PARLIAMENTARY

A bill authorizing an addition to capital of Canadian Bank of Commerce; also a similar bill relating to Bank of New Brunswick; also a bill respecting pilots for and around Quebec, were agreed to in Committee.

Bill respecting Intercolonial Bridge Company read a second time.

Mr. Levesconte's amendment that it is inexpedient to acquire territory likely to involve this Dominion in heavy expense without any prospect of adequate remuneration, lost, yeas 15, nays 121.

Resolution respecting North-West territory, supported by Macdougall, McKenzie, Galt, Grant, Connell, Anglin, Holton, A. P. Macdonald, passed in Committee. In Senate, Campbell, in reply to McLellan, said it was the intention of the Government to extend the Post Office Bank system to Maritime Provinces as rapidly as circumstances would justify them.

Cartier moved adoption of report of Committee on North-West resolutions

Sandfield McDonald enquired what measures were to be taken to open the territory by roads and what would be done to protect settlers from the Indians

Cartier replied that as soon as we had possession a Provisional Government would be established, a practical route would be opened up for communication at little expense.

Smith objected that the finances of the country were not in a state to justify the purchase, which was therefore premature.

Tilley replied that it was never contemplated to pay for the Territory out of ordinary revenue any more than it was for the Intercolonial Railway in that way.

After considerable discussion the report was adopted.

The Patent Bill passed second reading.

Galt gave notice of amendment thereto to enable foreigners—inventors—to obtain patents through assignees in Canada.

OTTAWA, June 1.—Wallace's resolution thrown out by a vote of 89 to 49, after a long debate.

The North-West resolutions were adopted in the Senate.

Speeches were made in support of them by Messrs. Campbell, Ross, McCully, Wark and McPherson.

Banking resolutions came up to day. Holton moved postponement of the matter till next Session, seconded by Mackenzie. Discussion continued until six o'clock, and is going on this evening. There is strong opposition, but is believed the Government will press the measure through.

Speakers thus far—Rose and Tilley in favor: Holton, Mackenzie and Cartwright against.

OTTAWA, June 2.—Mr. Galt wished the question to remain open for the present. The time had not arrived for so radical a change.

J. H. Cameron proposed the following amendment: *Resolved*, That this House recognize the great importance of a uniform system of currency, but inasmuch as immediate uniformity cannot be obtained, it is expedient to extend charters of Banks about to expire, for such a period as Parliament may decide. Mr. Morris seconded amendment. Mr. Gibbs spoke in favor of present system.

Reported Government divided as to whether they should press Banking Bill or not.

Patent Bill discussed to-day in Committee. Clauses one to five were agreed to. On clause six, Dr. Tupper suggested to extend privilege of obtaining patents to all British subjects without condition of years residence. Discussion going on.

If your horse has contracted or fevered hoofs, or is foundered, let him stand on a salt poultice, and apply Dr. Dow's Sturgeon Oil Liniment around the upper part of the hoof in the way the directions prescribe, and he can be cured.

Travellers are especially liable to sudden attacks of cholera morbus and dysentery, occasioned no doubt by frequent change of diet and water. As soon as the attack is felt coming on, take a teaspoonful of Dr. Wilson's Cramp and Pain Reliever in a cupfull of hot water, milk and molasses. Repeat the dose every hour, until relief is obtained.

☞ The human family is so numerous that a birth and a death occur every moment. Every second a child is born; every second some one dies. The prevalence of sickness in the world may be realized in Dr. J. C. Ayer's Laboratory, where medicines are made for all mankind. It would scarcely seem that there are throats enough to swallow the doses he issues daily—Ayer's Sarsaparilla, Ague Cure, and Cherry Pectoral by the thousand gallons, and Ayer's Pills literally by the ton. But they must all be wanted, or he could not make such quantities for so many years.—[Northfield Telegraph.

## BRITISH AND FOREIGN.

The Tories throughout the country are organizing meetings to protest against the disestablishment of the Irish Church. In the House of Commons this evening the Irish Church Bill being brought up Mr. Gladstone said there was no intention of abolishing the system of national education of Ireland, but that amendments might be introduced.

