having betrayed Canadian interests; and of the Government who left him without definite instructions as to his course. The meeting declared unanimously in favor of uniting the whole territory to the British Provinces.

Another Toronto meeting, composed of the indignant cabmen and carters, issued in a most tumultuous riot, which was only quelled by calling out the military. Toronto has an unenviable reputation for fraudulent cab-drivers and carters. An enterprising omnibus company, and a company for the transportation of freight were started to meet the difficulty; and, as may be supposed, were patronized so largely that cabmen and truckmen became great losers. This must not be, and so they petitioned the Council to put the companies down, and waited upon the city fathers in a body to enforce their modest claim. Denied redress (?) they took the law in their own hands and destroyed several of the omnibuses, assaulted the agent of the transportation company, broke the windows of the hotel where he took refuge, and maltreated any honest cabman or truckman disposed to do his duty. No blood was shed, happily; and the ring-leaders were arrested. A. B.

SUMMARY OF NEWS.

Sad Accident.—A correspondent writing to us from Cornwallis, N. S., gives the subjoined account of a sad accident there:—

On Wednesday, 12th inst., while three young men were gunning in the neighbourhood of Sheffield's Mill Ponds, the gun of Mr. Charles Beckwith accidently discharged, and, sad to relate, drove the whole load entirely through his left wrist, carrying with it nearly all the bone, for about three inches in length, dislocating the wrist joint and mangling the hand in a dreadful manner. Mr. Beckwith being at a considerable distance from his companions, and surrounded by a thicket of bushes, it was sometime before he succeeded in getting them to his assistance. He was taken to the house of Mr. Stephen Harris, and, medical aid being procured, amputation at a few inches below the elbow was found indispensible, and after suffering the most excruciating pain for about four hours, his arm was taken off. After receiving every mark of hospitality from Mr. Harris and family, he was enabled to be taken home, where at last accounts he was doing as well as could be expected. Mr. Beckwith is a promising young man of about twenty-five years of age, and highly esteemed by those who have had the pleasure of his acquaintance. A. B.

Melancholy Accident.—On the 12th inst., a young man, named John Foy, about 17 years of age, only son of John and Margaret Foy, of East Waterloo, Johnston, Q. C., was accidently killed by a lad named Thos. M'Keal. The deceased went to M'Keal's to help him to cut some hay, and about 4 o'clock in the afternoon young M'Keal came where he was at work, and took the scythe from him to mow. The very first time he swung it he struck deceased on the inside of the thigh, cutting the femoral artery, and causing his almost immediate death.—*Freeman.*

☞ On Tuesday evening, the boiler in the Mills of the late Capt. C. Brown, situated below Indian Town, exploded, severely scalding several of the workmen.—*New Bruns.*

A Good Crop.—A field of wheat near the Railway terminus at Moncton has attracted the attention of a good many of those who have been there of late, by its luxuriant and fruitful appearance. The seed, we are informed, was procured from Messrs. Jardine & Co., of this City, last spring, and grown within half a mile of Courtney Bay, and the quantity sown, as we learned, 26½ bushels.—The crop has been sold, as it stands on the ground, at the handsome price of £230, the purchaser taking the expense and risk of harvesting. Who will say after this that farming will not pay in New Brunswick?—*Courier.*

UNITED STATES.

The Mechanic's Bank of New York, capital $632,000 had faded. Also—Messrs. Seeber & Co., Brokers. An officer of the Bank had been arrested for embezzling $10,000. The excitement in New York on account of commercial matters was intense.

A collision had taken place on the Galena and Chicago Union Railroad. One life was lost, but only one person dangerously injured. An accident had happened on the Railway at Springfield, seriously if not fatally injuring a boy.

Additional troops have been ordered to proceed immediately to Kansas.

The Purdell Estate.—The Surrogate of New York has decided this case against Mrs. Cunningham, that she was not married to the late Dr. Harvey Burdell, and that, therefore, his property shall be divided among his blood relations. This decision subjects her, and her eldest daughter, Augusta, to a prosecution for perjury, both having repeatedly sworn that the marriage took place. The decision was communicated to Mrs. Cunningham within an hour after it was rendered. She betrayed but little feeling, but expressed herself in such a way as to create an impression that it was just as she expected. It is her privilege now to appeal to the Supreme Court, and thence to the Court of Appeals.

