in Railroading, Steamboating, Banking, Book Keeping, Commercial Arithmetic, etc., etc., and in the average gained about 93 per cent. of the whole number of marks given. Yesterday, the Principal, A. H. Eaton Esq., asked them a number of questions on each of the subjects enumerated above, and the readiness and accuracy of their answers was highly gratifying to both the spectators and the Principal. Some questions were also put by gentlemen present, and they were solved or answered with equal promptness. —*Tel.*

The *New England* will make her last trip to Boston, for the season, leaving St. John on the 6th inst. The *New Brunswick* will be the winter boat of the International Line, after that date, making one trip per week between Boston and St. John.

The Dominion Government it is said have urged on the U. S. Government that should the present restrictions continue on our commercial intercourse with the States it would be compelled by the pressure of public opinion here to adopt such retaliatory measures as the abolition of fishery licenses, placing a duty on foreign coal, an export duty on pine timber, and a tax on American bread-stuffs.

The authorities of Ottawa have under consideration the building of a new Penitentiary at Amherst, and the selling of the Halifax Penitentary. It would be good news that the Peninsula of Halifax were rid of the Penitentiary which occupies one of its costiest nooks.

The man McGowan, who was in Newcastle jail on a charge of murder, and who attempted to take his life by cutting his throat, died on Thursday. It appears that as the wound in the throat healed, his wind pipe closed, and he was literally choked to death—so our advices state.—*Tel.*

☞ John Boyd, Esq., of the London House, lectures (D. V.), in the Pitt Street Baptist church, on Wednesday, Dec. 8th. Theme—"George Stephenson; his life and its lessons." Doors open at 7½ P. M. Tickets, 20 cents each. Children half price. A rich treat may be expected.

The *Telegraph* says, the steamer *Belle Brown* is now laid up for the winter, and the *Queen* which has recently undergone thorough repairs is running between Calais, St. Andrews and Eastport, connecting with St. John and Boston steamers. The boat is to be furnished in a few days, with a cutter, and it is to be hoped will be able to continue her regular trips during the winter season. She will be quite an acquisition to the people of St. Stephen and Calais, travelling to Eastport in winter, as her saloon is everything desirable for comfort, and her speed unsurpassed by anything on our waters.

SERIOUS RIOTS.—Last Thursday the Railway Navvies at Hantsport, N. S., got drinking and quarreling among themselves, but toward evening getting tired of so tame an affair, commenced to assault the inhabitants. They forced their way into the house of a Mr. Davidson and severely beat him and his son, as well as the neighbors who went to their assistance. The Magistrate there refused to act in the matter and warrants for the arrest of the ringleaders had to be obtained from Windsor. Two of them were caught, but were released again for want of evidence. The next evening, an attack was made upon the house of a Mr. Shaw, the windows broken and other damage done.—*News.*

A NARROW ESCAPE.—A man named Elisha Holmes, fell off a deal pile at Hantsport, N. S., on Monday last, into the dock, a distance of 25 feet, and a waggon used for hauling the deals at the same time was backed over the wharf, the man escaping being crushed to death by a miracle. He was rescued, however, without having sustained any severe injury.—*Ib.*

CONFEDERATION AMONG THE INDIANS.—During the last few weeks, a delegate from the Iroquois Indians of Canada, has visited the Lower Provinces to agitate a confederation of Six Nations, and the removal of all the tribes to Ontario. A Council of Chiefs will be held at Tobique in January, with this object in view. The advantages held out to the Indians in this Province to remove, are better Schools and Churches, together with a more stringent enforcement of the laws.—*Farmer.*

The *Herald* is glad to learn that there is to be a Daily Mail between Halifax and Yarmouth via Annapolis, commencing next week. The mail leaving Halifax each morning will reach Digby same night and arrive at Yarmouth about 11 o'clock next forenoon. Returning, a mail by the same route will leave Yarmouth every Tuesday, Wednesday, Thursday, Friday and Saturday mornings, and Sunday night.

An embankment on the east end of the Pictou railway was washed away by a recent freshet. The engineer was not aware of the break in the road, and on arriving at the spot the engine dashed into the opening, instantly killing the engineer, Mr. James Carron, and inflicting serious injury upon the train.

