LIVES OF ILLUSTRIOUS SHOEMAKERS, is one of the "Standard Library," and certainly a very interesting work well adapted for Sabbath-schools. It is sufficient to add, that it gives a biographical sketch of such men as Sir Cloudsley Shovel, James Lackington, Rev. S. Bradburn, Robert Bloomfield, Samuel Drew, M. A., Wm. Carey, Thos. Cooper, and others. Published by Funk & Wagnalls, 10 and 12 Dey street, N. Y.

THE NEWS OF THE WEEK.

SAINT JOHN, N. B., MARCH 23, 1883

NEW BRUNSWICK.

Influenza of a very bad type and pneumonia are very prevalent here just now.

Bathurst is sending canned lobsters by rail to Halifax for shipment.

One of the abutments of Harvey river bridge, Albert County, was raised about two feet by the ice, and the *Maple Leaf* says it was even feared that the bridge would be carried away.

An attempt was made to burglarize Messrs. Maclellan & Co.'s banking house on King Street early Sunday morning. The burglar did not succeed in his attempt. A young man named Hanlon was arrested on suspicion, pleaded guilty, and was sentenced for six months.

A few mornings since 115 schooners and boats could be seen stretching between Partridge Island and Mahogany, employed in the herring fishery. So large and continuous a catch was never known before, and the hardy toilers of the seines are unable to fathom the phenomenon.

According to the report of the Minister of Justice the number of prisoners in Dorchester Penitentiary on 30th June, 1881, was: males, 94; females, 2; total, 96; received during the year, males, 44; females, 3; total, 47; released on expiration of sentence, &c., males, 42; remaining 30th June, 1882, males, 96; females, 5; total, 101.

The St. John Railway Bridge Co. will commence operations at the Falls. Their charter expires on the 25th inst. Contracts for the various branches of the work will be let in a few weeks. The last remaining obstacle of the work has been removed, and the companany hope to have the structure well advanced by the end oi the season.—*News.*

Mr. Woodbridge superintendent of the Deaf and Dumb Institution, Fredericton, acknowledges with thanks the receipt of one box of ironmongery from Messrs. Emerson & Fisher, Prince William street, St. John; a collection of $15.50 from Mr. E. L. Hagerman, Woodstock; and a large sign, painted gratuitously for the institution by Mr. Eggar, Fredericton.

The residence of Mr. Burns was burned to the ground at Bathurst (March 18) between eight and nine o'clock. A spark from the kitchen chimney set fire to the oil of the main house under the eaves and the flames soon gained such headway as to render useless any attempt to save the building. The adjoining and opposite houses were for a time in great danger. All the furniture in Mr. Burns' house was saved in good condition. The house was insured in Western Assurance Company for $1,000, which will cover the loss.

The County Court, Judge Steadman presiding, opened Tuesday. There was only one criminal case, the Queen vs. Robert McIntosh, against whom a true bill was found for stealing a sum of money from Thomas Goest. Mr. Rainsford appears for the Crown and Mr. Wilson for the prisoner. The naturalization papers of Fred. Yashe were read. On motion of Mr. Gregory a certificate was ordered to issue from the Court. The Civil docket consists of Margaret Kirlin vs. the Corporation of Fredericton—Rainsford & Black; John Beadle Gunter vs. Alex. Mowatt—J. & A. W. Vanwart; D. J. Stockford vs. James Gibson—A. L. Belyea.

President Geo. E. B. Jackson, and General Manager Tucker, of Portland, Directors Arthur Sewall, Esq., and Hon. T. W. Hyde, of Bath, of the Main Central railroad, and J. Murray Kay, and Supt. McLeod of the St. John & Maine Railway, and Fred. E. Barker, and Thomas R. Jones, of St. John, and R. Robison of St. Andrews, held a consultation to-day at the Bangor House. One of the subjects under consideration was the building of the railroad bridge at St. John, N. B. As a result of their deliberations it was decided to commence the building of the bridge at once.—*Bangor Commercial.*

Three men in O'Toole & McCafferty's foundry, including Mr. McCafferty himself, had a narrow escape from death by gas poisoning at 5 p. m. Wednesday. It was coming day and McCafferty, Isaiah Staples and Frank Flannigan were working about the furnace, when they were almost instantaneously seized with stupor followed by violent pains in the head and delirium. They were able to struggle into the open air where they soon recovered, but Flannigan's case was more severe and he was taken to Dunphy's hotel. Dr. Brown shortly arrived and by copiously bleeding his patient succeeded in restoring him to consciousness and to a fair way of complete recovery, although he is very weak. The doctor considers the escape of the man as quite miraculous.—*Sun.*

