of the world's charity for Chicago.—The "clips" of California wool last year amounted to 22,187,188 pounds.—The Presbyterian Church of Saint Stephen has extended a call to Rev. Robert Wilson, now of Chatham, formerly Congregational Minister of Sheffield, Sunbury county.—Rev. J. W. Titus, pastor of the Pitt street Baptist church, was made the recipient of a donation of $75, a few days ago.—Rev. Mr. Houston, of Calvin church, preached a sermon on Sunday last, directed in part against the Skating Carnival in this city.—Albion Division, S. of T., intend celebrating their twenty sixth anniversary by a dinner at the Victoria Hotel this (Friday) evening: Hon. S. L. Tilley is to be present.—The *Tribune* suggests the purchase of the Suspension bridge by the Government, the object being to make it free: a very good idea, if the Company now owning it do not name too high a figure.—Boston papers estimate the domestic trade of that city for 1871 at $1,200,000,000.—The Young Men's Christian Association of Baltimore, during 1871, found situations for 307 persons in need of work.

MANUFACTURING POWER WANTED.—In his admirable charge to the Jury a few days ago in the Forbes-Anglin libel suit, Chief Justice Ritchie referred to the wonderful progress made during the last thirty years in the building up of this city. Thirty years ago, he said, the Ferry between St. John and Carleton consisted of one boat and a man to row it. The mails were made up, received, and distributed by one man. Men then prophesied that perhaps a vessel might in their day sail direct between Great Britain and St. John. The Steamship and the Railway were not dreamed of, and telegraphy was a thing in the dim vista of obscurity. But all these events have come to pass, and though there is a steam engine and a factory in every nook and corner, a want is still visibly felt. This present season of all others there is a demand for power worked by steam far surpassing any demand in our previous history. Engines and machinery are wanted for mills, for steamers, for railways and various other requirements, and our foundries and machine shops are not able to supply half the demand. There is room for all here and for more. An extensive machine shop and foundry—larger than anything we have at present—is one of the great wants of this city to-day. No better opening for a machine shop and foundry can be discovered anywhere than in St. John to-day, and it is to be hoped that, if the present manufacturers do not enlarge, other parties will go into the business and reap the certain reward that is sure to await them. A good arrangement would be for present proprietors of foundries and machine shops to combine,—unite their capital, their energies, their talent,—and give St. John an establishment equal to anything of the kind to be found in the Dominion.—*Tribune.*

STEAMSHIP ENTERPRISE IN NOVA SCOTIA.—Besides the $40,000 pledged in Halifax, the town of Liverpool, N. S., has subscribed nearly $30,000 stock in the company to run a steamer from Halifax to a United States port, touching at Liverpool and Yarmouth; and Mr. Fishwick and Captain Doane will leave immediately for England to look for a steamer suitable for the route.—*Tel.*

CLEARED.—The brigt. *Little Fury*, which arrived at Halifax from Ramsgate, England, some weeks age, bound to St. John, and was detained in quarantine at that port on account of small pox on board, was thoroughly fumigated, received a clean bill of health, and cleared on Monday for this port.

YARMOUTH SHIPPING.—The Yarmouth *Herald*, in publishing a list of the shipping of the port, says:—

Yarmouth, as all the world, and the rest of mankind know, has her speciality—the ship-owning business. Very proud is the Yarmouthian of the annual Shipping List, showing the amount of tonnage owned in the port, the increase that has taken place during the year, and what new vessels are likely to be built the ensuing season. All his thoughts and affections, dreams, hopes, and fancies, cluster around the idea of his vessels. Should the nations once more lapse into idolatry, Yarmouth, we feel half persuaded, would set up and worship (as indeed malicious outsiders says she does already) her Shipping List.

Be that as it may, the List which we this day publish indicates a healthy vitality—a condition of uninterrupted progress, which the citizens of Yarmouth may well be pardoned for regarding with complacency. From this List it will be seen that the shipping of Yarmouth consists of 2 steamers, 32 ships, 92 barques, 8 brigs, 23 brigantines, and 100 schooners, registering in the aggregate 95,182 tons; and that though vessels to the amount of 6,062 tons have been lost, and 2,235 tons sold, there has been a net increase during the year of 4,514 tons. When we add, that new vessels are now building, or under contract to be built in the course of the present year, the total tonnage of which will amount to 20,000, it will be perceived that the future prospects of Yarmouth are altogether as hopeful as they have ever been at any former period of her history.