QUEBEC, Nov. 27th.—The harbor is closed, and the Provincial and Gulf ports steamers have all gone into winter quarters. Four vessels and the mail steamer "Peruvian" have yet to leave for sea. The steamers plying between here and Montreal have been laid up. The St. Lawrence canal is closed.

The *Montreal Witness* advocates the construction of a tunnel beneath the St. Lawrence, below the present Victoria Bridge. The latter now enjoys as much Railway and other traffic as it can accommodate, and many of the United States Railroads would be glad to aid in making the proposed connexion, which is also needed for passengers and other traffic. The success of the new tunnel beneath the Thames, and of those recently completed beneath the Chicago river, leads our Montreal contemporary to favor the project, provided it is practicable on engineering grounds.—*Tel.*

BRITISH AND FOREIGN.

LONDON, Nov. 26.—The London *Times* recommends the Spaniards, now seeking for a King, to recal the Prince of Asturias, rescue him from the influence of his mother, the late Queen, and train him for the station.

It is said that the British Government intends to send strong reinforcements to Ireland.

LONDON, Nov. 28.—The Paris *Patrie* of to-day makes the following statement: The ultimatum recently sent to the Khedive by the Sultan admits of no discussion. If the Viceroy of Egypt do not comply with its demand he will be deposed and his brother, Mustapha Fasil, recognized in his place. There are hopes, however, that the affair will be settled by the advice of the European powers."

The Œcumenical Council will open at Rome, 8th December.

More violent Fenian demonstrations have occurred in Ireland.

LONDON Nov. 29.—The French Senate and Corps Legislatiff met to-day, when the Emperor made a speech, in which he said that he was ready to grant reform. He was satisfied with the condition of the country. Spoke of the advance in public spirit and opinion all over the world, and referred to the Suez Canal, speaking of the Empress as absent on account of its opening. In closing, he hoped that the Chamber would loyally carry out the spirit of the constitution.

LONDON, Nov, 30.—The receipts of wheat for three days have been 11,000 quarters, 10,000 of which were American. Lard, 75s; Yarns and fabrics at Manchester firmer at better prices.

LONDON, Dec. 1.—The *Times* thinks the proposed annexation of St. Domingo to the United States will be of advantage, commercially, both to England and America.

The Emperor's speech at the opening of the French Legislature is commented upon favorably by most of the London journals.

LONDON, Dec. 1.—Information from the secret agents of the Government leads to the belief that a rising is threatened in Ireland. In the Cabinet the question of continuing the suspension of the writ of Habeas Corpus has been considered.

The various Paris letters published in the morning papers to-day agree that the Emperor's speech on the opening of the Corps Legislatiff "fell flat." The public mind is disappointed. The more the speech is considered the less it is liked.

UNITED STATES.

THE "ALABANA" CLAIMS.—Letters from distinguished English sources, received here, confirm the favorable impression produced by Mr. Gladstone's recent speech at the Lord Mayor of London's dinner, in reference to the settlement of the *Alabama* claims, indicating continued improvement in the state of English feeling on the subject, and strongly expressive of a desire, that the dispute should be properly adjusted. There has, however, been no official action, but the aspect leads to believe that negotations will be resumed at an early day.

THE BODY'S BULWARK.—The unusal duration and severity of our Northern winters of course exercise the worst effect over the delicate, infirm, and aged, rendering them exceedingly liable to pulmonary disorders; and on the first approach of such complaints, Dr. Wilson's Pulmonary Cherry Balsam should be taken to avert the ill consequences of such a trying season. Nothing beyond this is necessary for any invalid to root out the most confirmed cough, and enjoy lasting good health. Your poor weak lungs will be strengthened and purified, and able to resist the insidious attacks of consumption by means of this never-failing preparation.

The ingredients used in compounding Dr Wilson's Family Anti-bilious Pills embrace the choicest known remedies in the whole herbal kingdom for the various complaints arising from derangement of the liver and imperfect action of the vital organs. Thousands of persons suffer from this cause, which brings on acidity of the stomach; some complain of dyspepsia, headache, dizziness, loss of appetite, and a host of symptoms which all come from the same complaint, the irregular action of the liver. These pills have a surprising effect in restoing all the vital organs to a healthy action. The blood is purified, and the circulation becomes free, because the vital source of health, the liver, is enabled to do its whole duty.

