friendly to the project; any treaty formed to be subject to Imperial approval. His speech of an hour and a quarter was not up to his usual standard.

Hincks replied that the policy the Government proposed, was not retaliatory toward the United States. That country chose its own policy, we must choose ours. The American Government and people know that we are ready at any moment to adopt the freest possible commercial intercourse between the two countries; but until Congress gives some indication of its willingness to adopt that policy, it would be not only useless, but humiliating for this country to go supplicating them to change their system.

Harris, of St. John, and Montgomery, of Halifax, are here tendering for Car and Locomotive Contracts.

THE NEWS and THE PRESS.

SAINT JOHN MARCH 18, 1870.

THE STEAMER "CITY OF BOSTON."—Messrs. J. & J. Hegan received a despatch on Wednesday, from Halifax, announcing by cable telegram the arrival of the *City of Boston* at Queenstown. A Halifax despatch stated that authentic telegrams were received at Ottawa from Sir John Rose and from Messrs McLaren, Manchester, with the same good news. The following despatch was also received here at noon:—

HALIFAX, March 16.—Excitement here intense over the safe arrival of the *City of Boston*, yet some are still dubious. The agents here have no despatch, but the church and other bells are ringing—flags flying—and the streets crowded with people who are wild with joy over the news, which is believed to be true.

As the day wore on, it was thought strange that there was no despatch from the agents. Between two and three o'clock, Mr O. D. Wetmore, agent here, received a despatch as follows:

At forty minutes past one o'clock, Mr. Inman, at Liverpool, had no intimation of the steamer's arrival.

At 3.25, P. M., the *Telegeraph* received the following despatch:

A private telegram just from Liverpool, states that the Queenstow telegram is contradicted. Painful and universel sadness now prevails.

A private telegram in addition to that sent to Messrs Kenny from Sir John Rose, London, has been received. Former announced *City of Boston* arrived. Telegram now received by cable, and addressed to Hon. E Kenny, says there was a mistake as to the name of the steamer which arrived at Queenstown. The *City of Boston* positively not arrived!

SMALL POX, as our readers are aware, has made its appearance in this City. There are but two cases here, so far as is yet known, and one in Fredericton. The three young men who have the disease all came from the States at the same time. The utmost precaution is being taken in both this City and Fredericton, to prevent the spread of the dreadful disease. Orders have been issued directing all persons who have not been vaccinated to have it done at once. The best authorities consider vaccination a preventive in a great degree, and even when the disease is taken by vaccinated persons it is much milder in its form. Dr. Bayard, Chairman of the Board of Health, appeals to the public, urging the importance of immediately attending to the matter of vaccination. He says:—

"For the last fourteen years a medical man has been appointed, whose duty it is to vaccinate on two days in each week, at the Board of Health Office, all poor persons who may apply. Yet not more than an average of 120 yearly could be induced to avail themselves of the privilege. And by the last returns of the Inspectors of the Board of Health there are 4,422 children in the City and Parish of Portland who *have not been vaccinated*, 1,292 of these belonging to the poorer classes.

Here is a great wrong. Children of tender years,—unable to reason, or help themselves, are left in this position. Should they take the disease, the chances *are more than one in three that they die.* While, if they take the disease, *having been properly vaccinated*, their chances of dying *are one in two hundred.*"

Not only in the Cities, but throughout the Country this duty should not be neglected. Everything should be done to prevent the ravages of a disease so universally dreaded.

THE PETITION in favor of the assimilation of the currency, received 1,013 names, including all the business men of this City.

An Inquest was held in the Alms House on Wednesday morning, by Mr. Coroner Earle, on the body of Thomas Hollands, who was found on the floor of one of the rooms of the Alms House, on Tuesday, with his throat cut. The Jury returned a verdict, that deceased came to his death by a razor wound in the throat, self-inflicted, while in a state of temporary insanity.

FIRE ON THE RAILWAY.—A small building used as a station building at Painsec was destroyed by fire on Sunday night. Mr. J. T. Gibson, who keeps a little refreshment shanty near by, was awakened about 11 o'clock by an explosion, and on hastening out found the building in flames The agent had left the place apparently all right about half-past 7 o'clock. The explosion resulted from the fire reaching a can of paraffine oil.—*News.*

RAILWAY CHANGES.—The passenger fare from Fairville to St. Stephen is reduced from $3.70 to $2 75 From Fairville to Woodstock it is reduced to $3.75. No new arrangement has been effected in regard to freight over Western Extension and the St. Stephen Branch. It is thought that, under the provisions of the Bill requiring Railway Companies to submit their Tariffs to Government approval, something satisfactory may be arrived at.