A horrible accident occurred on Saturday evening at the Intercolonial passenger depot. Thomas Grady, a teamster, who is very well known in the city, was going to his home on Pond street through Paradise row. He turned into a short street which crosses the railway at the northeastern end of the passenger depot, with the intention of there crossing the track. He was very familiar with the place, and when he saw that the gate was closed, he sent a little boy who was with him across the track to open the gate that his horse might get through. The shunting engine was moving some freight cars in the station, but this Mr. Grady does not appear to have noticed. The little boy, who was his nephew, crossed the track in safety, but had not time to open the gate before a box car, which had been pushed forward by the engine, came suddenly out of the station. The horse seeing the car became frightened and shied. By some means, which at the present time cannot be accounted for, he was thrown out of the sled and fell on the rail a few feet in advance of the car. He had not time to move or regain his feet when the car passed over his neck and right arm. The car could not have been going very fast as only one wheel passed over the body. The little fellow, who was the only eyewitness of the terrible accident, rushed to where Mr. Grady lay and attempted to pull his body from under the car but was unable to do so. Some of the train hands came along and dragged the body out when it was found that the head was nearly severed from the body. Death had been instantaneous but blood was pouring in torrents from the wound. He leaves a family of nine children, only two of whom are grown up. The others are all under nine years of age, the youngest being a mere baby. About three months ago his wife died under peculiarly sad circumstances. Thus the family have been twice bereaved within a few months. By his industry, Mr. Grady had accumulated considerable property. The place where the accident occurred is very dangerous. It may be said to be in the very centre of the Intercolonial yard, where trains are constantly passing and repassing. Very little protection is afforded the public from accident, there being but one gate and that a very frail affair. The verdict of the inquest was accidental death.—*Tel.*

Sternes had insurance on his furniture, which was much injured by removal from the house, which was not burned, only the cuthouse caught.—*Globe.*

ENGLISH AND FOREIGN.

ENGLAND.

A diabolical attempt to destroy the Parliament Building in England, took place on the night of the 14th inst. The following are some of the facts:

LONDON, March 14.—Every part of Westminster Abbey, House of Parliament, the great structures of public offices and clubs and dwelling houses were violently shaken, to-night, by a tremendous explosion.

At 9 o'clock precisely, a great detonation was heard, followed by a crash of glass falling from thousands of windows. A deliberate attempt had been made to blow up part of the Government offices, occupied by Sir Charles Dilke and the Local Government Board, in the immense building, bounded by Parliament street, Downing street, Charles street and St. James Park. The apartments in question front on Charles street, and are almost level with the pavement The walls are of great thickness and of solid masonry and the windows protected by massive stone balustrades. Opposite, 20 yards away, is the King street police station; 50 yards away a sentry guards the Parliament street front. Charles street is dark and unfrequented at night, which partly explains the fact that no lives were lost. Dynamite was placed on the window sill, inside the balustrade, where the fuse, when burning, would be concealed from the view of any one passing. The force of the explosion was terrific. A great stone balustrade was obliterated, massive masonry rent in fragments and the pavement shattered and ground to powder. A wooden structure opposite was blown into splinters, and a mass of stone was driven through the wall of a house beyond it. Of the inside offices there remains nothing but splintered wood, broken plaster, walls burst assunder, and an indiscribable scene of destruction. The street is completely covered with fragments of plate glass, blown bodily out and shattered to atoms. The doors of the King street police station were burst in by the blast of air, and the detachment of men present were prostrated. Broken timbers and masses of stone were sent flying into King street. People crossing at Parliament street were knocked down. A hansom and horse were flung across the sidewalk against the front of the Whitehall Club, in which great plate glass windows were driven into the rooms. Everywhere the greatest consternation prevailed. The people poured out of their houses, broken glass cracking under their feet. In the House of Commons the alarm was general; many members left immediately; the lobby was emptied and the people rushed out of Westminster Hall. Some two hundred police and a detachment of the fire brigade took possession of Charles street and drew a cordon around the building, which no one but the members of Parliament and public officials were allowed to pass. As the alarm spread, thousands flocked from all parts towards Westminster and the most intense excitemens prevailed, a report rapidly gaining currancy that the House of Commons had been blown up. No one seems to explain the motive or purpose of the act. It is ascribed to Irish Invincibles as a matter of course, and is described as part of a Fenian plot of threat and warning to the Government. One thing only is certain; it was a deed of frightful recklessness and atrocity, and only inexplicable good fortune prevented it from being attended with the most serious fatility.

