eral, and other members who spoke, expressed in strong terms their disapprobation of Mr. C.'s course, characterizing the proceeding as disloyal and treasonable. The Resolution that the notice be not received, or entered on the notice book of the House, passed unanimously and may be taken as a fair representation of the vote which would be cast by every constituency in New Brunswick, were the people appealed to on the question. The first excitement over, the feeling of indignation gave place to one of pity, mingled with contempt. Pity for the weakness of the man who would assume the responsibility of thrusting such absurd resolutions into the very face of men whose loyalty is undoubted; and the most perfect contempt for the sentiments therein contained. People now say it was "only Cudlip," and there they let it drop as unworthy of further thought or attention. We are happy to believe that men of the Cudlip stamp, holding the views expressed in his silly resolutions, are but few in our province. The idea suggested by him, and echoed by the *Freeman*, that annexation proclivities are on the increase, remains yet to be proven. Those who would fain have this favorite idea of theirs believed by the people of this Province, are, to say the least, of very doubtful loyalty. Their patriotism is a myth, and judging all by themselves, they imagine it an easy matter to persuade others to embrace their views. Probably there always will be a few restless, unstable, anti-British agitators of annexation, and schemes equally wild and unpopular. We are inclined to believe that such characters are in some degree necessary to the health and prosperity of a country—a sort of a necessary evil. Their efforts however, will be unavailing so far as the object *they* have in view is concerned; while the effect upon the people will be help them to see more clearly and appreciate more fully, the liberty enjoyed under our own institutions, and strengthen their attachment to their country as at present governed.

CIVIC.—The Civic Elections will be held on Tuesday, April 6th. There will probably be, as usual, a number of candidates for Civic honours. The Common Council evidently wants remodelling somewhat.

The International Steamboat Company will place two boats on the route between St. and Boston on the first of April, one leaving St. John on Mondays, the other on Thursdays.

LINDA.—The steamer *Linda* sailed from Yarmouth for Boston on Thursday, the 18th inst., her first trip for the season.

The steamer *Empress* will commence to run her usual trips on Thursday next, between Annapolis and this port, and on the 31st inst., between Windsor and this port. She will make two trips a week.—*Freeman.*

ACCIDENT.—As the Royal Artillery were marching along Pitt Street on Friday last, one of the heavy waggons "slewed" and a horse becoming frightened dashed through the ranks scattering everything in all directions, throwing his rider and dragging him for some distance along the ground. The horse was finally captured, and the man, who is considerably injured about the limbs and back, was placed upon a gun-waggon and conveyed home.—*Freeman.*

PROVINCIAL APPOINTMENTS.—Nathaniel L. Price to be Registrar of Probates for the County of Victoria, in the room of William Hartt, resigned.

Dosite Richard to be a Commissioners under the Act to facilitate the settlement of Crown Lands, for the part of the County of Kent lying north of the Kouchibouguacis River.

John Herrington of the City of St. John, City Marshal; David A. Keith, of the Parish of Havelock, in the County of King's; Jacob Corey, of the Parish of Brunswick, in the County of Queen's; Joseph McCordick, of the Parish of Salisbury, in the County of Westmorland, to be Wardens in their respective Counties, under the Act 28th Victoria, Chapter 21, entitled "An Act for the protection of Moose."

The Indiantown Ferry privilege was sold by auction on Saturday according to the conditions laid down in a resolution of the Sessions. It was bid in by Mr. Matthew Dalton, the former lessee, for $51 per annum, $1 above the upset price.—*Globe.*

☞ Mr. Wm. W. Emslie of this city has received a communication from London in reference to a case now pending in that city. Claimants are wanted for a large estate, worth over £140,000, and the advertisements have so far called forth but one application—that of a woman of very distant relationship. Mr. Emslie's attention has just been drawn to the affair, and it is generally believed that he will not have the slightest difficulty in proving himself the only surviving male heir. We sincerely trust that it will turn out to be correct; Mr. Emslie has been a worthy citizen of St. John for over half a century, and everybody will rejoice to hear of his good fortune.—*News.*

EXPLOSION AT THE ALBERT MINES.—The Moncton *Times* gives an account of an explosion in one of the pits of the Albert Mines, on Tuesday last, by which three men named William Campbell, John Wilson and Stephen Campbell were severely burnt, but are happily recovering from the injuries they received.—*News.*

We understand that under authority from the Department of Marine, W. M. Smith, Esq., accompanied by Mr. Harley, Inspector of Light-houses, proceeded to Lepreaux and made choice of a site for the new Fog Whistle at that place. The spot selected is within a few hundred feet of the Light. Tenders will be asked presently for the erection of a building and the construction of the machinery.

