EXTENSIVE FIRE AT PETITCODIAC.—About 5 o'clock on Wednesday morning the store of Messrs. Keith & Price, and Hayward's Hotel at Petitcodiac were consumed by fire. The store was a two story building 70x29 feet, and only a year old. Among the stock lost were 3000 bushels grain, 180 barrels flour, and 40cwt. pork. The building was covered by insurance and the stock nearly so, at Mr. Jarvis' and Mr. Jack's offices. Part of the furniture and provisions of the Hotel were lost.—*Telegraph.*

MAPLE SUGAR.—The Charlottetown, P. E. I., *Herald* says that on the 4th inst a man at Lot 5 tapped ten maple trees, and got two pails of sap from them. A woman at the Brac also made a pound of maple sugar from trees tapped this year. Have any of our farmers tried their trees yet?—*News.*

It is reported that the Winnipeg insurgents have carried off the Hudson Bay Company's safe, and abstracted £850 therefrom. This they call a "loan." With a part of the amount they propose to issue a paper styled the *Independent*, which will advocate their interests.

NOVA SCOTIA.—Captain George A. Churchill, of the Yarmouth barque "George Peabody," went gunning on one of the Guanape Islands, coast of Peru, since which time he has not been seen. It is supposed he is dead, though the manner of his death has not been ascertained. He leaves a widow in Yarmouth.

NO LIQUOR LICENSES.—In Cumberland County the Grand Jury refused to grant licenses for the sale of intoxicating liquors.

(From the News.)

A man named Munroe, of Salmon River, near Truro, has been missing for the last six weeks, and his friends are apprehensive that some fatal accident has befallen him.

Some of the members of Rev. McMillan's congregation at Salt Springs, County of Pictou, showed their attachment to their minister, by assembling one day last week, and cutting all his winter wood.

On Monday night ... Captain Michael Hall, of the schooner "Vesta," while on the passage from Cape Breton to Halifax, was knocked overboard by the gibing of the boom, and drowned.

A lad named Rockwell met with a serious accident in Mr. John Holland's Blacksmith shop, North End, Halifax, a day or two ago. He was engaged in shoeing a horse, when the animal became restive, and kicked him in the stomach, inflicting, it is feared, serious internal injuries.

The extraordinary mildness of the season is recorded prominently at the Custom House, in Pictou, by the entry of the schooner "Mary" from Charlottetown, on the 10th inst., and her clearance from that port with a cargo of coal. The harbour of Pictou open on the 10th of January, is an unprecedented event. The harbour of Charlottetown was frozen on Wednesday.

WRECKED.—The schooner *G. R. C.*, William Boyd, master, owned by Messrs. Glasgow and Black, of this city, went ashore on the 13th inst., at or near Point Wolf, N. S.; she was laden with a cargo of coal, on vessel's account, from the Joggins Mines, and bound for this port. The *G. R. C.* was built in 1861 at Cornwallis, was classed in American Lloyds, and was insured for $2,500—valued for $5,000—in "Boston Lloyd's. The cargo was insured with Mr. Marshall. Mr. Glasgow and Mr. James Thompson, Underwriters' agents, left for the wreck in Saturday afternoon's train, via Sussex.—*Tel.*

The Nova Scotia Legislature is summoned to meet for despatch of business on the 17th February.

YARMOUTH SHIPPING.—The Yarmouth *Herald* publishes its annual list of the shipping owned in Yarmouth. There are 258 vessels, measuring 82,147 tons. "Compared with last year's statement, there is a slight decrease of 5 vessels and a slight increase of 251 tons. At the correspouding period last year, there were being built 21 vessels, amounting to 12,000 tons; at the present time the number being built is 22, and their aggregate tonnage about 14,700."

NOVA SCOTIA SCHOOLS.—At the recent meeting of the "Provincial Teachers' Association," of Nova Scotia, the prosperous condition of the schools was plainly shown. Astonishing advance has been made in a few years. In 1864 there were 48,000 pupils entered on the books of schools, and in 1869 there were 95,000—nearly double in five years. So much for a good school law.

It is proposed to erect a large, and handsome brick building, for the Halifax Industrial school. $8250 have been already subscribed towards the fund.

