THE MAIDEN CITY.

By CHARLOTTE ELIZABETH.

Air "Le Petit Tambour."

When Foyle his swelling waters
Rolls northward to the main,
The river at her feet;
And here she sat alone, boys,
And looking from the hill,
View'd the Maiden on her throne, boys,
Would be a Maiden still.

From Antrim crossing over,
In famous eighty-eight,
A planned and betted lover
Came to the Ferry Gate:
She summon'd to defend her
Our sires—a fearless race—
They shouted No SURRENDER!
And slamm'd it in his face.
Then in a quiet tone, boys,
They told him 'twas their will
That the Maiden on her throne, boys,
Should be a Maiden still.

Next, crushing all before him,
A kingly power came.
(The royal banner o'er him,
Blushed crimson deep for shame;
He show'd the Pope's commission,
Nor dream'd to be refused,
She pitied his condition,
But begg'd to stand excused;
In short, the fact is known, boys,
She chased him from the hill,
For the Maiden on her throne, boys,
Would be a Maiden still.

On our brave sires descending,
Twas then the tempest broke,
Their peaceful dwellings rending,
'Mid blood, and flame, and smoke.
That hallow'd grave-yard yonder,
Swells with the slaughter'd dead,
Oh, brothers, pause and ponder,
It was for *us* they bled;
And while their gift we own, boys—
The fane that tops our hill,
Oh the Maiden on her throne, boys,
Shall be a Maiden still.

Not wily tongue shall move us,
Nor tyrant arm affright,
We'll look to One above us,
Who ne'er forsook the right;
Who will, may crouch and tender
The birthright of the free,
But brothers, No SURRENDER,
No compromise for me!
We want no barrier stone, boys,
No gates to guard the hill,
Yet the Maiden on her throne, boys,
Shall be a Maiden still.

AGRICULTURAL.

PROFITS OF FOWLS.—Lyman Church, of Middlefield, Mass., states that he has derived a nett profit of $108 19 cts., in one year, from one hundred and forty fowls.

He submits his account, as follows:

Value of stock, Nov. 1, 1847,	$40 35
Expense of feed,	116 46
	$156 80
Value of stock, Oct., 1848,	$65 30
" of Poultry sold,	30 63
" of Manure, 63 bushels, 15 cts.	9 45
" of Eggs, 1,253 dozen, 131 cts.,	164 56
	$264 99

He states that he arrived at this result by actual and careful experiments, without guessing or conjecture. We extract from his communication in the Hampshire Gazette, the following in relation to the treatment of his fowls: "I give them a warm house, with a comfortable yard or range, and one hundred and fifty hens should have from one-half to three-quarters of an acre. My house is so arranged as to keep them, when I choose, in separate apartments and constantly supplied with fresh old plastering, lime, gravel, water, &c., with some secret nests, as well as open boxes, for them to lay in. The house should be kept well whitewashed and as clean as possible. The kind of food I use is varied occasionally—corn, boiled potatoes, barley, oats and wheat screenings; the latter especially I find very valuable. The quantity of food, however, does not, in my opinion influence the laying so much as imagined. They must be fed enough to eat, and be made comfortable in other respects. With my management they lay the year round."

RAINOW HINTS.

The seedsman should walk up one side of the bed and down the other side, always keeping his face, and the hand with which he sows, towards the bed he is sowing; his eye must be continually on the edge of the opposite interfurrow, and deliver his seed principally on the side of the bed next to it; as he returns, the sides will of course be that I love you, and that is all I ask to know."

TO GRANDSIRES.—If thy neighbour's hens trouble thee then inform him thereof; if they trouble thee a second time, shoot them and throw them on to their owner's premises; the third time, shoot them and eat them thyself.

Put some ashes—soot is better still—around the roots of your peach trees. Soot especially prevents the yellows.

VEGETABLES.—Put in the seed liberally for vegetables for winter feed for stock. They will promote the health of your cattle, save hay, and enable the milk-producer to keep his money, instead of paying it out for grain. Sow various kinds,—carrots, beets, parsnips, mangel wurzels and ruta bagas; sow in small batches on different soils, and then, whether the season be wet or dry, a fair crop may be expected.

BEANS.—The bean is a very tender plant, and if planted before the ground is warm, or if covered deeply, it is very likely to rot in the soil, or if it germinates at all, becomes a sickly and unprofitable plant. The first of June, in this state is early enough to plant the principal crop for beans.

MOWING FIELDS.—See that the drains are all free, and gather up branches from the apple trees or brush left on meadows which have been overflowed so that they may not be in the way in haying time.