We understand that the names of two Stations on Western Extension have been changed:—"Baby-shannon" becomes *Hoyt*, and "Oromocto" becomes *Tracy.*—*Tel.*

FROZEN TO DEATH.—Last Friday, the bodies of an old woman named Wolf, aged about 60 years, and her little grand daughter, aged 4 years, were found dead and frozen upon the bleak barren that lies between Gooseberry Cove in the Parish of Lancaster and Little Musquash. The people of both places were speedily made acquainted with the finding of the bodies, and on Saturday a double inquest was held by Mr. Coroner Robinson. From the evidence adduced, it appears that the girl had been on a visit to her grandmother, and that on Thursday last the old lady started to escort the child to her mother's house, across the barren. The beaten path usually taken had been filled and obliterated by the snows of the Tuesday previous, and it is probable they became confused and lost by the expanse of unbroken snow, and becoming tired had sunk down in that sleep that knows no waking, the cold bitter air of Thursday soon completing the sad work. A verdict in accordance with such a view was rendered by the jury. It is said that Mrs. Wolf was subject to fainting fits, and it is possible she may have been seized with one of these, and become frozen before coming to. Frozen tears were found upon the cheek of the little child.—*News.*

The Messrs. Lunt's new steamer is in a forward state of completion, and will be launched at an early day. As she now lies on the stocks in Mr. Olive's yard, in Carleton, she presents a really splendid appearance, and a close inspection will satisfy the most competent judge of such work that her builder, Mr. Isaac Olive, Jr., is a thorough master of his business. In no particular has anything been left undone to make her what she really is—an ornament to our rapidly increasing first class Bay and River steamers.

Mr. Olive has also the contract for building the new Ferry boat, and is pushing the work forward with a will. In this, as in the work now nearly completed by him, we have no doubt he will acquit himself with credit to himself and satisfaction to his employers.—*Freeman.*

A $6,000 FIRE ON THE BORDER.—On Saturday last the Furniture Establishment of Messrs. Gillis & Gallagher and two other buildings on Main Street, Calais, were destroyed fire. One of the buildings was new and partially occupied. The loss is probably $6,000, insured for 2,000. The firm is a new one and the loss will be quite a severe blow to them.—*Telegraph.*

CHILD DESERTION.—Yesterday morning, a young woman, a stranger, went to the door of Mr. Robert Mitchell of Portland and after enquiring for him, left a child in the hall. Mr. Mitchell sent for a policeman and gave him the little one. It was conveyed to the Station, and has since been cared for. This is the second child that has been left at Mr. Mitchell's door within a short time.—*Ib.*

THE YORK COUNTY AGRICULTUERL SOCIETY is not fulfilling its proper mission, according to "A Farmer," who addresses the *Colonial Farmer* upon the subject. His complaints are that the Society appropriated $250 for the purpose of presenting John H. Reid, the President, with a memorial, but could not spare a dollar for the purchase of a sample of the celebrated Ramsdell Norway Oats for the benefit of the farmers; that it is a Society of Horticulturists and Gardeners, rather than Agricultural; that its chief aim is to establish a race course for the benefit of tavern keepers and traders, a matter in which the farmers take no interest, but as a body are opposed; and that instead of the Society being of practical benefit to farmers they are taxed to enable it to erect buildings and establish a race course.—*News.*

We have no doubt that "A Farmer" speaks the mind of three-fourths of his brother agriculturalists, especially concerning the race course.

EXPORT OF GOLD.—The *City of New York*, hence, for Liverpool, took a box of Gold valued at $4,736, shipped by the Halifax Banking Co., and another valued at $360 shipped by the Bank of B. N. America.—*Halifax Citizen.*

FROZEN SALMON.—A private letter of recent date states that a considarable number of frozen salmon, caught last year, are in the Boston market, selling at thirty-three to forty cents per pound. More than half of the supply of salmon put up in cans last season, is still on hand.—*Halifax Citizen.*

We are glad to observe that the subject of the extension of the railway to Yarmouth is engaging the earnest attention of the people of Digby County as well as of Yarmouth County. Public meetings have been held in the towns of Digby and Weymouth, and the proceedings were marked by much cordiality of sentiment and enthusiasm in favor of the project.—*Yarmouth Herald.*

The *Yarmouth Herald* says:—The heaviest snowstorm experienced here for some years commenced on Monday night the 7th, and continued until yesterday morning. The snow fell to the depth of more than two feet on a level, and the roads are seriously blocked up.

THE HON. JOS. HOWE AND THE INDIANS.—The *Montreal Witness* says:—

We understand that Mr. Howe, as successor of Mr. Langevin in the office in the Cabinet to which is attached the care of the Indians, has homologated and carried out the unrighteous efforts of his predecessor to turn out the school-teacher of Caughnawaga, whose continued residence is desired by both the chiefs and people of that village.

