFIC JOURNAL in the country.

The Inventor will find in it a weekly *DIGEST of AMERICAN PATENTS*, reported from the Patent Office,—an original feature, not found in any other weekly publication.

TERMS—$2 a-year; $1 for 6 months.

All Letters must be Post Paid and directed to

MUNN & CO.,
Publishers of the Scientific American,
128 Fulton street, New York.

INDUCEMENTS FOR CLUBBING.

Any person who will send us four subscribers for six months, at our regular rates, shall be entitled to one copy for the same length of time; or we will furnish—

Ten Copies for Six Months for	$8
Ten Copies for Twelve Months,	15
Fifteen Copies for Twelve Months,	22
Twenty Copies for Twelve Months,	28

Southern and Western Money taken at par for subscriptions, or Post Office Stamps taken at their full value. October 10, 1851.

NORTHUMBERLAND STRAITS,
Fishing Company.

WHEREAS, four hundred shares and upwards, of the Stock in the above named Corporation, have been taken and subscribed for, by the undersigned Alexander Munro, in pursuance of the power vested in me by an Act passed at the last Session of the House of Assembly of this Province, entitled, "An Act to Incorporate the Northumberland Straits, Fishing Company," do hereby call a Meeting of the said Corporation, and of the Corporators named in the said Act, and of such other persons as shall have become Proprietors of shares therein, and do appoint such meeting to be held at the Temperance Hall in Bay Verte, in the Parish of Westmorland in the County of Westmorland, on Friday the third day of October next, at five o'clock in the afternoon, for the purpose of organizing such Corporation, and of electing five Directors of the said Corporation pursuant to the provisions of the said Act of Assembly.—Dated the 15th day of September, 1851. ALEXANDER MUNRO.

S. K. FOSTER.
August 8, 1851. [City Papers 3i.]

To the Electors of the City and County of St. John.

GENTLEMEN,—A vacancy in the representation of this County has been created by the recent appointment of your late Representative, the Hon. R. D. Wilmot, to the office of Surveyor General.

Yielding to the earnest solicitations of many influential and respectable electors, both of the City and County, I have determined to come forward and tender you my services at the approaching election. My sole object in soliciting your suffrages is to give you an opportunity of expressing your opinions of the recent appointments in the only constitutional way. Should I be thought worthy of your confidence, I hope I may be instrumental in promoting your interests and those of the Province.

You are aware, Gentlemen, that the present is my first appearance before you in a political capacity, and therefore it may be deemed necessary that I should briefly state my political views. Being myself interested in Ship-building, Navigation and Agriculture, and being also the managing partner in the York and Carleton Mining Company, my interests are in every way identified with yours. Having likewise for some time been engaged in the Lumber Trade, I have thus become acquainted with the interests of the staple trade of the Province. It is only natural, then, that my principles should be consistent with yours, and that my other desire should be to promote prosperity of the country, Commercial, Manufacturing, and Agricultural, as far as lies in my power.

I have ever been a Liberal in politics. I think a fair and equitable system of Protection would tend much to promote the general interests. I cannot place confidence in the present Government, as I disapprove of many of their acts; but I would not consider it my duty, should I be elected, to oppose any measure they might bring forward, which appeared to be for the public good.

I am of opinion that the construction of the European and North American Railway is a work of vital importance to the Province at large, but particularly to the City and County of Saint John; and I would, therefore, think it my imperative duty to aid it to the full the Provincial resources could afford, consistently, with a due regard to other claims on them.

In reference to the subject of Education, I think that a permanent improvement can be effected by no means so surely and so easily as by a moderate system of direct taxation.

These Gentlemen, are the outlines of my political views; and if you are of opinion that I can in any way promote the interests of your County and my own, and look to me as your representative in the Provincial Assembly, I shall endeavour, as far as possible, to prove myself in some measure worthy of the trust you repose in me.

