their ability to beat Howe. The Hon. William Stairs, the last member appointed to the Legislative Council by the Anti Confederates follows Howe. The shipbuilding interests in Hants will generally support Howe.

ONTARIO AND QUEBEC.

The Parliament of Quebec has been adjourned for ten days. The reasons assigned for so doing are that Sir G. E. Carter is absent, that Mr. Dunkin is seriously ill, and, therefore, unable to make his financial statement, and the printing of Bills and other documents have been unavoidably delayed.

A petition is in course of signature in Montreal and Quebec, asking the Governor to reprieve Whelan.

Several persons known to be Fenians have suddenly left for the States, fearing, no doubt, the confession of Whelan may materially affect them.

It is said that the Governor General has given his opinion that Montreal should be the seat of Government, and that he will use his influence to have it removed to this place.

Twenty men of the Montreal Government Police have gone up to Ottawa, to be present at the execution of Whelan.

A telegram to the *News* from Montreal of Feb. 4th gives the following account of the accident in St. Patrick's Hall:

The roof of the new St. Patrick's Hall fell in last night. A Concert and Ball were going on at the time. About 12 o'clock, while the company were engaged in a waltz, they were startled by a short sharp crack as of a pistol shot in the roof, directly over their heads. Not much notice was taken of this till a few minutes after, when a second report was heard, louder than the first, and pieces of plaster began to fall. A panic now seized the people, and a rush was made towards the stairs. The excellent facilities for egress which the Hall afforded in two wide flights of stairs leading out upon Craig Street and Victoria square, allowed the room to be cleared in a surprisingly short space of time, and without much difficulty, else a number of lives must have been lost. The flight of the company was hastened by the increased noise of the breaking roof, and hardly had the room been cleared when the roof fell in with a tremendous crash. About thirty persons were injured, some seriously, and five are reported killed. An examination of the ruins this morning shows the two upper flats of the building to be almost a complete wreck. The great weight of the roof, falling from such a height, caused it to break through portions of the hall floor into the rooms beneath. Indeed the whole length of the flight of stairs on the side of the Victoria Square is covered with rubbish, and a large mass of timber having broken through the floor, hangs threateningly over the landing, looking as though the slightest movement would precipitate it into the shops below. What was last night the hall presents an indescribable scene of wreck and confusion. The long and heavy iron girders, cornices, mouldings and wood work are all thrown together with seats, gasaliers and paraphernalia of the ball room, while the statue of St. Patrick lies prostrate amid the ruins, having fallen inside. We can only contemplate with a shudder the terrible catastrophe that would have occurred had the roof fallen in without the premonitory cracking sound which warned the people to escape. It appears impossible that any could have escaped with life.

OTTAWA, Feb. 9.—A great change has come over Whelan of late in feeling and conduct. He entirely refuses to see strangers, and his former garrulity has given way to more solemn and silent feelings. When any stranger presses to see him he forthwith retires to his cell.

Clergymen and Sisters of Charity visit him frequently. The latter are incremitting in their attentions, which he receives in a kindly spirit, and is disposed, it is believed, to listen to their counsels.

There is very little excitement with regard to the approaching execution. Everything seems to indicate that it will pass off quietly, though as the hour draws near the excitement is visibly on the increase. The extra guard on the jail only stacd sentry during the night.

Doyle and Buckley, who are still awaiting trial as accessories to the murder are, confined in their usual corridors of the jail. Buckley continues to behave in a semi-demented way, and is undoubtedly somewhat unsettled in his head, but a few weeks in the open air would set him all right again. Doyle is still weak, but getting no worse.

MONTREAL, Feb. 8.—It is said the troops will not leave Canada till July next.

Lady McDonald, wife of the Premier, gave birth to a daughter this morning.

Military guard in Ottawa Jail was doubled Saturday, and the gallows is being prepared.