NEW YORK, March 16.—When O'Donovan Rossa was asked to-day whether the explosion in London was caused by dynamite or was the accidental explosion of gas, he answered, "We could not follow out the system unless we used dynamite and that is what caused the explosion—no accident about it. It was intended to do all the damage possible and it was done to show England she had better give Ireland her own Parliament. England is at war with Ireland and Ireland should be at war with England." O'Donovan showed telegrams from friends warning him not to speak on the subject.

O'Donovan Rossa received the following despatch from Boston:

"Congratulate you on news from London this morning. I can collect money now in Boston,"

"JOHN M. DRISCOLL."

LONDON, March 16.—The Government has offered a reward of £1000 for the discovery of the authors of the explosion.

March 13.—Lady Florence Dixie was attacked at Windsor, yesterday, by two men disguised in women's clothes. Her dress was cut with daggers in several places, but she received no injury. Later telegrams state it to be a canard.

March 19—The Glasgow express from Edinburgh, telescoped the train from Glasgow near the Central station this evening. Four persons were killed and many injured.

March 20.—Mr. John Dillon has resigned his seat as Member of Parliament for Tipperary.

The Dean of Cantebury has received a letter, the writer of which threatins that the Deanery will be blown up on the occasion of the enthronement of the new Archbishop of Cantebury.

March 22.—The Queen is still confined to Windsor Castle by the swelling of her knee, caused by her fall on Saturday. Her journey to Osborne House has been temporarily postponed. Her Majesty's general health is good.

RUSSIA.

ST. PETERSBURG, March 21.—Two dynamite depots have been discovered here, forty persons were arrested yesterday. The week's arrest number 200, including pupils of military schools and railway officials. The Government has resolved to expel Italians who are without permanent occupation.

The autopsy held on the body of Prince Gortschakoff showed he was not poisoned.

UNITED STATES.

LAREDO, TEXAS, March 16.—Sheepmen report a heavy loss from the cold rains last week. The largest owners say they have lost a third of their flocks and that there will be a total loss of the lamb crop. The loss west of the Neuces river will reach $250,000,

BOSTON, March18.—Mrs. Carleton, aged 30 years a resident of Watertown, eight miles from here, was brutaly murdered in her own doorway to-night, a rock crushing in her skull, thrown by an unknown man. There has been trouble between herself and husband. The latter has not been home for ten days, and up to 11 o'clock to-night search for him has been unsuccessful. Mrs Carleton had two children and was far along in pregnancy. The case is in the hands of detectives.

MEMPHIS, Tenn., March 18.—The river here continues to decline steadily, and in many localities between Memphis and Helena the river is within its banks. A special from Helena says the river is declining six inches a day, the bottom lands will soon be free from water, and planting will begin within three weeks.

BALTIMORE, March 18.—The oyster pungie "Jasper" sunk in Wycomico Creek last Thursday night after colliding with the pungie "Industry." Four men were drowned and another frozen to death lashed to the rigging.

A GOOD HOUSEWIFE.

A good housewife, when she is giving her house its spring renovating, should bear in mind that the dear inmates of her house are more precious than many houses, and that their systems need cleansing by purifying the blood, regulating the stomach and bowels to prevent and cure the diseases arising from spring malaria and miasma, and she must know that there is nothing that will do it so perfectly and surely as Hop Bitters, the purest and best of medicines.—*Concord (N. Dr. Pierce's "Golden Medical Discovery" has become so thoroughly established in public favor that were it not for the forgetfulness of people it would be unnecessary to call attention to its power to cure consumption, which is crofula of the lungs, and other blood diseases, as eruptions, blotches, pimples, ulcers, and "liver complaint."

EVERY LUMBER CAMP should be stocked with "*Penetrating*" Liniment. It is equally good for man or beast. It cures *Strains, Bruises, Sprains, Rheumatism, Sore Throat and Swollen Joints* in man, and *Spavin, Callouses, Ringbone, Scratches, Strains,* and all kinds of *Galls* in horses. *Do not* fail to try it. Twenty-five cents will buy it. For sale by all druggists and dealers in Canada.

