All who heard it speak in its praise. ☞ We specially request all those *now in arrear*, (and more particularly those who have indulged themselves by being from ~~one to~~ seven years in our debt,) to come forward at once and settle old scores, and commence afresh under the above new arrangement, which will prevent the necessity of resorting to coercive measures. We hope they will take this hint as *"a word to the wise."*

*Graduate of the Toronto Board of Medicine and of the Jefferson Medical College, Philadelphia.*

TAKES this method of informing the inhabitants of St. John and the surrounding country, that he has established himself on the North side of King's Square, two doors west of Gables' Corner, for the purpose of practicing his profession, viz., Physic, Surgery, &c. Dr. Vernon has devoted great care to the study of diseases in all their forms—and all the modern improvement in their treatment, in a number of the largest Hospitals in America—as well as in his own private practice for several years.

He likewise feels prepared to give the Ear and Eye, those most delicate and necessary organs, that care and attention which they may require—very many cases of deafness that have been considered as hopeless can be entirely cured by a proper and judicious treatment. Diseases and deformities of the Eye, as Inflammation—Cataract, Strabismus, or Cross Eyes, &c. &c., are a few of the cases that will receive particular attention—and in all cases of disease of those organs, if the parties are not helped, the money will be returned. Sub-acute and Chronic diseases of the respiratory organs will in most cases be treated by the inhalation of Medicated vapours. Nervous diseases will be treated principally with Electricity, which is the safest and most efficient means

For the benefit of the poor, Dr. V., will remain in his office from 9 till 12 A. M. on Mondays, where he will be happy to consult, gratuitously, as many as can make it convenient to call.
