The envelope contained *twenty-five dollars.* When the books are opened, that rich steward will see how his money was used, and thank God who put it in his heart to dispose of it thus."

## PEACE!

On Monday morning last, the Daily Press made the pleasing announcement that the capitulation of Paris, and an armistice of three weeks, had been arranged between Bismarck and Favre. This news was calculated to cause a feeling of relief to the minds of all who have been anxiously waiting and watching for some signs of the termination of this "cruel war." And, when late despatches, confirmatory of the news, and announcing that on Saturday night last, the Treaty had actually been signed, all felt that the end had at last come, and what is only a cessation of hostilities for a brief period, will result in the relief of the French people from the horrors of war and the establishment of permanent PEACE. The Parisians had evidently been driven to the utmost point of suffering for lack of food and fuel, and were only kept from riot and bloodshed by the most strenuous efforts of the Government, who could not much longer have kept them in control. The Seige of Paris and its heroic but hopeless defence by its citizens, will figure in history as the most memorable of modern times. Speculation is now rife as to the future Government of France. The question naturally arises—will the Republican Government stand, or will the Napoleon dynasty be again restored? The most prevalent idea is, that Napoleon will be reinstated on the throne through the connivance and support of Prussia, the interests of the Emperor of Germany tending entirely, of course, to the discouragement of Republicans on the Continent. What the result will be, time and circumstances alone will determine. The French seems entirely unfitted to flourish under Republican institutions, but require rather the firm hand of Imperial rule. We fear that internal strife and turmoil may yet entail more suffering on the inhabitants of Paris than the invasion of the Germans has yet caused them; but we hope that a stable Government may soon be secured to France, and that war and bloodshed may forever cease in that fair but unfortunate country.

ST. JOHN, N. B., FEBRUARY 3, 1871.

SMALL POX IN ST. JOHN.

On Monday we were informed that this virulent and loathsome disease had broken out with serious results in Brussels street. This fearful malady shewed itself first in Erin street The following statement is given by the *Telegraph and Journal*, of Tuesday:

"A short time ago a young man, named Wheaton, a seaman, came to this city on his way home to his friends, in Kent. He lodged in the Boarding House of Mrs. Stevens, in Erin street, opposite Mr. Nevins' ship-yard. Her two daughters, named McKee, reside with her. Mother and daughters are widows. The house is remarkably well kept. The disease of which Wheaton died was not small pox, but another malignant malady, known to the profession as *purpura ecchymotique.* It shows itself in blood-shot blotches on the person, and arises from the reception of some poisonous or corrupting element into the system. He had crossed the Atlantic in one of the Montreal steamers, arriving at Portland, Me. There had been small pox in the steamer, and his clothes, contained in a trunk, had been fumigated to remove the infection. He mentioned this fact during his illness. After his death, Mrs. Stevens and her daughters had the clothes washed, and this was what led to the breaking out of this much dreaded disease. The fumigation had not been effective. When the Board of Health got a whisper of the case the Chairman directed the contents of the trunk to be sealed up and also ordered another trunk which he had in the steamboat warehouse to be taken in charge. The Board will deal with the contents of both as may be deemed fit.

In Mrs. Stevens's house, the two Mrs. McKees, one with two children and the other with one, have caught the disease. The other cases are as follows:

In Duke's house, on Brussels street, opposite the Haymarket, the son of Mrs. McLaughlin, who is about 24 years of age; also Peter Miller, in the same house. None of the inmates of the house have been vaccinated. Miller has a wife and three children; they are not affected.

In Scribner's house, near Mrs. Stevens' house, Alfred White is down with the disease. His wife, not yet affected, is with him, and his child has been sent away. He has been vaccinated.

A Mrs. Black, whose husband is at sea, living in Policeman Nickerson's house, is, together with her four children, down with the malady.

The child of a Mr. Bishop, who is an uncle to the two women first named—the McKees—is reported to be affected, though this needs confirmation. There are eleven marked cases, besides a few cases in which the symptoms are doubtful.

Notices have been put on all the above houses, front and rear, and everything that can be done to isolate the cases will be done. The want of a small pox hospital or small pox pest-house, in some isolated place, will now be greatly felt."

Since the above was published, a man named McEachern, has died, and two or three other cases have been reported. The disease appears to have attained considerable headway before the authorities were aware of its existence. The Board of Health has, however, been very active, and most strenuous efforts are being made to confine it to its present limits. Every precaution, we believe, is being taken, and the Government will furnish the money requisite to carry out the measures of the Board. Rumors are rife, and needless alarm is caused by false statements which are calculated to do great harm. We believe that all existing cases are now under proper control, and its further spread will thereby be prevented.

Mr. Stewart also sold the corporation lot held by Mr. J. J. Christie, with a cottage upon it, to Mr. W. H. Balding, for £200, and a lot further up the street, owned by Geo. V. Nowlin, Esq., for £375. Two other lots were withdrawn.

