The Halifax press mention the fact that on her last trip from New York for Liverpool the "City of Manchester" had on board over one hundred emigrants who were returning to their native countries. They belonged principally to Ireland and Germany. Finding it impossible to obtain employment they had decided to get home before their means had dwindled so low as to prevent them doing so.

STEAM COMMUNICATION BETWEEN HALIFAX AND YARMOUTH.—The steamer *Delight*, owned by F. W. Fishwick, Esq., of Halifax, which has been lengthened and thoroughly fitted up, and furnished with new boilers, was launched at Dartmouth on Tuesday morning. The *Delight* is well adapted for freight and passenger traffic, and will be placed at once upon the route between Halifax and Yarmouth.

DOMINION PARLIAMENT.

SATURDAY.—Mr. Rose's financial exposition shows a falling off from the estimated receipts for the year ending 30th June, 1869, of $13 693.41. Customs' duties shows a deficit of $997,764, and Excise $60,840 47; on miscellaneous revenue there will be an excess of $201,00 over the estimate. The estimated receipts for the year ending 30th June, 1870, are based upon a calculation of 5 per cent. addition to the actual receipts this year, giving an estimated revenue of $14,565,000; estimated ordinary expenditure $14 319,000; surplus $246,122; militia expenditure will be $750.000 against $100,000 last year. Expenditure of two millions is anticipated in construction of Intercolonial during ensuing year.

OTTAWA, May 10.—Savary moved for copies of proclamation &c., respecting assimilation of the Currency, and called attention to the different value of the Dollar in different Provinces. He stated that dissatisfaction existed in consequence, and it was time a remedy was applied.

Rose replied. The matter had been postponed in consequence of the failure of Sherman's bill in Congress before last, by which it was proposed to arrange a universal currency. He thought it imprudent to make any change pending the accession of the North West and Hudson Bay, both of which had still a different currency. The motion was withdrawn.

In reply to Fortin, Sir John stated Government did not intend inaugurating a system of postal telegraphs.

A number of petitions in favor of the construction of the Bay Verte Canal were read and received.

OTTAWA, May 11.—Last night a considerable discussion arose on motion to go into Committee of Bill to make 1st July a holiday. There was a strong opposition. Holton, Levisconte, Chipman, Morris, Savary and others speaking against the Bill, Donald McDonald, seconded by E M. McDonald, moved the six months hoist. The Bill was withdrawn by the mover.

To-day Holton gave notice that on Thursday he would move Resolutions on which to found Address to Her Majesty on Irish Church Bill, and expressing desire for its passage.

OTTAWA, May 12.—Yesterday the Great Western Railway arrangement Bill passed in Committee.

The Insolvent Bill which is similar to the former law of Canada elicited a long discussion, in which many prominent legal members took part. A good deal of opposition was evinced both to the principle and details of the Bill. It passed second reading, and was referred to Select Committee. House adjourned half-past eleven.

In the Commons to-day, an important discussion arose on motion of Oliver to go into Committee on resolution to fix the salary of Governor General at $32,000. Sir John A. Macdonald moved an amendment that in consideration of the expressed opinion of the House, Goverament think it is expedient to alter terms of British North America Act.

At recess debate stood over and other matters were taken up. A good deal of interest felt in the matter and members who voted for reduction last year will in some instances be much embarrassed. No doubt amendment will carry.

Howe, Smith, and Senator Hazen, arrived last night.

A Quebec despatch says the body of Ensign Whittaker, who was killed by young Challoner, was embalmed and sent home on the Nestorian.

The troop ship Crocodile sailed yesterday with two batteries of Artillery and the 78th Highlanders.

There is nothing like Dr. Dow's Sturgeon Oil Liniment in the market. No other Liniment has ever stood or is ever likely to stand so high with those who have used it. The Liniment will be found invaluable when used as directed.

During the spring and summer months your horses are liable to be attacked with costiveness, worms, griping, &c., arising from wind and other causes. To prevent all such mischief, or to correct it after it has taken place, Professor Clark's Derby Condition Powders are just the thing required.

☞ Our readers will observe that we rarely praise patent medicines, and that we advertise only the very best of them. But now, the remarkable recovery of Mrs. Rice, of Canastota, from her distressing and almost helpless scrofulous disease, which is known throughout the community, and unquestionably the effect of Ayer's Sarsaparilla, leads us to publish without reserve the remarkable efficacy of this medicine. We do this in the interest of the afflicted. Any remedy which can so effectually "raise one from the dead," should be universally known; and we wish it may be universally as successful as it has been in the case of Mrs. Rice.—[Daily Journal, Syracuse.

BRITISH AND FOREIGN.

A telegram from London, of May 8th, says:—The *Times* has another leader on the Alabama claims. It says England endeavored to do justice to all parties during the late rebellion, and must decline to acknowledge any other motive for her actions. She has offered to submit to arbitration the question whether she has been culpably negligent, but she cannot go further. Extravagant misrepresentations were necessary to furnish the basis for such a policy as is foreshadowed in Mr. Sumner's speech. The *Times* concludes by assuring Americans that it will prove a failure.

The bill permitting marriage with a deceased wife's sister has passed the House of Commons.

The Harvard Oarsmen will row the Oxford men in British waters.

The House of Commons has finished the consideration of the Irish Church Bill in Committee.

In the House of Lords the Marquis of Salisbury wanted to know if Her Majesty's Government endorsed the policy advocated by Mr. Bright, to the effect that the people be placed in possession of the land in Ireland in greater numbers. He said the present uncertainty as to the position of the Government on the land question was injurious. Earl Granville in reply said he must decline to open the question, for a bill on the subject would be introduced at the next session of Parliament. He assured the House that the Government would maintain the rights of property.