Mr. Monsell in reply to Mr. Chosley, said he thought an appropriation of Loan for an Intercolonial Railway to pay the debts of Canada would not be illegal, considering the precautions taken to render the same available when needed.

The Cork City Council has adopted a petition for the pardon of Fenian prisoners.

The *Times* to-day in reviewing the Messrs. Lairds's letter, denies any negligence on the part of the Government in permitting the *Alabama* to sail. The writer deplores the insufficiency of the Law, and considers the precedent most mischievous. The question of liability between the States for the incompleteness of the law is a doubtful one. The *Daily News* says it will want good assurances that the new American Minister, Mr. Motley, is empowered to express the opinions of the President and Senate and the certainty of their sanction of a new Treaty.

The Spanish Cortes is now debating the clauses in the Constitution which refer to the Colonies.

On Wednesday Senor Castellar, alluding to Cuba, said that if Spain had followed the example of England in her treatment of Canada by granting the liberties which the Colonies now claim for themselves the outbreak in Cuba would have been prevented.

Marshal Serrano replied that Captain General Dulce granted the required liberties when he entered upon the Government of Cuba, but party spirit blinded some of the inhabitants to the intentions of the Home Government. By administration of physical force the rebellion had been suppressed, but the moral disorder was disappearing very slowly. When the normal state of the Island is restored the Home Government, acting in conjunction with the deputies of Cuba, will suppress slavery and punish all persons engaged in the slave trade.

LONDON, May 31.—In the House of Commons to-night, Mr. Gladstone moved the third reading of the Bill for the disestablishment of the Irish church. The Bill was passed by a vote of 371 against 247. The result was received with uproarious cheers from the Ministerial Benches. The House shortly afterwards adjourned.

LONDON, June 1.—Mr. Motley, the newly-arrived American Minister, closed his address to the American Chamber of Commerce at Liverpool, yesterday, as follows:

My most strenuous efforts shall be directed to further a good understanding on the basis of enduring friendship and kindly relations in accordance with the great principles of justice and honor, which are the immutable and the only safe unerring guides in the conduct of nations.

In answer to an address of the Liverpool Chamber of Commerce, Mr. Motley expressed high appreciation of their friendly sentiments towards America, and assured them that during the period of his office, he should endeavor to promote a good understanding between the two nations. The best and highest purposes of both were fulfilled by faithful friendship. The American people and the American Government desired amicable relations with Great Britain on the basis of justice and dispassionate regard for the rights and duties of both.

Mr. Motley's pacific remarks gave firmness to national securities.

LONDON, June 1.—The Irish Church Bill was read for the first time in the House of Lords to-night. It was agreed that it should come up for its second reading on the 14th inst.

It is rumored that Earl Spencer, Lord Lieutenant of Ireland, is about to resign.

Nearly all the journals have articles to-day on the presentation of addresses to Mr. Motley, and discuss the probable future relations between Great Britain and the United States.

The *Times* is assured that both the Government and the people of the nation will reciprocate his friendly expressions.

LONDON, June 2.—The Emperor of Russia has signified his intention of sending an Envoy Extraordinary to Washington for the purpose of congratulating President Grant, and to express the value that His Majesty sets on the maintenance of friendly relations between the two countries.

## UNITED STATES.

NEW YORK, June 2.—The money market continues well supplied at reasonable rates.

Gold closed at 138⅞.

Late advices from Cuba indicate the growing strength of the insurrection. The Spanish authorities there are charged with being corrupt and imbecile.

*Johnson's Anodyne Liniment* will give more relief in cases of chronic rheumatism, no matter how severe, than any other article known to medical men.

It is often remarked by strangers visiting our State that we show a larger proportion of good horses than any other State in the Union. This, we tell them, is owing to two principal reasons: in the first place, we breed from the very best stock; and in the second place, our people use *Sheridan's Cavalry Condition Powders*, which in our judgment are of incalculable advantage.