RAILWAY FEVER.—Judging from the notices in the Canada *Gazette*, Parliament will not be deficient in applications for Acts of Incorporation of Railway Companies during the approaching session. There are in the last *Gazette* nine applications for new charters, and four others for amendments. Among the former are:—Canada Pacific Railway Company; Canadian Pacific Railway Company; Company to construct from Thunder Bay westward; Interoceanic Railway Company; North-Western Railway Company of Manitoba; Central Railway Company of Manitoba; and a Company to construct a Railway from Lake Winnipeg to the American Boundary, and another to construct a Railway from the Boundary to Fort Garry. If half these lines be built in the next ten years the great North-West will be pretty well girdled.—*Tel.*

FIRE IN P. E. ISLAND.—William Bagnell, Esq., of New Glasgow, one of the most enterprising business men on the Island, met with a severe loss on the 3rd inst. A building used as a house for feeding pork, caught fire from a defect in the furnace, and thirty-eight fat hogs, supposed to average 500 pounds each, were roasted alive. The flames spread to the adjoining buildings, and consumed a barn, horse stable, hay-house and coach house, with the contents of each, including some very costly farming implements. Mr. Bagnall's mills were saved, though they had a narrow escape. There was no insurance on any of the property, and the loss is estimated at over $4,000.—*Tel.*

BRITISH AND FOREIGN.

LONDON, Jan. 18.—A Bombay telegram reports the loss of a vessel off Turat, and thirty-five natives drowned.

The principal of the College Alvitry Le Francais is condemned by a German court martial to three months' imprisonment for a hostile demonstration of the students. It causes much uneasiness in Paris.

The Government has demanded of Austria the extradition of Gambetta's private secretary, M. D'Esenes.

The Assembly adopted a resolution that the proposed tax upon raw material be resorted to only upon the failure of other taxes to meet the expenses of the Government. Ministerial changes are expected in consequence of the vote.

LONDON, Jan. 20.—John Stuart Mill declined to preside at the mass meeting to be held in support of Sir Charles Dilke at Freemason Hall.

France is excited by the threatened resignation of M. Thiers on account of the rejection of his tariff measures.

LONDON, Jan. 22.—The Prince of Wales progresses satisfactorily. The Queen will shortly visit him.

Dease (liberal), member for Parliament for Kerry Ireland, was mobbed on Saturday.

The Czar issued a decree subjecting all male citizens to military service.

The difficulties between Germany and Brazil have been amicably settled.

A large body of men and a number of men-of-war are concentrated at Marseilles owing to recent disorders.

Thiers and his Cabinet resigned on Saturday causing great excitement. The Assembly refused to accept his resignation by only six dissenting votes. Finally he withdrew it, but said he was worn out and discouraged, and could not change his opinions, and similar conflicts are likely to occur when the military and educational bills were discussed, and sooner or later he would be compelled to retire.

The Internationals in Spain are protesting against the late orders of the Government to suppress their public meetings.

President Thiers is receiving expressions of public confidence from all quarters.

LONDON, Jan. 22.—The Queen of Greece has been safely delivered of a son.

The German war office is about to establish a military school at Metz.

It is reported that the German government refuses to join a movement of European powers for the suppression of the International Society.

It is understood that Thiers abstains hereafter from debating in the Assembly except on important occasions.

The trial of Communists for the murder of hostages in Paris is concluded. Genton is sentenced to death. Three are sentenced to Cayenne penal colony—Francais for life, Latour for 20 years, Remoin for 10 years. Eight are sentenced to transportation from the country. The remainder were acquitted.

Grevy, president of the Assembly, will probably be chosen vice-president of the Republic.

LONDON, Jan. 23.—In a recent storm on the Mediterranean, the decks of the steamship *Nada* were swept of 35 passangers, all drowned, bound for Alexandria, Egypt. The African mail steamer *McGregor Laird*, on her passage to England, was lost on the coast of Guinea, passengers and specie saved.

The Tichborne case continues to attract a large share of public attention. The claimant's chances are evidently growing weaker. The one hundred pound Tichborne bonds have declined to eighteen pounds.

LONDON, Jan. 23.—Lord Grandville, in reply to a anti-slavery deputation regarding Spain's non-observance of the treaty of the suppression of the slave trade, said that Spain had infringed the treaty, but the matter was too delicate at present for interference, as Spain had an insurrection on her hands; but he would consult his colleagues before taking any steps.

