good reason to hope that the latter is in a position to carry on and complete the work without any delay.... At 10 o'clock Friday morning, fire was discovered at the rear of a shed, on Portland bridge owned by Richard Farmer, and in which was stored a lot of shingles, clapboards, two sleds and wagon gear. Hose from Moore's nail factory was brought into use after the alarm had been given, and soon after the Portland steamer with hose from the city appeared. By their united exertions the flames were subdued, although a serious conflagration was at one time feared. Mr. Robt. Scott's blacksmith shop, a two-story building, caught fire, but he managed to save the greater part of his tools. He is insured for $200 in the Scottish Imperial. Mr. Farmer had $700 insurance, in the Lancashire, on the contents of his shed, the value being estimated at $800..... Sackville is to have a new hotel, near the Railway Station. ... The *Telegraph* says William Jamieson, of Upper Magaguadavic, has an apple tree in his orchard which on one side is loaded with apples, and on the other is in bloom..... In Carleton Co., the election of Councillors in the different parts will take place Nov. 2nd..... The *St. Lawrence Advance* reports the drowning of a man named Baudains, at Gloucester, last week..... A series of petty thefts, says the *News*, have been recently made from the Royal Hotel by a servant employed there. The articles stolen principally embraced furniture, glass and chinaware, and many of the goods have been found in a house on Wentworth street..... On Friday night a thief stole a coat from Mr. Hartley Lee's residence, Indiantown. He afterwards went asleep near Mr. Lee's factory, where he was found by the proprietor, who got back his property..... Ten trunks and three cases of dry goods, removed from the store of Messrs. R. S. Staples & Co. insolvents, previous to their assignment, were found last week in care of Messrs. Stephenson & McLean, North wharf. They refused to give them up, alleging they were held as colateral, for money advanced Mr. Hampson. A writ of replevin was obtained, and the goods taken possession of, Mr. Stephenson afterwards deciding not to contest the matter. The goods were worth about $1500. So the *News* says.... Woodstock is troubled with burglars. The hardware store of Mr. Robt. Smith, Woodstock, was entered one night recently and a large amount of goods carried off. The *Sentinel* recommends the establishment of an efficient night watch and says the daring and skilfully executed robberies that have taken place in the town during the past fortnight, indicate the presence in the community of individuals who are prepared to get a living during the winter by dishonesty.... On Thursday night the leather store of Mr. James McSorley was entered and goods valued at $25 were stolen. The burglars forced the door open..... Large catches of herring are reported from Grand Manan..... The *Post* says the butter made from one cow, owned by Mr. H. R. Fawcett of Sackville, from the 12th of June to the 19th of Oct., was 178 pounds—a period of 119 days, besides supplying milk and cream for a family of three persons. No extra feed, and cow pastured on upland pasture..... C. A. Hallett, Esq., C. E., has commenced the survey of the Petitcodiac and Queen's County Railway.... The Newcastle *Advocate* says:—The I. C. R. bridge over the N. W. Miramichi, was completed on Saturday last, and the first train was to have crossed yesterday afternoon. Rumors have been in circulation that the Premier, Hon. Mr. MacKenzie and Mr. Brydges were to be here to formally open the bridge in a day or two. Any way whether the bridge is formally opened or not this connecting link of this great road is completed, and the line is now in a condition to run trains at a moderate rate of speed from Moncton to Metapedia. We hope soon to receive notice of the opening of the line for traffic from Moncton northward, and thus bring us within daily reach of St. John and Halifax..... A man named Chas. McFadden, aged 37 years, a native of Nova Scotia, committed suicide in St. John on Tuesday last, by taking a doze of prussic acid. In a letter, addressed to his wife, the unfortunate man said he was compelled to commit suicide by the fact that poverty was staring him in the face. He could not bear to see his family in want of the necessaries of life. The verdict of the Coroner's jury was that the deceased came to his death by his own hands by taking prussic acid poison..... The Way Office, Rockland, C. Co., has been made a Post Office, and Mr. C. B. Snow appointed Post Master..... Typhoid Fever is prevalent in different parts of the Province, and not a few deaths have occurred. The Moncton *Times* says there have been several fatal cases in Albert County, including that a promising young man, Mr. George Beatty, teacher of the grammar school, who died last week. Almost an entire family, Mr. Frederick Bateman's Shediac Road, was cut off by disease within a few days. First the mother and then the father, and subsequently two of the children fell victims to the fever, and we hear that others of the children have since been attacked..... A despatch from Moncton to the *Telegraph* says it is stated that the I. C. R. between Moncton and Campbellton will open early in November, without fail. There will be one train a day over the line, each way. If business is fair not too severe, trains will run all winter. It is thought that it will require a winter's experience to enable a proper decision to be arrived at as to location of snow fencing in certain localities..... Of the weather and the crops the *Farmer* says: So unfavorable has been the weather for some time past, that some of the crops are still unhoused. We are told that in some parts of the upper Counties on the St. John River, oats and buckwheat are still out-doors, and there are well grounded fears that much will be irretrievably ruined. Some buckwheat and a good many potatoes have yet to be gathered in the lower Counties. The buckwheat has been so long exposed as to become of little value. The growing crops through the summer and early autumn looked splendid, and the prospects of an abundant crop are somewhat clouded by the continued unpropitious weather for harvesting..... Quite a number of horses in this City and many in the Town of Portland are affected with the epizootic. So far as can be learned the disease, except in a few cases, is of a much milder type than that which prevailed here about four years ago.

