be completed in the course of two years.—The island of Hayti is quiet. The coffee crop is all gathered in.—Iowa has 1,500,000 inhabitants, but her largest city has scarcely 25,000 of the number. —The reports of the condition of the sugar crop in Cuba, received from various parts of the island continue favorable. It is now thought the yield will be much larger than at first expected.—The crops throughout Utah are reported to be in fine condition. There is little or no fear this year of a grasshopper plague.—Contracts to the amount of nearly half a million dollars have been made for buildings to be erected in Salt Lake during the next six months.—There are twenty females physicians in Berlin who are justly entitled to be called famous practitioners. They have amassed individually ample pecuniary means, it is said.—England manages to get along with killing one passenger in 1,256,290 on her railroads; France, one in 1,955,555; Belgium, one in 8,861,804; Baden, one in 17,514,977; Prussia, one in 21,411,488.—Mr. William Young, Foreman in Nevins & Fraser's Ship yard, Portland, died while at his work, on Monday, of heart disease. He was 60 years old, and much respected.—Complaints are made of great inconvenience and loss, for want of rolling stock on the Government Railway.—A despatch to the *Telegraph* says, that in Woodstock, on Saturday night, a young man named Rogers, from Jacksonville, shot two young men, named respectively McLean and Williams. McLean was shot in the thigh and Williams in the back of the head. It is thought that Williams cannot live. Rogers has been arrested. No further particulars up to time of writing.—The number of deaths by rum multiplies. A man was run over by the train from Halifax the other day. He was sitting on the track. Both legs were cut off and his head badly cut. No hopes of his recovery. He was intoxicated. The law protects those who slew him.—The remains of an infant were found in the old Episcopal Burial Ground, on Sunday last.—In several Counties in Nova Scotia, the Temperance men intend nominating Temperance candidates for seats in the Dominion Parliament. Halifax County is among the number. New Brunswick constituencies ought to learn something in this respect from their neighbors.—Australia is building a little railroad of 2,000 miles. It is to cost about $14,000 a mile. It is narrow guage, we believe, and England is expected to advance about $27,000,000, to put the work through. Good for England and Australia.—Another victim of rum and vice was found dead in a house on Carmarthen street on Tuesday morning. Her name was Mary McCurdy. She went to the house intoxicated the night before, seeking lodgings, and in the morning was found a corpse on the floor.—Infanticide seems to be on the increase in this city. —Gen. Trochu, the celebrated French soldier, has renounced Catholicism and become a Protestant.—Ten shares of the Bank of New Brunswick stock were sold at auction on Wednesday by Mr. W. A. Lockhart, and brought 55½ above par.

CABLE TO CANADA.—In an exchange we read that the war steamer *Fylla*, has been ordered by the Danish Government, to visit the Faroe Islands and Iceland, for the purpose of taking soundings and surveying landing-places for the submarine telegraph line, intended to connect Scotland, via those islands with Canada.

LARGE SALE OF FLOUR.—The Boston *Advertiser* of Friday says:—Spring & Co., commission merchants of this city, last week sold, in one lot, 5000 barrels of flour to a firm in St. John, New Brunswick. The price received was $8 a barrel, or $40,000. The sale was made on an order by telegraph, and the profit is reported to be about $5000.

DOMINION PARLIAMENT.

OTTAWA, May 18.—In the House, after recess, among the private Bills which passed a third reading was an Act to Incorporate the Halifax Banking Company.

A long and noisy disucssion ensued on the motion for second reading of the Bill to repeal the Insolvency Law. Mr. Jones, of Halifax, moved that Nova Scotia and New Brunswick be exempted from operation of this bill. Mr. Gibb's motion for six months' hoist was lost, 72 to 80, amendment of Mr. Bellerose for third reading on 31st inst., lost yeas 72, nays 82. The third reading of the bill was carried on division.

The following were read the second time and passed in Committee:

An Act respecting patents for inventions; an Act to amend the Immigration Act of 1869; Act respecting the Public Debt.

Tilley gave notice that he would move the House into Committee next Friday to consider resolution declaring it expedient to repeal the act of the Legislature of New Brunswick respecting the government of pilots in the County of Charlotte and to authorise the Governor in Council to appoint the Commissioners for said County, who shall have power to make rules and regulations for government of pilots for the Coast and Harbours of the County and fix the rates of pilotage and impose penalties not exceeding forty dollars for the breach of any such regulations approved by the Governor in Council.