OTTAWA, Feb. 9.—An application for respite to Whelan was before the Government to day and has just been disposed of. They have determined that the law shall take its course. He will be publicly executed on Thursday, the 11th inst.

Tenders for Railway Contracts, to the number of 248, have been made, and come from different sections of the Dominion. The Commissioners have opened them, but have not yet reported to the Government in favor of the acceptance of any.

OTTAWA, CA. Feb. 9.—A freight train going East on the Grand Trunk Railway ran off the track at Shannonville this morning. Two of the employes were killed, and one car was badly smashed. The accident was caused by a broken axle.

MONTREAL, Feb. 10.—Whelan sent last night for Mr. O'Gara, Police Magistrate, and Mr. Lees, County Attorney, who visited him in the jail accordingly. The statement made by the prisoner, goes to show that Whelan himself did not fire the fatal shot, but that he gave notice to the assassins (two in number) of Mr. McGee's departure from the House of Commons and approach to his own lodgings. One of the murderers was secreted in the archway adjoining, the other one in the vacant lot opposite. The statement all through clears Doyle and Buckley of any complicity in the crime. It is also said that Whelan's statement acknowledges having held the horse and buggy in which the actual murderer escaped to Aymer, and of which, it will be remembered, the track was noticed at the time. Who those were will, he says, be ascertained before very long.

Mrs. Whelan is still in town, and since her last night's unsuccessful interview with the Governor General, appears quite resigned to her husband's fate.

The jail is to-day closely guarded, admittance being denied to all. The niche made for the execution will hardly accommodate half a dozen, and so built as to prevent more than three hundred or four hundred persons securing a view of it. It is to day provided with a strong, iron pulley, morticed into the ceiling, through which a new hemp rope is passed. The drop is behind the high wall that guards the face of the jail.

Feeling here is very strong against one of the legal gentlemen connected with the defence, O Farrell; and it was reported last night that he had been arrested. Whelan still continues to blame him; and all circumstances that have come to light since the assassination go far to implicate him. It appears that he was here that night and drove up to Aymer, where he arrived early in the morning, and was particular in calling the attention of some parties to the hour at which he arrived.

Sheriff Powell seems to be in a state of absolute uncertainty as to to-morrow's arrangements. The exact hour at which the execution is to take place is not even settled. This indecision has provoked by no means flattering remarks. The hangman is from Montreal.

Rev. Mr. O'Connor and the Sisters of Charity are continually with Whelan. Mrs. Whelan also visited the prisoner to-day. She did not meet with much success in her visit to the Governor General last night.

The City is perfectly quiet. All rumors as to an attempted rescue or formation of plots to raise a popular disturbance are considered absurd.

AYER'S AMERICAN ALMANAC, for 1869, has been received by the Druggists of St. John for delivery gratis, to all who call for it. This number contains proofs to show that some of the stars have existed for *sixty millions of years* We had not supposed such proof possible, but the Doctor gives it in a shape which seems indisputable. His witticisms have long made his book acceptable; his medical advice makes it indispensable to families, and now he adds the most startling problems of abstract science to its attractions.

January 15, 1868.

A MAGNIFICENT BRIDGE.—The proposed new bridge between New York and Brooklyn, if ever constructed, will be one of the greatest achievements of mechanical science, and the largest structure of the kind in the world. The two main cables will be suspended from towers which are 263 feet above high tide, being 42 feet higher than Bunker Hill Monument, lacking but 21 feet of the altitude of Trinity Steeple. It will cross East River with a single span of 1600 feet and 133 feet above high tide. In its total length, 3862 feet, it will be surpassed only by the Victoria bridge of Montreal, which is 6600 feet long, but lies near the water and rests on 24 solid abutments. The span of the Niagara Suspension bridge, 821 feet, is but about half that of the Brooklyn bridge. The largest span of the Menai Cubular bridge is but 459 feet, and it lacks 220 of the length and 27 of the height of East River Bridge. The Wheeling Bridge, over the Ohio, when blew down in 1854, had a span of 1010 feet. The Common Council of Brooklyn voted to take $3,000,000 of its stock, and the New York Council have voted to take $1,500,000. It is estimated that $3,000,000 at least, will be required to complete this wonderful structure.—*News.*

BRITISH AND FOREIGN.