The President of the village of Saratoga has declared war against the gamblers. Several of the fraternity had been arrested, but gaming instruments have not been discovered. Five of them—have given bale to appear at the next term of the Court.

It is stated that John Hawkins, the temperance lecturer, is suffering from actual want, and what is more aggravating, has a sick wife. A correspondent of the Boston Journal suggests that some means ought to be taken by the friends of temperance to relieve him.

Abolition of West India Slavery.—The Netherlands government has presented to the States General a *projet de loi*, having for its object the abolition of slavery in the West Indies. The basis of the *projet* will be an indemnity, which is calculated at 34,000,000 guilders, to be paid to the proprietors of slaves.

Utah.—Intelligence, which is considered reliable, has been received at the Interior Department at Washington, to the effect that Brigham Young is prepared to resist General Harney, on his entry into Utah, and that he continues to hold up the Government of the United States to the contempt of the Mormons. General Harney will, probably, teach him better manners when he gets there, which will not be this year.

Interesting Wedding Party.—In the city of Lexington, on the evening of August 5th, was witnessed such a wedding party and such a marriage ceremony as perhaps never occurred in the United States, certainly not in the State of Kentucky. Mr. John Blount, the bridegroom, is a deaf mute, who was brought up in Alabama but received his education at the Kentucky Institution for the Deaf and Dumb, at Danville, where he is at present an accomplished and highly esteemed instructor. He is a tall and fine-looking specimen of a man, and is a gentleman in every sense of the word. Miss Lucretia Ann Hoagland, the bride, is also a deaf mute. She was educated in the institution at Danville, and would pass for a beautiful and accomplished lady in any circle of society. Mr. and Mrs. Wm. Hoagland, the parents of the bride, at whose house the marriage took place, are also both of them deaf mutes. They received their education some twenty-five or thirty years since at the same institution. They have three other children—two of whom hear and talk; their youngest, a little boy of nine years of age, is, like the bride, a mute, and expects before long to go to the same institution, to obtain that inestimable blessing—a good education—which his father, mother and sister have received before him. There were also present, as invited guests, some twelve or fifteen educated mutes, all of them present or former pupils of the above named institution. The officiating clergyman was also a mute.—[Louisville Journal.

LATER FROM EUROPE

Arrival of the "Atlantic."

New York, Aug. 31.

Atlantic arrived yesterday.

No decision has been made regarding further attempts to lay the submarine cable at the present season. A meeting of the Directors was being held on the subject, the day the Atlantic sailed.

The crops in England were damaged by the storms, but succeeding good weather will probably counteract the effect.

Nothing politically important.

Three Days Later from Europe.

Important from India—Severe fighting and great sacrifice of Life.

New York, Sept. 2nd.—The steamer Vanderbilt, which sailed from Liverpool on the 22nd August, has arrived.

The Indian news is important. Gen. Barnard and Sir Henry Lawrence are dead. Cawnpore had been re-captured.

There had been a great massacre of Europeans there. The rebels were defeated in three engagements.

The Gwalior contigent had mutinied.

The transit steamer has been lost in the Straits of Sunda, but the troops on board were saved.

A sanguinary attack had been made upon the Jews at Tunis.

The English representative in Persia demands the immediate evacuation of Herat by the Persian army.

MARKETS.

Liverpool breadstuffs quiet, with a slight decline on all kinds. Sugar is lower. Coffee steady; Tea firm; common Congou 14d. Other markets generally unchanged.

Consols 99¾ to 90 ⅞.

A Revolution in Madagascar.—The news from Madagascar is of serious import; and it may be hoped that the frightful atrocities of the wretched Queen of that beautiful but most unhappy country have now reached a point beyond which they will not be permitted to go. Persecuted to an insufferable degree by the creatures of the Queen, four thousand men make their way to the court and claim the protection of the Monarch herself against further acts of brutality; but, instead of being respectfully heard and promised redress of their wrongs, this hoary-headed, incorrigible woman orders eighteen hundred of the petitioners to be arrested, and subsequently put to cruel deaths, upon the occasion of a solemn feast. The Prince, her son, the heir to the throne—said to be a devout and enlightened Christian—rises up, however, protests against the monstrous wrong, and declares that the fiendish deed shall not be done. This is the first time that the young Prince has taken so bold a position. His policy has hitherto been quietly to shield the victims of his mother's heathenish rage; and no wonder, therefore, that his declaration, made publicly in presence of the Queen, her Ministers, and the whole Court should have produced "an immense sensation," and have led to the expectation of "great events." It is a curious, and, may be, a providential, circumstance, that M. Lambert, the Ambassador from France, arrived upon the island at the exact time of this insurrectionary movement.

