The Subscriber having been appointed Agent to the above Company for New-Brunswick, begs to announce that he is prepared to receive Proposals for FIRE AND LIFE ASSURANCE. The large Capital of the Company, and the number and influence of its Proprietors, enable it to rank with the most eligible Offices, either in America or Europe, with respect to the advantages offered to the Public.

FIRE BRANCH.

Persons assured by this Company are not subject to any covenants or calls to make good losses which may happen to themselves or other, nor do they depend upon an uncertain fund or contribution, the Capital Stock of this Company being an unquestionable security to the Assured in case of Loss or Damage by Fire.

LIFE BRANCH.

In addition to the more customary methods of Insurance, the Company likewise Assures Live on any of the following contingencies:—

For the term of One Year, Seven Years, or any other definite period.

For the whole continuance of Life.—The Premiums to cease, after a limited number of Annual Payments.

For Two Joint Lives.—The sum assured to be paid on the death of either.

On the longest of Two or Three Lives.—The sum assured to be payable at the death of the last survivor; or,

The Survivorships.—To secure the payment of the sum assured, if a life A die before another life B.

For a sum to be payable at age 60, or at death.

Premiums on Credit.—A portion of the Premiums may remain on Credit. Assurances may be effected in various ways, not enumerated, to meet the convenience of parties.

The important advantages afforded by the Company in the Life Branch will include the following, viz:—

The Guarantee of an ample Capital, and Exemption of the Assured from liability of Partnership.

Moderate Premiums.

Large Participation of Profits by the Assured, amounting to Two-thirds of its net amount, which may be applied at the option of the party effecting the Assurance:—1st. By the immediate payment of the sum so apportioned.—2nd. By an equivalent reduction of the future Premiums.—Or, 3rd. By an equivalent increase of the sum assured.

Small Charge for Management.—The expenses of the Office being borne in due proportion by the two Branches.

Prompt Settlement of Claims.

Policies lapsed by non-payment of the Premium may be renewed within three months, by paying the Premium, with a fine of 10s. per cent., on the production of evidence to the satisfaction of the Directors of the good state of health of the life assured.

The Company will always be prepared to Purchase the Policies of this Office at their equitable value, or will grant a New Policy in lieu thereof, without any further payment of Premium, for a sum to be agreed on.

Extra Premiums, suitable to special circumstances, will be accepted, to enable a party possessing a Policy on the life of another to guard against the possibility of its being vitiated by the Life departing beyond limits, or by any other cause.

Thirty Days are allowed for the Payment of Premiums after the day on which they respectively become due.

Additional Advantages offered to Lives Assured with this Company at St. John, N. B.

I.—RESIDENCE.—Persons assured for the whole term of life will have permission, without the payment of extra Premium, to reside in any part of Europe, or in any place in North America to the north of 38 degrees of North Latitude, but not to the westward of the Mississippi River.

II.—VOYAGES.—They will also, if not sea-faring by profession, be allowed, without any extra charge—

To cross and re-cross the Atlantic Ocean, in steamers or first-class sailing-vessels;

To pass from any part of Europe to any other, or from any part of North America to another, within the limits above specified;

To pass to and from, but not to reside in any place which shall not be further south than 35 degrees of North Latitude, but not to the westward of the Mississippi River.

REVIEW OF THE WORK.

Marriage requires the fulfilment of several conditions, in order that it may be really the cause of mutual happiness. Could the veil, which covers the origin of domestic wretchedness, be raised, and its true source of every instance be disclosed, in how many could it be traced to physical disqualifications and their attendant disappointments.—Excesses are always injurious; the gift, which when used in moderation is fraught with advantage, becomes, when abused, the prolific source of mischief, and of greater or less injury to the constitution and vital powers. The particular excesses, on the nature and consequences of which this Treatise professes to dilate, are productive of greater misery to the human frame than any other to which it is subject.

This work contains an accurate and complete account of the Anatomy and Physiology of the Reproductive Organs, and of their relative conditions in health and disease. Nor are these the sole contents of the work, the means of escape, as well as the nature of the danger, are pointed out in clear and intelligible language. It deservedly requires the close attention and study, for what subject can be more importance than the preservation of health, and of the physical capabilities of which every man should be possessed. It unfortunately happens, that the unhappy victim of excessive indulgence and vicious habits, whether acquired in early life, or from the follies of advanced age, while suffering from their invariable consequences, unwisely encertains a fear of applying to a qualified physician for relief. Shame and the dread so frequently but erroneously entertained and these complaints are beyond the reach of art alike restrict him, and prevent him seeking for assistance where alone it can be procured. In acting thus, he forgets that accurate discrimination in ascertaining the causes of disease, sympathy with the sufferer, and above all, secrecy, invariably characterize the intelligent and practical physician, and to the medical man, who can show by his possession of the requisite legal qualification that he is entitled to esteem and respect in his professional pursuits the utmost confidence should be extended. DR. LAMERT has obtained the highest medical honors, as his diplomas testify, and the great extent of his practice for many years, is a guarantee for his professional experience, which his reference almost solely to the treatment of these diseases.

