The superiority of man to nature is continually illustrated in literature and in life. Nature needs an immense quantity of quills to make a goose with; but man can make a goose of himself in five minutes with one quill.

The crops in the Quebec district are looking remarkably fine, and farmers rejoice at the favorable weather for vegetation. Oats are flourishing, and are presenting a beautiful appearance. Grass promises well.

Rev. Isaac Hyatt, Free Baptist, of Starksboro, Vt., baptised eleven persons on the first Sabbath of June; the candidates knelt in the water, and were baptised face downward, to the acceptance of all candidates, ministers, and spectators.

A recent writer on Protestantism in France, describes Protestant houses of worship in Paris as being very unattractive, in extreme contrast in this respect with the Roman Catholic establishments, which is much against the success of the cause among a people with the esthetic taste of the French; and the doctrines as being dry, theological formulas of ultra Calvinism on the one hand, and rationalism on the other. Notwithstanding these drawbacks Protestantism is working mightily throughout France; that earnest men are at work over all the realm," and in Brittany hundreds of peasants have met and requested protestant pastors to declare to them the word of life."

The visitor to the British Museum may now see (the *Athenæum* observes), in passing through the King's Library, among the curiosities exposed to view in the table cases a copy of the Indulgence issued by Pope Leo X. for the rebuilding of St. Peter's at Rome. This Indulgence was issued and printed in the year 1517, under the direction of Albert, Archbishop of Mentz and Madgedburg, and it was sold by John Tetzel and Bernardinus Samson as sub-commissaries. The manner in which Tetzel carried on the traffic led, everybody knows, to the remonstrance of Luther and the Reformation. This document, printed on vellum and on a single sheet, was purchased for the Museum last October. It is now placed in the King's Library, close to the original printed copy of the ninety-five theses against Indulgences and other Papal practices, posted by Luther on the doors of the Church of Wittemberg on the 31st of October, 1517.

Rev. A. B. Earle's labors at Jackson and Grand Rapids, Mich., are said to have resulted in not far from one thousand conversions.

A native church at Peshawur, India, is presided over by the Rev. Imam Shah, a convert from Mohammedanism.

Missions are a failure—they cost too much. So say some people. The Governor of Natal is of a different mind. In a late address he says: "One missionary is worth more than a battalion of soldiers." The Earl of Shaftesbury says that "if London did not have its 400 missionaries it would require 40,000 more police." Civilized nations can not afford not to carry on their missions. It would not cost more to drop them than to sustain them. What one generation saves by stinting its missions, the next must pay with double compound interest.

In the South Seas.—Recent accounts from the Islands in the far Southern seas are to the effect that missionary progress during the past year has been quite remarkable. This is especially the case in the Gilbert Islands. It is reported that on one of these islands, where a year ago only thirty had professed Christianity, there are now two hundred and twenty. On another, instead of fourteen candidates reported last year, there are upwards of four hundred this. Of these, more than one hundred have been admitted to church fellowship. Reports from some other islands are equally encouraging.

Interesting news of the Friend's Madagascar Mission continue to reach us. For some time the natives in the capital have been induced to marry in churches, but for the first time away from the capital a marriage has been solemnized. No religious rite whatever was practiced in marriages before the introduction of Christianity. At Mandridrando, six years ago, there was not the slightest knowledge of Christianity. Two years ago the windows of the chapel were stolen, and the Friends met with great opposition. Now the chapel is full and the people enjoy the Bible-classes, which are well attended. At Itasy, the intelligent appreciation of Bible truths is cheering the hearts of missionary laborers.

French engineers are discussing the feasibility of uniting the British Channel with the Mediterranean by a system of canals. The course would be by the Seine and Yonne, thus utilizing the Burgundy canal, which unites the Yonne to the Saone and following the Saone to the Rhone, at or near Lyons, and thence by the Rhone to the sea. It is estimated the work could be accomplished in six years, and would cost $13,000,000.—*Globe.*

The *Star* emphasises the remark of the *Congregationalist* that "the community are learning by experience that ordinarily in a country and society like ours a preacher must be a thoroughly educated man, and that the necessity for a full education steadily increases."

Britain has apparently taken a firm stand respecting the Peruvian difficulty. It is to be hoped that a peaceable termination of it may be reached.