NOVA SCOTIA.—The Military School of Instruction for Nova Scotia will be opened at Halifax on the 1st of December next.... A. G. Langley has been arrested at Sydney, C. B., for having two wives, when he ought only to have one, and a local paper insinuates that he has three; one of them, with two children, being in Boston. Langley is said to have been in St. John, under a somewhat similar name.... Philip Neal, laborer, is missing from Halifax; supposed suicide..... The trade of Truro at the present time, amounts to $1,300,000 per annum. So says the Truro *Sun*..... One span of the new bridge at Maccan will be ready to put across in a few days. Work on the other span is progressing favorably..... Dr. W. S. Muir of Truro, has been appointed to the post of Medical Superintendant of the Provincial and City Hospital at Halifax..... A white partridge was shot near Antigonish lately..... Mr. Hingley, for the Department of Marine and Fisheries, is building a tank at Oxford, to receive and keep until wanted, a large number of salmon, which the officer has instructions to take for the purpose of supplying spawn to the breeding establishment on the Sackville river. A very large number of salmon are discernible in the River Philip this season..... Mr. Alex. Wilson, of Pugwash, intends shipping 300 tons of hay to England.... The Halifax *Herald* contradicts the rumor that Sir William Young intends to resign the Chief Justiceship of Nova Scotia..... Benjamin Christmas, an Indian of Yarmouth, has become a member of a Division of the Sons of Temperance in that town..... The *Nova Scotian*, which arrived in Halifax on Wednesday, brought out in excellent condition, we are informed, some fine stock for the sister province. Though the passage was rough and tedious the stock did not suffer. We believe there was only the loss of one sheep. The stock will be sold Nov. 15th.... On Thursday night the store of Charles J. Cooke, Hollis Street, adjoining the Bank B. N. A., was entered by burglars, and about a hundred dollars worth of fancy articles stolen.... A Canard, N. S. farmer, has raised 7,000 bushels of potatoes, valued at $2,100 ... The Halifax *Herald* says: A young man belonging to this city is at present a painful sufferer, and in the doctor's hands, from a very simple cause. Some weeks ago, while picking his teeth with a straw a piece of straw remained between his teeth, causing him much annoyance. He endeavored to get it out, but failed. It annoyed him for some days, until one morning, he found that his trouble was at an end—at least he thought so for he felt no pain. But he was soon undeceived. The irritation returned; this time in a new place—as the straw had worked under his tongue. It remained there for some days, at intervals causing much pain. Within the past few days serious symptoms developed. The tongue became swollen and inflamed; and the throat was taken with a soreness similar to that experienced by persons suffering from diptheria. The young man thought it about time to become alarmed, and he consulted a doctor, who gave him to understand that the case was a delicate and dangerous one. The young man is confined to his house, and it is not at all certain when the doctor will make a cure of him, it at all..... The *Chronicle* says:—Last year Chief Justice Ritchie, of New Brunswick, gave an important decision on the liquor question, to the effect that the regulation of the liquor traffic was a matter to be dealt with by the Dominion Parliament and that consequently the restrictions placed on the traffic by the Local Legislature were unlawful. Whenever persons were convicted of violating the Nova Scotia license law, they made the New Brunswick decision the ground of an appeal to our Supreme Court. Decisions have now been given in several of these cases, by Judges McDonald and McCully, both dissenting from Chief Justice Ritchie's judgment, and sustaining the local law.

