A Horrible Breakfast.—The breakfast eaten by between four hundred and five hundred people of Wurzburg, in Bavaria, on the 5th July, will long be painfully remembered. In German cities, the bread the people consume is rarely made at home, but is bought at the bakers' shops. Of late years, a particular kind of bread has come very much in vogue for breakfast. It is made in the form of rolls shaped like little horns, of about three ounces weight. Most of those who, in Wurzburg, on the morning in question, ate that kind of bread, had been provided from a certain baker's shop near the cathedral. After eating, they suddenly became sick. They felt a burning in the stomach, vomited, and fell off their chairs in a complete state of prostration. This calamity being known, the baker's shop was closed, and his customers, in and out of town, immediately warned not to use his articles. An examination showed that all of the so-called "horns," and some other kinds of black bread, had been poisoned with arsenic. Not a vestige of the poison was discovered in the raw material at the shops; flour, milk, salt, and water were all perfectly free from any corrupting substance; yet, in some of the "horns," upwards of four grains of arsenic were found. It was evident that the poison had been mixed with the dough, and not with the original material. The whole community was terror stricken, of course. From two to three pounds of arsenic had been employed, but no clue to the perpetrator could be obtained, according to our latest advices; and it seems the Bavarian authorities, who at once took the matter in hand, rather despair of finding him out. Luckily, not one had died among the whole number poisoned.—*Montreal Witness.*

Drinking Usages.—The drinking customs of the American people are very expensive. The revenue returns show us that for drinking purposes, not including that for exportation, we have made in the United States, of distilled liquors, 40,000,000 gallons; of fermented liquors, 186,000,000 gallons; total, 226,000,000 gallons of intoxicating liquors. Imported liquors consumed, 10,000,000. Some one figures up the cost, and shows that at the rate of $3 50 per gallon, we have paid for distilled liquors every year, $140,000,000; at the rate of one and a half cents per single glass—a low figure—we have paid for fermented liquors, $186,000,000; total, $326,000,000. Add to this the sum estimated to be expended for imported liquors, $45,000,000; total, $371,000,000.

What an enormous expenditure is this for poison that destroys the bodies and souls of men! How many churches would this vast sum of money erect? How many colleges would it endow? How many young men would it educate? How many hospitals would it build and furnish? How much good would it do if expended in works of usefulness and charity? And yet this sum of money, $371,000,000, is expended merely in making men poor, robbing them of their reason, making them drunken, and spreading woe and misery throughout the land. Who can tell the wretchedness produced by the sale of intoxicating drinks? Who can tell the money, the happiness, and the usefulness that is sacrificed to it?

And yet many men who profess religion, are ready to argue in behalf of moderate drinking. They defend the drinking customs of the age, and allow their influence to be used in favor of the sale of this poison. What can such people be thinking about?

☞ Report says that the Prince of Wales has adopted the Temperance pledge. ☜

A terrific water-spout, over one hundred feet in diameter, came across the Deleware, north of New Castle, Del., on the 5th inst. The inhabitants were much alarmed, but no damage was done to the town. When it touched the land, fences and trees were destroyed in an instant.

Not so with others, they declare
That Grace's Salve will well compare
With anything that yet was known
By humble cottager or king on throne.

WISTAR'S BALSAM OF WILD CHERRY.

This remedy has long been cherished by the community for its remarkable efficacy in relieving, healing and curing the most obstinate, painful and long standing cases o *Cough, Cold, Influenza, Sore Throat, Bronchit s, Whooping Cough, Croup, Asthma, Inflammation* of the *Lungs;* while even *Consumption* itself has yielded to its magic influence when all other means have failed. Its whole history proves, that the past has produced no remedy of equal value, as a cure for the numerous and dangerous pulmonary affections which prevail all over the land.

UNSOLICITED TESTIMONY.

From Andrew Archer, Esq., of Fairfield, Me.

"About eight years since, my son, Henry A. Archer, now Postmaster at Fairfield, Somerset County, Me., was attacked with spitting of blood, cough, weakness of Lungs, and general debility,—so much so that our family physician declared him to have a "Seated Consumption." He was under medical treatment for a number of months, but received no benefit from it. At length, from the solicitation of himself and others, I was induced to purchase *one bottle* of WISTAR'S BALSAM OF WILD CHERRY, which benefitted him so much I obtained another bottle, which in a short time restored him to his usual state of health. I think I can safely recommend this remedy to others in like condition, for it is, I think, all it purports to be—the Great Lung Remedy for the Times! The above statement, gentlemen, is my *voluntary* offering to you in favor of your Balsam, and is at your disposal."

None genuine unless signed I. Butts *on the wrapper.*

At Shag Harbour, July 28th, Isaac Nickerson, aged 60 years. Bro. N. met with a change of heart when about 9 years of age. The writer, however, is able to learn but little about him until he was about 28 years of age. He was baptized by Rev. Thomas Crowell, and united with the Free Christian Baptist Church. Twenty-five years ago he was chosen deacon, which office he filled satisfactorily till his health failed, a few months before his death. During his illness he enjoyed much peace of mind, and had the satisfaction of having his only son identify himself with God's people. In his death the church has lost a useful member; the widow and fatherless a counsellor and benefactor; the community an active business man, while a sorrowing one son and a daughter mourn the loss of an affectionate husband and a kind father. Some weeks before his death, he requested the writer to attend his funeral, naming Philippians 1 chap. 21st verse as the text he wished used. His remains were followed to the grave by a large circle of friends; and the occasion improved by the writer as previously requested. A solemn congregation attended. W. C. W.

She left a sorrowing husband and two children, with numerous relations and friends to mourn their loss. During her protracted illness, she was supported by the divine consolations of the Gospel, and died trusting in the merits of her Redeemer.

At London, on the 18th August, Elizabeth Sarah, relict of R. Lloyd, Esq., of Trospan, Wales, sister of Vice Admiral Gill, of Bath, and mother of Mr. C. Lloyd, of this city.

AYER'S CATHARTIC PILLS

Are the most perfect purgative we are able to produce and, as we think, has ever yet been made by any body. Their effects have abundantly shown to the community how much they excel the other medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart tone and strength to the whole system.—Not only do they cure the every day complaints of everybody, but formidable and dangerous diseases.—While they produce powerful effects, they are at the same time, in diminished doses, the safes and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are entirely harmless. Cures have been made that would surpass belief, were they not substantiated by men of such exalted character, as to forbid the suspicion of untruth. Many eminent clergymen and physicians certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immeasely to the relief of our afflicted fellow-men.

The Agent below named is pleased to furnish gratis our American Almanac containing directions for the use of these medicines and certificates of their cures of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia Gout, and other kindred disorders arising from a low state of the body, or obstruction of its functions.

Do not be put off by unprincipled dealers with other preparations on which they make more profit. Demand Ayer's and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass, and sold by all Druggists and dealers in medicine everywhere.