Election excitement in Kerry runs high. It is reported that Fenians are organizing mobs to support Blennerhasset, and the priests are threatened with violence.

John Bright has written to O'Donahue denouncing the agitation for home rule.

Cape of Good Hope advices state that rich discoveries continue in the diamond fields. Two diamonds of a thousand carets each have been found.

LONDON, January 24.—A severe storm visited London yesterday evening, and lasted all night, raging with great violence. Rain poured in torrents, flooding lower portion of the city. The Parliament building was damaged, water penetrating the roof in several places, injuring the decorations and furniture. The weather reports show that the storm extended throughout the British Isles, and reached some portions of the continent. The telegraph wires were prostrated in various directions and communication interrupted. In the Channel and on the Irish Coast the storm was excessively severe. Serious disasters to shipping are feared, although partly owing to derangement of the wires no wrecks have yet been reported.

PARIS, Jan. 23.—Members of the Right Centre offered to support McMahon for Vice-president of the Republic, but he declined.

UNITED STATES.

NEW YORK, Jan. 20.—At the Dominion Board of Trade meeting in Ottawa, to-day, the United States consular fees and customs charges were considered unjust to Canadian merchants, and a committee was appointed to confer with the executive of the National Board of Trade at Washington.

HOME MISSIONS.

Gilbert White, Esq	4.00

We received a very pleasant letter of thanks from our old friend Mendall, since his return home, for a bottle of *Johnson's Anodyne Liniment* which we gave him, and which he says has entirely cured him of the troublesome and dangerous cough he had when here.

FEAR NOT! Though troubled with with what seems an incurable, cough, Dr Wilson's Pulmonary Cherry Balsam will cut short all Lung Complaints which have their origin in affections of the Chest. The superiority of this medicine over all others, for subduing a harassing cough, has been so fully and widely proved, that it is only necessary to ask those afflicted to give it a trial; and, if fairly tried, no disappointment will ever ensue. It will arrest the increasing cough, allay disquietude, and perfect a cure.

Our Veterinary Surgeons throughout the Dominion are recommending Clark's Derby Condition Powders for several reasons; one, because they know that Professor Clark would not associate his name or introduce any article that was not the very best of its kind; and again, from experience, the good results that follow their use.

On the death of one of England's most eminent physicians, all his effects were sold by auction, and among other things was a sealed packet, marked "Advice to Physicians," which brought a great price. The purchaser on opening the packet, reads as follows: "Keep the head cool, the bowels open and the feet warm." If physic is necessary, use *Parson's Purgative Pills*; they are the most scientifically prepared pill that has appeared in the last hundred years.

A dose or two of Dr. Wilson's Anti-Bilious and Preserving Pills, administered as soon as the symptoms of disease are felt, will, in nine cases out of ten, prevent serious sickness. This fact is particulary worthy the attention of those who cannot conveniently procure medical aid.

Dr. Dow's Sturgeon Oil Liniment has become so generally used that no stable is complete without it. The promptness and certainty with which it acts renders it invaluable to those who have the care of horses. It is better than any Liniment in use, no matter under what name it may be called.

THE use of Tobacco causes indigestion, palpitation, slowness of intellect, a desire for strong drink, and an intermittent pulse; it destroys the vitality of the blood, produces dizziness, disturbs sleep, makes a man miserable, and prematurely old. When the diseases are serious and stubborn, the best remedy is Fellows' Compound Syrup of Hypophosphites, as it restores circulation, the nervous ganglia, builds up the muscles, and induces healthy Liver, Heart, Stomach and Intellect.

CARD OF THANKS.

RETAIL DEPARTMENT.—January, 1872.—MANCHESTER, ROBERTSON & ALLISON desire most respectfully to return thanks to their many friends and the general public for the very liberal support received during the past six years, and beg to assure them that no effort will be spared to merit a continuance of past favors.

They also desire to state that they have decided to abolish the system of a "Private Mark," and that for the future, in order to facilitate business and increase confidence, they will mark their Whole Stock in Plain Figures. This will be the Lowest Cash Price, from which no discount will be made.

From those who have hitherto favored them with their regular accounts, they beg to solicit a continuation of the same, and to intimate that they will be rendered in January and July of each year, when payment will be expected, as it is not their wish to keep any accounts in the future on which they will be obliged to charge interest.