A devil-fish, 16 feet wide, and 15 feet long a mouth two feet wide, fins four feet long, and a tail not much larger than a man's finger, but four feet long, was recently captured at Fernandina, Floridia, a hard fight. He was harpooned, and it took fifteen men to haul him ashore.

The Barbadoes riot was caused, it has been affirmed by the clergy of the island, by the impression among the negroes that the Queen had given them the land and property of the planters, and the present owners of it were witholding it wrongfully.

To sustain a Sunday school missionary in Missouri $1,500 were pledged at the late state convention. They estimate that at least 500,000 children of school age are still out of the Sunday schools.

Montreal, June 28.—The following cable despatch appears in the Montreal *Gazette* this a. m.:—

London, June 27.—We had a splendid day at Windsor. The Lacrosse teams were on the grounds at 5 o'clock. Her Majesty arrived at a quarter past 5, when the Canadian team was presented. Dr. Beer read a short loyol address, to which the Queen replied.

"Aientonni," in behalf of the Indian team, read an Indian address.

The game lasted about an hour, and the Canadians won.

The Indians presented a nicely worked basket, which the Queen graciously received. The Canadians and Indians were then presented to the Queen and each received from her hand her photograph and autograph. The Queen appeared to be pleased with the game as it progressed.

A sumptious lunch was provided in the Orangery Hall. We afterwards went to Eaton and played before the boys.

The Governor General received the following despatch at Quebec:

"*To Governor General of Canada*; Canadians and Indians played their game of Lacrosse before me yesterday.

(Signed) The Queen, Windsor."

(Special to Daily Telegraph.)

Chatham, June 28.—The first train over the Chatham Branch Railway reached Chatham at 2 P. M., to-day, and brought a large number of citizens out to the place to meet His Honor Governor Tilley and party.

Mr. Price, Assistant Superintendent, has a temporary telegraph office erected; Mr. Flemming, Miramichi Station Agent, is in charge of the train.

Among the party from Chatham are Bishop Rodgers, Honorables Peter Mitchell, William Muirhead, and Messrs. J. B. Snowball, D. Ferguson, F. Letson, the High Sheriff, Wm. Wilkinson, Wm. Murray, R. R. Call, D. G. Smith, W. B. Howard, G. B. Fraser, Dr. Baxter and others. They say Chatham junction now shakes hands with San Francisco.

The Governor arrived here at four o'clock and left for the town of Chatham at once.

General.—John Gibson, a printer, in Ottawa, has fallen heir to $15,000, by the death of an aunt in Paisley, Scotland ... The Governor-General purposes paying a visit to British Columbia during the present summer.... The local elections in Prince Edward Island will come off about the end of July.

ENGLISH AND FOREIGN.

London, June 22.—The London journals generally express regret at the termination of the extradition treaty. The *Standard* hopes that President Grant's message does not express the settled determination of the American Government and says: "The feeling between the two countries is now we trust sufficiently good to allow the discussion of such matters in the common belief that neither is trying to overreach the other.

The King of Dahomey again refuses to pay the fine recently imposed by Commodore Hewitt for maltreating a British subject.

Notice has been given in the House of Commons of the intention to bring the subject of a new extradition treaty *before* Parliament.

In relation to the fishery commission under the treaty of Washington, Mr. Burke said negotiations had been progressing some time, but he could not enter into details regarding the settlement of questions between Canada and the United States.

London, June 23.—The Board of Trade has presented a piece of plate valued at £2800 to the American captain, Gifford, for rescuing the survivors of the Strathmore.

Robert Napier, the well-known shipbuilder, is dead.

London, June 24.—The Turkish atrocities in Bulgaria, are to be the subject of an inquiry in Parliament.

It has been agreed to instruct foreign representatives at Belgrade that Servia must not expect any assistance or even benevolent neutrality if she commences war against Turkey.

General William Rose Mansfield is dead.

The insurgents have rejected the armistice and have refused an interview with Baron Rodich.

London, June 26.—A despatch from the *Times* on Saturday says, "Information from usually well informed quarters represents Servia will enter the field on Sunday and Montenegro on Monday." A despatch to the same paper on Sunday pronounces the information exaggerated, but the situation critical. The southern frontier of Montenegro is blockaded by Turks. A new camp has been formed at Suttovina.