This teacher went to the village five or six years on account of the entire neglect to provide any school for the Indian children for the previous five years by the priests who had charge of them, and since that time he has been teaching we understand, with success and acceptance. But he is now turned out by the power of the British Crown, in order that he may be replaced by a nominee of the priests. The legal pretence for this usurpation of power is a certain regulation prohibiting the residence of a white man among the Indians, except by permission of the Governor-General—a regulation which was, doubtless, intended to keep out bad characters and liquor-sellers, but which could not have been intended to apply to benevolent efforts to give the Indian children an elementary education. Yet, strange as it may seem, the bad characters and the liquor-sellers remain, or did till recently, whilst the Christian school teacher, against whom no charge was made, is turned out by Messrs. Langevin and Howe, in the name of our Governor General and Gracious Queen!

And this is the state of things that astute priests and trading politicians appear to be going to extend over the North-West Territory. Will the great Province of Ontario awake in time to the impending danger?

BRITISH AND FOREIGN.

LONDON, March 11.—The Irish Land Bill was further debated to-night in the Commons and passed the second reading, 442 voting in favor and 11 against.

Mr. Otway, Under Secretary for Foreign Affairs, informed the House that the difficulty between the United States and Great Britain in regard to the water boundaries of their respective territories in North America, had been referred to arbitration.

LONDON, March 12.—The Chambers of Commerce of Belfast and Glasgow have remonstrated against the Government mismanagement of the English telegraphic system.

It is said a Baronetcy has been offered to Charles Dickens by the Queen.

M. Louis Noir, brother of Victor Noir who was killed by Prince Napoleon Bonaparte, complains through the Press, that he has not been permitted to know anything of the accusation against the Prince; that neither he nor any of his friends have been cited to appear as witnesses in the case, and that the prosecution seems to be against his dead brother and not against the Prince.

LONDON, March 14.—Renewed disturbances are threatened in Ireland and much anxiety is felt as to the course of the Government to prevent them by the enforcement of coercive measures.

The Duke of Montpensier fought a duel on Saturday with Prince Henri D'Bourbon, and killed his antagonist.

PARIS, March 12.—Count D'Montalembert, the leader of the Liberal Catholics, is dead.

LONDON, March 14.—The authorized journals of the Roman Catholic Church assert that all of the Ecumenical Council, with the exception of twenty of its members, agree to the proclamation of the dogma of Infallibility.

VIENNA, March 12.—The new electoral law of Austria has been promulgated. It gives 111 seats in the Reichsrath to landed proprietors, 152 seats to the rural communes, 115 to the urban communes.

LONDON, March 15.—In the House of Commons last night the Educational Bill came up for a second reading.

Geo. Dixon, member for Birmingham, and an advanced Liberal, said he felt obliged to oppose the second reading. As much as he desired free schools in many points the measure was bad. It neglected to provide for an educational department in the Government, or for Normal Schools. He objected that the Bill, though compulsory, made concessions to Sectarian occupiers, and that leaving religious questions to be determined by Boards must introduce endless discussion.

Mr. Foster, the introducer of the Bill argued against the use of the Bible and the giving of religious instruction in Schools. On this rock the valuable School system of the United States was foundering, and simply because the rule was inflexible and not left to the opinion of each locality. The best public opinion favored the latter plan.

The Coinage Bill passed.

LONDON, March 14.—The *Times* to day publishes a letter against the proposed reduction of Cable rates to $1.20 for twenty words. It predicts that it would stop the five per cent. dividends, and affect the reserve of the Companies.

In the House of Lords to night Earl Granville announced the early introduction of a Bill containing some police regulations for Ireland, and the Duke of Richmond promised his support to the measure.

In the House of Commons Mr. Gladstone promised that a Bill for the enforcement of the laws in Ireland would be introduced on Thursday next.

The feeling at Rome is adverse to Papal pretensions, and is gathering strength daily.

Despatches from Hong Kong anounce the suspension of Captain Eyre who ran down the United States steamer "Oneida."

LONDON, March 15.—Owing to the threatening aspect of affairs in Ireland, arrangements are making for the strengthening of the garrisons throughout the Island.

In the House of Lords to-day, the Earl of Granville said, that since the arrival of troops in Galway and Mayo Counties, Ireland, all disturbances had ceased.

The *Times*, in an editorial to-day, expresses its confidence in the belief that the House of Commons will exclude sectarianism, but not religion, from the educational bill now before that body.

