LOSS OF THE SHIP "LORD ASHBURTON" ON GRAND MANAN.

The following painful intelligence has been communicated by a friend at Grand Manan:—A ship called the "Lord Ashburton," of a thousand tons, from Plymouth, bound to St. John, consigned to Quiggle & Stisby, was wrecked on the Northern Head of this Island on Monday morning in a violent snow storm. In less than half an hour she was dashed to pieces. There was never seen a more complete wreck. She had a crew of twenty-nine men, eight of whom were found alive, but frightfully frozen, with the exception of one native of P. E. Island, named John M'Donald. The next day, sixteen bodies were picked from among the remnants of the wreck, horribly mangled. None of the officers were saved. I was among the first at the scene of the disaster. It was a dismal place—high towering cliffs—the sea breaking with fury in mountain waves against their base. The survivors were observed to have gained a cliff from which it was a perilous undertaking to rescue them.—*Visitor.*

Wesleyan Missionary meetings have been held this week in St. John. The Rev. Dr. Richey of Halifax was among the speakers on those occasions.

☞ Dr. Richie is to lecture in the Institute this evening for the Young Men's Christian Association. Subject—"The elements and influence of elevated character."

B. Wolhaupter, Esq., the Sheriff of York County, died suddenly at Fredericton on Monday morning. He attended Church on Sunday apparently in perfect health.

NEW ORLEANS, Jan. 15, 1857.

The Texas brings San Juan dates to the 10th inst.

The agents of the Texas report that Gen. Henningsen, having received reinforcements, after withstanding a siege for nine teen days, succeeded in driving the enemy before him, with a loss of 1,400 men, while his (Henningsen's) loss was only 300, and the odds against him were ten to one. All the military stores, artillery, and public documents were retaken, and Rivas occupied.

Walker took possession of Rivas without opposition; the enemy evacuating the place on hearing of his approach.

The Costa Ricans have taken possession of all the boats on the San Juan River had cut in consequence with Walker from San Juan del Norte.

Three hundred recruits were waiting at Punta Arenas, waiting the repairing of a steamer, which would take five days, when they were determined to proceed up the river.

ANOTHER ACCOUNT.—*New Orleans, Friday Jan. 16, 1857.*—Returned Nicaraguans give contradictory, but generally rather dismal accounts of the state of affairs at Nicaragua.

The capture of the boats on the San Juan River was effected by a man named Spencer, formerly a mate on board of the Company's boats, aided by three hundred Costa Ricans. Besides capturing all the river boats, and the forts Castillo and San Carlos, they also took 8 of Walker's large lake steamers, leaving him only one schooner and a few bongoes.

Several of Walker's officers came passengers on the Texas. Some of them say that Walker's case is hopeless, while others are more sanguine. A meeting of Walker's friends who came on the Texas, numbering about ninety, will be held here in a few days. It is reported here that Spencer is in the pay of Vanderbilt, and that the British assisted him with gunboats.

200 of Walker's men at Punta Arenas, under Lockridge, attempted to retake the boats lying there, but the British commander gave notice that he would not allow it.

AID INVOKED FOR THE FILIBUSTERS.—Wellington, Jan. 16, 1857.—Strenuous efforts are being made here by the friends of Walker to secure the interference of this Government in behalf of the Americans in Nicaragua, whose situation private despatches depict to be of the most desperate character, and who, unless speedily rescued, will most certainly perish of sickness or at the hands of the enemy.