The Town Council of Cork has adopted a protest against the bill introduced in the House of Commons disabling Mr. O'Sullivan, Mayor of the City, from performing the functions of a Magistrate.

The Mayor of Cork, whose recent behaviour has made him so notorious, has declined to be a candidate for Parliament.

The *Pall Mall Gazette*, discoursing of the prospect of a Pacific Railroad across the Canada portion of the Continent says: "What concerns others is the fact that such a railway would shorten the distance between Liverpool and the East by *seven hundred miles as compared with the route through the United States.*" This is a fact sometimes forgotten.

LONDON, May 10.—In the House of Commons today, Mr. Fortescue Chief Secretary for Ireland in reply to an enquiry of Lord John Manners said Her Majesty's ministers were already considering the best means of increasing the powers of the Lord Lieutenant of Ireland for the more effectual repression of outrages in that country.

LONDON, May 11.—The London *Standard* to day has a leading article on the Alabama question and Senator Sumner's speech in which the writer reviews the relative position of the United States and Great Britain, and asserts that the raids and other outrages perpetrated by American Fenians in Canada during the past few years more than overbalance the depredations committed by the *Alabama* on American commerce. The Government of Great Britain in consenting to submit the mutual International grievances to arbitration did more than could be fairly demanded, and to yield further would be an act of cowardice and irreparable degradation.

LONDON, May 11.—The Mayor of Cork has resigned, and the proceedings in Parliament, in relation to his case, have, in consequence, been postponed.

The Russian Government is meditating extensive church reforms.

LONDON, May 12.—It is reported that initial steps have been taken for an alliance offensive and defensive between England, France, and Spain against the United States, the rejection of the Alabama Treaty the tone of Mr. Sumner's speech, the alleged filibustering tendencies of General Grant's administration and the reported connivance at expeditions from the United States against Cuba, being made the pretext for a necessity for such an alliance.

A REVOLUTIONARY CONGRESS IN CUBA.—A Congress of representatives from all districts of the island has assembled at Sibanicou. It has established a civil administration, with Don Carlos Manuel de Cespedes at its herd. It has also provided for a distinct military organization, with Gen. Quesada as the Commander-in-Chief; and it has declared the purpose of the revolution to be the achievement of entire independence of the Spanish Government, and the ultimate admission of Cuba as a State of the American Union. All previous decrees of the provisional revolutionary authorities, including the great act of the abolition of slavery, we understand to be fully confirmed and ratified by this Congress.

UNITED STATES.

The great Pacific Railroad was finished on Saturday last. A telegram from Boston of May 7th says: Steamship *China* arrived yesterday from Liverpool in seven days twenty-two and a half hours—quickest time ever made.

Mr. Thornton, British Minister, is at Newburyport selecting summer residence.

Washington despatches assert that the Spanish Minister has informed the State Department that should this country recognize the belligerent rights of Cubans, Spain will regard it as a declaration of war, and authorize the fitting out of privateers.

NEW YORK, May 11.—The competion of the Pacific Railroad was celebrated yesterday in various parts of the country with public rejoicing.

The Murray silk mills in Patterson, New Jersey, were destroyed by fire last night. Loss quarter million dollars.

NEW YORK, May 12.—A Washington despatch says the condition of affairs in Cuba, and the manner in which American residents are treated by the Spanish authorities, are such, that our navy department has decided to send two more war vessels to Admiral Hoff.

NEW YORK, May 12.—Money continues in liberal supply. Gold less fluctuating—closing 138¼.

The *Times* says Dr. Walpole has lost his beautiful chestnut mare. She died suddenly in the harness, it is supposed from Bots or Pin worms. If the Dr. had used *Sheridan's Cavalry Condition Powders* he would no doubt have had his mare to-day—they are death on worms.

Chapped Hands are very common with those who have their hands much in water. A few drops of *Johnson's Anodyne Liniment* rubbed over the hands two or three times a day will keep them soft and white. Fishermen, sailors, and others will do well to remember this.

THE GRAND OPENING SHOW OF
NEW DRY GOODS
AT
Staples, Spencer and Hampson's

NEW STORE, 48 PRINCE WM. STREET, will take place on SATURDAY NIGHT, when they will show the contents of more than 300 bales, cases and packages of the most beautiful and cheapest Goods ever imported into St. John, the whole amounting in value to upwards of $70,000, the whole of which was personally selected by Mr. Spencer from the principal cities of manufacture in England, Scotland and France.

An almost endless selection will be shown in the following depratments, viz.:—Black and Colored Silks, from London and Paris; Long and Square Shawls, from Paisley and Glasgow; Silk Velveteen and Cloth Sacs, Jackets and Mantles, from London; Fancy Dresses, &c., from Glasgow and Bradford; Black and Colored Coburgs and Lustres, from Bradford; White Cottons, from the most celebrated makers; Printed Cottons, from Swabie, Hoyle, MacNaughton, &c.; Printed Muslins, from London and Glasgow; Flannels and Factory Cotton, from Manchester; Parasols, Sun Shades, Ribbons, Linen Sets, &c.

We will also show the largest stock of Straw Goods ever imported direct from the manufacturers in Luton and Dunstable. Also, about 250 boxes of magnificent Flowers, from Paris and London.

Come therefore and see them at our New Store, 46 Prince William Street, on Saturday.