The Proprietor of the Halifax *Abstainer* feared he would have to suspend the paper for want of support; but a number of temperance men have become responsible for lists of subscribers, and it is to be continued. We wish it success in its Total Abstinence mission.

At a tea meeting in Pereaux, Cornwallis, held by the ladies of the Baptist Church, a part of the floor of the second flat of the building gave way, falling upon those beneath. Fortunately, no lives were lost, but several were quite severely injured.

THE MARBLE MOUNTAIN IN CAPE BRETON.—We are informed by a correspondent in Cape Breton, that sample blocks of the marble from their mountain have been sent to Halifax, and are now in the hands of Mr. George A. Sandford. Practical men who have seen and worked them pronounce them of a very superior description.

We have called on Mr. Sandford, and find that he has commenced working upon this home product, and has already polished some pieces. Some of it is nearly white, other pieces have tints and veins of a slight smoky colour, and are semi-transparent in some parts. This article will doubtless soon be in great demand for the more ornamental parts of buildings as well as for mantle pieces and other purposes. —*Hal. Mess.*

BEARS.—The Windsor *Mail* tells of a party, consisting of three men and two boys, engaged in land surveying, who came in contact with a den of bears, and who with no other weapons than axes, slew four of them.

A correspondent of the Yarmouth *Tribune*, writing from Tusket, sends the particulars of the following sad story: Samuel Doucette, a French Acadian, about 50 years of age, was father of a family of fifteen children, five of whom died within three or four years past, of different diseases. This summer the remaining children were one by one attacked with a slow fever, (so called,) by which eight of the family were prostrated at one time. Six of them have died since September; the two last a few days ago. Of the four left two are now down with the fever. Their neighbors, all French Acadians, are notorious for their dread of any epidemic, and could not be persuaded to enter the house. They would carry wood to the yard and cut it, and leave food, medicine, &c., outside. As the children died coffins were prepared and left near the house. The father, who kept up all the time,—his wife being ill of consumption—placed the body in the coffin and left it outside the house; the neighbors took it away and buried it. At last a woman named Doucet, (daughter of Joseph Maturine Doucet, Fork Roads,) braver than the rest, determined to face the disease, and some weeks ago entered the house, where she has since been nursing the sufferers. The family have at times had medical advice both from Tusket and Yarmouth. Mr. Doucette is quite a poor man—in fact, the family had no sustenance except that supplied by the kindness of their neighbors.

The Thermometer at Houlton, Me., on Friday, stood at 22° and on Saturday morning at 25° below zero. On Friday the temperature was down to 26° below zero at Mattawaunkeag. 11° below was reached at Sackville on Saturday morning, and 7° was, we believe, the lowest reached in this city on Friday.—*Tel.*

NARROW ESCAPES.—On Thursday evening last two persons, a man and a woman, fell over wharves at Halifax, and after struggling in the water for some minutes were rescued and taken to the police station, where they were cared for and attended by Dr. Garvie, who gives hopes of their recovery, although they are in a very feeble condition.

A telegram to the Halifax *Chronicle* says:—"Mr. Taylor is appointed Superintendent of Nova Scotia Railways, at a salary of $1600 per annum.

"An allowance of $1,000 is made to Mr. Carvell, for his services in remodelling the System of Railway management in the Province, and his salary is fixed at $2,400 per annum."

BRITISH AND FOREIGN.

The *Times*, referring to the Noir murder, regrets M. Ollivier's indulgence to the threats publicly made, and thinks it impossible to exaggerate the danger of the situation at Paris.

LONDON, Jan. 12.—The funeral of Victor Noir, who was shot by Prince Pierre Bonaparte, took place in Paris yesterday. A hundred thousand people were present, including a body of five thousand workmen from the Faubourgs. At the Cemetry there were frequent shouts of "Vive la Republique," and the "Marseillaise" was repeatedly sung by the people.

During the day, while M. Rochefort and Raspail were coming down the Champs Elysees, accompanied by a great crowd who were singing the "Marseillaise" they were stopped by a regiment of troops, and the crowd were ordered to disperse. Rochefort claiming his right as Deputy, passed on to the Chamber, where he arrived pale and much excited. The Champs Elysees was then cleared by the troops, and two battalions were stationed near the Hall of the Legislative body and five regiments were massed on the Boulevards, close at hand. At midnight the city was tranquil.

