berry-g gave their evidence, which was similar to that given before the Coroner. The witnesses examined were—Martha Thompson, Caroline Thompson, George Diggs, Henry Brandy, Margaret Jane Thompson, and Isaiah Gabels (all colored). The Court then adjourned over till 10 o'clock Wednesday morning. The Jury will board at the Park Hotel during the trial, under the charge of a constable.

The witnesses on Wednesday were—John Welton, Surveyor, who had made a plan of the ground where the bodies were found, Mary Jane Needham, Jemima Lane, Mary Ann Corbyn, Wm. Douglas, Robert T. Worden, Sarah Jane Collins, and Mary Ann Lordly.

In order that the evidence of Albion Neal, baggage master of steamer "New England," John S. Torr, Inspector U. S. Customs, and Warren Fletcher, clerk International Line, and John S. Hall, clerk of "New York, might be taken in time to allow them to return to Boston by steamer on Thursday, the Court decided to meet again at 8 o'clock, p. m.

As we published a very full report of evidence given before the Coroner, we shall not do so now until the evidence for the defence is called, when we shall probably publish it in full. It is generally supposed the case will occupy ten or twelve days before completed, but from the rapidity with which they have disposed of witnesses the two first days, we think it will all be got through in a week.

The Directors of the Street Railway Company have decided to accept the road from Mr. Reynolds, and will assume the running of it in the course of a week. This decision is in accord with the recommendation of a Committee who have had the matter under consideration for some time past.

A large quantity of freight is daily offering at Fairville, and the trains are running regularly.—*Tel.*

M., to 10 P. M. The following were chosen officers for the ensuing year:—

FATAL STABBING CASE.—By special telegram received from Dalhousie yesterday, we are informed that a little girl aged about eight years, daughter of Donald Currie, was fatally stabbed in school at Louison's Brook, on Tuesday, by a little boy named Shannon, of about her own age. In rude play he pushed the sharp point of a file into her neck, penetrating the air passage and causing death in 24 hours. An inquest will be held.—*Telegraph.*

Davis, Sutherland and Grant have commenced work on Section No. 11 of the Intercolonial road at Amherst, that they have now over 300 men at work, and will continue operations briskly through the winter in the cuttings at Fort Cumberland and Amherst ridge, and that they expect to have the whole finished in July next, when there will be uninterrupted railway communication through New Brunswick from the borders of Maine to Amherst.

RED RIVER.—Governor McTavish has issued a proclamation to the insurrection half breeds in the Red River district closing as follows:

"You are dealing with a crisis out of which may come incalculable good or immeasurable evil, and with all the weight of my official authority, all the influence of my individual position, let me finally charge you to adopt only such means as are lawful, constitutional, rational and safe."

RED RIVER—WINNIPEG, Nov. 16.—The Council called by the half breeds met to-day. The attendance was not large. After a short time spent mostly in private consultation, it adjourned till Nov. 18th. Copies of Governor McTavish's proclamation, issued at Winnipeg, 16th November, in the French and English languages, were circulated among those present, and produced a marked effect. Business is at a stand still, and there is great scarcity of money among the people, who begin seriously to reflect on the consequences of the insurrection. The letter proceeds to give an estimate shewing only five hundred men engaged in insurrection, three hundred of them armed. They have ceased to interfere with mails or private business, and the majority of people await a decisive movement on one side or another.

UNITED STATES.

Mr. A. D. Richardson, of the New York *Tribune*, who was recently shot in that office by Daniel McFarland, assigns as his reason for his crime that Richardson took his wife and child from him, and had driven him to desperation. He says he had been plotting for years to do so. In proof of his assertion he showed letters from Richardson to his wife of a highly suspicious character, and says he found them on several occasions living together.