OTTAWA, May 20.—In reply to Grey, Langevin said the Government were considering the subject of subsidizing a line of of steamers to the West Indies. If the Governments of the British and Spanish Indies were disposed to contribute half the amount the Canadian Government would ask Parliament to supply the other half. An offer had been received from Allan to furnish a fortnightly service at one thousand pounds sterling per trip.

Young moved for copies of correspondence with the Imperial Government, respecting the recognition by Britain of German and other foreign naturalized citizens as British subjects. He explained that his object was to ask Parliament next session to adopt an addres to the Imperial Government on the subject.

Sir John A. Macdonald said the question was very important, but there was no recent correspondence on the subject. The Canadian Government had once pressed on the Imperial Government the hardships suffered by foreigners naturalized in this country by our law, but who lost the privilege of British subjects the moment they crossed our border. We require an Act of the Imperial Parliament giving any law of this Parliament on the subject, the same power as the British Law. That right had been asked years ago, but had been refused by the Imperial Government lest some of the British Colonies might confer citizenship on semi-barbarous people, such as Coolies. The Government would consider the question.

This morning Hon. Mr. Hatheway and Hon. Mr. Fraser had conferences with Sir John A. Macdonald and the Minister of Customs on the accounts between the two Governments.

New Brunswick affairs were discussed to day in the Privy Council, and, it is supposed, a definite course was agreed on with the Delegates.

A meeting of all the the Senators and Commoners from New Brunswick was held on Saturday, when the Delegates submitted their views on the Export question, which were generally approved.

Mr. Wedderburn had a lengthy interview with the Minister of Public Works and the Minister of Customs on the subject of insufficient Rolling stock on the European and North American Railway, and also applied for aid for the Carleton Branch Railway. It is understood that the rolling stock will be improved immediately, and the Carleton Branch be taken into consideration.

OTTAWA, May 21.—In the House to-day the Treaty bill passed through Committee and was read a third time, and passed without discussion.

Hincks moved the House into Committee on a resolution to remove all duties, specific or *ad-valorem*, on tea and coffee after 1st July next. He said the Government would allow parties having tea and coffee stock to re-bond it and get back the specific duties, but not the *ad-valorem* duties. He did not propose this session to impose any additional duties on any other articles.

Bodwell moved that rice be also added to the free list. After some discussion the amendment was withdrawn and the resolution reported; and Hincks introduced a bill founded on it.

At nine o'clock the Pacific Railway scheme was taken up and discussed to a late hour. On a division on the Treaty, Chipman paired with Howe.

OTTAWA, May 22.—In the House, after recess, all the items under the head of Legislation, Police and Administration of justice passed in Committee of Supply. The Committee rose and reported.

An agitation for remodelling of New Brunswick school system has been commenced.

Many Roman Catholics are determined to use all their influence in this direction, and ministers are casting their individual influence in its favor, while repudiating the right of Federal Government to interfere with New Brunswick legislation.

The New Brunswick ministers are resolute against yielding to outside influences, but some think concessions may be made in favor of Catholics by-and-bye.

Mr. Hincks' Bill, to correct the clause empowering the bank to advance money to shipbuilders on the same terms as to other business men, has passed through Committee, and will be reported to the House. This amendment will deliver shipbuilders, it is believed, from exactments of money shavers in Quebec and elsewhere.

Anglin moved for correspondence respecting Shippegan Gully. Carried.

The adjourned debate on Costigan's motion for the disallowance of the New Brunswick School law was resumed, and Gray in a long and able speech, argued that it was not the interest of the Dominion to interfere with local legislation, as long as it was within local jurisdiction. He moved in amendment. "That it is essential to the peace and prosperity of the Dominion that the Constitutional rights of the several provinces should in no impaired by the action of this Parliament; that the law passed by the Legislature of New Brunswick respecting common Schools was strictly within the limits of its Constitutional powers; and it is amendable to be repealed or altered by the local Legislature, should it prove injurious and unsatisfactory in its operation; that not having yet been in force six months, and no injurious consequences to the Dominion having been shown to result therefrom, this House does not deem it proper to interfere with the advice that may be tendered to His Excellency by the responsible Ministers of the Crown respecting New Brunswick School laws."

Chanvean moved, seconded by Abbott, an amendment to Gray's amendment, that an address be presented to Her Majesty, praying that she cause an Act to be passed, amending the Confederation Act in sense, which this House believes to have been intended at the time of passing the said Act, by providing that every religious denomination in New Brunswick and Nova Scotia continue to possess all such rights, advantages and privileges with regard to their schools, that such denomination enjoyed in such Provinces at the time of the passage of the Confederation Act; to the same extent as if such rights, advantages and privileges, had been then duly established by law.

