The News and the Press.

ST. JOHN, N. B., SEPTEMBER 22, 1871.

Crops in this Province are reported from all sections as abundant. Potatoes, however, have been struck with rust, and are rotting some. Hay and grain crops have been well secured.

Mr. Rand, late Superintendent of Schools of Nova Scotia, has been gazetted Chief Superintendent of Schools in this Province. He comes among us at a time when ability and energy, in the head of the department, are much needed, and from what we can learn of Mr. R., we believe will be found equal to the emergency.

Mr. Hanington, of Westmorland county, has been again returned to represent that constituency by a large majority; but, as before, under a protest.

The work on the County buildings of King's county is progressing nicely.

It is feared that the recent rains will prevent the cutting of the Marsh Lands on the Kennebecasis.

The weather is cold for the season, heavy frosts having made their appearance, but we judge very little damage will be done thereby.

The Templars of King's are making their influence felt among the liquor-venders of that County. Several have been fined.

EXPECTED ORPHANS.—Mr. Boyd begs to inform the applicants for Orphans to be brought here by Miss Rye, that arrangements have been made with the Government to receive and provide for a certain number, and that the applications received, will be filled *in order*. Miss Rye will, herself, allot the girls to each applicant. Due notice will be given of the time of arrival, which will be about the first week in November.

The terms are; The children are indentured until they attain the age of eighteen; until seventeen they are to be fed and clothed, and due care to be taken of their religious training.

From seventeen to eighteen, they are to receive four dollars a months in lieu of clothing.

As it is impossible for Mr. Boyd to reply to the many letters he is daily receiving, he takes this method of generally answering all enquiries. The applications already received, and on file, are eighty-three, which will be decided upon by Miss Rye, when she comes here.

On Tuesday afternoon, about four o'clock, a distressing accident occurred at the new brick building in course of erection adjoining the Catholic Orphan Asylum. Four men, named Michael Pierce, Michael Barry, John Flood, and Bryan Haley, were working on a staging some thirty-five feet from the ground, on the side next the Asylum, when the ledger attached to the corner scaffold-pole gave way and they, with the planks on which they were standing, their mortar tubs and bricks, went down in a mass to the ground. One of the men's feet went through a window of the Asylum, which broke his fall, in a measure, but they all struck with great violence and received severe and, in one case, at least fatal injuries. Pierce had his back broken, his scull severely fractured, and the right arm completely shattered, besides receiving other cuts and bruises from which the blood flowed freely and rendered him a ghastly object. Bryan Haley was injured internally, having struck on the shoulder with great force. His forehead, over the right eye, was cut to the bone for a length of over three inches. It is said he fell with his head on a stake about a foot above the ground, which made the cut. Michael Barry had his left shoulder dislocated, his knees injured, and the scalp and other parts of the body cut and bruised. John Flood received a great shock, and had his mouth and forehead cut. Flood was able to rise after the accident, though badly hurt, and the other poor fellows, remained as they had fallen, perfectly helpless. Drs. Addy, Johnston and Andrews repaired to the scene as soon as possible, and, after they had temporarily dressed the wounds in the Sisters of Charity school-room, Pierce, Barry and Haley were conveyed to the Hospital, where they were attended by Bishop Sweeny, Flood being taken to his home. Dr. Barteaux and other physicians present made the sufferers as comfortable as possible, and soon succeeded in replacing Barry's shoulder. Barry, who is not thought to be dangerously hurt, has a wife and six children, the youngest of whom was born on Saturday evening. Haley is rather more seriously hurt than Barry, and has a wife and four children, who are, of course, dependent on his daily labor for support, as well as are the families of the other men, on each of them. The affair is one which calls for much sympathy for the sufferers and their families, and is a severe and dreadful warning against carelessness in matters in which danger to human life is involved.—*Tel.*

Up to last evening the three men in the Hospital, who were so badly injured by the falling scaffold at the Catholic Orphan Asylum, on Tuesday afternoon, were improving somewhat. Pearce, whose injuries were most severe, and who it was thought could not live through the night appears better, and hopes are entertained that he may yet recover. The extent of his injuries have not yet been ascertained, but an opinion has been expressed that his back is not broken as at first reported.—*News.*

