forests. The whole face of the section through which it swept was changed.

A pest has developed in several of the grain-growing counties of California. It appears first on the grain stalk as a dark green louse, but afterwards devolves into a fly. Unless destroyed they will eat up everything, it is said.

The preamble of the bill providing for an appropriation of 5,000,000 francs for an expedition to Tonquin declares that the French Government does not contemplate an aggressive or warlike enterprise.

A special from Wesson says at Rockport, 19 miles east of Beauregard, the cyclone did an immense amount of damage, and many persons are reported killed and wounded. The list foots up 32 killed and as many wounded.

At a Labor Union meeting a proposition to blow up Brooklyn Bridge with dynamite on the day of the proposed opening, because of the day being the Queen's birthday, and because of the alleged refusal to allow working men to march over bridge was greeted with applause.

Mr. Peabody's bequest to London was about $2,000,000. The property of the trust is now valued at over $4,000,000. It has been honestly and efficiently administered. The tenants number 15,000, in 3,500 separate buildings of 8,000 rooms exclusive of laundries etc.

The police have evidence implicating James Carey, the witness for the Crown in the murder of Talbot, the police informer, of Clarke, the Fenian informer, and of the bricklayer Behan, and also in the attempted murder of Murphy, the book-keeper of the *Irish People*. He is likely to be tried for one of these offences.

On her recent voyage to Liverpool, the barque "G. S. Penry" rescued the crew from the barque "Kiltearn," from Demerara with a cargo of rum and sugar, which vessel had been set on fire by one of the crew in endeavouring to abstract some liquor from a cask in the hold. The seaman is on trial.

Sch. "Annie Simpson," McLean master, from St. John, for Philadelphia, with a cargo of sleepers lost her deckload when off Seguin on the morning of the 27th. A seaman named Frederick Kronholm, aged 26, hailing from Cork, was swept overboard at the same time. The schooner lost main boom and sustained other damage.

The cyclone at Americus, Ga., April 23rd, was three hundred to one thousand yards wide. Houses were blown down, forests levelled and all vestiges of fences swept away. Cattle, swine and horses were killed by hundreds. All farms and plantations in the track of the storm are in ruins, and all grain crops destroyed, 25 people killed and 200 wounded in this county. Many houses and mills with contents, animals and children, blown hundreds of yards.

A despatch from Detroit says a freight train on the Grand Trunk Railway ran into a passenger train near Olivet on Friday. The air brakes on the passenger train did not work properly, and the train stopped. A signal was sent back to the freight train following. For some reason it did not pay attention to the signal, and thundered into the rear of the passenger, shivering two Pullman cars to fragments. Conductor P. J. Wall, Montreal; H. Frye, Englewood, N. J.; W. Higgin, travelling agent, Detroit, were killed, and ten others were injured, some it is feared fatally.

A fisherman in Hull, England, died a little over a fortnight since after suffering excruciating tortures from some internal malady that his medical attendants could not grapple with. Just before his death, he expressed a desire that his body should be subjected to a post-mortem examination which was done, and the fact was developed that his liver had been nearly eaten away by a whole army of living creatures, resembling trichinæ. It is believed that the man had swallowed an egg of a parasite in eating some uncooked meat.

THE NEWS OF THE WEEK.

SAINT JOHN, N. B., MAY 4, 1883.

NEW BRUNSWICK.

The blacksmith shop of Messrs Sweeney & Richard, Shediac, was destroyed by fire last week.

Parks' Cotton Factory was shut down for repairs. It resumed operations again this week.

The maple sugar crop is likely to be abundant, the weather being favorable to a heavy run of sap.

Havelock farmers have been ploughing since the 16th ult., the season being as advanced as it was last year one month later. So says an *Exchange*.

The house owned and occupied by Mr. John Dover, Strait Shore, Portland, was discovered on fire Wednesday about noon. The house was nearly destroyed. No insurance.

A lad named Whelpley came very near being drowned at William's Landing, as he slipped into the watter while endeavoring to board the "May Queen" and was only rescued after he had lost all power of exertion.

A large crew of men are at work at the South West Boom, and by to-morrow it will be in a position to receive about twenty million logs with safety. The injury done by the late run of ice is not so great as anticipated.

