At a recent meeting of the City Council the report of the Chamberlain showed that the receipts for the year amounted to $255,734.00, and the disbursements to $241.264, leaving a balance in favor of the City of $14,470.

The West Side Police Committee reported a Bill to provide for the establishment of a Police office in Carleton, and the appointment of a Police Magistrate for that portion of the City, the expenses arising from such an undertaking to be borne out of the West Side funds.

THE RAILWAY CONTRACTS.—Late Canadian papers give the names of all the contractors. The figures of the lowest tenders are:—

The lowest tenders were accepted by the Government; and though it is a matter of surprise to most people, how the work can be done so cheaply, we must congratulate ourselves that it is so, unless indeed mistakes have been made, or the contractors rely on the generosity of the Government to make up deficiencies in the shape of "extras."

The woods chiefly employed are poplar, white birch, spruce and pine.—*Journal.*

The good people of the Parish of Botsford are moving for a line of Railway from Shediac to Amherst, passing from the latter place easterly of the Point de Bute Ridge, Jollicure Lakes and North American Railway, to or as near as possible to Shediac.

THE ELECTION IN KING'S.—Nomination is fixed for the 8th of March, polling for the 11th, and declaration for the 13th.

A NARROW ESCAPE.—As Mr. E. M. Shaw was going to his home in Wakefield, on Thursday morning last, from the public meeting in Woodstock, as he came to the old Spurr place in Lower Wakefield, he noticed a flash of light, and smoke issuing from the house. He immediately burst open the doors and found the house filled with smoke. With great difficulty he roused the sleeping inmates, a woman and four little children, and then succeeded by his own efforts, alone, with snow, to smother the flames and extinguish the fire. A few minutes later and the unconscious inmates would have been destroyed with the building.—*Sentinel.*

COPPER MINES.—We understand the copper mines at Lettie, Charlotte County, owned by Messrs. John and Thomas Johnson, are either sold, or about to be sold, to a Halifax Company.—*News.*

☞ Amongst Atlantic Cables, steam navigation and those progression of science and art that mark the nineteenth century, not the least useful are Dr. Ayer's medicines. They take rank among the benefactions of mankind, from the rapidity and certainty which they *cure*. Try AYER'S CHERRY PECTORAL on a cough and it is gone. What skin diseases or impurities of the blood withstand AYER'S SARSAPARILLA?—AYER'S PILLS are the perfection of a purgative—every family should have them, as almost every family does. Not a trifle to be thankful for are good medicines and the knowledge how to use them for protection from disease. These Dr. Ayer's preparations and publications furnish, and we do not hesitate to commend them.—[St. Louis Leader.

QUEBEC, Feb. 22.—In the Court of Queen's Bench this morning, Judge Caron, a friend of O'Farrell's, fined O'Farrell, the Advocate, £27 for contempt of Court. INTER-OCEANIC CANALS.—The statement that Mr. Cushing had failed in his mission to Central America was premature. He has arrived from Bogota with a treaty, which, it is said, authorises the construction of a ship canal by the Government of the United States or under its authority. The Nicaragua Government has authorized a French company to construct a canal through the territory of that republic. Between the canals and our Pacific Railroads, the eastward and westward highways of commerce will gain immensely in directness, adding much to the facility and the profitableness of traffic.

The Alabama Treaty is likely to be discussed a some length in the Senate, and its consideration will probably be postponed until after the 4th of March.

NEW YORK, Feb. 23.—A portion of the Volunteers who garrison the city of Havana have caused considerable excitement in that city by sending deputations to the Captain General, demanding, among other things, that more vigour be employed against the Revolutionists. These demands General Dulce has firmly refused, asserting that he would allow no interference with his political or military plans. In consequence of this trouble the commercial interests have suffered greatly, and all kinds of business are at a stand still. The news from the revolutionary districts favors the government.

The failure of reconstruction for Georgia, Mississippi and Texas, and of the Tax Bill and the postponement of the House Tenure of Office Act Bill will compel the next Congress to remain in session longer than was expected—probably sixty days from the 4th of March.