The *Standard's* Vienna despatch asserts that the Russian representative at Belgrade is privately abetting the war party.

England is using her influence to restrain the Prince Milan, who, however, declares it is now too late to resist the tide of events, and his only choice is revolution or war.

London, June 27.—A Constantinople telegram says it is certain the Porte expects Servia to take immediate action.

Abdul Kerin Pasha, commander-in-chief of the Turkish troops, has been ordered to Nitsch to prepare for immediate hostilities.

Both Servians and Turks are gathering at the Divina, the crossing of which by the former will bring on battle.

In the House of Lords to-day Earl Derby replying to a motion for the production of papers relative to the Eastern question, stated that the abandonment of Berlin memorandum had removed the cause of disunion between England and the other powers. He justified the late revolution in Constantinople and deplored the hasty unfavorable criticism of foreign powers. The situation he said was very complicated, but for his part he saw no reason to doubt that all the Great Powers without exception would be glad to terminate a quarrel having so many elements of danger.

Lord Derby continued, "England's line of action is clear; we would gladly reconcile the Porte and the Insurgents, but we have no right or wish to take the part of either in a purely internal quarrel. That is a rule on which we have acted in time not remote and in civil wars far more extensive and sanguinary. We are in communication with the Porte and other powers with a view of offering such counsels as seem useful. We have been charged in some quarters with favoring the Turks. The charge is utterly unfounded. No one supposes the Ottoman Empire possible if the Christians become permanently disaffected. The problem is to reconcile their reasonable wishes with maintenance of a system which cannot be overthrown without a general convulsion."

The *Times'* Berlin despatch contains the following, "It is stated not without reason that Russia at the eleventh hour is endeavoring to effect a direct understanding with England."

London, June 28.—A despatch from Belgrade announces the departure of Prince Milan for the army is fixed for the 30th inst. The same day a war manifesto will be issued, and July 1st a state of seige proclaimed throughout Servia.

Manifesto from Herzegovinian insurgents recognizes Prince Nicholas as their chosen leader in the campaign for the annihilation of the Turks.

The Senate will shortly assume the reins of Government in behalf of Prince Nicholas until the end of the war.

Turkey has rejected Servia's ultimatum.

The *Times* correspondent at Paris reports that great efforts are being made to bring about an agreement between Russia and England as to measures Servia's acts may render necessary.

Paris, June 28.—A private telegram from Belgrade says that the Servian army are encamped on the left bank of the Joar and north-west bank of the Drina. The Austrian banks of the Danube and Save are guarded by strong cordons of troops. The Turks are at the Bosnian frontier towns with numerous cavalry.

Nocturnal meetings are held in Constantinople at which eminent Turks attend.

Berlin, June 28.—The Archbishop of Cologne was to-day deposed from his see by the secular law of the Court.

THE INVALID—A PEN PICTURE.

See her pallid countenance, but a short time ago the picture of ruddy health, the envy of the school and the pride of the household. She was always welcomed by her schoolmates, for her lithe form and pleasing disposition carried cheerfulness into their ranks. Diligent, punctual and exemplary, obedient and graceful at home, she won the hearts of all. But, alas, we are sorrowed. Those rosy cheeks and ruddy lips are blanched by Consumption. The voice once so enchanting in laugh and song is feeble, husky and supplanted by a hollow cough. Let us approach her couch gently and take her hand. Do not shudder because of the feeble and passionless grasp. The hand once so hearty and plump is emaciated and shows bony outlines, while the cords and tortuous veins are plainly mapped upon the surface. The pulse that bounded with repletion, carrying vigor to the whole system, and imparting life, beauty, vivacity, health and strength, is delicate to the touch. The feeble heart cannot propel the thin, scanty blood with force. Must we lose her while yet in her teens? Companions and friends gather round with words of cheer and consolation, and depart with moistened eyes and silent steps. Must we lose her? No! there is relief! We can stay this destroyer of our happiness and not suffer the loss of so bright a gem. Something more is required now than dietary and hygienic observance, for nature calls for aid and she shall have it. Take this pleasant medicine. It is invigorating. How it allays the irritable cough, improves the appetite and digestion and sends a healthy tingle through the frame. The blood is enriched, nervous force increased, and the heart bounds with a new impulse. See her face brighten by degrees; the color is returning, her voice is getting clearer, and pleasant words are spoken. The strength falters yet, but is gaining. Let us take her out in the warm sunshine. In a short time she will be able to go without our aid, a cheerful girl. This delightful medicine must be God-blessed. It is restoring health to our loved one. She is emerging from her sickness sweeter and nobler than before, and Dr. Pierce's Golden Medical Discovery must have the credit. It has raised her.