Latest from India.—Delhi had not fallen up to the 27th June, and the mutiny was spreading. Such is the sum of the intelligence received by the British Government by a telegraphic communication from Trieste in anticipation of the arrival of the overland mail from India. The Bombay and Madras armies continued faithful. The rebels in Delhi had made several sorties, but were repulsed with great slaughter. Cholera prevailed in the city, which was reported to be full of sick and wounded. The British force before the city is between 7000 and 8000 Europeans and 5000 natives, the latter deemed trustworthy. Reinforcements were arriving in the British camp. At Sissa, the rebels were encountered by the troops under General Van Cortlandt, and defeated with a loss of 200 dead left on the field, besides prisoners. Fresh troops were arriving at Calcutta.

The number of regiments which had ceased to carry arms for the Company is stated to be now upwards of forty, perhaps forty six. At Allahabad, the mutineers murdered Capt. Bird, the Fort Adjutant, and all the Europeans they could lay hands on. Captain Guise of the cavalry had fallen a victim to the infuriated soldiery at Benares. Lieut. Hutchinson was shot at Azimgkur. At Jaunpore, Mr Cuppage, a civilian, was killed, and Lieut. Mam badly wounded. Sir Norman Leslie had been slain at Rohnee, and Major Macdonald and Dr Grant severely wounded. Captain Nixon and Murbee had been sacrificed by the levies of the Rajah of Bhurtpore; Lieutenants Brodie and Hunt by the cavalry of the Malwa contingent. The British at Bareilly were massacred while at church.

The first check to the progress of this tremendous movement, the details of which absolutely make one feel giddy, will be the fall of Delhi; and by the mercy of God, we hope we may now look forward with confidence to that achievement as the grand announcement of the next mail.

The Circus.—As to the morality of the Exhibition itself we will leave our readers to judge for themselves; but we would remark on the bad taste displayed by many who will be there. Many parents will go with their families, consisting of five or six persons, in all, and will pay for a couple of hours enjoyment perhaps two or three dollars, including loss of time. To this we have nothing to say, if their tastes lead them in that direction; but what we do consider somewhat reprehensible is—that some of these very same parties will either grumble, or entirely refuse, to pay one dollar and a half or two dollars to take a newspaper for the amusement and instruction of themselves and their families, not merely for a few hours, but for a whole year. They will pay their hard earned money for the privilege of witnessing the antics of the circus without a murmur; but will grumble very hard at the price of a newspaper, if it happens to cost a few shillings more than what *they* think it ought to be afforded at. Many will pay more to the circus managers next week than they have done for religious and charitable purposes during the past year. Let parties pause and think which would be the most profitable investment of their money in the end. "A word to the wise."—[Perth Standard.

Asthma.—Upwards of one thousand of the worst cases of Asthma have been relieved by using Jonas Whitcomb's Remedy for Asthma. In no case of purely Asthmatic character, has it failed to give prompt relief, and in many cases, a permanent cure has been effected. No danger need be apprehended from its use. An infant may take it with perfect safety.

A pleasant travelling companion, and one that no traveller should be without is Perry Davis' Pain Killer. A sudden attack of diarrhœa, dysentery or cholera morbus can be effectually and instantaneously relieved by it.

Letter from a distinguished Lawyer in Newburyport Mass., in favor of
Jonas Whitcomb's Remedy for Asthma.

Newburyport, February 25, 1856.