PLOWING.—Plow deep—take hold a little lower, lower than you did last year; an inch of yellow subsoil will seem become more than an inch of black upper soil. Remember the proverb about having 'corn to sell and keep.'

COMBINING CHEMICAL GASES.—The London correspondent of the Scientific American says that a great improvement has been effected in many of the chemical works of that city, by which the gases which formerly escaped from the chimneys and destroyed vegetation for miles around, are now condensed into a marketable product. They are carried by a horizontal tube into a square tower, forty feet high, in the top of which they are condensed, and being mingled with a stream of water, trickle down through a large tube filled with pieces of coke. They then pass into a reservoir, from which they are taken and treated in such a manner as to render them valuable chemical substances. One Company had just completed a chimney 451 feet in height, when the new mode was discovered, rendering their chimney useless. This it is that improvements of the most simple character are constantly offering, wonderful to relate, in every department of art and manufacture.

WHEAT HARVEST.—Sweet Oil is said to be one of the most effective weapons that can be used against the Wheat Fly. To save them without expense, when your wheat, oat, or rye is ripe, all that is necessary is, to take a small bottle of the purest and sweetest oil, pour a few drops, several drops, by sprinkling it on with a common sprinkler, it will give destruction to the insects, and prevent any further visit for a long season.

[illegible]—These machines are not yet made the [illegible] to warrant, but it will undoubtedly be shortly the case.

[illegible] MACHINE.—When machinery is used [illegible] it is a very great improvement to have the [illegible] before the grain. It takes out the [illegible] and delivers it cleaner, so good an [illegible] for [illegible] is much cheaper for cleaning. It is [illegible] to progress one or two [illegible] in the way in [illegible].

The Renowned Remedy!

HOLLOWAY'S OINTMENT.

A MOST ASTONISHING CURE OF SCROFULOUS ULCERS.—A CASE CERTIFIED BY THE MAYOR OF BOSTON.

Copy of a Letter from J. Noble, Esq., Mayor of Boston, Lincolnshire.

To Professor Holloway.

Dear Sir,—Mrs Sarah Dixon, of Liquorpond-st., Boston, has this day deposed before me that for a considerable period she was severely afflicted with Scrofulous Sores and Ulcers in her arms, feet, legs, and other parts of her body; and although the first of medical advice was obtained, at the cost of a large sum of money, she obtained no abatement of suffering, but gradually grew worse.

Being recommended by a friend to try your Ointment, she procured a small pot, and a box of the Pills, and before that was all used, symptoms of amendment appeared. By persevering with the medicines for a short time longer, according to the directions, and strictly adhering to your rules as to diet, &c., she was perfectly cured, and now enjoys the boast of health.

I remain, Dear Sir, yours truly,

August 12th, 1852. (Signed) J. NOBLE.

AN EXTRAORDINARY AND RAPID CURE OF ERYSIPELAS IN THE LEG, AFTER MEDICAL AID HAD FAILED.

Copy of a Letter from Mrs. Elizabeth Yeates, of the Post Office, Aldwick Road, near Bognor, Sussex, dated Jan. 12th, 1853.

To Professor Holloway.

Sir,—I suffered for a considerable period from a severe attack of Erysipelas, which at length settled in my leg, and resisted all medical treatment. My sufferings were very great, and I quite despaired of any permanent amendment, when I was advised to have recourse to your Ointment and Pills. I did so without delay, and am happy to say, the result was eminently successful, for they effected a radical cure of my leg, and restored me to the enjoyment of health. I shall ever speak with the utmost confidence of your medicines, and have recommended them to others in this neighbourhood similarly afflicted, who derived equal benefit.

I am, Sir, your obliged and faithful servant,

(No gates) ELIZABETH YEATES.

A DREADFULLY DISEASED ANKLE CURED AFTER BEING GIVEN UP BY THE FACULTY AT MALTA AND PORTSMOUTH HOSPITALS.

The following important communication has been forwarded to Professor Holloway for publication, by Mr B. Dixon, Chemist, King-st., Norwich.

Copy of a Letter from Captain Smith of Oriel Yarmouth, dated January 19th, 1853.

To Mr. Dixon.