The gospel temperance meeting at the Town Hall, Woodstock, last Sunday evening week was well attended and very successfully conducted. Messrs. Geo. F. Atherton, E. M. Boyer, Jas. Watts, Hon. Wm. Lindsay, S. J. Parsons and the chairman took part in the proceedings.

Brigt. "Sunshine" will be launched from Merritt's yard, Moss Glen. She will at once be towed down to the harbor to prepare for sea. Her appearance is highly spoken of. She will be rigged by Mr. Wm. Finn, Mr. Geo. E. Holder doing the sail making.

Mr. R. Black of Spoon Island, Q. Co., has a number of hives of bees. He has one hive that is the champion, the hive was invented by Mrs. Cotton of Maine, and from this he got 52 lbs. of surplus honey of excellent quality for which he obtained the high price of 25 and 30 cents a pound.

Mr. David Whelpley, who resides at Mispeck, St. John County, while digging on his farm, found two old cutlasses which had evidently been buried for some years. It will be remembered that some years ago a small crock of money was found about the same locality. The swords are on exhibition.

S. J. Parsons, Secretary of the S. S. Convention, visited the school in connection with the Presbyterian Church, Woodstock, recently. He addressed the school in a pleasing and instructive manner and afterwards held a Teachers' meeting, during which he gave the teachers many practical hints in class work.

Two young men, Joseph Dunlop and Edwin Allingham, while shunting cars at Apohaqui on Saturday, were badly crushed between the engine and car. They were immediately brought to this city, where they reside and surgical aid summoned. It is feared that Dunlop has received some internal injury.

A young man named Estabrooks, son of Mr. Stewart Estabrooks, Midgic, died suddenly on Sunday last. He had been to meeting twice during the day, and on returning home in the afternoon, he fell dead. He had not been in good health for some years, but not so as to prevent him working. Quite a remarkable coincidence was that his brother died in the same way a few years ago. He fell dead while climbing over a fence.—*Moncton Transcript.*

A fire broke out in a barn attached to S. L. Churchill's residence in Wellington Ward. The barn and ell of the house were destroyed and the house and furniture damaged. Insured in the London and Lancashire as follows: Seven hundred on the house, three hundred on furniture and fifty dollars on barn. The total damage about nine hundred. A Mr. Flewelling, a tenant in part of the house, suffered considerable damage.

Reed's Point was the scene of another drowning accident, a dock hand of the "City of Portland" having been thrown off the vessel into the water through his truck coming in contact with that of another man. He sank immediately, and though an effort was made to rescue him he was not seen again. Efforts were made during the day to recover the body, but without avail, and the searchers have relinquished their endeavours.

Constable Steeves, of Elgin, A. Co., took from a delinquent tax payer named Mr. Stewart, what he supposed to be his horse, by execution, and brought it to his own stable for safe keeping. The horse was, however, claimed by another party, and on Monday morning early, Constable Dryden came with a warrant from a Justice to Steeves' barn to recover the horse and take Steeves a prisoner. Steeves had his barn locked and was inside himself, and warned Dryden not to enter. Dryden was armed as well as Steeves, and broke the lock, and in doing so was shot by Steeves, only living about twenty minutes.

The inquest was held by Dr. Murray, of Hopewell Corner, Tuesday afternoon, when the jury returned a verdict, that Dryden came to his death by a shot fired from a gun in the hands of Steeves. The latest report says Steeves, the prisoner, has escaped.—*Sun.*

A few days ago the F. C. B. church at Coll's Island, Q. C., was totally destroyed by fire, with all its contents. It appears that a couple of boys were playing with fire near the church, and it is thought that they accidently set fire to the building.

