Anglin replied in an excited and angry manner, charging McGee with complicity in former Irish risings. He spoke of Catholic Senator question, and affirmed that Confederation was carried in New Brunswick by treachery and intrigue.

Tilley replied, meeting him at every point and exposing with telling effect the gross misstatement and mi-representation made.

Smith gave a *resume* of the Gordon embroglio, speaking more powerfully than he did in his previous effort.

Johnson briefly spoke on the constitution question, and the address passed at 12 30.

Yesterday the Premier answered questions. He said there was reason confidently to look forward to the speedy addition of other territory on the Dominion; that it was the intention to introduce a measure fixing a plan for Government Savings' Banks; that it was not intended this session to present a measure for the enlargement of the St. Lawrence and Welland Canals, nor a measure for the establishment of a Mint in the Dominion.

By Mr. Mills—a Bill to prevent dual representation or the holding by any individual of a seat in the Local and also in the General Parliaments at the same period.

The latter attaches the duties of Indian Affairs and Ordnance Lands to the Bureau of the Secretary of State for Canada—virtually abolishing the Secretaryship of State for the Provinces.

Resolutions fixing Member's pay were taken up in Committee.

Fisher spoke against ten cents mileage as too low; the nearest mail route was unfair; and the whole proposition was unjust to the Members from the Lower Provinces who had not the travelling facilities of the Ontario and Quebec members. He would vote against the resolution.

The Premier replied warmly and humorously. He was willing to allow an exception in favor of the Maritime members if necessary.

Johnson followed, supporting Fisher. He thought the pay assigned to members was disproportionate to Minister's salaries. The debate continued by Canadian members discussing the respective merits of Daily Pay and Sessional Allowance.

Rumored that Beveridge and Glasier, of New Brunswick, will be Senators, and Gray to be an Intercolonial Railway Commissioner.

An Havana special, contains advices from Porto Rico to 7th inst. Half the members were opposed to such a proceeding, as it would tend to arouse public consternation and would bring ridicule on the Board. Count Valmaserda, Captain General acting pro tem, has paid a visit to the military hospitals to satisfy himself of how things stand.

KINGSTON, Jamaica, Nov. 16.—There is fear of another negro riot and revolutionary outbreak. BRITISH AND FOREIGN.

Parliament has been called to re assemble Nov. 19th. The first squadron of the Abyssinian expedition has left Aden, at the mouth of the Red Sea, for the coast of Abyssinia. Ismail Pacha, Viceroy of Egypt, has offered his assistance to England, and has despatched a corps of native troops to Abyssinia to join the British expedition.

The Cabinet which for a long time has had the subject under discussion, has resolved to place all the Telegraph Lines of Great Britain under the direction of the Post Office Department.

Private advices received from Paris represent that many political arrests have lately been made by the police in that city. It is rumored that the existence of a secret society of alleged political characters has been made known to the Government and these arrests were made in consequence of the discovery.

The report of the resignation of Marquis De La Valette, Minister of State for the Interior is confirmed. The Emperor has appointed M. Pinard his successor. M. Pierre Mayne has been appointed Minister of Finance. Don Macedo, Minister of Brazil to France, died to-day.

The last note addressed by the Cabinet of the Emperor to the European powers simply propose the assembling of a general conference for settlement of the Roman question. It does not suggest any definite plan as a basis for the deliberation of the conference.

Previous to the departure of the French troops from Rome, the Holy Father received the Staff Officers in a body, at the audience chamber of the Vatican, and addressed them in a most feeling manner. He expressed his happiness at having the soldiers of France around him once more, but never had his happiness been so great, as it was now, because of the recent peril to which he had been exposed. He returned thanks to the officers, to France, and to the Emperor Napoleon, for the protection of the Holy See. He was filled with grief to see that Italy had sent out, as a vanguard against Rome, a horde of anarchists, upon whose flags were inscribed rapine and devastation. While the valor of the Pontifical troops defended the soil of the Church, the army of France came to crown the splendid defence. The Pope concluded by saying that in the middle of his trouble he had the consolation of receiving sincere expressions of catholic sympathy from all parts of the world. His Holiness then concluded the interview by giving his apostolic blessing to the army, the people, and the Emperor of France.

Late despatches received from Italy state that the feeling against the French on the part of the Italians has reached a perfect furore.

The authorities have taken precautions to prevent another outbreak which was imminent, and more French troops have been despatched from Toulon for Civita Vecchia.

Baron Ratazzi, former Prime Minister, has openly joined the radical party.

King Victor Emmanuel has called out the reserves of the Italian army, and ordered the formation of three large camps. Gen. Garibaldi is still closely confined in Florence.

BERLIN, Nov. 15.—The third Parliament of the Confederation of North Germany assembled in this city to-day. The session was opened this morning by His Majesty, the King of Prussia, who made the usual speech from the throne in person. The King after congratulating the members generally on seeing them again assembled, addressed a cordial welcome to the deputies of those Provinces which were now represented for the first time in that body.