GENERAL.—Measles are prevalent among children both in St. Stephen and Calais..... California will this year hatch out 9,000,000 of young salmon, 7,000,000 of which are to come to the Eastern States. ... Bets are made in London that the Prince of Wales will be assassinated before his visit to India is finished..... For soldiers killed in the civil war eighty-five thousand headstones have already been completed in West Rutland, Vt..... The wife of a waiter in a New York restaurant has fallen heir to $80,000 in Copenhagen, Denmark.... In Wyoming Territory there is a bar-room to every 180 inhabitants..... Louisiana's new census shows 20,00 more colored residents than whites..... Sewing has been taught in the public schools of Boston for twenty-three years, and it is just now discovered that it is illegal to expend public money for that purpose..... There is an immense crop of new tobacco in Pennsylvania..... A temperance revival is in progress at Calais and Milltown..... The consumption of crabs is so great in France that there is danger of the supply becoming extinct.

OTTAWA, Oct. 25—This morning on Morleau's wholesale establishment, Montreal, being opened, it was discovered that it had been robbed of thirteen thousand dollars worth of black silks and laces. The burglars had come in through a yard off Fortification Lane, and thence got into a shed adjoining Morgan's and broke the wall three bricks thick, into the hoist hole. From this they easily got into the store, and carried off fifty parcels of silks and one hundred of lace. Detectives are at work with but a faint prospect of getting the thieves.

Mr. Roberts the well-known builder, had his pocket picked of $100 in Molson's Bank, in the same city, on Saturday.

Mr. Muldoon's safe was stolen from his house on Stanley street, Montreal, and broken open on Drummond street, $50,000 worth of papers and several hundreds in money were taken out. All Mr. Robinson's silverware was stolen at the same time.

Three petitions are being signed in Hamilton and Rochester, N. Y., in favor of the communication of the death sentence passed on Mrs. Davis, and one is also to be circulated in Toronto. It is alleged she was not implicated in the previous charges against her husband.

Hon. Mr. Mackenzie intends leaving during the present week for the Maritime Provinces, passing over the line of Intercolonial railway, both in going to and returning, with a view to discern for himself the state of road, and enquiring generally into condition of Public Works in those Provinces. He will likely leave on Wednesday, 3rd prox.

The Minister of Public Works, in accordance with the powers taken in Railway Act of last season, has caused arrangements to be made for procuring full complete returns from various railway companies in the Dominion. The returns will be tabulated and published in the Blue Book, and will be preceded by a complete and accurate railway map of the Dominion. The first volume is expected to be ready to be laid before Parliament at its next session.—*News.*

A REMARKABLE PROFESSIONAL SUCCESS.

Among the notable professional men of this country who have achieved extraordinary success is Dr. R. V. Pierce, of Buffalo, N. Y. The prominence which he has attained has been reached through strictly legitimate means, and, so far, therefore, he deserves the enviable reputation which he enjoys. This large measure of success is the result of a thorough and careful preparation for his calling, and extensive reading during a long and unusually large practice, which have enabled him to gain high commendation, even from his professional brethren. Devoting his attention to certain specialties of the science he has so carefully investigated, he has been rewarded in a remarkable degree. In these specialties, he has become a recognized leader. Not a few of the remedies prescribed by him have, it is said, been adopted and prescribed by physicians in their private practice. His pamphlets and larger works have been received as useful contributions to medical knowledge. He has recently added another, and perhaps more important work, because of more general application, to the list of his published writings. This book, entiled "The People's Common Sense Medical Adviser," is designed to enter into general circulation. Dr. Pierce has received acknowledgments and honors from many sources, and especially scientific degrees from two of the first medical institutions in the land.