A day or two after this, the house of Mr. John Barton was discovered on fire, but it had got such a headway that the flames could not be extinguished. It also was burnt down. The very next day the house of Mr. James Prince was destroyed by fire. The three buildings were all within a radius of three miles.—*Sun.*

The favorable symptoms which lead to the hope, some days ago, that Mr. Griffin was convalescing, were deceptive. He was, indeed, free from the bilious attack which had prostrated him, but a kidney trouble supervened. He ate nothing, but drank a good deal. He suffered no pain, was quite strong, and looked as though he was in no danger, but the skilled eye of the physician saw there was little hope of his recovery, and his friends were prepared for the worst. He died at 11 A. M. today. This was the first illness he ever experienced, except a slight attack of rheumatism. After Confederation, he was appointed to the office of Collector of Internal Revenue. He was a kindly man, with a great fund of humor, and was beloved by a large circle of friends. He was 56 years old.—*Chatham World, 28th.*

On Saturday evening, says the *Telegraph*, between 8 and 9 o'clock, Detective Ring arrested in Carleton a young man named William Mullin, who is charged with stealing a letter addressed to Messrs. J. J. Christie & Co. King street, Mullin, who is only twenty-one years old, was engaged two months ago as a letter carrier in the St. John Post Office. Latterly he has been delivering letters on the King street, and the information made by Mr. S. T. King, postmaster, alleges that some time between the 1st and 8th of April, Mullin, in his capacity as a letter carrier, was handed a rigistered letter addressed to J. J. Christie & Co. This letter, according to the rules of the post office department, was entered in a book which the carrier takes along with him when delivers his letters.

By the advice of the young man's father, we believe, he pleaded guilty and has been sent up for trial. It is a pity that young men, first starting in life, should yield to temptations of this and similar kinds, and thus destroy, not only their self-respect but their prospects in life.

NOVA SCOTIA.

A new jail is the latest of Spring Hill's novelties.

Eight Scott Act violations were up for adjudication in Truro, N. S., lately.

An illicit still operator and a clothing thief broke jail at Spring Hill last week.

The New Glasgow, N. S., glass factory has secured the services of some glass-blowers from Bohemia.

W. G. Miller, a Scott Act violator, was fined at New Glascow, N. S., last week, $60 or 60 days imprisonment.

A corn canning factory is the latest of the new enterprises in Nova Scotia, Middleton having the honor to afford it a location.

A gentleman in Halifax whose name is not given (but should be) has made a gift of two thousand dollars to the building of the new Wesleyan College at Sackville, N. B.

The steamer "Naletta," Koening, master, from Halifax for Boston, struck on Black Rock, on the eastern side of Port Mouton Island, at four A. M. The ship is a total loss. The crew were all saved with great difficulty.

The Schooner "Ethel Granville" which floated up and down Minas Basin during last winter and was finally abandoned near Blomidon, is now lying near Spencer's Island, bottom up. She is about half a mile from the shore. Some parties are endeavoring to secure her.

A movement is on foot to organize a company here with a capital of about $100,000, to build and operate a factory for the manufacture of cotton duck, which is now so largely used for sails. Though we use so much of this material, we understand there is not a factory in the Dominion in which a yard of it is made.—*Yarmouth Times.*

The *Globe* says a fire broke out in James Keene's jewelry store, on Water Street, Halifax. Before the flames could be subdued they had penetrated the adjoining building, owned by E. R. Oakes, and occupied by Messrs. Turnbull & Welsh as a general store. The Post office, also in Mr. Oakes' building, was next destroyed, all the postal matter being saved. The flames had them assumed large proportions, and soon had possession of Messrs. Burns and Longstaff's large general store, which was completely destroyed. Messrs. Burnham's premises, adjoining, were the last to go. The fire was got under control about 8.30 o'clock. Mr. Keene was uninsured. His loss was very heavy, as all his stock of jewelry was destroyed. The fire is supposed to be the work of an incendiary.

The violators of the C. T. Act are pursuing the same tactics in Truro as they did in Fredericton N. B. They did not however play at that game twice, as the scales were promptly turned upon them.

We learn from an *Exchange* that prosecutions under the C. T. Act have commenced in Truro. Some eight suits were removed by *certiorari* before trial. During the trial of the remaining six a man named Walters gave evidence, which showed that he had on April 10th made a tour of the various hotels and liquor shops, purchasing liquor at each one for the purpose of having the vendors fined. Walters had been arrested at the instance of R. H. Edwards, of the Victoria Hotel, on a charge of perjury, he having on Saturday indentified Edwards as the person who sold him liquor, whereas it was in fact sold by his clerk. The preliminary investigation was held on Wednesday before L. G. Crowe, J. P., and Walters had been admitted to bail to appear at the Supreme Court in June.