Smith asked for an adjournment, to give the New Brunswick members time to consult together, as this move was unexpected.

Connell and Bolton hoped an adjournment would be granted. Debate adjourned.

ENGLISH AND FOREIGN.

LONDON May 17.—The correspondence between British and American Governments is published and commented on by the journals, which generally express the hope of favorable decision by the Senate.

Steamship *Tripoli* was wrecked 4 o'clock Friday morning, when most of her passengers were asleep in their berths. Several of the sailing vessels in the vicinity took off the passengers and landed them at Wexford. The luggage was subsequently secured by other vessels and carried into Queenstown.

BERLIN, May 20.—An Imperial Army band, by the consent of the Emperor, will sail for America to take part in the World's Peace Jubilee at Boston.

PARIS, May 21.—In the National Assembly this afternoon Rouher spoke for three hours on a motion to interpolate the Government as to its intentions with regard to war contracts. The floors and galleries were densely crowded, and the speech was listened to with the deepest interest, frequently interrupted by applause. Thiers, Gambetta, Audiffret and Pasquier reply to-morrow.

LONDON, May 23.—The English papers continue to discuss the Treaty of Washington and the supplementary article with undiminished interest. The editorials generally are inspired by a desire to prevent the failure of the arbitration and to save the Treaty.

The *Pall Mall Gazette* alone argues to the contrary. It says further negotiations will only continue an irritation that may eventually put two proud nations in an attitude from which war can be the only possible issue. The Treaty should be dropped immediately for the sake of national amity, good will and peace.

UNITED STATES.

NEW YORK, May 18.—A United States Government train was sacked by Indians on the Plains, and seventeen persons murdered and burned. They were overtaken by troops, and a fight ensued, the troops being worsted. The band was composed of Indians, Mexicans, and deserters from the United States army.

Devastating fires are raging in the woods of Central Pennsylvania. One entire village with numerous farm houses and mills has been destroyed.

NEW YORK, May 20.—The supplemental treaty was given to the Senate for ratification on Saturday, the Foreign Relations Committee, with one member dissenting, recommending that course. Before it was submitted some immaterial changes were made. The Senate, in executive session took up the matter, but made no disposition of it.

Mr. Sumner began a speech, arraigning the Administration for what he considered its undiplomatic course in the case.

The Senate will probably take up the matter again on Wednesday.

It is believed that a two-third vote, necessary to ratification of the protocol, will be obtained.

A large fire took place in Philadelphia last night. Loss $300,009.

A disastrous rain storm occurred in Kansas on Thursday night. The town was flooded, four persons were drowned, and the railroads injured.

The bricklayers, plumbers, carpenters, cabinet makers, upholsterers and wood carvers began the new and general strike for the eight-hour system of labour to-day. They are well organized and have large funds. What the bosses are likely to do nobody can tell.

The burning of Jayne's Block in Philadelphia last night involves a loss of half a million dollars. One fireman was killed and several injured by falling walls.

W. H. Seward, ex-Secretary of State, is reported to favour the additional article to the Washington Treaty withdrawing indirect damages.

Other amendments to the Treaty have been proposed in the Senate Committee on Foreign Relations, one of them barring all claims of Gret Brittain for Fenian outrages.

NEW YORK, May 21.—Biglin Brothers defeated the Coulter crew on the Schuylkill river yesterday in a five mile race for $1000 a side. Time—32 minutes and 1 second.

The Arkansas river has overflowed its bank near Little Rock. The damage is estimated at $50,000.

Labor strikes in New York have assumed immense proportions, and seriously affect building interests. The strike in New York is practically a an end, as boss carpenters and master masons last night decided to yield to the demands of the work men, and give nine and ten hours' pay for eight hours' work. The concession was not a willing one on their part, but they were driven to it by their existing contracts, which must be fulfilled Other trades which are already represented in the strike, and those about to join in it will probably be generally successful.

Warner's block, the Irving House, Roosevelt stables, and other buildings in Flint, Michigan were burned Saturday. Loss $140,000; insurance 50,000.

The republicans of the third district in Maine have nominated Speaker Blaine for re-election to Congress.

Some additional information in regard to the question of indefinite claims in the Washington Treaty is asked for by a resolution of Gen. Butler.