She subsequently got a divorce from McFarland, and, strange to say, when Richardson was dying of the wound inflicted by the pistol shot of McFarland, she was actually married to him. The New York *Sun*, of the 1st inst., describes the scene thus:—

Mr. Richardson was married to Mrs. Abby Sage, late Mrs. McFarland, at 5.30 p. m. yesterday. The marriage ceremony was performed by the Rev. Henry Ward Beecher, assisted by the Rev. O. B. Frothingham. Among those present were Mr. Junius Henri Browne, the companion of Mr. Richardson during his captivity in the rebel prison at Salisbury, Col. Thomas W. Knox, his old and intimate friend; the Rev. Henry M. Field, who stood at the side of Mr. Beecher during the ceremony; Mr. W. T. Blake of Boston, a cousin of the dying bridegroom; C. A. Runkle; Mr. Charles A. Richardson, of Boston, the brother of the dying man; Thomas B. Holder, Doctors Holcomb, Carter, and Sayer; Mrs. Lucie G. Calhoun, Mrs. Thomas B. Holder, Miss Lily Gilbert, and Mrs. Sage, the mother of Mrs. McFarland. A messenger was sent to Jersey City for the son of Mr. Richardson, but he did not arrive in time to witness the marriage ceremony. The room of the sick man is on the first floor of the Astor House. It was nearly filled with witnesses. The doors and windows were open. Mr. Richardson lay partially propped up by pillows. Though very weak, he was not pale, and looked somewhat flushed. Mrs. McFarland occupied a chair at the head of the bed. Everything being in readiness, the Rev. O. B. Frothingham opened the services with prayer, after which the simple marriage ceremony of the Congregational Church was performed by the Rev. Henry Ward Beecher. At the conclusion the Hon. Horace Greeley, Mr. Whitelaw Reid, and Mr. Samuel Sinclair, who had just arrived, entered the room and held a short conversation with Mr. Richardson.

The marriage was at the request of Mr. Richardson, and by the unanimous advice of the friends of both parties.—*New York Sun, Dec. 1st.*

NEW YORK, Dec. 7.—President Grant's message is generally commended by the Press. He recommends resumption of specie payments as soon as it can be accomplished without injury to business, and speaks encouragingly in regard to payment of national debt. The message alludes to the Alabama claims in firm but compromising spirit. The message refers to Reciprocity as follows:—"The question of reviving a Treaty for Reciprocal Trade between the United States and the British Provinces on this Continent has not been favorably considered by the administration. The advantages of such a Treaty would be wholly in favor of the British producer, except possibly a few engaged in the trade between the two secttons. No citizen of the United States would be benifitted by the Reciprocity. Our internal taxation would prove a protection to the British producer almost equal to the protection which our own manufactures now receive from the Tariff. Some arrangement, however, for the regulation of commercial intercourse between the United States and the Dominion of Canada may be desirable."

NEW YORK, Dec. 8.—Gold has advanced to 123 1-2; Foreign Exchange dull at 108 5-8.

IMPORTANT TO EVERYBODY.—Everybody wishes most certainly to be well. How to obtain that desirable state and keep free from coughs and colds, the forerunners of consumptions was a disputed question prior to the introduction of Dr. Wilson's Pulmonary Cherry Balsam. No one need hesitate to take this balsam to banish his cough. It will cause an expectoration of any matter which may have entered into the lungs, and thereby, by casting out such noxious matter, prevent the formation of any tuberculous deposit. It acts so gently and is so pleasant to take, properties peculiar to itself which preclude it from being unsuited for any constitution, or proving hurtful under any circumstance.

The world wide renown of Dr. Wilson's Family Anti-bilious Pills is too well known to require much comment from us; but they are without doubt the most efficacious remedy for all the ills flesh is heir to. Many of our readers have derived immense benefit from using these pills in case of bile and general derangement of the stomach and bowels, and no disordered liver can resist their effect.

We do not know how Dr. Dow come to hit upon so successful a combination of healing ingredients as is contained in his Sturgeon Oil Liniment. Its success has been very great, and it is seldom so many cure all virtues are contained in any one article.

Yielding to frequent and urgent solicitations from persons who had the care of horses in all parts of the Dominion, Professor Clark consented to introduce his celebrated Clark's Derby Condition Powders, which are so familiar to all grooms and those who have the care of horses throughout Great Britain. He now offers them to the public, knowing that they cannot fail to win their confidence. It prevents and cures diseases, restores the appetite, and produces by its use healthful circulation of the blood. It cures coughs and colds, distempers, and hide bound horses, worms, bots, and does not interfere with the regular labors of the animal when used.

Rufus Chapman of Liberty, Maine, had a stiff leg bent at the knee, limbered and straightened by the use of "Johnson's Anodyne Liniment."

The proprietors of "Johnson's Anodyne Liniment" "Parson's Purgative Pills," and Sheridan's Calvary Condition Powders," have published a readable and instructive phamphlet, which maybe had *free* at the stores.