ENGLISH AND FOREIGN.

DUBLIN, April 27.—The trial of Michael Fagan for the murder of Burke, was concluded this morning. He was found guilty and sentenced to be hanged May 28.

Patrick Delaney, sentenced to ten years penal servitude for assailing Justice Dawson, has pleaded guilty. His sentence for shooting at Lawson, will probably be commuted.

May 2.—Patrick Delaney and Thomas Caffery, two more of the men charged with participation in the murders of Cavendish and Burke, were arraigned for trial before Judge O'Brien this morning. They created a sensation by pleading guilty to the charge. Both were sentenced to be hanged June 2nd.

ST. PETERSBURG, April 20.—Eight officers, including a colonel, have been arrested on suspicion of being connected with the Nihilists. Sixteen also have been arrested at Smalensk. It is stated that a wide spread military conspiracy has been discovered. Documents were found at Smalensk showing that the coronation of the Czar would be undisturbed, but that something very serious would happen immediately after the event.

PORT SAID, April 28.—A riot broke out here to-day between Greeks and Arabs on account of religious ceremonies. Several persons were killed and many wounded, including a number of police. British troops and sailors, with gatling guns, surrounded the Greek Church to protect it. The Greek Consul took refuge on board the gunboat "Toulon." It is stated that the European residents were saved from a general massacre by the landing of British sailors.

A boat belonging to a man-of-war was capsized here to-day and seven lives lost.

April 30.—Further rioting occurred this afternoon. The people are closing their shops. The Governor has given the charge of the Egyptian forces to a British officer.

UNITED STATES.

NEW YORK, April 21.—The Board of Aldermen, to-day, passed a resolution requesting the trustees of the East River Bridge to change the day of opening the bridge from 24th to 30th inst. The reason given by the officer of the resolution was that as May 24th was the birthday of the Queen of Great Britain, it was a day offensive to Irish.

April 30.—Fifteen houses in Northumberland, in this State were burned to-day; loss heavy.

WASHINGTON April 27.—The President has recognized Wm. Lane, broker, as British Consul General, to reside at New York.

Mr. John Magwood, Victoria Road, writes: "Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure is a splendid medicine. My customers say they never used anything so effectual. Good results immediately follow its use. I know its value from personal experience, having been troubled for 9 or 10 years with Dyspepsia, and since using it digestion goes on without that depressed feeling so well known to dyspeptics. I have no hesitation in recommending it in any case of Indigestion, Constipation, Heartburn, or troubles arising from a disordered stomach."

ADVERTISING CHEATS.

It has become so common to write the beginning of an elegant, interesting article and then run it into some advertisement, that we avoid all such cheats and simply call attention to the merits of Hop Bitters in as plain honest terms as possible, to induce people to give them one trial, as no one who knows their value will ever use anything else. —*Providence Advertiser.* may 4—2i.

THE AGE OF MIRACLES

is past, and Dr. Pierce's "Golden Medical Discovery" will not raise the dead, will not cure you if your lung are almost wasted by consumption. It is, however, unsurpassed both as a pectoral and alterative, and will cure obstinate and severe diseases of the throat and lungs, coughs, and bronchial affections. By virtue of its wonderful alterative properties it cleanses and enriches the blood, cures pimples, blotches and eruptions, and causes even the great eating ulcer to heal.

RHEUMATISM manifests itself in various ways, and results from various causes. In a changeable climate like this few are exempt from its attacks. It finds a seat in every part of the body, and is migratory in its habits, transferring itself from the shoulder to the hip, or from the wrist to the ankle, in some instances in a few hours. The pain of Rheumatism is excruciating, but is speedisy overcome by the use of "*Penetrating*" Liniment. For sale by all druggists and general dealers in Canada.

NO LADY who delights in flowers, and likes to see them do well and bloom abundantly, should be without *Hanington's Food for Flowers.* Ordinary packages 30c.—sufficient for twenty plants for one year. may 4—1m.

No female should attempt the toil and drugery on washday, when it can be obviated by the use of James Pyle's unrivalled Pearline. may 4—1m.