☞ The work may be had in Saint John, of H. Chubb & Co., price 2s. 8d. Stg.; Halifax, Messrs. Morton & Co.; Quebec, Mr. Neilson.

HOLLOWAY'S OINTMENT.

EXTRAORDINARY CURE OF A CASE ABANDONED BY

Guy's, the Metropolitan, King's College, and Charing Cross Hospitals.

SUMMARY OF AFFIDAVIT.

Wm. BROOKE, Messenger, of 2, Union street, South wark, London, maketh oath and saith, that he (this deponent) was afflicted with FIFTEEN RUNNING ULCERS on his left arm, and ulcerated sores and wounds on both legs, for which this deponent was admitted an outdoor patient at the Metropolitan Hospital in April 1851, where he continued for nearly four weeks. Unable to receive a cure here, the deponent sought relief at the three following Hospitals:—King's College Hospital, in May, for five weeks; at Guy's Hospital in July, for six weeks; and at Charing Cross Hospital, at the end of August, for some weeks more; which deponent left, being in a far worse condition than when he had quitted Guy's, where Sir BARNSBY COOPER, and other medical officers of the establishment, had told deponent *that the only chance of saving his life was to LOSE HIS ARM!* The deponent thereupon called upon Dr. Bright, chief physician, of Guy's, who, on viewing deponent's condition, kindly and liberally said, "*I am utterly at a loss what to do for you! but here is half a sovereign; go to Mr. HOLLOWAY, and try what effect his Pills and Ointment will have, as I have frequently witnessed the wonderful effects they have in desperate cases. You can let me see you again.*" This unprejudiced advice was followed by the deponent, and *a rare effect* wrought in three weeks, by the use alone of HOLLOWAY'S PILLS and OINTMENT, after four Hospitals had failed!!! When Dr. Bright was shown by the deponent, the result of his advice and charity, he said, "I am both astounded and delighted, for I thought that if I ever saw you again alive, it would be without your arm. I can only compare this cure to a charm!!!"

Sworn at the Mansion house of the city of London, this 8th day of March, 1852. } WM. BROOKE.

Before me, JOHN PIRIE, Mayor

IN ALL DISEASES of the Skin, Bad Legs, Old Wounds, and Ulcers, Bad Breasts, Sore Nipples, Stiff and Ulcerated Cancers, Tumours, Swellings, Gout, Rheumatism, and Lumbago, likewise in cases of Piles the Pills, in all the above cases, ought to be used with the Ointment; as by this means cures will be effected with a much greater certainty, and in half the time that it would require by using the Ointment alone. The Ointment is proved to be a certain remedy for the bites of Mosquitoes, Sand-flies, Chigo-foot, Yawns and Coco-bay.

Burns, Scalds, Chilblains, Chapped Hands and Lips, also Bunions and Soft Corns, will be immediately cured by the use of the Ointment.

THE PILLS are not only the finest remedy known when used with the Ointment, but, as a General Medicine there is nothing equal to them. In Nervous Affections they will be found of the greatest service. These Pills are, without exception, the finest purifier of the Blood ever discovered, and ought to be used by all!!!

I have tried several remedies, and never found any of them to do me good, at last I was persuaded to try "Sharp's Balsam of Hoarhound;" after using one bottle of which, I found myself considerably relieved, and after taking the second, I was entirely cured. SHARP'S Family Medicines.

NOTICE TO THE PUBLIC, OF INTEREST TO ALL.

Sharp's Celebrated Family Medicines and Preparations.

SHARP'S COMPOUND ALKALINE INFUSION OF SARSAPARILLA.—Sarsaparilla has of late years been much used, and with great success, in cases of Chronic Rheumatism, as an alternative in Scrofulous affections, Scurvy, Obstinate, Cutaneous Eruptions, Indolent Ulcers, Diseases of the Periosteum and Bone, attended with obscure pains, wasting the flesh, tenderness of the part, tumors and nodes unconnected with Syphilis, and in that state of the habit known among medical men under the term of Cachexia, but which is not easy to define. In such cases Sarsaparilla proves a most valuable remedy, and often effects a cure when all other remedies have long been administered in vain, and when the diseased state of the system has been of many years duration.

This article, prepared by John G. Sharp, has performed numerous and most astonishing cures of persons who have for years been festered with sores from head to feet, and others who have been sent up with Mercurial Rheumatism, which they had been laid up with for 2 or 3 years. Prepared and sold by John G. Sharp, Member of the Pharmaceutical Society of Great Britain. No B.—Dose, a Wine Glass full, three times daily.