The immense demand for his specifics, some time ago necessitated the opening of a regular Dispensary for their preparation, and from a small beginning the business of the establishment has expanded it into mammoth proportions. In order to meet the demand constantly made upon it for the remedies prepared by Dr. Pierce, a large number of men are employed at all times, and the expenditures made by Dr. Pierce are enormous. The postal expenses amount to nearly a thousand dollars a month, while a corps of experienced physicians are constantly employed by the doctor for the benefit of his patients.

A TRUE BALSAM.—*Dr. Wistar's Balsam of Wild Cherry* is truly a balsam. It contains the balsamic principle of the Wild Cherry, the balsamic principles of tar and of pine. Its ingredients are all balsamic. Coughs and Consumption speedily disappear under its balsamic influence. 50 cts. and $1 a bottle, large bottles much the cheaper.

Many persons suffer with sick headache and nervous headache, usually induced by costiveness, indigestion, &c. Such persons will find relief, if not cure, by keeping the bowels open with small doses of *Parson's Purgative Pills.*

Have you inflammatory sore throat, stiff joints, or lameness from any cause whatever? Have you rheumatic or other pains in any part of the body? If so use *Johnson's Anodyne Liniment.* Our word for it, it is the best pain killer in this country.

No other liniment combines, in so compact or concentrated form, negative and essential properties of an embrocation, or is so well adapted for the purpose, as Dr. Dow's Sturgeon Oil Liniment. All external pains, rheumatic and gouty tortures and contracted sinews, may be overcome by diligently rubbing this matchless liniment upon the skin.

"The Book for the People," evidently Clarke's New Method for the Piano Forte, by HUGH A. CLARKE, Professor of Music in the University of Pennsylvania, is the work destined to be in the hands of every teacher and student of music. Book and Music Dealers supply it for $3.75.

NEVER NEGLECT A COLD.—From gross contravention of this very simple advice, thousands of persons contract pulmonary complaints, which might altogether be prevented by the use of Dr. Wilson's Pulmonary Cherry Balsam, the most effectual and reliable remedy ever placed within the consumptive sufferer's reach. It is painful to hear of so many, now, we are sorry to say, fatal cases, which commenced with the ordinary symptoms of a common cold. Dr. Wilson's Balsam will prevent all disastrous consequences, it only allowed a fair trial. It soothes the inflamed lining of the throat and chest, and after a few doses the cough becomes loose and less frequent, the phlegm is expectorated with less difficulty, till the lungs become free, and the respiration natural.

COSTIVENESS.—The bowels become torpid and powerless under continual purgation. Dr. Wilson's Anti-Bilious and Preserving Pills penetrate to the nucleus of the disease and eradicate it. They evacuate the foul and vitiated particles from the intestines, by a mild, aperient operation, and recuperate their exhausted energy by restoring tone and vigor. They induce a healthy action and prevent a relapse of the malady. For piles, fistula, dyspepsia, and all disorders of the viscera, they stand without a rival.

Extract of a letter received by the agent of Clark's Derby Condition Powders, from one who occasionally acts as a Veterinary Surgeon: "Having ordered from one of our druggists Derby Condition Powders I was not only disappointed in their effects but annoyed when I received a useless kind. I have been in the habit of using the Derby Powders with great advantage to my horses and stock. I may hear remark it is the only powder of any benefit to neat stock. I have just sent a horse home well, that was very bad with pneumonia. I found your Powders all sufficient."

MRS. EDWARD SEWEL, Carleton, St. John, N. B., says—"I had long been afflicted with *Neuralgia*, producing at times a most distressing *Toothache*, for which, at different times, I had six teeth extracted. When going to have another drawn, I was advised to try GRAHAM'S PAIN EMADICATOR, which quickly stopped the pain, saved the tooth, and although two years have since elapsed, I have suffered no further pain."