Dr. Dow's Sturgeon Oil Liniment, for horses and for the cure of all disease of man or beast that requires external application, and for contracted cords and muscles, strengthens weak limbs, &c., prepared by the highest medical authority, and will cure in ninety nine cases out of the hundred any of the above complaints. They have been used by farmers, livery men, stage proprietors, and others with the most marked and decided success.

It has not been deemed necessary to add any certificates to the value of Clark's Derby Condition Powders. Actual experiment and very general use has settled, beyond all controversy, the many and substantial benefits animals derive from their use, and as time still further brings them into general circulation and esteem, it will only add to the popularity they now enjoy.

Winter is now fairly upon us, and the teams are hastening to the lumber woods in various parts of the country. Our advice to every man who goes to the woods, be he captain, cook, teamster, or any other man, is to take along a good stock of "Johnson's Anodyne Liniment" and "Parson's Purgative Pills." Many months of labor (in the aggregate) may be saved by this precaution.

Bad enough to look and feel bad yourself; but no excuse for having your horse look back and feel badly, when for a small sum you can by "Sheridan's Cavalry Condition Powders," which given in gram two or three times a week, will make him look and feel well.

HEART DISEASE.

Palpitation, Feeble and Irregular action of the Heart cured by FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES.

Freeport, Digby County, N. S., February 10, 1869.

JAMES I. FELLOWS, ESQ.:

Dear Sir—Gratitude to you, and sympathy for the afflicted, induces me to send a written statement of my case and the cure effected by using your Compound Syrup of Hypophosphites.

In April, 1868, I was attacked with palpitation of the Heart; I sent for the Doctor, and he said that nothing could be done for me, and that I was liable to die at very suddenly; being very weak and unable to leave my bed, I became discouraged.

After my physician gave me up, I was induced to use your Compound Syrup of Hypophosphites, and the effect was wonderful. In two days I felt the benefit of it, and after taking half a bottle, I was entirely free from the complaint, and to this day have not been troubled with a return of the Heart Disease.

Yours, very truly, SARAH LENT.

Sold by Apothecaries. Price, $1 50 per bottle, or six for $7.50. James I. Fellows, Chemist, Manufacturer, Saint John, N. B.

On Wednesday morning, Frances Elizabeth, wife of C D. Everett, Esq., in the 65th year of her age.

On Monday, 22nd ult., Ruth Eliza, youngest daughter of George T. and Eliza Barker, aged seven years and eight months.

At Studholm, on the 18th inst., Joicy Kelly, infant daughter of Geo. and Louisa Kelly, aged 8 months and 5 days.

Precious baby, sweetest flower,
Thou art vanished in an hour;
Our dear baby she's at rest,
And in heaven with the blest.
There is no beating of the heart,
No heaving of the breast;
Her little hands are icy cold,
She sleeps the sleep of death.
They closed her eyes and shrouded her
While we stood weeping by,
And when they bore her to the grave
We followed silently.
Fond parents while you know the loss
Of one so young and fair,
O could you look beyond the veil
And see your darling there—
Your tears for her would cease to flow,
For she is happy now,
Clad in a robe of spotless white,
White jewels on her brow.

At Northampton, C. Co., on the 11th ult., after three weeks severe suffering, from dropsy, which he bore with christian fortitude, William Gray, aged 77 years and 7 months. He leaves a wife, nine children, fifty-one grand children and twenty large grand grand children to mourn their loss. He was born at Long Island, New York, and came to this country at the age of 13 years. Early in life he became impressed with the necessity of a preparation to meet death; but not till after he became the father of a family did he publicly profess faith in Christ, when he was baptized by the late Rev. S. Hartt. He adorned his profession by a consistent life, and died in hope of a glorious immortality. Sermon by Rev. W. Orser, from Isaiah iii. 10, 11.

"Dearest father, thou hast left us,
And thy loss we deeply feel;
But 'tis God who hath bereft us,
He can all our sorrows heal."

In Halifax, suddenly on the 20th ult, Frank H., aged 10 years, youngest son of George R. and Rebecca Atherton, formerly of Fredericton.