Mr. W. A. Lockhart also sold a lot on Leinster street, 38x125 to Mr. J. R. Hopkins for $875.—*Ib.*

ROBBERY.—The office of the Commercial Bank, on the ground floor of Ritchie's building, was entered on Tuesday night, and considerable money carried off. Of this, $71 belonged to the Bank, and consisted of a $40 St. Stephen Bank Bill, a $20, two $5 and a $1, notes of the Bank of New Brunswick. James Vernon, Esq., also lost some funds, but how much he does not know, as the slip of paper upon which he kept an account of the money placed in and withdrawn from the safe drawer was carried off with the money It would seem that the thief or thieves must have been acquainted with the premeses, as Mr. Seely, the President, says he locked the safe on Tuesday evening, placed the key in a drawer, locked it and also the door of the office. Yesterday morning the office door was found open, the drawer still locked, but the safe unlocked with the key in it. Some money and negotiable paper were found lying the floor with some Commercial Bank paper, evidently thrown out with an idea that all was uncurrent. The open office and unlocked safe with burnt matches scattered about the floor were descovered by Mr. Scribner, the Janitor of the building, early yesterday morning, and Mr. Seely was at once notified. The Irish Friendly Society were late in their rooms the previous evening, and about twelve o'clock, when the son of Mr. Scribner went down stairs to turn off the gas, two men were standing in the hall, who hurriedly left on being asked what they wanted. No clue has been found to the burglars.—*News.*

The *Xanthus*, the tug boat recently built at Messrs. Scammell Bros. Shipyard, Portland, and owned by that firm and Messrs. E. D. Jewett & Co., having received her equipment was subjected to a preliminary trial in the harbor yesterday. The results were quite satisfactory and the real trial trip will be made to-day.—*Ib.*

TRADE.—The trade of Halifax and St. John has increased very much last year. That of Montreal has increased in still greater proportion. The total imports in Montreal from the 1st January to November 30th were: 1869 $23,245,198; 1870, $30,062,802. The October imports showed about half a million decrease; but those of November are about a million and a quarter more than in 1869, the value being this year $2,774,300; 1869 $1,537,077. *In the eleven months the increase is nearly seven million of dollars.* A direct trade has been established between Montreal and the Island of Java.

THE ALABAMA CLAIMS.—The Halifax *Chronicle*, of yesterday, publishes the following despatch:

*New York, Jan.* 31.—Last evening, *Post's* Washington correspondent telegraphs that the basis upon which Great Britain is prepared to make a treaty regarding the Alabama claims, and one which members of the Committee on Foreign Relations regard as concessions on the part of the United States, is as follows:

Capt. Charles Sager, who keeps a superb stock of livery horses in Portland, Me., informed us recently that he uses the Sheridan's Calvary Condition Powders regularly in his stables, and that the expense is more than offset by the diminished amount of grain necessary to keep his horses always in good order.

Dr. Wilson's Pulmonary Cherry Balsam is decidely the best remedy for all disorders of the Lung and Chest. It acts with so decided an effect, and yet so gently, and is so agreeable to take, that persons of the most delicate constitution, however great their aversion to medicine, can take it with the most perfect case. It does not contain a single particle of anything noxious or injurious. It is the safest and best Cough Preparation yet invented, and nothing hitherto discovered can be compared with it for a moment. With this inestimable medicine at hand, no Cough can make progress, however much the patient may be predisposed to weakness of the Lungs; and the sufferer may rely upon it that no other assistance is needed.

To persons living at a distance from medical aid, Dr. Wilson's Anti-Bilious and Preserving Pills can be strongly recommended. Most of our diseases arise from impurity of the blood, or from a disordered state of the bowels. These Pills will purify the one and correct the other, and thereby enable the sick to regain their natural health.

Thousands of cripples are now lingering unrelieved under a false system of treatment, who would be speedily in a condition to cast away their crutches if Dr. Dow's Sturgeon Oil Liniment was applied to their stiff joints and cramped limbs. No other Liniment possesses such penetrating powers. Indurated ligaments and contracted muscles relax under its influence, and are cured with a facility that almost transcends belief.

An urgent necessity having been felt here for many years for a Condition Powder for horses, that would be always reliable, and from the confidence that Veternary Surgeons have in Professor Clark's known capability, induced some of them to appeal to him for a preparation that could be thoroughly depended upon. These appeals engaged his attention; and at length he commissioned a leading Druggist in this Dominion to introduce his Derby Condition Powders, which are used throughout Great Britain for Loss of Appetite, Hide-Bound, Worms, Bots, Horse-Ail, Coughs, &c. &c., with the happiest effects.

GENTS: It is with great pleasure I write these few lines, not only as a recommendation, but as I feel a very great benefit derived from taking your Worm Candy (Dead Shot). I have suffered much for 10 years past, tried many medicines, been under treatment of physicians in this city, but all to no avail. I felt a gnawing sensation in my bowels, sleepless nights, and very nervous. I have now taken about ten sticks, and quite a number of tape worms, one several yards long, has come from me. I continue taking it, feeling quite a new man, my sensations quite different; and I recommend the same to the community at large, feeling confident, from practical experience, it is the best eradicator of worms in use.

Yours most respectfully,
DAVID GALER.

M'KENZIE'S DEAD SHOT WORM CANDY

for sale by all Medicine dealers, at 15 cents per package.

How TRUE and how strange, that people should seek relief in the hierogiyphics of a doctor's prescription when they can buy as good, and nine times out of ten a better remedy than most doctors give, for the insignificant sum of 25 cents. We refer to Morse's Indian Root Pills, these pills cure Headache, Liver Complaint, Indigestion, Female Irregularities, and all bilious disorders, they are prepared from a formula pronounced by the most learned Physicans of our country to be the best and most universal of family medicines. Give them a fair trial and you will never be without Morse's Indian Root Pills. Sold by all dealers.

In numbers there is safety, it is upon this principle that the formula of Johnson's Mountain Herb Pills was prepared. It was not the result of one man's knowledge. Dr. Judson, intending to spend a fortune in advertising his Pills, consulted the most intelligent and learned physicans of the age, and the result was the production of a simple but efficacious medicine the Judson's Mountain Herb Pills. These pills cure Biliousness, Dyspepsia, Liver complaint, Indigestion, Female Irregularities, &c.

Many people, particularly children, suffer with the ear ache; and for the benefit of such we give a sure but simple remedy. Put in two or three drops of Johnson's Anodyne Liniment, stop the ear with undressed wool, bathe the feet in warm water before going to bed, and keep the head warm at night.
