Messrs. Ferris and Burpee have brought the matter to the attention the Dominion Government.—The steamers *David Weston* and *Rothesay* reached Fredericton late on Saturday night—the first trip of the season. —A High School for young ladies has been opened in Portland.—A block fell from the staging in Pittfield's shipyard in this city on Saturday and killed a girl named Higgins.—The Western Union Telegraph Company have moved into their new office at Barlow's Corner, corner King street and Market Square—A young man named Richey was killed on the N. Rum was at the bottom of it. He had been drinking till he was nearly crazed. Yet the rum business is a respectable one, and men who are getting rich out of it have more influence upon the Legislature than all the moral and Christian people in the Province.—The American Whip Company at Westfield, Mass., manufactured 4,000 dozen whips last month.—Families in Maine are sending to Sweden for servant girls.—A farmer is planting a peach orchard of 7,500 trees near Shawneetown, Ill.—A terrible tornado swept over the "up country" of South Carolina on the 19th inst., doing great damage to property. ATTEMPTED MAIL ROBBERY.—On Monday morning last, while the train which leaves Truro at 7 A. M., was on its way to Halifax, the mail bag was cut open and a package extracted therefrom. It appears that there were no valuable parcels in the bag. One package of ordinary letters are missing.—*Tel.*

THE BODY of a mulatto boy, seven years of age, was recently found horribly mutilated in a biscuit box, on the shore of Liverpool, N. S. It was identified as that of a boy named Matthews, whose parents reside in Halifax. Some time last fall, he went on a visit to an uncle residing at Liverpool. He has been missing since the 23rd February last. An Inquest on the body failed to elicit anything to direct suspicion towards the boy's murderer.—*Ex.*

DOMINION PARLIAMENT.

In reply to Stephenson, Hincks said it was not the intention of the Government to abolish or reduce the rate of postage on newspapers of the Dominion, the Expenditure of the Post Office Department being largely in excess of the revenue.

REPORT ON THE FISHERIES

states that the fisheries have been in a highly prosperous condition during the past year, especially in Nova Scotia. The actual value of the product of the fisheries for the purpose of trade is $7,573,200, being an excess over the previous year of $998,160. The estimated value of the home consumption is $609,000; amount of capital engaged in fisheries, $15,090,000; persons employed about 87,000; collections for the year, $12,408; expenditure, $42,592. The report states that in conformity with the expressed wishes of Her Majesty's Government, fishing vessels belonging to United States citizens were not subjected to molestation or seizure, solely for the flagrant offence of fishing within the three mile limit. The claims of Canada in respect of headlands and excluding foreign vessels from her ports were kept in abeyance. Mitchell adds: "It is extremely desirable that during the consideration of the pending Treaty proposals, there may exist no uncertainty as to the necessary measure of protection, which in the meantime will be adopted and enforced by Canada."

THE REPORT OF THE INLAND REVENUE

The revenue of the year from all sources has been $5,120,647. Exclusive of the cost of the Supervisor of cullers office at Quebec and Montreal, the outside service has cost $174,504,69, being less than 3½ per cent. on the collections. The Supervisor's office cost $61,911 68; and the fees collected amounted to $63,228 57.

The receipts from all the sources from which the Inland Revenue is now derived is as follows for 1867-8 (the first year of Confederation), 1869-70 and 1870-71:—

	1867–8	1869–70	1870–71
Excise	$3,078,222	$3,664 465	$4 301,381
Public Works	486 811	543 596	579,132
Culling Timber	79,886	66 475	63,228
Bill Stamps	119,712	136,276	184,255
	$3,755,621	$4,410,8,6	$5,128,004

The increase in 1870–71 over the preceding year has therefore been $717,188, or 16¼

THE INCREASE

in the consumption of spirits as compared with 1870 has been 408,217 proof gallons; as compared with 1869, the increase is 1, 409, 477 proof gallons. The increased revenue being $257,358 and $888,119 respectively.

IN THE CONSUMPTON

of malt and liquors there is a large increase over the consumption of 1869–70; but as the consumption of that year was exceptionally small, the comparison will be more fairly made with 1868–9. The increrse in the revenue over the revenue of that year is $17,966, and the increase in the quantity of 145 lbs. The increase in the quantity of malt liquor produced is 853,548 gallons. The quantity of malt in warehouse on 1st July, 1870, was 10,864,-430 lbs. On the 20th June, 1871, there were in warehouse 9,782,518 lbs. The demand, therefore, was in excess of the production. The quantity exported in 1870–71 was 6,524,860 lbs., against 5,573,-119 lbs. exported in the previous year—an increase of nearly 20 percent.

This large increase of revenue from this liquor business is simply horrifying. We see in it an insrease of poverty, crime and degradation all over our fair and beautiful country. When will this death tide be effectually checked?

THE ACCRUED REVENUE

from tobacco is largely in excess of the revenue obtained from the same source in any previous year, exceeding that of 1869–70 by $488,506, and that of 1868–9 by $488,569. The license fees are included in this comparrison. The increase is mainly due to the increase on Cavendish tobacco, which, in April, 1870, was raised from 10 to 15 cents per lb.; an increase in the duty on cigars and other descriptions of tobacco having been imposed at the same time.