The attention or the members was then called to the work of the Legislation before them; and the various bills which would be submitted to their consideration, were referred to in detail. Alluding to foreign affairs, the King declared that the relations of the Confederation with the other nations of Europe were entirely satisfactory. Foreign powers all appreciated and respected the pacific aims of Prussia. In regard to the progress of German unity he said that conflict with the States of South Germany now allied with Prussia was no longer to be feared, and in settling the question of the future relations of the South German States with the Confederation, the Prussian Government would studiously endeavour to reconcile the views of their catholic subjects with the internal and international interest of the whole fatherland. The King concluded with a declaration that the preservation of peace in Europe was now certain.

LONDON, Nov. 17.—The Fenian trials are progressing in Dublin. The jury in the case of Costello brought in a verdict of guilty. On the opening of the Court, Saturday morning, Warren and Halpine were sentenced to 15 years imprisonment. Costello was sentenced for 12 years.

The conference proposed by the Emperor Napoleon for the settlement of the Roman question seems to be attended by difficulties. The Pope objects to any conference in his behalf, and the several powers which have been invited to participate are divided on the question of the necessity for the conference.

It is asserted that Spain is the only power that supports the temporal power of the Pope in any event.

The meteoric shower on the night of the 13th and morning of the 14th was very brilliant. At Paris many thousand meteors were visible not only in the city but throughout Europe.

The British Government has received from the West Indies no official advices of the submersion of the Island of Tortola, as reported here by a cable despatch from New York.

The troops of the French Expeditionary Corps in Italy are making preparations to go into winter quarters at Civita Vecchia.

The Fenian prisoners Halpin, Warren, and Costello, when brought up before the Special Commission yesterday for the last time to receive sentence were asked by the Court if they had anything to say why the penalty of the law should not be imposed in their cases. They replied by making strong speeches, in which they reiterated their protests against the jurisdiction of the Commission; denied the legality of their trial without a mixed jury, and claimed that as citizens of the United States they were entitled to the protection of the American Government.

LONDON, Nov. 18.—A despatch from Alexandria brings intelligence that the American Consul General at that port, Charles Hale, Esq., has induced Ismail Pasha, Viceroy, to issue a decree permitting the return to Egypt of the American missionaries, and native Christian converts, who have been exiled from the country.

The French Chambers opened to-day. Emperor Napoleon opened the Session as customary with a speech, wherein he affirmed that there was no longer any objection to German Unity and consolidation on the part of the French Government.

The Colonial Office not having received any particulars of the alleged sinking of the Island of Tortola and the drowning of 100 people, in answer to the telegrams sent to the officials in the West Indies, the story is generally discredited here, or at least believed to be greatly exaggerated.

LONDON, Nov. 19.—The speech of Napoleon before the French Chambers yesterday, was published this morning. It relates to Italian and German affairs, and question of Reform. The document is quite short, making less than 1,500 words.

The *Times*, in its comments, warmly praises Napoleon, and regards the speech as the most liberal, peaceful, and sensible of the second Empire.

ARCOSTIC.

Gently it penetrates through every pore,
Relieving sufferers from each *angry sore*;
All *wounds it heals* with certainty and speed;
Cuts, burns, from inflammation soon are freed;
Eruptions, at its presence disappear;
It kills lose each stain, and the complexion's clear!

HALVE, such as GRACE's every one should buy,
It to its wondrous merits testify.
Let those who doubt, *a single box but try*,—
Verily, *then* its true deserts would have;
Even unbelievers would land GRACE'S HALVE!

Honor to Whom Honor is Due.

It has been said by a few unfortunate mortals who have striven in vain to gain position of honor and distinction, that they were not sufficiently appreciated. While such may sometimes be the case, it is generally to be observed that *true* deserving worth eventually accepted and honored, whether applied to religion, politics, the arts, or invention. Next to religion, invention or discovery has the highest position, for it wields a mighty influence; through its channels nations have overleaped, as by magic, the bounds of separation, and, united by electric wires, can converse together at momentary will.

Indeed, the diversified efforts of man's genius in these respects are a source of admiration and gratitude to the whole human race. In medicine, science has revealed during the last quarter of a century, many hidden truths, which had before been considered to be impossibilities.—The malignity of pestilential disease is now in a great measure bereft of its terror, and even the "insatiate archer," consumption, is arrested in his deadly march, and oftentimes overthrown. Undoubtedly the great rallying power in the treatment of this and other pulmonar diseases, is Dr. WISTAR'S BALSAM OF WILD CHERRY; and the foregoing allusions are applicable to the memory of its illustrious discoverer. The proof of the efficacy of this great remedy is in its undying reputation. It has stood the test of time, and its fame as a curative of Throat and Lung Death in its lists has extended to all climes.—*Canada Christian Advocate.*
