morning two of these having started from Fredericton on their downward trips, were suddenly stopped in their course by running a shore, owing to the density of the fog. No serious damage was done however.

☞ The cold snap of last week completely closed the river in some places. The *Rothsay* was unable to reach Fredericton on Friday, and had to return to St. John, after having gone to within a very short distance of her destination.

☞ A party of Engineers are now engaged on the Fredericton Branch Railway. One section of five miles is already let, and others will be let as soon as located. The contractors purpose having it completed by the time "Western Extension" is in operation.

☞ The second number of the *New Dominion Monthly* is now on our table. It is published in Montreal, at the low price of $1.00 per annum, by John Dougall & Son. The present number contains sixty-three pages of original and selected matter. We notice that large premiums are offered to parties securing the greatest number of subscribers in a given time. The publishers promise that the December number shall be illustrated with a map of Montreal as it appeared in 1758 and also in 1801. It is to contain a sketch, also, of Father Matthew, written expressly for the *New Dominion*, by the Hon. Thomas D'Arcy McGee. We do not doubt this monthly will obtain a wide circulation.

A Cheese Factory will be put in operation at Penobsquis, King's County early next spring. The necessary stock has been subscribed, and measures will be taken at once to secure the erection of a suitable building, which will be thoroughly equipped with the necessary cheese making outfit.—*Telegraph.*

LOVE AND MADNESS.—A sad occurrence resulting in the suicide of a young woman named Alice Scribner, took place at Kars, K. C., on the 1st inst. She had for some time been keeping comany with a young man named Abraham Pickett, of whose society her parents disapproved and ineffectually exerted their influence to persuade her to break the connection. On the day named the young man happening to call at the house of her parents an altercation ensued between him and her father in the course of which the infatuated creature rushed from her home and threw herself into a pool near by, in which she perished before assistance could be rendered.—*News.*

The *Globe* says the young woman did not throw herself into the pond, but accidentally fell in; and instead of being dead when found, was endeavoring to make her way home when discovered. She was so exhausted and chilled, however, that all efforts failed to restore her, and death ensued. It is also said that the young man Pickett had not been at her father's house on the day of the accident.

ANOTHER LARGE FIRE.—About 4 o'clock on Saturday morning a fire broke out on the premises of W. H. McLean, Esq., near the Ferry Landing. The flames were first observed to break out about the centre of the shed which extends from the main building nearly to the end of the wharf, where a large quantity of fish, oils, &c., &c., were stowed. The engines were speedily on the spot, but before the fire, which was raging most furiously on account of the burning oil, could be got under, it had communicated with the adjoining building occupied by T. McCarthy, Esq., as a junk store, also the adjoining building, formerly used as a boarding house for colored men, which premises were also speedily consumed. The flames also communicated with the building occupied by Mr. James D. Turner, and the Toll House, and a small blacksmith shop, which were considerably damaged. These were owned by the Corporation. At the back part of the premises formerly used as a boarding house, stood a small shed filled with tar, which was with great difficulty saved. Had this taken fire, nothing could have saved the block on the other side of the wharf. Mr. McLean is insured for $5,800, and Mr. McCarthy about $2,000. The building occupied by both, and belonged to the Nicholas estate, was insured for $2 000. The brig "C. H. Trumbul," owned by Capt. Armstrong, of Windsor, Nova Scotia, which was receiving thorough repairs in the sup in the rear of Mr. McCarthy's store, had her bowsprit, foremast, forward house, and other parts of her considerably scorched, the men not being able to move her, the tide being low.—*Journal.*

NARROW ESCAPE.—During the gale of Friday last, Captain James Brien, the proprietor and accommodating ferryman at Rothsay, had an exceedingly narrow escape from drowning. When nearly in the middle of the river, between Cook's Island and the Western bank, the Captain's boat was struck by a squall and swamped. He was rescued from his perilous position by his brother, who had witnessed the disaster from the Island.—*Ib.*

The following gentlemen comprise the new local administration of Nova Scotia, viz: Vail—Provincial Secretary; Wilkins—Attorney General; Robertson—Commissioner of Mines, &c.; Annand—Treasurer and President of Executive Council; Members of Council without office—Troop, Northrop, Flynn, Ferguson; Speaker of the House of Assembly—Marshall.