Preparations for the meeting of Parliament are nearly complete.

In the House Mr. Henry Cowper will move and Mr. Mundellar second an Address to the Queen.

Lord Clarendon's health is much impaired, and it is expected that he will soon be obliged to retire from the Foreign Office.

The Government has resolved on the abolition of university tests.

The *Times* denounces the Alabama treaty and says: It is incomprehensible and without order. Unless there was a secret stipulation somewhere to the contrary the consideration of the question of the recognition of the Southern States as belligerents was plainly provided for in the treaty. Nothing indeed was excluded. The defects of the treaty have grown out of and are owing to the semi-public passion in which the negotiations were conducted. If the United States Senate hesitate to ratify the project, Ireland will not chafe. It is desirable that the whole treaty be revised and recast. As it is now practically every claim may go to the soverign umpire for final decision. If this is a settlement, the *Times* asks for a definition of the word.

Benjamin Lee Guinness, M. P. for Dublin, has been unseated.

The cost on both sides in the recent Saint Alban's ritual trials in England amount to $100,000.

LONDON, Feb. 8.—The *Standard* to day predicts that the Alabama Treaty will be rejected by the United States, and is sure that the next Administration will not get such favorable terms for a settlement of the question at issue.

A despatch from Athens says King George has declared that Greece must either accept the Protocol of the Paris Conference or receive his resignation of the Crown.

Madrid is greatly excited over reports relating to movements of the Carlists.

LONDON, Feb. 9.—Reports of shipwrecks and disasters caused by the recent gales are coming to hand from all quarters.

The Marquis Moustier, late French Minister of Foreign Affairs, died on the 5th inst.

Despatches from Algeria announce that the insurgents have met the troops and after a brief engagement were routed and dispersed.

The Bullion in the Bank of France has increased $9,800,000 francs.

On the 14th January, the *Great Eastern* commenced shipping the deep sea portion of the French Atlantic Telegraph cable at Sheerness. The total length of cable made up to Wednesday night was 1,000 nautical miles. It is understood that the command of the *Great Eastern* has been given to Captain Halpin, who was first officer under Captain Sir James Anderson while laying the 1865-66 Anglo-American cable

Bands of Carlists have made their appearance in Catalonia.

They came from the valley of Audona, and seek to produce a rising against the Provisional government.

Troops have been sent out to disperse them.

The press of the city fearing civil war, urge the government to take active measures and the people to unite against the reactionary party.

Espartero has refused to accept the seat in the Spanish Cortes to which he was recently elected.

Advices announces that the Provisional Government will present to the Constitutional Cortes the draft and Constitution embracing the clause prohibiting slavery in all the Spanish possessions. It will be left to the Cortes to decide as to the method of freeing the slaves.

The Pope has forbidden the prelates recently elected in Spain to take seats in the Cortes.

Five of the prisoners implicated in the assassination of Governor Burgos have confessed their guilt.

The Powers participating in the Paris Conference have granted a brief space of time for Greece to decide on their proposals.

King George has returned to Athens and is engaged in forming a new Cabinet. He finds great difficulty in completing the Ministers owing to the hostility of the Greeks to the Conference.

Great excitement prevails in Athens. M. Bulgaris, the retiring Prime Minister, is immensely popular, and extensive demonstrations of sympathy are much in his favor by the citizens.

ATHENS, Feb. 6.—The Senate to-day after twenty-eight hours continued session passed by a two-thirds vote the universal suffrage Amendment to the Constitution.