The wood-boat *Telegraph*, owned by John Makim and John Edgar of Washademoak Lake, Queen's County, was run into in the Narrows, a short distance above Indiantown, on Monday afternoon, by the steam tug *Hiram Perry*, with a schooner in tow, and John Edgar, one of the owners, was knocked overboard and drowned. The boat was loaded with cordwood at the time, and running pretty fast with a fair wind. Her bow was smashed in, and she filled and sank immediately. The passangers on board were Robt Akerly and wife, Mrs. James Watson, Mrs. John Summerville, Maurice Corey and John Keese, all of Queen's County, and who were in the cabin at the time of the collision, and had barely time to make their escape in the small boat. Each party blames the other for the collision and it is difficult to say where the mismanagement was, which caused the lamentable occurrence. Mr. Edgar was a young man, unmarried, and was well thought of by all who knew him. The passengers say that much credit is due Mr. Robert Akerly for his calmness of mind under the circumstances, to whom in a great measure they are indebted for their safety. —*News.*

ACCIDENT AT PENOBSQUIS.—Intelligence has been received in this city of a fatal accident which occurred at Penobsquis, whereby a young man named Jeremiah Donovan lost his life. Donovan was a peddler, driving about the country selling goods. On Monday last, at noon, he was kicked in the breast by his horse, and seriously injured, as he only lived until nine o'clock next morning, when his spirit took its flight for another world. The young man was about 20 years of age. His family (mother, brother, and sister) live at the west end of Union Street. His bereaved parent went up yesterday to the scene of the accident, where the deceased will be interred. Donovan was a steady, industrious young man.—*Globe.*

Between 8 and 9 o'clock, on Monday night, Patrick Slavin, a life prisoner of the St. John Penitentiary, escaped from confinement by placing a board against the inside of the fence, which surrounds the buildings, and getting over by its aid. The dreadful murder in which this man, and his father and another named Breen, participated some thirteen years since, and which brought the father to the gallows, Breen to the suicide's end, and Patrick Slavin to the Penitentiary for life, is still fresh in the minds of most citizens. Since his imprisonment, young Slavin has conducted himself very well, and of late acted as hostler to Mr. Quinton, the Warden. The latter was absent in the City when the escape was made, but returned soon after. All efforts to discover the fleeing criminal on Monday night were unavailing, and up to yesterday afternoon nothing reliable was heard of him. The Warden offers a reward of $100 for his apprehension, and the Government should offer more.—*Telegraph.*

The following gentlemen have been elected office-bearers of the Canadian Medical Association for the ensuing year:—Dr. J. A. Sewell, of Quebec, President; Vice-Presidents, Dr. Trudell, of Montreal, for Quebec; Dr. Grant, Mayor of Ottawa, for Ontario; Dr. C. C. Hamilton, of Cornwallis, for Nova Scotia; Dr. W. Bayard, of St. John, for New Brunswick. Dr. A. H. Davis, of Montreal, was re-elected General Secretary, and Dr. E. Robilliard, of Montreal, was re-elected Treasurer. Local Secretaries, Dr. Blanchette, Quebec City; Dr. Henry of Ottawa, for Ontario; Dr. A. P. Reid, of Halifax, for Nova Scotia; and Dr. Steves, of St. John, for New Brunswick.

Quebec Exhibition was opened on the 12th inst. The Governor-General and most of his Lieutenants were or will be present.

(Special to Daily News.)

OTTAWA, Sept. 19.—Lord Lisgar, Admiral Fanshaw, and Bishop Burney are here. The Cabinet has had several sessions, and the Ministers who are absent are expected here immediately. Langevin leaves for Canada on the 22d. The Premier will probably visit Kingston exhibition, but no explanations respecting the Treaty expected from him until meeting of Parliament. The disgraceful condition of the Welland Canal is occupying the attention of the Government and enquiry has been ordered. Provincial Synod is still sitting at Montreal, but little useful work has as yet been accomplished. The Intercolonial Commissioners will meet this week. All the arrangements are completed for the erection of a palatial hotel in Montreal. The entries for the Ottawa exhibition, opening to-morrow are more numerous than those of previous years. Fall weather has set in steadily, and is raw and damp to-day. The Immigration conference commenced to-day; the proceedings will probably last the whole of this week. Hely, Secretary of British and Colonial Emigration Society, is present with others. All the delegates have not yet arrived. Pickard is here.

Flour market dull and unchanged.

The Rev. Theo. S. Cuyler, who spent part of his vacation on Prince Edward Island, has written a very flattering account of it. He thinks it will become a place of general resort, as soon as the railroads are completed.

His Holiness, Pope Pius IX., is highly displeased at the religious freedom now enjoyed in the city of Rome.