Joseph Burnett, Esq.: Dear Sir—It is now nearly twelve months since I received the first bottle of your valuable medicine for the cure of the Asthma. I was determined to give it a thorough trial, and to convince myself that it was through its effect, that I was being so much benefited, before I wrote you. I am now satisfied that my relief from one of the most aggravating, most distressing and most unrelenting disorders that ever afflicted a human being, is attributed wholly to this Remedy. For thirteen years I suffered with the Asthma, and during that time there were but few months in which I did not suffer with a paroxysm that entirely prostrated me for two or three days, and sometimes longer. It grew upon me in severity until in 1853 and 1854 I was obliged, for months together, to sleep in my chair; and the least active exercise would bring on a paroxysm of suffocation so severe, that I could not move an inch for hours. But it is useless for me to describe the tortures of the spasmodic asthma. Those for whom this is intended know full well what it is, and will merely say, that from the time I took the first dose of your "Remedy" to the present hour, I have not had a bad attack, and now my system is so free from it, that the most active exercise and exposure seldom has any other effect, than to slightly restrict the lungs. Your medicine soon dispels that sensation, and I can safely claim a general release from the tormentor. Please accept my gratitude for the great blessing, and believe me that I shall endeavor to introduce the Remedy whenever opportunity occurs.

With great respect, your ob't servant,
J. H. BRAGDON.

Prepared by Joseph Burnett & Co., Boston. For sale by all Druggists, at $1 per bottle.

Dear Sirs:—We began selling Perry Davis' Pain Killer with very little effort on our part; sales were small at first, but as it became known in our community, the demand increased very rapidly, far beyond our expectations, and every person that bought it would come after more, and speak in the highest terms of it as a valuable remedy for all those diseases your pamphlet spoke of. From these recommendations we were induced to use it in our own families, and now continue its use with great satisfaction. We have sold more of the Pain Killer than we ever have since or before of any other medicine in the same length of time; and we do not hesitate to say that it has given better satisfaction to the purchaser than any other article we have ever sold. Hurry of business has prevented our sending certificates, but we have in our vicinity from fifteen hundred to two thousand living witnesses who testify to their neighbors, day by day, of the value of Davis' Pain Killer. Keep a large supply in the West, it is just such a medicine as the people want, and they have already found out that they can cure the Fever and Ague for twenty five cents. It will cure a cold in one hour—a severe cough in one night—and has proved to be the best medicine in use for a deranged stomach and many other purposes.

LOCKWOOD & GRANDALL, Sandusky City, Ohio.

Sold by S. L. Tilley, Fellows & Co., and T. Walker & Son, St. John—W. L. Ferguson, Woodstock; Geo. C. Hunt, Jr., Fredericton.

☞ That no other Pill, or remedy for Liver Complaint, has gained, so deservedly, the reputation now enjoyed by Dr. M'Lane's Celebrated Liver Pills, prepared by Fleming Bros. of Pittsburgh. As an evidence that they will cure, read the following certificate from a lady residing in our own city:

New York, January 23, 1852.

This is to certify that I have had the liver complaint for six years, and never could get any medicine to help me until I commenced using Dr. M'Lane's Celebrated Liver Pills, prepared by Fleming Bros. I can now say to the public that they have completely cured me; and I do hereby recommend them to all persons afflicted with a diseased Liver. They will cure. Try them.

MARIA EVANS, No. 94 Lewis-street.

☞ Purchasers will be careful to ask for DR. M'LANE'S CELEBRATED LIVER PILLS, manufactured by FLEMING BROS, of Pittsburgh, Pa. There are other Pills purporting to be Liver Pills, now before the public. Dr. M'Lane's genuine Liver Pills, also his celebrated Vermifuge, can now be had at all respectable drug stores. None genuine without the signature of FLEMING BROS.

EDITOR'S CERTIFICATE.
A CURE BY OXYGENATED BITTERS.

Burlington, Vt., Nov. 12, 1856.

Gentlemen.—I suffered for about a year previous to last spring, from a derangement of the action of the heart, which like most others similarly afflicted, I supposed to be an organic disease, and having seen the Oxygenated Bitters highly recommended for use in such cases, I procured and used a single bottle, with entire success.

The disagreeable symptoms speedily disappeared, and I have never had any recurrence of the disease.

Being really of opinion that this medicine is of unquestionable value as a cure for Dyspepsia, (in which opinion I am happy to know that I agree with many intelligent physicians,) I have no hesitation in permitting this certificate to be used in any way that will promote its more general use.