Letters from Paris represent that the feeling of sympathy for Victor Noir is profound and widespread among the masses.

The Government is taking every precaution to prevent an outburst of public indignation.

PARIS, Jan. 14.—M. Ollivier, in person, directed the troops in Champs Ellysees on Thursday night. He has expressed the determination of the Government to suppress all disorder by force if necessary. The Emperor was warmly received by the troops. The conspirators against the Emperor in 1864 are to be included in the general amnesty. The city is quiet and the troops are returning to the country.

The treaty of Commerce with England will not be withdrawn.

PARIS, Jan. 15.—The troops collected from the neighboring garrisons have been ordered back to their posts.

Ledru Rollin will soon return to France, and, on his arrival at Paris, will institute proceedings before the High Court of Justice to recover damages for the family of Victor Noir.

LONDON, Jan. 16.—The older members of the Ecumenical Council are complaining that the younger members talk too much in the Council and out of it.

It is reported now that a large majority is ready to sanction the dogma of infallibility.

The trial of Prince Pierre Bonaparte will take place before the High Court of Justice.

The proceedings will be public and probably held in the hall of Justice at Versailles. There is no appeal from the decision of this Court.

LONDON, Jan. 17.—The Duke of Montpensier has been nominated as a candidate for the Spanish Cortes from the city of Oviedo.

There is great rejoicing at Madrid over a telegram from Havana, reporting important successes of the Spanish troops in Cuba.

PARIS, Jan. 17.—In the Corps Legislatiff to day, a debate on the arraignment of Deputy Henri Roche fort was opened. From the begining of the sitting the Chamber was crowded and all the deputies were present. Rochefort made a brief but bitter speech in reply to the Minister of Justice, and was frequently applauded by the spectators in the galleries and lobbies. At the close of the debate the Chamber decided to grant the demand of the Government for the arraignment of Rochefort by an overwhelming majority. The vote stood, 220 for, and 34 against prosecution. The announcement of the result caused intense excitement in Paris. Immense crowds of Rochefort's friends are gathered in the streets and squares; but up to this hour, no violence has been committed. The guards have been doubled.

LONDON, Jan. 18.—The *Marseillais*, Paris, publishes the following dispatch from Madrid:—"A public meeting of 200,000 Republicans in Madrid by unanimous vote send congratulations to the Republicans of Paris, and to Deputy Rochefort the devoted champion of Democracy."

There was a great demonstration last night on the Boulevard Montmarte by the friends of Rochefort. The crowd was dispersed by the military without a conflict.

The execution of Tropmann, the murderer of the Kinck family, originally fixed for to-day, has been postponed until next Tuesday on account of the popular agitation.

LONDON, Jan. 18.—Paris advices state that deputations from other cities are coming to attend the funeral of Raspail, who died yesterday, and fears of disorder are entertained. The Spanish Bishops attending the Council of Rome have united in a protest against the authorization in Spain of civil marriages.

LONDON, Jan. 19—The London *News* to-day, speaking of the Winnipeg rebellion, does not attach much importance to the movement, but intimates that the Red River people cannot hope for recognition as a Crown Colony so long as the rebellion continues.

Letters from Rome say that the American bishops object to the declaration of the dogma of infallibility on the ground that it will tend to check proselytism among Protestants.

UNITED STATES.

NEW YORK, Jan. 17.—An Ottawa despatch mentions a rumor that the Dominion Cabinet has decided to abolish the system of licenses to American fishermen, and to fall back on the interpretation of the treaty of 1818.

It is said that the assent of the Imperial Government has been obtained to this policy.

The rumor is renewed that a change is to be made in the tariff by imposing duty on articles in the free list.

NEW YORK, Jan. 13.—Rev. Horace Cook, Methodist clergyman in New York, who eloped with a young lady of his congregation, causing much sensation, returned last evening and assaulted one of the editors of the *World* newspaper. He was arrested and sent to jail. The young woman has joined her parents.

NEW YORK, Jan. 15.—The Congressional Committee on Ways and Means have reported against any change of the duties on coal.

