The Provisions of the regulations of 20th August, 1869, whereby the rates for horse and waggon traffic are fixed at one hundred per cent. above those in force under the previous tariff, is hereby cancelled, and in lieu thereof, the rates of horse waggon traffic between Halifax, Pictou, Windsor, and intermediate stations, shall henceforth be fixed at fifty per cent., over those fixed by the tariff in force previous to said regulations.

Mr. Carvell's revision of Nova Scotia Railway affairs, met cordial approval of the Government. The reduction of rates noted above, will meet the approbation of the people generally.

COTTON FACTORY IN HALIFAX.—The *News* says:—A meeting presided over by Sir William Young, and attended by some of the leading merchants of Halifax, was held in that city on Thursday last, to consider a project for the establishing of a cotton factory. It was resolved to form a Company and apply for a charter at the approaching session of the Legislature. The Company is to be formed on the limited liability principle, and the capital stock not less than $100,000. The Directors of the Company is to consist of not more than five gentlemen, three of whom shall be a quorum.

THE DEATH OF CAPT. GEO. N. CHURCHILL.—We have been favored by L. E. Baker, Esq., with the perusal of the official testimony taken before the Peruvian "Captain of the Port," in the cabin of the ship "George Peabody" of this port, at North Guanape Island, off the coast of Peru, on the 13th Dec. last, in the presence of the commanders of a number of ships lying there in company. The testimony is to the effect that Capt. Churchill of the "Geo. Peabody," and Capt. Patrick Meckler, of Barque "Kathleen," of Pictou, Nova Scotia, having been together on a visit to the British ship "Eagle," went to the British ship "Staffordshire," and there obtained two guns, with which they proceeded (in a boat) to the small islands to the northward; on reaching one of these islands, Capt. Meckler first jumped on shore, followed by Capt. Churchhill; the former immediately after was startled by the report of a gun behind him, and turning round saw Capt. Churchill laying down lifeless with his head blown to pieces. Capt. M. at once raised the body, which was partly in the water, but the surf was beating against the rocks with such force that he was himself lifted by it, and in spite of every exertion he was unable to extricate the body, being compelled to relinquish his hold in order to save his own life. Capt. M. did all in his power in the way of dragging for the body, but without success, as it did not float while he remained. A seaman named Flynn, who was in the boat stated that when Capt. C. sprang ashore the gun slipped in a cleft of the rock and discharged whilst he was on his knees in the act of falling, and that the ball after striking Capt. C. passed very close to Capt. M.

Capt. C. was an able, intelligent shipmaster, and a gentleman highly esteemed by all who knew him. He has left a widow and a large circle of relatives in Yarmouth.—[Yarmouth Herald.

P. E. ISLAND.

DREADFUL CATASTROPHE.—We are sorry to hear that the dwelling house of Mr. John Crawford, of West Point, was burned to the ground on Wednesday morning the 12th inst., and the wife of Mr. Crawford and his three youngest children, a boy and two girls, and also a foolish boy, a nephew of Mrs. Crawford's, who lived with the family, perished in the flames. The origin of the fire is unknown; it might have been kindled by the freaks of the foolish boy, or possibly may have been caused by ashes, which were kept in the house. It appears that about 3 o'clock in the morning Mr. Crawford was awakened by the smoke, and went down stairs to see what was the cause of it, when he found the whole of the lower part of the back kitchen in flames. He opened the kitchen door, and threw one bucket of water upon the fire, at the same time shouting to the other inmates of the house to get up. Mr. Crawford seeing his chances of extinguishing the fire were very poor, burst open a door and window, by which some children who slept in the lower part of the house escaped. The kerosene can exploded and also some powder, which spread so rapidly, that poor Crawford was unable to go up stairs for the rescue of his wife and remaining children, who unfortunately perished in the flames. The remains of the unfortunate family were gathered up from the ruins on Wednesday, and being put into two coffins were followed to the grave by a large concourse of sympathising neighbours By this sad accident a peaceful home has been rendered desolate, and Mr. Crawford has lost besides his dwelling house thirty bushels of wheat and all his household furniture.—(Summerside Progress.)

Ottawa despatches to the Halifax Press say:—

"Northwest news received to day states that Riel had disbanded all his men save fifty, who occupied the fort, as he says he considers himself temporarily safe. Thibault and DeSaleberry were still in the territory on the 6th instant.

The press is severe in their comments on the fact of Ross, recently one of the editors of the Toronto "Globe" having taken the oath of allegiance to Riel's government."

HORRORS ON BOARD AN EMIGRANT SHIP.—The ship "John Bretram" arrived in new York recently, from Hamburg, with 448 German emigrants on board. Her voyage lasted over 103 days. Being terribly overcrowed, poorly ventilated and intolerably filthy, the sufferings of the passengers were intense and indescribable. Nineteen of the unfortunate passengers, all in perfect health when they started, died on the voyage, and fifty others were prostrated by illness. The rest of them were, it is said, reduced to shadows. —*Ib.*

FENIAN RAID PROPOSED.—The Fenian Brotherhood in New York have received a communication from Ireland reporting the state of affairs there. The men enrolled in the brotherhood in Ireland express their willingness to revolt as soon as their brethren here strike Canada. The next Fenian Congress, it is said, will be a Canadian raid. Preparations are being made for the event, and large quantities of arms are daily forwarded to Ireland. In the City of Cork 15,000 men are enrolled; in Dublin about the same number; and there is scarcely a doubt that from 40,000 to 50,000 men in Ireland are available for immediate active service if called on. They are however, insufficiently supplied with arms, and no effort at insurrection will be made until there is some possibility of success.—*News.*

A mammoth coliseum capable of accommodating 80,000 persons comfortably is to be constructed. The attendance of 10,000 musical artists is to be secured, and the first stars of the lyric world have been engaged for the occasion. Four grand prizes for musical compositions are to be offered.—*News.*

FEAR NOT! Though troubled with what seems an incurable cough, Dr. Wilson's Pulmonary Cherry Balsam will cut short all Lung Complaints which have their origin in affections of the Chest. The superiority of this medicine over all others, for subduing a harassing cough, has been so fully and widely proved, that it is only necessary to ask those afflicted to give it a trial; and, if fairly tried, no disappointment will ever insue. It will arrest the increasing cough, allay disquietude, and perfectly cure.

A dose or two of Dr. Wilson's Family Anti-Bilious Pills, administered as soon as the symptoms of disease are felt, will, in nine cases out of ten, prevent serious sickness. This fact is particularly worthy the attention of those who cannot conveniently procure medical aid.

Dr. Dow's Sturgeon Oil Liniment has become so generally used that no stable is complete without it. The promptness and certainty with which it acts renders it invaluable to those who have the care of horses. It is better than any Liniment in use, no matter what name it may be called.

Our Veterinary Surgeons throughout the Dominion are recommending Clark's Derby Condition Powders for several reasons: one, because they know that Professor Clark would not associate his name or introduce any article that was not the very best of its kind; and again, from experiencing the good results that follow their use.

We received a very pleasant letter of thanks from our friend Kendall, since his return home, for a bottle of "Johnston's Anodyne Liniment" which we gave him, and which he says has entirely cured him of the troublesome and dangerous cough he had when here.

On the death of one of England's most eminent Physicians, all his effects were sold by auction, and among other things was a sealed packet marked "advice to physicans," which brought a great price.—The purchaser on opening the packet, read as follows: "Keep the head cool, the bowels open, and the feet warm." If physic is necessary, use "Parsons' Purgative Pills;" they are the most scientifically prepared pill that has appeared in the last hundred years.