S. R. Eglar, druggist, of West Union, O., says that Dr. Pierce's Golden Medical Discovery has effected a wonderful cure of Consumption in his neighborhood.

UNITED STATES.

New York, June 24.—On the 17th, Indians attacked Gen. Crook's command, killing nine and wounding twenty-one soldiers. Gen. Crook had his horse shot under him.

A tornado at Paris, Ky., yesterday, demolished a dozen houses and a colored church.

New York, June 22.—By an explosion in a torpedo factory in Greenville, N. Y., yesterday, two boys were killed, two fatally and five seriously injured.

Boston, June 22.—Otis Rich, a well-known citizen, committed suicide yesterday, because of pecuniary troubles.

Sunday was remarkable for extreme heat, violent squalls, thunderstorms of rain and hail over a considerable extent of country. About a dozen sail boats capsized in Boston harbor. No loss of life.

Portland, June 23.—The Republicans of Maine have renominated Gov. Connor. A resolution was adopted recommending Blaine for a United States Senatorship.

New York, June 27.—President Grant has issued a proclamation suggesting that the public thanksgiving be included in the coming observance of the Centennial on the 4th of July.

The Democratic National Convention assembles at St. Louis to-day. Gov. Tilden, of New York, it is reported, stands the best chances for nomination.

St. Louis, June 28.—The Convention was occupied to-day mainly discussing platform, two sets of resolutions having been presented. The contest is quite fierce on the financial question, the West favoring more greenbacks.

Weather extremely hot.

An Irishman called at a drug store to get a bottle of *Johnson's Anodyne Liniment* for the Rheumatism, the druggist asked him in what part of the body it troubled him most. "Be me soul," said he, "I have it in every houl and conner er me."

For loss of Cud, Horn Ail, Red water in Cows; loss of appetite, rot, or murrain, in sheep; thick wind, broken wind, and roaring, and for all obstructions of the kidneys in horses, use *Sheridan's Cavalry Condition Powders.*

To prevent the cause and remove the effect is the true theory on which to found a treatment for disease. Languor arises from debility, and debility from the impoverishment of the blood, or derangement of the digestive organs. If from the latter, Dr. Wilson's Anti-Bilious and Preserving Pills are the best tonic medicine in use, and for their purifying and sanative qualities they stand unequaled. For Sick-Headache, Nervous Disorders, Enervation, Indigestion, and Depression of Spirits, they are the only remedy.

When the safe and sure treatment of all Pulmonary disorders is so simple, and the good results so fully known, it seems almost unnecessary to ask the consumptive sufferer to give Dr. Wilson's Pulmonary Cherry Balsam a fair trial. This Balsam is an infallible remedy for curing all diseases of the respiratory organs, arresting inflammation and checking the progress of decay, by which the health of many is daily coughed away. The Balsam will afford indescribable relief, and will gradually, if faithfully used, bring about a lasting cure.

If you have ache or pain try Dr. Dow's Sturgeon Oil Liniment. No intelligent person who once sees its effects will ever be without it. It removes, as if by magnetic power, internal heat, and cures Sore Throat, Cuts, Frost Bites, Stings, Chapped Hands, and all inflammation. Use it, and it will tell a better story for itself than we can communicate.

The proprietors of Livery Stables and the officers and grooms connected with the various jockey clubs in Great Britain unite in recommending Clark's Derby Condition Powders to others, and using them extensively themselves.

Mr. James Scribner, Jemseg N. B., had suffered for about five weeks, with *Neuralgia* in his head, causing a distressing *Earache*, but was cured by one bottle of Graham's Pain Eradicator, and has not been troubled with it since using this medicine—about a year ago.