A correspondent of the New York *Herald* reiterates the safety of Dr. Livingstone.

A proposition for two thousand dollars yearly pension to the widow of Admiral Farragut is before Congress and will probably pass.

NEW YORK, May 22.—Greely formally accepts Cincinnati nomination in a letter published this morning. If elected, he will be, he says, President not of a party, but of the people.

The band of the *Garde Republique*, one of the best in the French army, is promised for the Peace Jubilee, and sails on Friday.

Butler spoke in the House last night on the Washington Treaty, but no action was taken on his resolution.

The Mexicans are dissatisfied at the refusal of Juarez to resign his dictatorial powers, which expired April 30th.

The United States Senate held a continuous session of 23 hours until 10 o'clock this morning, during which it passed the Civil Rights and Amnesty Bills.

The former levels distinction of color in traveling, in hotel accommodation, licensed places of amusement, etc.

The Amnesty Bill removes all political disabilities for engaging in the late rebellion, except Senators and representatives of the thirty-sixth and thirty-seventh Congress, officers in the Judicial, military and naval service of the United States, heads of departments, and Foreign Ministers of the United States.

WHAT IS VITALITY?—Some philosophers call it Animal Magnetism, some Nervous Force, others Caloric, but by whatever name it may be called, the thing meant is the main spring of existence; it is the principle we inherit, and which may be nourished by proper attention to the requirements of the body and the avoidance of excesses; it is wasted or destroyed by overtaxing the mind with study or anxiety and intemperance indulgences, indeed, it requires an expenditure of vitality for every thought or action equal to the magnitude of the thought or action. When the body and the brain are well balanced, the stomach is capable of restoring the waste; but when the brain is large in proportion, the stomach is incapable supplying it: in other words, the expenditure is too large for the income. Here lies the cause of so much suffering from diseases of Heart, Liver, Stomach and lungs, and Fellows' Compound of Hypophosphites is the only preparation known which imparts this vitality directly, and consequently the power to overcome disease.

There are several kinds of worms which trouble horses: the pin-worms (pointed at both ends) are the most common and most dangerous. *Sheridans' Cavalary Condition Powders* will in a few days eject the worms, and the horse will begin to thrive.

Factories and machine shops should not be allowed to run a day without *Johnson's Anodyne Liniment*. In case of a sudden accident, an immediate use of it may save weeks of suffering, and perhaps a limb, or even life.

Have you a cough or any Lung complaint? Have you a weakness of the chest, or a tendency to consumption? If you have, you will find in Dr. Wilson's Pulmonary Cherry Balsam a preparation that will perfectly and permanently eradicate all such complaints. This Balsam has never been administered for any of the above disorders without producing the desired result. In short, the uniform success of Dr. Wilson's preparations in overcoming all such disorders is now so universally admitted that any further proof is needless from us.

HEARTBURN.—When overflow of bile occurs, and the functions of the stomach become deranged, a burning sensation is felt in the region of the stomach, and is properly termed Heartburn. Dr. Wilson's Anti-Bilious and Preserving Pills, by their immediate action on the Liver, purify its secretions, cleanse the solvent fluids, and expel all acrid, irritating matter from the stomach.

Dr. Dow's Sturgeon Oil Liniment, as soon as it is applied, almost miraculously kills all pain. This preparation is not the mere adaptation of an old recipe, but is the result of long experience, derived from a large medical practice, and is only submitted to the public after testing its wonderful medical capacity in thousands of cases.

Extensive experience has confirmed the high character awarded by all owners of horses to Clark's Derby Condition Powders, and we have no hesitation in recommending *these* as perfectly safe. Cold and changeable weather is very apt to cause your horse to be troubled with a slight cough which, if left to the careless and inattentive groom, will end in heaves. Many a valuable animal has been rendered worthless, when a few doses of these Powders would have prevented all such evil.

By order of the Directors.

Dated at Hopewell, Albert County, the 16th May, 1872.

JOHN LEWIS,
may 24—2i President.

TO THE ELECTORS OF QUEEN'S COUNTY.

GENTLEMEN.—A vacancy having occurred in the representation of the County, I have, at the request of many of the voters, concluded to be a candidate for the vacant seat, and most respectfully solicit your support.

While I shall adhere to the principles I held when formerly a member of the Legislature, I shall, if elected, hold myself free to act with any party in whom I have confidence, and who, in my opinion, will advance the interests of my County and the Province generally.

I am, gentlemen, yours very truly,

WALTER S. BUTLER.