The result of the effort is exceedingly doubtful.—*Tribune.*

HOMICIDE MYSTERY.—Starkville (Miss.) Herald, contains the particulars of the murder of Robert Burnes, proprietor of the Cottage Hotel in that place by Dr. W. D. Stovall, with whom he had a fight the day before. It says: "Going near Burnes' stable, Dr. S. winged his buggy and walked within twenty-five paces of Burnes, who was engaged in harnessing a horse; he beckoned to him, urging Burnes near to get out of his way, at the same moment raising his gun and firing. At the instant of the firing Burnes looked around and received the contents of the gun in his face. He raised his hands to his face and sank to the earth, exclaiming "my God!" Upon this, Stovall advanced within two paces and fired a second time, the whole charge taking effect in his back, and Burnes then cried out, "I am a dead man!" Still, not satisfied, Stovall coolly approached him, drawing a pistol put it close to his head and fired again, turning his eye ball from its socket; then putting the pistol to his throat fired a fourth time into the body of the already dead man. Mrs. Burnes and her children rushed from the house screaming. Dr. Stovall then walked off, got into his buggy and drove off.

Constantinople letters January 5th say, the diplomatic conferences relative to the Danubian principalities continue, the third has already been held at Lord Stratford's house, the point on which the discussion chiefly has turned, has relation to political classification of Boyards or noble proprietors of land, it was the proposition of the porte to establish two classes of Boyards, great Boyards and small Boyards, but the ambassadors objected to this division and resolved that only one uniform class of proprietors of land is to exist, the division would have been a great weapon in hands of Government.

CHINA.—The China mail of Hong Kong of Nov. 29th, which contains intelligence from Canton four days later than that brought by last mail steam.—The principal incident during the week, has been the proceedings of the United States squadron Consequent, upon the unjustifiable attack made upon a party of Naval officers and civilians by Bravos occupying the Barriers forts and which is likely to involve the nations much against their will in a quarrel with the Chinese.

From the Times city article:—Chinese advices bringing full details of the operations at Canton down to the 29th Nov., and of the continued obstinacy of Governor Teh, who, notwithstanding destruction of Bogue Forts by English and Barrier Forts by Americans, had issued proclamation threatening martial law to any of the people who might venture to speak of peace, has caused an increase of firmness in the London tea market. Shanghai exchanges on this occasion are less unfavorable.

The steamships *Atlantic* and *Persia*, the former with Liverpool dates to the 7th, and the latter to the 10th inst., have arrived at New York. The news by these arrivals is of more than ordinary interest.

Lord Napier is appointed Minister to Washington. He is a practised diplomatist, having served in Austria, Persia, Naples, and Turkey.

The London Times objects to the appointment of Lord Napier, on the ground that though well fitted by his diplomatist experience, to represent his country in the East, or any of the despotic or military court of continental Europe, he is not the right man for the mission to Washington.

The Archbishop of Paris was assassinated while performing religious service in the Church of St. Etienne, by a discharged priest named Verges. The assassin stepped forward, and lifting his cape, plunged a catlan knife into his heart, exclaiming, "Down with the godless!"—an expression which he explained to refer the doctrine of the Immaculate Conception. The Bishop fell to the pavement, and instantly expired. A Sister of Charity, who attempted to throw herself between him and the Archbishop, was wounded in the hand.

Verges was formerly a priest of the Diocese of Meaux, and had been suspended for preaching against the dogma of Immaculate Conception. He was in the insurrection of June, and on that occasion he received the murdered prelate in his arms. It is generally thought he is deranged. The crime created a deep sensation at the Tuileries, and in all classes the same consternation was apparent.

The assassin was at once arrested. The statement that he is insane is false. He at once gave his name and stated his profession.

The body of the Archbishop has already been embalmed, and will be interred with great ceremony.

This morning the dreadful event was communicated to the bishop of Tripoli, brother of the deceased, who was in an infirm state of health, and on whom it had a terrible effect. A secret conclave was held at Rome Dec., 15th in which the state of the Roman Church in Mexico and South America was considered. The Pope bitterly complained of the doings of the new government of Mexico, and declares all the measures it has taken against the authority of the apostolic chair to be null and void. He also denounces those priests who obey the laws of the countries in which they live, rather than the instructions forwarded to them from Rome.