The movement to establish a National Church in Germany still exists. The prospect bids fair for a change in that country in a short time.

The Republican party of the United States, according to recent elections, seems to be increasing in strength.

BRITISH AND FOREIGN.

LONDON, Sept. 16.—The leaders of the International Society have promised the London Weavers to prevent the importation of foreign workmen to England, and the London Labor League have denounced the introduction of foreigners into English workshops as a dangerous political precedent. The *Times* to-day deplores the continuance of antagonism between labor and capital.

The correspondent of the *Times* says that the British wheat crop is disastrously deficient.

The International Congress, having as an object of reform the management of penitentiaries throughout Europe and America, is to be held in London in June, 1875.

The Russian Squadron with the Grand Duke Alexis has arrived at Plymouth en-voyage for New York.

UNITED STATES.

NEW YORK, Sept. 16.—Judge Barnard has granted a motion to make the injunctions against Hall, Tweed, Sweeny and Connelly permanent. The astonishment and disgust of the Tammany Ring at this action will probably force some of them to resign or first disgorge a portion of the money stolen from the City Treasury.

An immense mill for the manufacture of cloth at Rochester, England, was burned on Thursday night. Eight hundred workmen were thrown out of employment.

NEW YORK, Sept. 18.—There was a $300,000 fire in St. Albans, Vt., yesterday: a $100,000 fire in St. Paul, Minn., and a $250,000 explosion of powder in Piouche, Nevada.

A cyclone was experienced forty miles Southward of Jamaica on Monday, P. M., travelling Westwardly. It was not felt on that Island. An earthquake on 1st shook the Peruvian coast very seriously. The sea was greatly agitated and for a time it was impossible for vessels to enter the ports.

Since the recent surgical operation Queen Victoria has undergone rapid and decided improvement. Constant medical supervision is, however, considered necessary, and a prominent resident physician has been appointed.

The city continues greatly excited over the Tammany ring matter. Connolly declines to resign as Comptroller and defies the Mayor to remove him. McClellan will not accept the office even if made vacant.

Advices from Zanzibar announces the receipt of positive intelligence of the safety of Dr. Livingstone. The authority for the statement is unquestionable and the truth is certain.

Demonstration in favor of men on a strike which was to have taken place in Trafalgar Square, London, has been entirely abandoned.

Many foreign workmen are daily arriving at Newcastle and Gateshead.

The Newcastle workmen have resolved to continue the strike.

NEW YORK, Sept. 19.—Six persons were killed and twenty-nine injured by the powder explosion at Pioche, Nevada, and the damage exceeds quarter of a million.

Twenty-nine convicts escaped from the Nevada State Prison, and in doing so, six men were wounded, including the Lieutenant Governor.

Cable advices state that there are hopes the strike in Manchester may come to an end, as the employers show signs of wishing to compromise.

The small-pox is disappearing from Weymouth, England.

The Mount Cenis Tunnel was formally opened yesterday in presence of the representatives of France and Italy.

The failure of the new Customs Treaty between France and Germany is imminent.

The German Plenipotentiaries object to the alterations in the text made by the Assembly.

NEW YORK, Sept. 19.—Virulence of cholera increases at Konigsburg, and the rate of deaths has advanced to 70 and even 80 per cent. Deaths during week ending 17th, 300.

George Alexander Hamilton is permanent Secretary of Treasury under Government.

Earl Derby died yesterday at Balbriggan, in the County of Dublin.

The Postal Money Order system between the United States and England will go into operation on the 2nd of October.

The German army is to be placed upon a peace footing immediately, and reduced to an effective strength of 400,000 men.

NEW YORK, Sept. 20.—The United States and British Commission on the foreign claims outside the Alabama claims will begin its sittings at Washington on Monday.

There is no new phase in the Tammany ring troubles.

The Prince Imperial of Germany, Frederick William and wife, arrived at Wilhelmshoe on Monday.

The Russian squadron escorting the Grand Duke Alexis arrived last evening at Falmouth, England.

The Paris forts will be formally surrendered by the German occupants to the French to-morrow. The evacuation of the Four Departments contiguous to Paris will follow immediately and be completed by the 25th.

Virginia City, Nebraska, was devastated by fire yesterday, the loss amounting to three quarters of a million of dollars.

Len. Swett, a noted gambler, was beaten to death last night in Portland, Maine, by Simon Lovett, whom he had swindled.

The Asiatic Cholera has appeared at Constantinople and Smyrna.