THE RETURNS

of the quantity of refined petroleum entered for consumption, show an increase of 819,864 gallons over the quantity in 1869-70, and of 2,751,796 gallons over the quantity in 1868-9. The revenue shows an increase of $46,658, as compared with that of 1869-70, and of $141,183 as compared with that of 1868-9. The quantity entered for export in 1870-71 was 5,531,730; in 1869-70 it was 5,274,068 gallons; and in 1868-69 it was only 758, 030 gallons.

THE REVENUE.

From articles manufactured in bond shows an increase of $7,365 over the revenue of 1869-70, and $12,088 over that of 1868-69. The principal articles now produced in bonded manufactories are vinegar and methylated spirits. The tariff of 1870 places a specific instead of an ad-valorem duty on these articles. The collection of the duty is thereby much simplified, and made more certain and equitable in its operation.

The revenue from bill stamps shows an increase of $47,979 over that of 1869-70 and of $54,591 over that of 1868-69.

OTTAWA, April 30.—Sir Francis Hincks made his budget speech, and submitted the supplementary estimates. The Government has $1,400,000 in the Bank of Montreal, £600,000 in London on deposit, and £300,000 on guaranteed bonds for the North West purchase, besides other large deposits. In round numbers the estimated revenue of 1872 is $20,000,000. The expenditure will be about nine millions more; but then ten millions will be chargeable to capital account, which means—if it means anything—that it will be borrowed. The debt of Canada is about $80,000,000, and the assets represent twenty per cent of the debt.

OTTAWA, May 1.—Papers relating to arbitration on Halifax buildings submitted; award to Local Government from Dominion—$20,000, with $10,-000 for interest to date. Arbitrators's fees were $4,000.

Jones, of Halifax, introduced a bill to assimilate the laws of Nova Scotia relative to interest with those of Ontario and Quebec.

In reply to Benoit, Pope said it was not the intention of Government to provide for a Dominion Agriculture Arts Exposition this year, and though sympathizing with Agricultural Societies and desirous to promote their objects, they did not intend to make any grants of money to them.

In the Senate to-day, Mitchell stated that the expense of the Dominion in protecting the coast fisheries last year was $84,000, and that of the British Government some hundreds of thousands of dollars.

In answer to Senator Wark, asking for the establishment of life annuities by the Government, Campbell replied that there was a law now in existence, enabling the Finance Minister to convert public debt into annuities for investment, and Hincks intended to propose amendments, making the law still more efficient.

As the worst is now believed to be over, the anxiety of the people has reasonably lessened.

LONDON, April 30.—In the House of Commons last evening, Mr. Gladstone replying in a question by Mr, Jinksnson, said the Imperial Government had agreed to gurantee the Canadian loan of £2,590,-000 sterling for the construction of a railroad to the Pacific, providing that Canada should accept the Washington Treaty.

PALPITATION OF THE HEART.

FREEPORT, DIGBY COUNTY, N. S., *12th February*, 1866.

James I. Fellows, Esq.,

Dear Sir.—I have during several years been troubled with a Nervous Complaint and Palpitation of the Heart, so much so that at times I became unconscious of everything around me: in fact, my pulse stopped sometimes altogether. Hearing of the good it afforded to others, I was induced to try your Compound Syrup of Hypophosphites, and have derived great benefit from its use, and whenever I am troubled again with the old complaint I shall always have recourse to your Syrup, feeling sure of obtaining relief from its use.

You are at liberty to publish this for the benefit of other sufferers. I am, sir, respectfully yours,

FANNIE HAINES.

For sale by all dealers.

Those who suffer from cough or any Lung complaint should, without delay, try the effect of Dr. Wilson's Pulmonary Cherry Balsam, a few doses of which will relieve the sufferer and cause easy and natural expectoration. If a cough is allowed to continue without using such a preventative, a more serious causality may arise and confine the patient to the house, if not to a bed of sickness. This is a remedy of extraordinary power, acting directly upon the lungs, and no preparation has before been found which produces such a beneficial effect on those organs as this Balsam. Dr. Wilson's Antibilious and Preserving Pills have now been before the public a sufficient length of time to prove their efficacy and virtue, and the truth of his system as to the cure of disease. Being composed only of vegetable matter or medical herbs, they are found by experience to be harmless to the most tender age or the weakest frame, under every stage of human suffering; the most pleasant and benign in their operation, ever offered to the world; and at the same time the most powerful, searching out the roots of any complaints, and performing a cure, if within the reach of human means.

The treatment of rough or broken knees in horses is a subject of great importance. We have seen many apparently hopeless cases restored by the free and continued use of Dr. Dow's Sturgeon Oil Liniment. It is a perfect remedy for every kind of superficial inflammation, which soon loses its angry character under the use of this invaluable Liniment.

NURSERY RHYMES, No. 5.

"Hail, doleful, dismal Spring!
If hail you can't, then snow;
Do some other pleasant thing,
If nothing more than blow.

Alternate thaw and freeze,
Call 'zeyphrs' from afar
To make us cough and sneeze,
And choke us with catarrh.

C! C! C!
A horse's head where his tail ought to be."
—*Thomson's Seasons.*