The reports from the Cuban insurrection are very contradictory. Some of the letters from Havana state that the revolutionists are hopeful, and that the feeling against Spanish rule grows stronger daily, that demonstrations have been made at several places where the rebels had received no encouragement whatever.

The officials say that hundreds of the rebels are surrendering. They predict that the troubles will soon be at an end.

LONDON, Feb. 9.—The Glasgow Chamber of Commerce have presented an address to Mr. Reverdy Johnson, the American Minister, urging the practical adoption of the principles of free trade in the United States.

A despatch from Athens states that the members of the new Cabinet now unanimously agree with the King in adhering to the resolutions of the Paris Conference.

LONDON, Feb. 10.—Advices from Spain, state that in reply to the further solicitations of his fellow-citizens, Espartero again declines a seat in the Constitutional Cortes to which he was elected.

Among the changes contemplated in the administration of the Government, is the abolition of the Colonial Ministry as a distinct department.

UNITED STATES.

At a meeting lately held in Calais to consider the propriety of assisting in the construction of the Houlton branch railroad, Mr. Osburn of the St. Andrews Road, offered to build the branch for $135,000, or take the subsidies offered and an additional sum of $30,000, and build and own the road.

Freight for Salt Lake is now sent from New York to the end of the Pacific railroad without change of cars, 2,500 miles.

A proposition has been made in the Kentucky Legislature that the State erect a monument over the remains of Gen. Zachary Taylor.

NEW YORK, Feb. 10.—A Havana letter of the 2nd inst., states that an early compromise between the belligerents is looked for, and that the Captain General had already sent to Spain, the basis of an amicable agreement. Quesda appears to be the only rebel Chief determined to oppose a compromise.

Money easy at 7 per cent. Gold 134¼.

It is now generally admitted by honest Physicians, that when once the Consumption is fairly fastened upon the lungs, no human power can save the patient from death. They also say that about fifty per cent. of those who die from this disease can trace the cause to a neglected cough or cold, which might have been cured by a small bottle of Liquid Opodeldoc, or what is the same thing, *Johnson's Anodyne Liniment.*

Cut this notice out and bring it with you. We are authorized to refund the cash to any person or persons who shall buy and use *Parson's Purgative Pills* and fail of relief and satisfaction.

Receipts for the 'Religious Intelligencer' to Feb. 12.

Subscribers will please see that their money is correctly acknowledged. The whole number of the paper to which they pay follows the amount paid.

On the 20th ult., by the Rev. William Harris, at the residence of the bride's father, Mr. Daniel A. Clayton, of Douglas, to Miss Clarissa E. H. Harris, of the same place, the fifth surviving daughter of the officiating minister.

At Queensbury on the 26th ult., by T. W. Saunders, Mr. Sylvester Mooers, to Miss Jane D. Manuel, eldest daughter of Mr. Silas Manuel.

At Thorneleigh, Wolfville, on the 3rd inst., by the Rev. Stephen W. DeBlois, A. M., assisted by the Rev. J. M. Cramp, D. D., Edwin D. King, Esq., A. M., Barrister-at-Law, of Halifax, to Minnie S., daughter of J. W. Barss, Esquire.

On the 19th ult., by Rev. T. Todd, Mr. Elijah M. Chase, to Miss Eliza M. Robson, both of Sackville.

At the residence of Mr. Stephen Cohoon, Port Medway, Q. C., on Jan. 1st, by the Rev. Theo. H. Crowell, Captain Jason Payzant, to Emma, eldest daughter of Mr. Pardon Gardner, of Port Matoun.

DEATHS.

At Grand Falls, V. C., on the 3rd inst., JAMES THOMPSON, Esq., aged 44 years.

On the 22d July, 1868, of dysentery, on board the barque "Village Queen," on the passage from Boston to Montevideo, Willie, youngest son of Capt. Nehemiah and Mary J. McGray, of Cape Sable Island, Barrington, N. S., aged 2 years and 1 month.