Those who suffer from cough or any Lung complaint should, without delay, try the effect of Wilson's Pulmonary Cherry Balsam, a few doses of which will relieve the sufferer and cause easy and natural expectoration. If a cough is allowed to continue without using such a preventative, a more serious casuality may arise and confine the patient to the house, if not to a bed of sickness. This is a remedy of extraordinary power, acting directly upon the lungs, and no preparation has before been found which produces such a beneficial effect on those organs as this Balsam.

MOTHERS! MOTHERS!! MOTHERS!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth! If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents a bottle. feb2—1y.

BEWARE OF IMITATIONS.

Since Dr. Thomas' Eclectric Oil has become celebrated, a number of unprincipled persons have been endeavoring to palm off Electron and Electric Oil for the genuine DR. THOMAS' ECLECTRIC OIL. Beware of these similar mamed articles. If their originators had any faith in the healing properties of their own medicines they would, like honest men, give them a name of their own, and not try to sell them on the reputation of another; but as they know their preparations have no merit, they resort to the most unprincipled means of selling them by getting a name as near as possible to *Eclectric.* We therefore task the public when purchasing to see that the name Dr. Thomas' Eclectric Oil is on the front of the wrapper, and the signature of NORTHROP & LYMAN, the proprietors of Canada, on the back.

Dr. Wilson's Family Anti-Bilious Pills have now been before the public a sufficient length of time to prove their efficacy and virtue, and the truth of his system as so the cure of disease. Being composed only of vegetable matter or medical herbs, they are found by experience to be harmless to the most tender age or the weakest frame, under every stage of human suffering; the most pleasant and benign in their operation, ever offered to the world; and at the same time the most powerful, searching out the roots of any complaints, and performing a cure, if within the reach of human means.

REST AND COMFORT TO THE SUFFERING.

"BROWN'S HOUSEHOLD PANACEA" has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, Lumbago and any kind of a Pain or Ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful." "Brown's Household Panacea," being acknowledged as the great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world, should be in every family handy for use when wanted, "as it really is the best remedy in the world for Cramps in the stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle. feb2—1y

Mr. Abraham Gibbs, Vaughan, writes: "I have been troubled with Asthma since I was ten years of age, and have taken hundreds of bottles of different kinds of medicine, with no relief. I saw the advertisement of Northrop & Lyman's Emulsion of Cod Liver Oil with Lime and Soda, and determined to try it. I have taken one bottle, and it has given me more relief than anything I have ever tried before, and I have great pleasure in recommending it to those similarly afflicted.

NO TIME LIKE THE PRESENT for seeking medicinal aid when what are foolishly called "minor ailments" manifest themselves. There are no "minor" ailments. Every symptom is the herald of a disease, every lapse from a state of health should be remedied at once, or disastrous consequences are likely to follow. Incipient dyspepsia, slight costiveness, a tendency to biliousness, should be promptly counteracted with Northrop & Lyman's Vegetable Discovery and great Blood Purifier, and the system thus shielded from worse consequences.

IT IS SAID that among the Chinese, the Larvæ of Insects are used medically to give strength to feeble children; Caterpillar syrup they consider a specific for Bronchitis; Dried Toads are taken to give tone to the system, while the horns of the rhinocerous, the bones of tigers, the jaws of tigers, and the wings of bats all have a place in the Chinese Pharmacopœia. A simple remedy containing well-known ingredients is nothing thought of by a patient, and their doctors seem to be quite of the same mind. How different is it with us outside barbarians in this respect, where the elegant preparations of pleasant taste, composed of well-known and well-tried remedies, such as is embodied in *Robinson's Emulsion of Cod Liver Oil* with *Lacto-Phosphate of Lime* is not only sought after by the patient but is recommended and largely prescribed by the most intelligent physicians.

For sale by Druggists all over the Dominion. may 4—1m.

The treatment of rough or broken knees in horses is a subject of great importance. PLEASANT TO THE TASTE.