What They Say of it. A Few Facts for the People. There are but few preparations, of medicines which have withstood the impartial judgment of the people for any great length of time. One of these is Dr. Thomas' Eclectric Oil. Read the following and be convinced:—Thos. Robinson, Farnham Centre, P. Q., writes, "I have been afflicted with rheumatism for the last ten years, and have tried many remedies without any relief, until I tried Dr. Thomas' Eclectric Oil, and since then have had no attack of it. I would recommend it to all." J. H. Earl, Hotel Keeper, West Shefford, P. Q., writes, "I have been troubled with liver complaint for several years, and have tried different medicines with little or no benefit, until I tried Dr. Thomas' Eclectric Oil, which gave me immediate relief, and I would say that I have used it since with the best effect. No one should be without it. I have tried it on my horses in cases of cuts, wounds, etc., and think it is equally as good for horse as for man."—A. Maybee, Merchant, Warkworth, writes, "I have sold some hundreds of bottles of Eclectric Oil, and it is pronounced by the public, 'one of the best medicines they have ever used;' it has done wonders in healing and relieving pain, sore throats, etc., and is worthy of the greatest confidence."—Joseph Rusin, Township Percy, writes, "I was persuaded to try Thomas' Electric Oil for a lame knee which troubled me for three or four years, and I never found anything like it for curing lameness. It is a great public benefit."—A. M. Hamilton, Warkworth, writes: "For weeks I was troubled with a swelled ankle, which annoyed me very much. Mr. Maybee of this place induced me to try Eclectric Oil, and before one bottle was used I was cured. It is a most remarkable medicine.

DEATHS.

[*Verses not inserted.*]

In this city, on the 22d inst., after a long illness, Mary Ann, wife of Mr. John Ritchey, in her 37th year, leaving a husband and six children to mourn their loss.

At the head of Milstream, on the 19th inst., Anna Augusta, aged two months, infant daughter of James and Mary Wanamake.

At Kelrstead Mountain, King's Co., on the 21st April, Deacon George Kelly, aged 48 years. He experienced religion about thirty years ago, under the labors of Elder Ezekiel Siprell; he was baptized twenty-four years ago by Elder Wallace, and joined the church on Kelrstead Mountain; was appointed Deacon about twelve years ago, and continued to fill that office until his death. He was a devout Christian, an affectionate husband and a kind father. He has left a wife and ten children to mourn their loss, but sorrow not as those having no hope, for he died in the hope of a glorious resurrection.

On the 15th inst., at the residence of his father-in-law, C. A. Wood, of consumption, in the 28th year of his age, W. H. Mayes, son of Capt. J. J. Mayes, Hampstead, Queen's Co., leaving a wife and a large number of relatives and friends.

At New Zion, Monday, 12th inst, Nellie Corey, beloved wife of Samuel Corey, in the 23d year of her age. Sister Corey professed her new-born faith in the glorious Redeemer some years ago, joined the Free Baptist Church and adorned her profession while living, in death fell asleep in Jesus to awake in his likeness, and so ever be with the Lord. Our sister leaves a sorrowing husband and little infant relatives and friends to mourn their loss. May God sanctify affliction and serve to profit spiritually. A sermon was preached suitable to the occasion by the writer, to a large audience. The body we consigned to the narrow house till God shall bid it arise.

W. A. Throop.

Departed this life in Vanceboro, Maine, U. S., after vibrating between life and death for many months, Miss C. G. Killin, daughter of Mr. John and Mrs. Eleanor Killin, aged 16 years, 2 months and 23 days. Miss Killin bore her sufferings with Christian fortitude and resignation. She died in hope of eternal life. Funeral services were conducted by C. Edwin Williams, V. D. M. [St. John papers please copy.

At Moore's Mills, St. James, N. B., on the 30th of May, Sarah Annie, aged 4 years, 5 months and 6 days, a dear little daughter of Mr. Robert B. and Mrs. Mary Agnes McKim. May God bless the parents of the dear little departed one; may this dispensation of God's Providence be the means of their present and future salvation. Funeral services were conducted by C. Edwin Williams, V. D. M. [St. Stephen papers please copy.