LIVERPOOL, 7th.—The Paris Moniteur of this day announces that the Conference has has signed a protocol which puts an end to the difficulties which have delayed the execution of the treaty of peace. The provisions for the new boundaries, are to take effect on the 30th March, and on the same date the Austrian troops and the British fleet shall have evacuated the Danubian Principalities, and the interior waters of Turkey.

The news by the Persia is important inasmuch as it is stated that the Swiss difficulty is virtually settled by the interposition of France, supported by England. The Emperor Napoleon undertakes that Prussia shall renounce all her claims upon Neufchatel in consideration of the release of the prisoners France further undertakes to prevent any aggression by Prussia against Switzerland. Switzerland approves these terms, and the Federal Assembly is summoned to ratify them.

The Conference of Paris closed on the 6th, having signed a protocol which is expected to terminate all the difficulties in fulfilment of the treaty of Peace. Russia cedes Bolgrad and Talook to Moldavia, and receives the town of Kourst, on the right bank of the river Yalpak, with a territory of 300 square versts. The Ile of Serpents is decided as belonging to the mouths of the Danube and goes with them. The new boundaries shall be fixed and the Austrian troops and British fleets shall have evacuated the Turkish territory by the 30th of March next. Immediately thereafter, the Congress shall assemble at Paris, to ratify proceedings.

The monthly statement of the Bank of France shows an increase of commercial discounts, and a heavy decrease of bullion.

The English money market is easier; the Bank has raised the charge for loans on stocks ½ per cent.

The French papers generally approve the hostile measures of England against Canton.

MALTA.—There was a frightful storm here on New Year's day; four ships have foundered at sea, and 300 vessels of all sizes have been wrecked against the wharves and piers.

HAVE YOU A DISEASED LIVER?

☞ The question, though startling, is sufficiently suggestive when the fact is taken into consideration that diseases of the Liver have become most alarmingly frequent in the United States. Indeed, there are few formidle diseases that are not in some way traceable to a deranged state of that important organ. Many of the complaints usually classed under the head of Consumption, have their origin in the Liver. "Any remedy that would insure regularity and healthful action in the Liver, would be a blessing to mankind!" has been the exclamation of thousands. That remedy has been found; it is safe and sure. When a fair trial has been afforded it, it has never been known to fail.

Reader, have you any disease of the Liver, or disease which you believe proceeds from hepatic derangement? Lose not a moment, but purchase a box of Dr. M'Lane's Pills, prepared by Fleming Bros., Pittsburgh, Pa., and they will restore you to health. It is the only remedy yet discovered, in which implicit confidence may be placed.

☞ Purchasers will be careful to ask for Dr. M'LANE'S CELEBRATED LIVER PILLS, manufactured by FLEMING BROS. of PITTSBURGH, PA. There are other Pills purporting to be Liver Pills, now before the public. Dr. M'Lane's genuine Liver Pills, also his celebrated Vermifuge, can now be had at all respectable drug stores. *None genuine without the signature of* FLEMING BROS.

VICTORIA HOUSE.
SPECIAL NOTICE.

ENCOURAGED by the liberal share of patronage received during the past five years, and particularly since our removal to Prince Wm. Street, we have made arrangements to extend our retail trade. In addition to our regular Spring and Fall Supplies per Packet Ships, we shall during the winter as well as in the summer months import per steamers via Halifax, such Goods as are required to keep our Stock well assorted. Our system of doing business now is the same as it has been heretofore, adopting for our motto, not *as much as we can get*, but *as little as we can take*. We therefore mark every article in plain figures, from which no abatement can be made. Our Goods are equal in point of quality to any in the market; and as we buy on the most advantageous terms we cannot be undersold by any house in the Province. Thankfully acknowledging past favours we shall endeavour, by the extent and variety of our Stock, as well as by the quality and value of every article sold, to make the VICTORIA HOUSE as popular as possible, and respectfully solicit a continuance of that support which we have hitherto received.