Children and persons with weak constitutions have always found great difficulty in taking Cod Liver Oil, and from this fact it has not been universally used, but with Northrop & Lyman's Emulsion of Cod Liver Oil and Hypophosphites of Lime and Soda, this prejudice is removed. It is so thoroughly disguised that you cannot detect the Cod Liver Oil. One physician writes us that he has to hide the bottle from his children. For Coughs and Colds, broken down constitutions, and all Lung Diseases, it has no equal.

Mr. W. Maguire, Merchant, at Franklin, writes: I was afflicted with pain in my shoulder for eight years—almost helpless at times—have tried many remedies, but with no relief, until I used Dr. Thomas' Eclectric Oil. After a few applications the pain left me entirely, and I have had no pains since.

CORNS! CORNS! CORNS!

Everyone suffering from painful corns will be glad to learn that there is a new and painless remedy discovered by which the very worst class of corns may be removed entirely, in a short time and without pain. PUTNAM'S PAINLESS CORN EXTRACTOR has already been used by thousands, and each person who has given it a trial becomes anxious to recommend it to others. It is the only sure, prompt and painless cure for corns known. Putnam's Painless Corn Extractor is sold everywhere. N. C. POLSON & CO., Kingston, Proprietors.

The "*constantly tired-out*" feeling so often experienced is the result of impoverished blood, and consequent enfeebled vitality. Aper's Sarsaparilla feeds and enriches the blood, increases the appetite and promotes digestion of the food, and the assimilation of its strengthening qualities. The system being thus invigorated, the feeling rapidly changes to a grateful sense of strength and energy.

A LOSING JOKE.

A prominent physician of Pittsburg said jokingly to a lady patient who was complaining of her continued ill health, and of his inability to cure her, "try Hop Bitters!" The lady took it in earnest and used the Bitters, from which she obtained permanent health. She now laughs at the doctor for his joke, but he is not so well pleased with it, as it cost him a good patient.—*Harrisburgh Patriot.* may 4—2i.

SPECIAL HOME MISSION NOTICE.

As may be seen by Resolution 51 of the Minutes of our recent General Conference, the Executive of the Home Mission Society was empowered to devise ways and means for establishing a Mission in Manitoba and the North West. Correspondence with friends in Winnipeg, has led the Executive to the conclusion, that in that city the work should be commenced. The want of means is the great hindrance, and the Board has decided to bring the matter before the public in this way. We hereby earnestly appeal to all the friends of this Mission to assist us with their means. Unless the money is forthcoming it will be useless to undertake the work. Will our brethren and friends interested, send in cash or pledges for this Mission, the amounts they will give towards it. Address, Rev. J. T. Parsons, Treasurer, H. M. Society, St. John.

HOP TONIC!
—THE BEST—
TONIC
—AND—
APPETIZER!

The proprietors of this article feel warranted in saying that as a preparation of medicine it cannot be surpassed. It is purely vegetable, containing aromatic and medicinal roots and barks, one of the principal being Sarsaparilla, a root held in great esteem for its blood purifying and strengthening qualities. It is peculiarly efficacious in diseases arising from impurities of the blood, and is highly recommended as a Tonic and Appetizer.

The careful selection of the roots and barks used in this compound, has been acknowledged by the numerous patrons who have continued its use for the last few years. Hop Tonic has attained a high reputation for purity and delicacy of flavor, which we intend shall be maintained.

Hundreds of letters come from all over the Lower Provinces, speaking with much praise of *Hop Tonic.* Beware of base imitations. It is unlike all other compounds with similar names.