NEW YORK, Jan. 18.—A terrible tornado in Kentucky, killed thirteen people and destroyed fifty dwellings.

NEW YORK, Jan. 19.—Prince Arthur leaves Montreal to morrow for New York and Washington. In the latter City he will be the guest of Sir Edward Thornton.

Hon Lot. M. Morrill was yesterday elected United States Senator from Maine, to serve during the unexpired portion of the late Senator Fessenden's term.

Despatches contain accounts of much destruction of life and property in the Ohio Valley by recent storms.

FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES.

TO MR. JAMES I. FELLOWS, Manufacturing Chemist, St. John, N. B.

We the undersigned, have much pleasure in recommending your Compound Syrup of Hypophosphites. After a fair and protracted trial of the same, we consider your preperation a very valuable nervous tonic, far surpassing any others of considerable repute, and well worthy the confidence of the profession generally.

We beg to remain, yours very truly,

A. H. CHANDLER, M. D.
H. A. JACOBS, M. D.

Moncton, N. B., Nov. 9, 1867.

Sold by Apothecaries. Price $1.50 per bottle, or six for $7.50. James I. Fellows, Chemist, Manufacturer, Saint John N. B.

We were pleased, not long since in one of our exchanges, some pretty severe remarks addressed to several persons who, during an interesting lecture by Rev. John S. C. Abbott, kept a continuous coughing, which prevented many from hearing. People who cannot refrain from coughing, had better stay away from such places, or else take a bottle of Johnson's Anodyne Liniment with them.

The importance of giving "Sheridan's Cavalry Condition Powders" to horses that have been out in a cold rain, stood in a cold wind, or drank too much cold water, cannot be over estimated; no man should be without them who owns a good horse.

Cold and unchangeable weather is very apt to undermine the health and bring on Coughs, Colds Influenza, &c. Dr. Wilson's Pulmonary Cherry Balsam should always be given on the first appearance of any of the above complaints. It will so strengthen the Lungs as to enable them to resist disease being forced upon the system. Thousands stumble into a premature grave by depending upon worthless remedies. We know this Balsam to be good, and our duty as a journalist compels us to make it known It is clean, safe, and grateful to the taste, and if you use it it will do you good.

Few person, save those who have long endured the manifold evils of Dyspepsia, can form any notion of the great exhaustion Chronic Indigestion entails on muscle, bone, mind, and temper. In the early stage of this protean malady, Dr. Wilson's Family Anti-Bilious Pills will exert the most wholesome power, by accurately adjusting the functions of the Stomach, Liver, Bowels, and the organs subserving the solution of man's daily food. In confirmed debility of digestion, Dr. Wilson's Pills are likewise reliable remedies, which may confidently be resorted to by all without the slightest doubt of their ability to relieve the sufferer.

The singular success which Dr. Dow has attained by his preparation of Sturgeon Oil Liniment has never been surpassed by any physician. By a thorough knowledge of the laws which govern disease, and by a careful application of the principles of chemical science, he has provided us with a remedy for all complaints for which a Liniment is beneficial.

The many complaints about the unfitness for the purposes intended of former Condition Powders introduced into this Dominion, makes us glad to announce one from a source which will at once assure the public of its value. Professor J. Bracy Clark, the noted Veterinary Surgeon of Great Britain, has brought before our people "Clark's Derby Condition Powders," which were used by him with unfailing success throughout a course of practice extending over half a century, and we hear the most flattering comments on its success from all owners of horses.

IMPORTANT PRELIMINARY NOTICE.

STAPLES, SPENCER & HAMPSON'S Annual Great Clearance Sale will commence on Monday, 24th inst., and continue for thirty days. S., S. & H. have resolved to make this one of the greatest, and to their customers one of the most beneficial sales that has yet taken place in St. John City. To enable them to go over and reduce their immense stock, they will be obliged to suspend all business on Friday and Saturday first; therefore the Store will be closed on those days. The whole Stock will be during this Great Sale marked in plain figures, from which no deviation, on any pretence whatever, will be made. The largest portions of the stock will be submitted for sale at Cost Prices, and some classes of Goods, in which We are overstocked, will be sold at merely nominal prices. Wholesale and Retail.
