Charlottesville, March 6th, 1849.

Dr. Seth W. Fowle.

Dear Sir—In the winter of 1843—44 I was confined to my room and bed some two or three months, with a very severe cough, produced by a cold. This was attended with considerable pain in the side. I found it difficult to lie in bed. My physicians and friends thought I was going into a decline or consumption. I had heard much of Wistar's Balsam of Wild Cherry, and asked the opinion of my Physician about trying it; he made no objection; in fact he said I could take nothing better. I obtained two or three bottles, took it, and was completely restored by it. I have since made use of this Balsam in my family for Influenza, Coughs and Colds always with decided success. I do not hesitate, and take pleasure in recommending this article to my friends and the public.

Signed, C. J. NORT.

In short the whole project will be far superior to anything ever yet offered to the public by the publisher. By referring to the following list, which forms a part only of the regular contributors to the Pictorial, its high literary character will at once be understood.

"In conclusion, the traffic of this railway, as may be the Canadian portion, is confined, I think, to Halifax, St. John, Quebec, and Montreal. The Lower part of it will, I imagine, be used chiefly by the people of Halifax, St. John, and Quebec. The Upper part of it will, I imagine, be used chiefly by the people of Montreal, Quebec, and Halifax. The Lower part of it will present, I think, thousand miles per annum, which, I imagine, will be the Lower Canada, and the Upper part of it will present, I think, thousand miles per annum, which, I imagine, will be the Upper Canada, and the