I am, Gentlemen,
Your obedient servant,
ALLAN McLEAN.

St. John, October 7, 1851.

To the Independent Freeholders of the City and County of Saint John.

GENTLEMEN,—

HAVING been appointed Surveyor General of the Province, and one of His Excellency's advisers, my seat in the Legislature has become vacant; and I have now to request your suffrages to return me

Assembly.

Charges have been brought against me from a certain quarter, supported by a Radical press, that having become a member of the Provincial Administration, I have thereby falsified my pledges, deserted my party, and abandoned my principles. These charges I most distinctly and emphatically deny—the principles expressed by me, when I first asked for your suffrages, and received your support, have been consistently advocated by me in the Legislature, and will still continue to govern my future course both as a member of the Administration and of the Assembly, should you again honor me with your confidence. To you gentlemen, and not to my colleagues, do I hold myself responsible for my public acts.

I have stated publicly on the Hustings and in my place in the Legislature, that I could not give my support to any Administration composed of individuals, holding conflicting opinions on the subject of trade and of general policy, as it would be impossible for them to agree upon measures for the developement of the Provincial resources; while this has been my expressed opinion, I have not opposed measures brought in by the Government merely as such, but have given my vote in accordance with my own judgment, and not with any combined opposition. I also publicly stated in the House during the last Session, that also opposed to the Government as then constituted, I could place no confidence in the opposition, as some of its members held opinions altogether opposed to my own views; and such, as if carried out, would in my opinion be seriously detrimental to the best interests of this Province.

You gentlemen are aware that the Government was sustained during the last session by a majority of the Assembly, and that all the members from Saint John and those from King's, voted in opposition on the resolutions expressing a want of confidence. While the Government was sustained, it yet had not such strength as was required to carry measures through the House of general utility and interest, and a Government without sufficient strength to take the initiation in general measures, was of itself injurious to the public. Since the close of the Session, I was informed by direction of His Excellency the Lieutenant Governor, that a reconstruction of the Council would take place, and it was important that the extensive and varied interests of the City and County of St. John and the counties adjoining, containing one fourth of the whole population of the Province, should be represented at the Council Board, by members of the Assembly, more particularly at a period when the undertaking of public works of vast general importance, and in which the interests of my constituents would be deeply involved, were to be brought under the consideration of the Government and Legislature. Being fully aware from circumstances within my own knowledge, that the Council could be reconstructed, and a majority of the House secured, without the City and County of St. John or that of King's, having any voice in the matter, I also due consideration and consultation with many of my influential political supporters, deemed it my duty to lend my aid in the reconstruction of the Council, and under all the circumstances, I would have been recreant to your interests had I refused.

I have been charged with having bound myself to support a Railway scheme, that would involve the Province in a debt that would impose a direct tax of £20 to £30 per annum, on every poor farmer in this country; such representations are false, and unfounded. I have always opposed free trade and its inevitable concomitant—direct taxation—and I shall never support any scheme to procure a Provincial Loan, that would render necessary direct taxation for its liquidation. The only purpose for which I would advocate direct taxation, would be to a moderate extent, for the support of Schools.

Numerous have been the misrepresentations with regard to my views relative to Protection. In few words, I will simply state, that in my opinion the tariff should be so adjusted as to raise the necessary Revenue principally from articles of superfluity and luxury—that articles of tropical production and of necessary consumption, as well as raw material, should be admitted at a low rate of duty, or entirely free—and such articles as the Farmers and Mechanics' of the Province are prepared to produce or manufacture, should be protected by such duties, as would give a decided stimulus to Home industry.—To the Fisherman, encouragement should be given, equal to what is granted to the neighbouring States.

I have always advocated an unrestricted trade between the North American provinces.

The length of this address, prevents my entering further into particulars. My past political conduct must be the guarantee for my future course.

Gentlemen, I have entered the Government under the full impression, that my services will be of more benefit to you in that position than they otherwise could