PAIN CANNOT STAY
—WHERE—
Universal Liniment
Is Used!
Universal Liniment
Is warranted equal to any article for all Diseases of Man and Beast.
UNIVERSAL LINIMENT.
AN EXTERNAL application for Sprains and Bruises, Sore Throat, Quinsy, Pains and Soreness in the Bones and Muscles, Paralysis or Numbness in the Limbs, Pains and Stiffness of the Joints, Swellings and Tumors, Rheumatism, Gout, Tic Dolourreux, (Neuralgia), or Pains in the Nerves, Milk Leg, White Swellings, Chilblains or Frost Bites, Ringworm, Pains in the Chest, Side and Back, &c., and useful in all cases where Liniments, Rubefacients, Blisters, Sinapisms, &c., or any other kind of Counter-Irritant is required.
Directions for using Universal Liniment.
This Liniment should be liberally applied to the parts affected, three or four times a day, (and even more frequently in severe and dangerous cases), and rubbed well into the skin with the hands and fingers, or with a small piece of flannel, saturated with the Liniment, so that more or less irritation or smarting is produced in the parts to which it is applied.
CHILBLAINS.—They are inflammatory swellings of the feet, especially about the toes and heels, with painful itching and burning; and are caused by exposure to cold. Sometimes blisters form, which become bad ulcers. *Treatment.*—Wash with castile or tar soap, and apply UNIVERSAL LINIMENT freely. Wrap them in lint saturated with the Liniment and keep it on during the night. Keep the feet warm and dry during the day.
LAMENESS.—It is the result of over use. There is soreness, accompanied by pain on exertion, in the affected part. The celebrated UNIVERSAL LINIMENT is unequalled in curing lameness. Bathe the tender portion with the Liniment at night, and on going to bed, and again in the morning.
BUNIONS.—They consist of enlargement or thickening of the sack about a joint, usually that of the big toe of the foot. Caused by tight boots. *Treatment.*—An easy boot or shoe is essential. Bind on lint soaked with the UNIVERSAL LINIMENT and cover with oil silk every night.

SCROFULA
and all scrofulous diseases, Sores, Erysipelas, Eczema, Blotches, Ringworm, Tumors, Carbuncles, Boils, and Eruptions of the Skin, are the direct result of an impure state of the blood.
To cure these diseases the blood must be purified, and restored to a healthy and natural condition. AYER'S SARSAPARILLA has for over forty years been recognized by eminent medical authorities as the most powerful blood purifier in existence. It frees the system from all foul humors, enriches and strengthens the blood, removes all traces of mercurial treatment, and proves itself a complete master of all scrofulous diseases.
A Recent Cure of Scrofulous Sores.
"Some months ago I was troubled with scrofulous sores (ulcers) on my legs. The limbs were badly swollen and inflamed, and the sores discharged large quantities of offensive matter. Every remedy I tried failed, until I used AYER'S SARSAPARILLA, of which I have now taken three bottles, with the result that the sores are healed, and my general health greatly improved. I feel very grateful for the good your medicine has done me.
Yours respectfully, MRS. ANN O'BRIAN."
148 Sullivan St., New York, June 24, 1882.
☞ All persons interested are invited to call on Mrs. O'Brian; also upon the Rev. Z. P. Wilds of 78 East 54th Street, New York City, who will take pleasure in testifying to the wonderful efficacy of Ayer's Sarsaparilla, not only in the cure of this lady, but in his own case and many others within his knowledge.
The well-known *writer on the Boston Herald*, B. W. BALL, of *Rochester, N.H.*, writes, June 7, 1882:
"Having suffered severely for some years with Eczema, and having failed to find relief from other remedies, I have made use, during the past three months, of AYER'S SARSAPARILLA, which has effected a *complete cure.* I consider it a magnificent remedy for all blood diseases."
Ayer's Sarsaparilla
stimulates and regulates the action of the digestive and assimilative organs, renews and strengthens the vital forces, and speedily cures Rheumatism, Neuralgia, Rheumatic Gout, Catarrh, General Debility, and all diseases arising from an impoverished or corrupted condition of the blood, and a weakened vitality.
It is incomparably the cheapest blood medicine, on account of its concentrated strength, and great power over disease.

NORTON, Kings Co., N. B., August 2, 1879. Messrs. C. Gates, Son & Co.
GENTLEMEN:—This is to certify that I have been afflicted for over twenty years with liver complaint, and have tried different doctors and preparations, and was treated by an Indian doctor, but all to no good effect until a year ago I commenced taking your LIFE OF MAN BITTERS, NO. 2, AND INVIGORATING SYRUP NO. 1, USING YOUR NERVE OINTMENT AND ACADIA LINIMENT, externally, and with God's blessing I can candidly say that I have not been so well for twenty years as I am at the present time, and would heartily recommend your medicine to all suffering with the liver complaint and impure blood. You are at liberty to use this as you deem best for the benefit of the afflicted, and I will