Dear Sir,—I send you the particulars of a cure effected by Professor Holloway's invaluable medicines: Mr. John Walton, late in Her Majesty's Service, in the British Fleet at Malta, had a very ulcerated ancle, and after having been in the Malta Hospital for six months, was sent to England as an invalid to Portsmouth Hospital, where he remained an inmate four months, there, as at Malta, refusing to have the limb amputated, he was turned out incurable. He then came to Yarmouth, and was under a medical gentleman for about three months, but his ancle became so much worse, that all hope was lost. At this period, by my advice, he tried Holloway's Ointment and Pills, which by unremitted application, healed all the ulcers, and restored him to perfect health and strength.

I remain, Dear Sir, yours very truly,

(Signed) JOHN SMITH.

Albert Hotel, Great Yarmouth.

WONDERFUL CURE OF A BAD URGENT DISEASE BENEFITTY AND GENERAL HEALTH.

Copy of a Letter from Mr. T. F. Kirk, Chemist, &c. Lower Moss-Lane, Manchester, dated February 12th, 1853.

To Professor Holloway.

Dear Sir,—I have great pleasure in forwarding to you the particulars of a very extraordinary cure of a bad breast, effected solely by the use of your celebrated Ointment and Pills. Mrs. Martha Bell, of Pitt-street, in this town, had been for a considerable time labouring under nervous debility, loss of appetite, and general ill health, occasioned by ulcerated wounds in the breast. She had had much experience in the use of all the known remedies for the cure of ulcers, but without any beneficial result, in fact she had nearly lost all faith and hope of a cure being effected. In this distressing and painful condition of body and mind, she was persuaded to have recourse to your invaluable Ointment and Pills, which she immediately did, and in the course of a very short time the effect produced was most astonishing; her appetite was speedily improved, the sores and ulcers in the breast gradually healed, and the nervous excitement of her system was wholly removed.

I remain, Dear Sir, yours faithfully,

T. FORSTER KER.

The Pills should be used conjointly with the Ointment in most of the following cases:

The Subscriber having been appointed Agent to the above Company for New-Brunswick, begs to announce that he is prepared to receive Proposals for FIRE AND LIFE ASSURANCE. The large Capital of the Company, and the number and influence of its Proprietors, enable it to rank with the most eligible Offices, either in America or Europe, with respect to the advantages offered to the Public.

FIRE BRANCH.

Persons assured by this Company are not subject to any covenants or calls to make good losses which may happen to themselves or other, nor do they depend upon an uncertain fund or contribution, the Capital Stock of this Company being an unquestionable security to the Assured in case of Loss or Damage by Fire.

LIFE BRANCH.

In addition to the more customary methods of Insurance, the Company likewise Assures Live on any of the following contingencies:—

For the term of One Year, Seven Years, or any other definite period.

For the whole continuance of Life.—The Premiums to cease, after a limited number of Annual Payments.

For Two Joint Lives.—The sum assured to be paid on the death of either.

On the longest of Two or Three Lives.—The sum assured to be payable at the death of the last survivor; or,

The Survivorships.—To secure the payment of the sum assured, if a life A die before another life B.

For a sum to be payable at age 60, or at death.

Premiums on Credit.—A portion of the Premiums may remain on Credit. Assurances may be effected in various ways, not enumerated, to meet the convenience of parties.

The important advantages afforded by the Company in the Life Branch will include the following viz:—

The Guarantee of an ample Capital, and Exemption of the Assured from liability of Partnership.

Moderate Premiums.

Large Participation of Profits by the Assured amounting to Two-thirds of its net amount, which may be applied at the option of the party effecting the Assurance:—1st. By the immediate payment of the sum so apportioned.—2nd. By an equivalent reduction of the future Premiums.—Or, 3rd. By an equivalent increase of the sum assured.

Small Charge for Management.—The expenses of the Office being borne in due proportion by the two Branches.

Prompt Settlement of Claims.

Policies lapsed by non-payment of the Premium may be renewed within three months, by paying the Premium, with a fine of 10s. per cent., on the production of evidence to the satisfaction of the Directors of the good state of health of the life assured.

We assert with Confidence that—

J. RUSSELL SPALDING'S

UNRIVALLED MANYA!

ANDOASTOKON

IS decidedly the nicest and best toilet article in the world for the Hair. The ablest chemists who have examined it testify that as an agent for preserving the Hair and promoting its growth it surpasses any other article.

After a long series of experiments, Mr. SPALDING succeeded, by an intricate process, in freeing the Castor Oil used in this preparation from its *peculiar odor* and all *greasiness*, and in blending it with the ROSEMARY, &c., in such a manner as to form the cheapest and best *OIL OR WASH* Ever made, for which all who desire to preserve a good head of Hair until late in life, will be grateful.

The Sale of the Article has been immense;

And its Success Astonishing—Use it if you wish.
