Those who got the liquor can reflect over the story at their leisure.

THE ELECTIONS.—A despatch to the *Globe* says that the nominations will take place on the 22d inst., and elections on the 29th inst. There is no law compelling simultaneous polling, but Sheriffs and returning officers are requested by Government to have polling on the date mentioned.

Already the cards of several candidates have been published. G. R. Pugsley, Esq., asks the votes of St. John city and county, pledging himself to support the Government. Dr. Sharp and James Domville, Esq., are before the electors of Kings. The doctor "will give the present government a liberal support in all matters in the interests of the Dominion generally, and especially of the county of Kings;" and he always means what he says. He polled a large vote at the last election, and has probably gained friends since then. Mr. Domville makes no mention of either government or opposition, but promises to "vote for all measures that may be conducive to the welfare of the Dominion, stand up for the rights of this province, and endeavour to obtain equal privileges for King's County." As he invariably voted with the late government when in Parliament, he would be likely to pursue a similar course if re-elected. John Pickard, Esq., has issued his card to the voters of York. Everybody who knows Mr. Pickard knows that he is honest. We have not heard of any opposition to him, and it is not probable there will be any. In some other countries there is likely to be no opposition. Westmorland, Gloucester, Queens, Northumberland and Carleton, will probably re-elect their present representatives by acclamation.

In connection with the St. John city and county election several names are mentioned. A. L. Palmer, Esq., will seek re-election, and as he has looked sharply after the interests of his constituency he may be expected to receive a large support. Mr. Elder's name is mentioned, and he may be induced to offer himself.

In Kings it is thought there may be another candidate than those mentioned, in which case the result will be about the same as before, a result that it would be just as well to avoid.

In Charlotte A. H. Gilmour, Esq., is expected to oppose Hon. John McAdam. There is some talk that W. E. Perley, Esq., may oppose Mr. Burpee in Sunbury, but nothing definite is known.

A SAD DISASTER—Some time ago, it was noticed in our columns, that portions of a schooner had been picked up on the South Shore near French Cross, and that a board with *Planet* on it had been found. It now appears that the unfortunate vessel was the *Planet*, of Truro, a schooner of 61 tons, and that all on board have been lost. She was rather an old vessel. The captain was William lamb, a young man of 29, who belonged to Diligent River, Parrsboro'. He leaves a wife and three children. WORTHY OF NOTE.—An exchange says there is scarcely a day passes that we do not hear, either from persons coming into our office or in some other way, of the success of *Johnson's Anodyne Liniment* in the cure of coughs and colds, so prevalent about town just now.

If we can benefit the readers of the INTELLIGECER any by recommending *Parsons' Purgative Pills* to be the best anti-bilious medicine in the country, we are willing to do so. We have had about as good a chance to know as any one.

FROM REV. MR. GRIFFIN.

Having received great benefit form Fellows' Syrup of Hypophosphites, I take great pleasure in recommending it to others for nervousness, caused by overwork and study. I consider it a most excellent remedy.

G. HINTON GRIFFIN, St. George,
Brant, Ontario.

When winter sets in, the human constitution undergoes many trials, particularly diseases of the Lungs. A preparation which effectually controls these diseases, is DR. WILSON'S PULMONARY CHERRY BALSAM. Its importance can hardly be over-estimated for preserving health and life itself. This preserving power is admirably displayed by the rapidity with which it subdues and controls all Coughs, Colds &c., relieving the respiratory organs from undue congestion. With this Balsam at hand, neither great judgment or much experience is required in keeping free from all the Pulmonary diseases through the trying time of winter.

No better Family Medicine can be had than Dr. WILSON'S ANTI-BILIOUS PILLS. A box of these used according to directions, will not fail to cure. Most of the diseases to which all are liable are specially removed by the use of these Pills.

Rheumatism, Lumbago, and all pains which prevail so frequently during this inclement month, and annoy so much, can be speedily removed with DR. DOW'S STURGEON OIL LINIMENT, the advantageous properties of which, over all pains of the muscles and cords, have been long established. Dr. Dow faithfully tried it in his own pratice for sixteen years before advertising. For horse-flesh it is the best medicine in existence.

An extensive merchant at the North writes to the agent of Clark's Derby Condition Powders "we have sold all kinds of Condition Powders but have never supplied our customers with any that gives as much satisfaction as the Derby Condition Powders. You will do well to replenish our stock immediately." Our readers will bear in mind that as a remedy these powders are not confined to horses alone: they are equally beneficial in diseases common to cattle and sheep.