NO LADY who delights in flowers, and likes to see them do well and bloom abundantly, should be without *Hanington's Food for Flowers.* Ordinary packages 30c.—sufficient for twenty plants for one year. march2 1m.

JUDICIOUS MANAGEMENT.—Though it is impossible in this climate of changing temperature, heat and cold, to prevent coughs and colds altogether, yet their form may be much mitigated by medical measures. When hoarseness, cough, and any Lung complaints set in, resort at once to Dr. Wilson's Pulmonary Cherry Balsam. No cough can resist this remedy.

GREAT RESULTS ARE SPEEDILY ACCOMPLISHED by the leading alterative, Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure.—Indigestion ceases, biliousness disappears, constipation gives place to regularity of the bowels in consequence of taking it. Ladies suffering from complaints peculiar to their sex experience long wished for relief from it, and impurities in the circulation no longer trouble those who have sought its aid. Give it a trial and you will not regret it.

REST AND COMFORT TO THE SUFFERING.

"BROWN'S HOUSEHOLD PANACEA" has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, Lumbago and any kind of a Pain or Ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful." "Brown's Household Panacea," being acknowledged as the great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world, should be in every family handy for use when wanted, "as it really is the best remedy in the world for Cramps in the stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle. feb2—1y

BEWARE OF IMITATIONS.

Since Dr. Thomas' Eclectric Oil has become celebrated, a number of unprincipled persons have been endeavoring to palm off Electron and Electric Oil for the genuine DR. THOMAS' ECLECTRIC OIL. Beware of these similar named articles. If their originators had any faith in the healing properties of their own medicines they would, like honest men, give them a name of their own, and not try to sell them on the reputation of another; but as they know their preparations have no merit, they resort to the most unprincipled means of selling them by getting a name as near as possible to *Eclectric.* We therefore ask the public when purchasing to see that the name Dr. Thomas' Eclectric Oil is on the front of the wrapper, and the signature of NORTHROP & LYMAN, the proprietors of Canada on the back.

LISTLESSNESS, HEADACHE, FLATULENCY, &c.,—These symptoms, so frequently the forerunner of serious diseases, if neglected, too often terminate in apoplexy. When giddiness and dimness of sight comes on, Dr. Wilson's Family Anti-Bilious Pills should be taken to thoroughly cleanse the bowels. No medicine equals those pills for removing Biliousness, suppressing Nausea, checking flatulency, and acting as mild, yet effective aperients, they are suitable for either sex or any age.

MOTHERS! MOTHERS!! MOTHERS!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth! If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents a bottle. feb2—1y.

☞ In this present age, when the life battle is so fiercely fought, and when upon even the strongest the tug and stress of it tell so heavily, how necessary it becomes for us to provide for the keeping up of our reserve stock of mental and physical stamina by the use of such a nervous tonic and vitalizing agent as "Robinsou's Phosphorized Emulsion of Cod Liver Oil with Lacto-Phosphate of Lime."

Its gently stimulating and nutritive-tonic properties supply the materials, and assist nature in her efforts to keep up with the exhaustive demands upon her reserves.

Prepared only by HANINGTON BROS., Chemists, St. John, N. B., and for sale by Druggists generally.

HOW WOMEN WOULD VOTE.

Were women allowed to vote, every one in the land who has used Dr. Pierce's "Favorite Prescription" would vote it to be an unfailing remedy for the diseases peculiar to her sex. By druggists.

Dr. Corlis, St. Thomas, writes: "During ten years' active practice I have had occasion to prescribe Cod Liver Oil and Hypophosphites. Since Northrop & Lyman's Emulsion of Cod Liver Oil and Hypophosphites of Lime and Soda came under my notice, I have tried it, and take great pleasure in saying that it has given great satisfaction, and is to be preferred to any I have ever used or recommended. I have used it in my own family almost as a beverage during heavy colds, and in every instance a happy result has followed. I cheerfully recommend its use in all cases of debility arising from weaknesses of the muscular and nervous system.