A YOUNG WOMAN in Lawrence, Mass., lost her life by using chloroform to remove spots on her face; had she been wise, a box of *Grace's Salve* would have caused the trouble to disappear, and her life would thereby have been saved.

"ASKING A BLESSING."—The *Church Union* is our authority for the following incident: "A Methodist clergyman in the vicinity of Boston was invited to a public demonstration of some kind, where an expensive supper was served, and on the table were intoxicating drinks. On being requested to ask the divine blessing upon the repast he arose and said: "I can cheerfully ask God to bless the food, but I never yet dared to ask his blessing on a bottle of rum." The bottles were instantly removed, and the blessing was then invoked."

BRITISH AND FOREIGN.

LONDON, Nov. 10.—The news of the great loss of shipping, and the destruction of property by the hurricane at St. Thomas, creates a wide-spread feeling of depression in mercantile circles, as British shipping merchants and underwriters are heavy losers by the calamity.

England, France and Austria have come to a common understanding as to the policy to be pursued by them on the Eastern question.

The Paris *Moniteur* this morning says that popular tumults, incited by the Mazzinians, have broken out in Milan and other large cities of Italy, but asserts that by the prompt and decided action of the Italian Government, all these outbreaks have been suppressed.

The trial of Garibaldi has been postponed, it being considered doubtful whether any of the courts have jurisdiction in his case.

Disturbances have again broken out in Devonshire. There was a bread riot in Barnstaple to-day, which exceeded in ferocity and destructiveness the riots at Exeter. A despatch from Glamorgan, Wales, states that a terrible explosion took place in one of the mines at Ferndale Colliery, in that county. All the miners—800 in number—were at work at the time. At last accounts the mine was on fire, and it was feared but few lives would be saved.

Great efforts are being made in England and Ireland for the pardon of the convicts at Manchester, on the ground that the offence committed was a political one.

The *Patrie* says the assembling of a general European Conference is uncertain, as the views of the great Powers on the subject are as yet unknown.

The annual French Yellow Book is ready for publication. It shows that Baron Ratazzi was long ago warned of the plans of the insurgents under Gen. Garribaldi, and of the action France was certain to take in the premises.

Gen. Marinora, the Italian Minister, recently held an audience with the Emperor, and asked for the withdrawal of the French troops from Rome.

Telegrams have been received stating that a strong typhoon had occurred at Macao in China. The damage to property was immense. Beyond this no details are received.

The French Government have asked the Papal authorities to release the insurgents who have been taken prisoners in the late campaign, but the request has been refused.

The *Moniteur Du Soir* admits that the French infantry armed with Chassepot rifles, and artillery supplied with rilled cannon took part in the battle of Monte Rotondo; their coming to the assistance of the Pontifical forces decided the fate of the day against Garibaldi.

LONDON, Nov. 11.—The French Government has issued a second note in regard to the proposed conference on the Roman question. In this note even the third rate powers of Europe are called to participate. The government of Italy which is hostile to the projected conference, has sent a note to the European powers in order to enable them to decide against the necessity of any conference whatever. In this note the Roman question is discussed from an Italian stand point. The details have not transpired.

Herr Twester, a Prussian deputy, has been tried and sentenced to two years imprisonment for remarks made by him in the Diet.

UNITED STATES.

PITTSBURG, PA., Nov. 8.—The greatest calamity that has befallen our community for a long time occurred here about half-past eleven o'clock this forenoon, at which time the citizens of the ninth ward were startled by a loud explosion which occurred in the mill building of Messrs. Reese, Braff & Dull. Upon visiting the scene of the catastrophe it was discovered that a part of the building was blown to atoms and about twenty persons killed and many wounded. The explosion occurred in the forge portion of the mill and the building was soon in flames. The cause of the explosion will probably never be known as the engineer and firemen were the only persons who could have given any information as to it, and they are among the killed. The loss of property will probably reach $10,000.