It is also understood that Mr. Harley has selected a site on Fort Howe for a Time Ball and Observatory, under instructions from the Marine Department.

BAY VERTE CANAL.—A meeting in reference to the early prosecution of the Canal at Bay Verte, to connect the waters of the Bay and Gulf, is to be held at Bowes' Hotel, Sackville, to-morrow at 2 o'clock, P.M.—*News.*

A CRITICAL SITUATION.—About two o'clock yesterday morning the St. Stephen policeman heard cries from Eaton's Wharf, Calais. On proceeding to the spot they found a poor wretch hanging by his hands to a projecting plank immediately over a large opening in the ice. He was released from his critical situation and let go with a caution.—*St. Croix Courier.*

THE SARSAPARILLA DIGGERS OF YUCATAN.—This singular set of people are descended from the ancient Aztecs of Southern Mexico, and still retain some of the peculiarities which Stevens and Prescott gave of their ancestors. Dr. J. C. Ayer & Co., employ a small army of them in digging Sarsaparilla root. Provided with narrow spades, a coil of rope, and a bag of water, they are ready for the forest where the wild banana furnishes them with food, and thick-leaved trees their only shelter. Few of those who find themselves rejuvenated by this product, know how much they are indebted to the toil of these humble laborers, who dig health for thousands of Dr. Ayer's patrons, while they sometimes lose their own.—[Boston Commercial.

NOVA SCOTIA.—The Hants, Yarmouth, and Richmond elections are to be held on the 18th of April.

The *Emulous* which sailed from Halifax on the 18th of last August with passengers for New Zealand, arrived at Otago, N. Z., on the 15th of December following. Thus making the passage in a little less than four months.

PRINCE ARTHUR.—H. R. Highness is coming to Canada next fall to join the Royal Artillery, and not the Rifles, as was at first stated. The Prince will be attached to Capt. Turner's Battery, stationed at Montreal; and we understand that the residence of the Hon. John Rose, in Montreal, has been engaged for H. R. Highness during the time of his military service in Canada.—*Ex.*

MONTREAL, March 22.—Writs for Yarmouth, Hants and Richmond elections were sent from Ottawa on Saturday by special messenger. The elections are to be held on the 13th of April.

The Education bill of the Quebec Government is extremely liberal. It provides for a council of public instruction of twenty-one members; fourteen Catholics and seven Protestants. This Council to have two Secretaries and to be divided into two Committees, to which all matters specially affecting Protestants and Catholics shall be referred. The grant for superior education is in future to be divided between the two creeds, according to population. When over ten of the Catholic members of the Council of Public Instruction or five of the Protestant members shall be of opinion that the interests of the Protestants and Catholics should be altogether separated, they may sign a document to that effect to the Lieutenant Governor in Council, and by order in Council, the Council of Public Instruction shall be divided into two Councils, one Protestant and one Catholic. Immediately after its separation, all Government grants whatever shall be divided between the majority and the minority, according to their respective populations in Montreal and Quebec. The Corporation is authorized to raise money for School purposes. This money they shall pay to School Commissioners according to assessment roll as between Catholics and Protestants. Under the old law, all the money of Government grants and assessments was divided on a basis of population. In the country districts, taxes levied on public institutions and corporate bodies are to be passed to the School Commissioners of the majority, to be divided among the Trustees of dissentient schools in the same proportion as the Government grant, that is, in proportion to the number of children attending schools. This is an advance upon Upper Canada legislation. The leader of the Opposition, Mr. Jolly, promised his hearty support to the bill.

MONTREAL, March 23.—Second reading of school bill came up in Quebec Assembly, this evening, and a lengthy discussion followed. Bill will no doubt pass by a large majority, but Senator Cauchon and many friends of the Government oppose it as being too liberal.

It is rumored in Quebec, seemingly well authenticated, that so far from the military being withdrawn from Quebec there will be a considerable augmentation of the forces; that four regiments will be stationed there and that it is to be the head quarters of the Commander-in-Chief.

One hundred and two bills were introduced, and 495 petitions presented to the Quebec Parliament this session.