The health of Queen Victoria has not been improved by her residence in the Highlands.

An attempt has been made to assassinate the Chief Justice of India. He was stabbed twice with a dagger by a native, and lies in a very precarious state.

The anniversary of the occupation of Rome by Italian troops is celebrated to-day with the utmost enthusiasm in that city.

IF YOU DOUBT, WRITE MR. GALER.

WILLIAMSBURG, L. I., 258 Grand St., June 11, 1866.

Messrs. B. L. JUDSON & Co.

GENTS: It is with great pleasure I write these few lines, not only as a recommendation, but as I feel a very great benefit derived from taking your Worm Candy (Dead Shot). I have suffered much for 10 years past, tried many medicines, been under treatment of physicians in this city, but all to no av il. I felt a gnawing sensation in my bowels, sleepless nights, and very nervous. I have now taken about ten sticks, and quite a number of tape worms, one several yards long, has come from me. I continue taking it, feeling quite a new man, my sensations quite different; and I recommend the same to the community at large, feeling confident, from practical experience, it is the best eradicator of worms in use.

Yours most respectfully,
DAVID GALER.

CITY OF BROOKLYN, KING'S COUNTY, } ss.

David Galer being duly sworn, deposes and says, that he is the same person described in the above certificate, and that the statement therein made by him is in every respect correct.

M'KENZIE'S DEAD SHOT WORM CANDY

for sale by all Medicine dealers, at 15 cents per package.

HOW TRUE and how strange, that people should seek relief in the hieroglyphics of a doctor's prescription when they can buy as good, and nine times out of ten a better remedy than most doctors give, for the insignificant sum of 25 cents. We refer to Morse's Indian Root Pills, these pills cure Headache, Liver Complaint, Indigestion, Female Irregularities, and all bilious disorders, they are prepared from a formula pronounced by the most learned Physicians of our country to be the best and most universal of family medicines. Give them a fair trial and you will never be without Morse's Indian Root Pills.

In numbers there is safety, it is upon this principle that the formula of Johnson's Mountain Herb Pills was prepared. It was not the result of one man's knowledge. Dr. Judson, intending to spend a fortune in advertising his Pills, consulted the most intelligent and learned physicans of the age, and the result was the production of a simple but efficacious medicine the Judson's Mountain Herb Pills. These pills cure Biliousness, Dyspepsia, Liver complaint, Indigestion, Female Irregularities, &c.

Missionaries and others sojourning in foreign lands should not fail to take with them a good supply of *Johnson's Anodyne Liniment*. It is the most reliable medicine for all purposes there is in the world.

Contagious diseases, such as horse ail, glander &c., may be prevented by the use of *Sheridan's Cavlary Condition Powders*. Persons travelling with horses should take note of this.

It is highly consolatory to know that some invention has at length been found to check the scourge of the North American Continent—consumption. Dr. Wilson's Pulmonary Cherry Balsam stands unrivalled for the cure of all diseases of the Lungs. The sufferers have only to use the means which have been placed within their reach to convince the most skeptical among them of the curative powers it exercises over such diseases. The most desperate cases, whether of long or short duration, have failed to resist the power of this soothing Balsam, and the worst cases have only served to exemplify the striking success which follows the proper use of it.

No other medicine of the day possesses such power to restrain those inordinate flows incidental to the gentle sex, and which are the sad result of nervous debility or enfeebled existence. Numbers of Females owe their existence and the actual enjoyment of health to the use of Dr. Wilson's Anti-bilious and Preserving Pills. Their nature is so simple that they may be taken by the most delicate female with perfect freedom and safety.

RHEUMATISM.—Though this disease has baffled the skill, and been pronounced by some medical men as irremidiable, the numerous certificates Dr. Dow daily receives in favor of his Sturgeon Oil Liniment are a direct refutation to such ill-founded and fallacious conclusions. Sprains, weakness of joints, and contracted muscles, have been cured in their worst stages by this medical preparation.

It has always been said that regular physicians would disparage any remedy which they did not originate themselves. This does not suit the Veterinary Surgeons. They have adopted Clark's Derby Condition Powders into general use in their practice, and freely admit a better Condition Powder could not be made.

From the easy expectoration, increased respiratory power of the lungs, and the removal of irritation, manifest from cessation of cough and other alarming symptoms, after using Fellows' Compound Syrup of Hypophosphites, it is clear that the formation of tuberculous matter is not only stopped, but that already deposited is being carried away.