WASHINGTON, Nov. 8.—The Commissioner of the Land Office is in receipt of a letter from A. Hatwood, Esq., of London, England, making inquiry relative to obtaining a quantity of land for the settlement of 50,000 emigrants, whom it is contemplated sending to the United States.

The Commissioner has replied, referring to the great body of unoccupied lands west of the Mississippi, and the facility for obtaining title to the same under the provisions of the preemption and homestead law, and communicating to the applicant full instructions on the points of inquiry presented.

NEW-YORK, Nov. 11.—By the arrival of the steamer Marmion from St. Thomas, 1st, we have additional particulars of the great hurricane there. The surgeon of the steamer reports:—We arrived at St. Thomas on the morning of the 30th, and found that the Island had been visited the day previous by the most terrific hurricane ever known there, the town being partially destroyed, and the loss of life very great. The amount of property destroyed at present it is impossible to estimate. The scene of destruction and devastation is impossible to describe. The wind commenced blowing a pretty stiff breeze about 8 o'clock from the Northwest, and about 11 o'clock it changed round to the East, and blew a perfect hurricane, carrying every thing before it. It lasted about 4 hours, but during that time raged with such violence that trees were torn up, houses lifted from their foundations and dashed to pieces. Ships and steamers of the largest class, as well as smaller vessels, were hurled together, and either dashed to pieces or sunk. Some 50 or 60 vessels are ashore, dismantled or sunk, and part of their crews lost. Thousands are rendered houseless, and the amount of suffering, confusion and excitement it is impossible to describe. There is nothing doing; everything seems paralyzed.

WISTAR'S BALSAM OF WILD CHERRY.

COUGHS, COLDS, BRONCHITIS, ASTHMA, CROUP, WHOOPING COUGH, QUINSY, and the numerous as well as dangerous diseases of the *Throat, Chest* and *Lungs*, prevail in our changeable climate at all seasons of the year; few are fortunate enough to escape their baneful influence. How important then to have at hand a certain antidote to all these complaints. Experience proves that this exists in *Wistar's Balsam* to an extent not found in any other remedy; however severe the suffering, the application of this soothing, healing and wonderful Balsam at once vanquishes the disease and restores the sufferer to wonted health.

Mr. JOHN BUNTO,

OF BALDWIN, CHEMUNG COUNTY, N. Y.—writes:

"I was urged by a neighbor to get one bottle of the Balsam for my wife, being assured by him that in case it did not produce good effects, he would pay for the bottle himself. On the strength of such practical evidence of its merits, I procured a bottle. My wife at the time was so low with what the Physicians termed SEATED CONSUMPTION as to be unable to raise herself from the bed, coughing constantly and raising more or less blood. I commenced giving the Balsam as directed, and was so much pleased with its operation that I obtained another bottle, and continued giving it. Before this bottle was entirely used, she ceased coughing and was strong enough to sit up. The fifth bottle entirely RESTORED HER TO HEALTH, doing that which several Physicians had tried to do but had failed."

Prepared by SETH W. FOWLE & SON, 18 Tremont St., Boston, and for sale by Druggists generally.

None genuine unless signed I. BUTTS *on the wrapper.*

Suddenly, at Wakefield, on the 25th ultimo, Miss Martha Anne, second daughter of Richard and Jane Clark, in the 23rd year of her age. Her sickness was short, but indescribable in its severity. She has left a kind father, affectionate mother, three brothers, five sisters, and a large circle of relatives and friends to mourn their loss.

Friend after friend must part;
Who has not lost a friend?
There is no union here of hearts
That finds not here an end.

Death is no respecter of persons; it takes the most useful and most promising. Her remains was interred on Sabbath, 29th ultimo, before which an appropriate discourse was delivered by the writer, founded upon Philippians 1st chap., 21st v., "For me to live is Christ, to die is gain." A large and solemn congregation was present. May the Lord sustain the mourners under this heavy stroke of affliction; and may it prove a blessing to the young people of the community—a call from God, "Therefore be ye also ready." Our sister is gone—

"Yet again we hope to meet thee,
When the day of life is fled,
Then in heaven with joy to greet thee,
Where no farewell tear is shed."