THE FIRES THAT RAGE in the bowels of the earth are like the impurities that rankle in the blood, the former break out in volcanoes, like Æma and Vesuvius, the latter in Boils, Carbuncles, Erysipelas and Scrofulitic sores. Purify the blood and all these disappear. Hanington's Quinine Wine and Iron, and Tonic Dinner Pills, cleanse and enrich the blood, and may always be relied upon to cure all eruptive diseases. Beware of imitations. See that you get "Hanington's," the *original* and *genuine.* For sale by all druggists and general dealers in Canada. march 2—1m.

Public benefactors are not alone confined to the higher orders of scientific research. Indeed but few have done more for the welfare of the working masses than James Pyle through the introduction of his labor-saving Pearline. march 2—1m.

One of the most remarkable qualities of Dr. Dow's Sturgeon Oil Liniment is the rapidity and certainty with which it relaxes contracted ligaments and sinews. Joints that have been stiff for years, have repeatedly been restored to activity by a persevering use of this powerful rubefacient. A good hand-rubbing is necessary, so that its annealing influence may thoroughly penetrate the contracted fibre.

Mr. R. A. Harrison, Chemist and Druggist, Dunville, Ont., writes: "I can with confidence recommend Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, for Dyspepsia, Impure Blood, Pimples on the Face, Biliousness and Constipation—such cases having come under my personal observation."

Mr. Abraham Gibbs, Vaughan, writes: "I have been troubled with asthma since I was ten years of age, and have taken hundreds of bottles of different kinds of medicine, with no relief. I saw the advertisement of Northrop & Lyman's Emulsion of Cod Liver Oil with Lime and Soda, and determined to try it. I have taken one bottle, and it has given me more relief than anything I have ever tried before, and I have great pleasure in recommending it to those similarly afflicted.

*** "Example is better than precept." It is well known that dyspepsia, bilious attacks, headache and many other ills can only be cured by removing the cause. Kidney-Wort has been proved to be the most effectual remedy for these, and for habitual costiveness, which so afflicts millions of the American people.

* No lady of refinement likes to resort to superficial devices to supply a becoming resemblance of her former beauty. *It is health alone that kindles the fire that lights the countenance and brings back the fresh tints of apple blosom to the faded cheek.* If anything on earth will do this it is Mrs. Lydia E. Pinkham's Vegetable Compound which has already brought health to multitudes with whom all other means failed.

PAIN AND SUFFERING

Is the common lot of all. Our early days give manifest proof of this, we are never long permitted to forget it. If corns should in your case be the thorn in the flesh, go at once and buy a bottle of PUTNAM'S PAINLESS CORN EXTRACTOR, and be surprised at the rapidity, the freedom from pain and the success that marks its work. N. C. POLSON & CO., Kingston, Proprietors.

Robert Lubbuck, Cedar Rapids, writes: I have used Dr. Thomas' Eclectric Oil both for myself and family for diphtheria, with the very best results. I regard it as the best remedy for this disease, and would use no other.

Rev. J. G. Stearns writes: "I consider Perry Davis' Pain-Killer the best remedy I ever knew for Dyspepsia.

From observation, under the microscope, of the *Blood* of patients (using Fellows' Compound Syrup of Hypophosphites) taken from time to time, positive proof has been obtained of the steady removal of *diseased and dead blood particles,* and the substitution of *vitalised discs* necessary to the construction of *healthy muscle.*

SPECIAL HOME MISSION NOTICE.

As may be seen by Resolution 51 of the Minutes of our recent General Conference, the Executive of the Home Mission Society was empowered to devise ways and means for establishing a Mission in Manitoba and the North West. Correspondence with friends in Winnipeg, has led the Executive to the conclusion, that in that city the work should be commenced. The want of means is the great hindrance, and the Board has decided to bring the matter before the public in this way. We hereby earnestly appeal to all the friends of this Mission to assist us with their means. Unless the money is forthcoming it will be useless to undertake the work. Will our brethren and friends interested, send in cash or pledges for this Mission, the amounts they will give towards it. Address, Rev. J. T. Parsons, Treasurer, H. M. Society, St. John.

KIDNEY-WORT
FOR THE PERMANENT CURE OF
CONSTIPATION.
No other disease is so prevalent in this country as Constipation, and no remedy has ever equalled the celebrated Kidney-Wort as a cure. Whatever the cause, however obstinate the case, this remedy will overcome it.
PILES. THIS distressing complaint is very apt to be complicated with constipation. Kidney-Wort strengthens the weakened parts and quickly cures all kinds of Piles even when physicians and medicines have before failed.