MONTREAL, March 24.—School Bill passed second reading last night unopposed, and was greeted with loud cheers. The Premier said the eyes of the whole Dominion were on Quebec, and the result arrived at on this question would be printed in every Province with satisfaction and be the means of consolidating and confirming Confederation. Bill went through the Committee of the whole this afternoon and was then read a third time and passed. The House adjourned until Saturday.

Three men murdered a companion at Lapraire yesterday, by beating him to death. They have been arrested. The Coroner left this afternoon to hold an inquest.

A son of Canon Anderson accidentally shot a son of Capt. Fosbrooke at Sorel yesterday, not expected to recover.

The Queen held a Court at Buckingham Palace on the 3rd inst. Among those presented were Sir George E. Cartier and Hon. Mr. McDougall.

TEXAS.—On the 17th inst., Senator Sumner presented a petition from Texans setting forth the frightful condition of affairs in Texas, stating that since General Grant's election *assassination have averaged two per day in that State*, all of which they attribute to "Johnson's policy." They ask as the only means of protecting the loyal people that the State be subdivided into two or more military districts or territories.—*Journal.*

BRITISH AND FOREIGN.

LONDON, March 20.—Mr. Gladstone's bill to put an end to the establishment of the Church of Ireland, and to make provision in respect of the Royal College of Maynooth, came up again in the House of Commons last evening, and was debated at great length.

John Bright took the floor and delivered a long and able speech in favor of the measure.

LONDON, March 22.—In the House of Commons today, Mr. Fortescue, Chief Secretary for Ireland, said the Government did not intend to extend clemency to any other Fenians now in prison.

The debate on the Irish Church Bill was resumed. Sir Roundell Palmer made a speech favoring the disestablishment, but opposing disendowment, and said he would propose and urge modifications of the bill in committee.

John Duke Coleridge, Solicitor General, advocated the bill, approving it in all points.

Gen. Almonte, formerly conspicuous in Mexican affairs, died in Paris yesterday.

LONDON, March 23.—The strike of the cotton operatives, which commenced at Preston, is spreading to other parts of the county. In Glasgow it has become general, and several mills have partially suspended operations for want of hands.

In the House of Commons this evening the committee on mail service to the United States, submitted report refusing to sanction the contracts made by the Government with the Cunard and Inman Steamship Lines for conveying mails on the present terms.

French and Belgian journals publish the preliminaries of the proposed conference between France and Belgium to harmonize their mutual commercial interests.

LONDON, March 24.—The debate on the bill for the disestablishment of the Irish Church was resumed in the House of Commons last night.

Mr. Spencer H. Walpole, member for Cambridge University, opposed the bill, and the O'Donoghue, member for Tralee, made a fervid speech in its favor.

Mr. Gathorne Hardy followed. He said that the strength of the Liberals came only from the majorities at the hustings; it rested on no firmer basis. Mr. Gladstone had pledged himself and his followers to the destruction of all that was deemed most sacred. The destruction of the Church was urged by envy and jealousy. The speaker maintained that the Church had always fulfilled its mission.

Mr. Gladstone then rose to conclude the debate. He reviewed the course of the Bill, and the arguments which had been made for and against it. He declared that a new policy was necessary for Ireland, and this was the first step demanded by the unanimous voice of the majority.

Mr. Gladstone resumed his seat amid deafening cheers, and the House divided on the motion that the bill be read a second time, with the following result: for the motion, 368; against the motion, 250. Majority for Government, 118.

The announcement of the result was greatly cheered in the House. The cheers were taken up by the people in the lobbies, and the news was thus conveyed to an immense crowd outside, who joined in the applause with the wildest enthusiasm.

The House, at three o'clock in the morning adjourned over the holidays to the first day of April.

NEW YORK, March 14.—A letter via San Francisco, dated Hong Kong, Jan. 9th, mentions that a difficulty had occurred between English subjects on the island of Formosa and the residents there, relative to the shipment of some camphor. A demand to redress and the delivery of the camphor, made by the English Council, was refused. Some English ships-of-war then went there and landed troops in the face of a large Chinese force, killing a number of them, when the Chinese came to terms, paid damages and apologized.

UNITED STATES.

Congress will probably close its session next week.

NEW YORK, March 24.—Cuban advices do not contain any important intelligence from the insurrectionary districts.

Gen. Dulce held a grand review of the troops in Havana yesterday.

An American vessel, suspected of carrying arms and supplies to the insurgents, has been seized by a Spanish man-of-war.

Late advices from Hayti report the island in a sad state of civil war and anarchy. Gold 131½.