Mary C. Maxson, the second daughter of Michael and Jerusha Leneutine, and the endeared wife of Geo. Hendry Maxson, Esq., of Southampton, York Co., departed this life on Tuesday, 5th Jan., 1869, in the confidence and happy expectation of a glorious immortality. Truly her end was peace.

Her sickness was protracted, until her weakened constitution yielded to the weightier pressure, when the eager spirit gained its purest, holiest desire.

Her husband and sons, together with those who ministered at her bedside, will long remember her calmness of mind and unfailing patience and resignation to the will of her kind Heavenly Father; and long will her last expression be treasured up—*I am going home to Heaven.* Her chosen sentiment was—

"Stand up, my soul, shake off thy fears,
And gird thy gospel armor on;
March to the gates of endless joys,
Where thy great Captain, Saviour's gone."

Sister Maxson was a Christian of true and ardent devotion. She embraced religion in early life, and manifested it daily as the native element of her soul; and among the members of the Free Christian Baptists none possessed more real Christian humility. Her matrimonial connection developed the true and faithful wife, and the pious and loving mother. She leaves immersed in deep sorrow a bereaved husband and three sons, together with a father and mother, six brothers and five sisters. Her funeral obsequies were attended on the following Thursday by a large concourse of relatives and friends, and a sermon suitable to the occasion was delivered from 1 Cor. xv. 26-25, by Rev. J. V. Tabor, M. D.

The following verses were furnished for the occasion:—

The gentlest of mothers has gone to her rest,
And her children in sorrow are weeping;
For cold is the bosom where once they were pressed,
Sealed the eye that watched o'er them while sleeping.

Her husband, companionless, laden with cares,
Views a motherless offspring, all grieving;
He mourns too, 'tis nature: religion appears,
And to Heaven directs his believing.

A fond, faithful wife, whose tenderest heart
Ever prompt to the call of the dying.
A kind, cheerful mother, a neighbor, whose breast
Ever pitied the woes of the sighing.

We lay her with silence within the lone tomb—
That loved form enshrouded recalling;
Tears only can speak, and to deepen the gloom
The snow thickly round us had fallen.

And now this loved body must moulder to dust;
But this will not lessen her fervor.
Her spirit will exult in the realms of the just,
Till the last trumpet sound shall recall her.

SHIP NEWS

GOVERNMENT HOUSE, OTTAWA,
FRIDAY, Jan. 15th, 1869.

PRESENT:

His Excellency the Governor General in Council.

ON the recommendation of the Honorable the Minister of Customs, and under and in virtue of the authority conferred by the Act passed during the last Session of the Parliament of Canada, intituled, "An Act respecting the Customs," His Excellency in Council has been pleased to make the following regulation.

In addition to the Warehousing Ports mentioned in the Act passed during the late Session of the Parliament of Canada, and intituled:

"An Act respecting the Customs," and also in addition to the Ports named in Lists sanctioned by subsequent Orders in Council, passed under the authority of the said Act the following Port shall be, and it is hereby declared to be included in the Lists of Warehousing Ports in the Dominion of Canada, viz.:

Province of New Brunswick:

THE PORT OF DORCHESTER.

WM. H. LEE,
Feb. 11. Clerk Privy Council.

THE
WEED
SEWING
MACHINE,

With the Latest Improvements, made by the

NORTH AMERICAN SEWING MACHINE CO.,
Corner Charlotte and Main Streets,
ST JOHN, N. B.

HAS taken many First class Prizes, and is becoming deservedly popular. Adapted to all kinds of Work in Manufactories or Families. Making the Lockstitch, with Shuttle and Straight Needle. Exceedingly simple in construction.

Each MACHINE warranted; and the Manufactory being in St. John, the warrantee is valuable.

Kept in order for a reasonable time, free of cost to purchasers, thus time and expense attending repairs of foreign Machines is saved.

Call and examine MACHINES; or, send for samples of work done by them.

D. MAGEE & CO.,