PARIS, March 15.—Two hundred Canrdians, who had served two years in the Papal Zouaves, passed through the city to-day, on their way home. They have a number of flags and medals presented to them by His Holiness, in consideration of their faithful services.

UNITED STATES.

A Salt Lake City letter says:—"About the 20th of February Brigham Young and a few of the higher dignitaries will leave the city on a tour south, ostensibly to pay a visit to the lower settlements, but in reality, it is their intention to penetrate the lower portion of the Territory of Arizona bordering on the Mexican line, and there select a new place of rendezvous for the gathering of the saints. As soon as arrangements can be perfected, all those who live in polygamy will be removed from this section of country to settle in the new State of Zion."

DRINK AND FRATRICIDE.—The American public have recently been shocked by a series of the most revolting cases of homicide through drunkenness, including the Brooklyn one, and they have now another in some respects even yet more terrible, inasmuch as it involves the commission of fratricide. At Fall River, an Englishman named Booth, who, seemingly to refresh himself after having come home from work, had taken whisky or some other intoxicating drink, ill-used his mother with whom he was residing, and when his brother had interfered for her protection he followed him, and firing a gun, probably at random, shot him dead. The wretched murderer of his brother, then, in an agony of remorse, took his own life.

Surely it is time that working men should have learned that there are safer and every way better restoratives of the strength of a wearied laboring man, than any which the class of intoxicating drink affords. When it was too late, what would not this wretched shedder of a brother's blood not have given to have acted upon this knowledge!—*Montreal Witness.*

NEW YORK, March 11.—The United States Senate yesterday passed the funding bill, after further amending it so as to make time within which the 4½ per cent. bonds may be paid forty, instead of thirty years.

NEW YORK, March 16.—Gold closed at 112⅞.

Dr. Wilson's Pulmonary Cherry Balsam has stood the test of time, and has overcome the usual amount of opposition. During the winter and early spring months no house or home should be without the means of arresting a cough at its onset. Such means are safely and surely presented in this excellent Balsam which removes all diseases of the Lungs in the mildest and most efficient manner. This Balsam is strongly recommended to those persons whose Lungs are constitutionally weak, and whose nervous system has been shattered by a hitherto confirmed cough and by wrong treatment, and on such it will confer a great boon.

Dr. Wilson's Family Anti Bilious Pills never fail to produce a healthy action, and may be given to every age or sex. They remove all offensive accumulation in the bowels, and do not bring on subsequent constipation or costiveness. They stimulate all surrounding organs to a healthy state, and are of great utility where a cathartic is required. With such pleasing intelligence, can it be wondered at that we should feel an ardent desire that those who are suffering from disease should be made acquainted with a remedy, the unexampled, powerful, and beneficial qualities of which have so greatly reduced the sum of human wretchedness; and we are satisfied the more their surprising effects become known the more will Dr. Wilson's Pills rise in the estimation of the public.

For Harness Galls, Sore Shoulder, &c, &c., Dr. Dow's Sturgeon Oil Liniment, is the best known remedy. Wash well with castile soap and water, and apply the Liniment, and it will cool the most angry sore, diminish the inflammation, and reduce the swelling. No Liniment, for rapidity of cure can be compared to this.

If your horse has been out in the cold rain and become chilled, or drank too much cold water, give at once CLARK'S DERBY CONDITION POWDERS. No man who values his horse should be without them. By those who ought to know something about horses, they are everywhere preferred to all articles of the kind.

Persons afflicted, however slightly, with any weakness on the Chest or Throat, involving either the larynx, Trachea, Bronchial Tubes, or the Lungs themselves, should on the first symptoms commence with *Fellows' Compound Syrup of Hypophosphites* as by its use diseases of those organs (even Consumption in its primary stage), are speedily cured, and more alarming symptoms prevented. This we are enabled to state most positively.

The Blood is restored to purity and health; the Nerves and Muscles are strengthened, while tuberculous or consumptive deposit is retarded.

The extraordinary effect of this preparation is due to its power of imparting the vital principle to all constitutions impaired by wasting or debilitating maladies. It is acceptable to the palate, and suitable for all ages and all constitutions.

Sold by Apothecaries. Price $1.50 per bottle, or six for $7.50. James I. Fellows, Chemist, Manufacturer, Saint John N. B.

Johnson's Anodyne Liniment is, without doubt, the safest, surest, and best remedy that has ever been invented for internal and external use. It is applicable to a great variety of complaints, and is equally beneficial for man or beast.

We have seen it stated in various papers throughout the country, that Agents for the sale of *Sheridan's Cavalry Condition Powders* were authorized to refund the money to any person who should use them and not be satisfied with the result. We doubted this at first, but the proprietors authorize us to say that it is true.
