The Legislature is getting through with the business of the country very slowly. The granting of supply has already occupied a long time. All the important bills are yet to receive the attention of the House; and at the present rate of proceeding it appears improbable that the session will close before the 19th.; members are getting impatient; the private business of many demands their attention, and some have already left for home.

Hon. Mr. Harrison, it is said, is about resigning his seat in the Legislative Council. Rumor says that W. E. Perley, Esq., M. P. P., will be appointed in his stead, and that Archibald Harrison, Esq., will be a candidate for Mr. Perley's seat in the House of Assembly, when vacated.

Ruel, Esq., was re-appointed Chamberlain, Collector of Taxes for the East Side, and City Treasurer, and G. F. Harding was re-appointed Receiver and Collector of Taxes for the West Side. The following Street Commissioners were appointed for the various Wards:—John Kerr, King's; J. C. Hennigar, Queen's; J. Herrington, Duke's; Geo. McKelvey, Sidney; Thos. Miller, Wellington; John McGourty, jr., Prince. A number of Constables were also appointed.

THE STEAMSHIP "DORIAN" arrived on Wednesday morning from Glasgow, via Halifax, at which place she arrived after a fine run of twelve days from the former place. She is now discharging her cargo at Reed's Point with great rapidity, by the aid of steam, and in splendid condition. She will take in a cargo of deals, and leave again for Glasgow at an early day. This is the *Dorian's* first voyage across the Atlantic, and her second sea voyage; the first having been made to the Mediterranean.—*Globe.*

Freight,	7,592	6,591
Mail and Sundries,	648	504
Total,	$12,461	$10,871

An increase over $1,489 over March, 1868. The gain was chiefly in freight.

The *Gazette* announces the re-appointment of the old Sheriffs, for 1869.

STREET RAILWAY.—The rails for the Street Railway left England on the 27th March, for St. John, on board the steamship *United Kingdom*, and will be landed here in a few days. The work on the streets will be immediately commenced on their arrival. The cars are being built at the Station, and are in a forward state, and it only requires the subscribers to pay up, to secure an early completion of the road.—*News.*

ASHORE.—Word came to town on Wednesday evening about 8 o'clock that the Steamer "Empress on her return trip from Windsor had gone ashore at Cape Spencer, about 12 miles up the bay, at five o'clock in the afternoon. It was said she had a hole knocked in her bottom. The Ferryboat, "Princess of Wales" left at 9 o'clock to bring down passengers and mails, and to render what assistance she could under the circumstances.—*News.*

The *Telegraph* says the river is open as far up as Devil's Back—some seven miles above Broadage's Point. The Nerepis is now clear of ice. Mr. Glazier's steamer, *Ada G.*, runs regularly between Indiantown and the Point, leaving Indiantown at 8 a.m. and 3.30 p.m. At Fredericton, on Saturday, the river rose five or six feet. Last year and in 1867, the river opened on April 27th; present indications point to a much earlier date for 1869.

BURGLARIES.—There have been several burglaries in Fredericton recently. On Thursday morning, of last week, a young man, who gave his name as Day, was discovered while trying to effect an entrance into the Dry Goods Store of Mr. A. Anderson. Mr. McGinn' Wagon Factory, was entered the same night, and a number of tools stolen. Some articles were also taken from the store of Mr. C. S. Brannen.

The Catholic Chapel at Fredericton was broken into on Monday night, the poor box robbed, and the candlos taken from the altar. The men, under arrest for the robbery, were examined and committed to await further evidence. The stolen property is valued at about $300, and has been all found except two candlesticks.

FREDERICTON RAILWAY.—The annual meeting of the Fredericton Railway Company, was held last week. The *Farmer* says:

The account of Receipts and Expenditure was laid before the meeting, and gave entire satisfaction. The Expenditure on the Road so far has been upwards of Three Hundred Thousand Dollars. The Road is expected to be completed and in running order by the first of September next. The Directors and office-bearers for the ensuing year are as follows:—*Directors*—Thomas Temple, Esquire, President; Julius L. Inches, Esq., A. F. Randolph, Esq., Hon. John Glasier, and Lewis Carvell, Esq. Mr. John Richards, Sec'y and Treasurer. John J. Fraser, Esq. Solicitor.

We regret to state that young Mr. McMonagle of Sussex, who graduated only a few years ago at the University with high honors, has been early cut down by Pulmonary Consumption. He seemed never to have been cured of the dire effects of a severe attack of inflammation of the lungs which he experienced while at College.

☞ A public meeting was held at Grand Falls, on the 15th ult., at which, resolutions were passed endorsing the resolutions adopted at the recent Railway meeting in Woodstock.

NOVA SCOTIA.—Tuesday next, the 13th inst., will be nomination day in Hants, Yarmouth, and Richmond. The elections will take place on the 20th. There seems to be no doubt of Howe's return. The only question now being what majority he will have. In Yarmouth it is supposed Mr. Killam, the repeal candidate, will be elected, though the majority in favour of repeal will not be nearly so great as on former occasions.

In the Spanish Cortes on Saturday, in reply to a question, the Minister of Finance stated that he had knowledge that Mr. Hale, the U. S. Minister, had ever introduced articles contraband of war under diplomatic privileges, as has been rumored. He promised, however, to inquire into the matter and report the result to the Deputies.

The press of this city comment on this story of Mr. Hale generally unfavorably to that gentleman.

King Ferdinand, of Portugal, positively declines the Crown of Spain.

THE SARSAPARILLA DIGGERS OF YUCATAN.—This singular set of people are descended from the ancient Aztecs of Southern Mexico, and still retain some of the peculiarities which Stevens and Prescott gave of their ancestors. Dr. J. C. Ayer & Co., employ a small army of them in digging Sarsaparilla root. Provided with narrow spades, a coil of rope, and a bag of water, they are ready for the forest where the wild banana furnishes them with food, and thick-leaved trees their only shelter. Few of those who find themselves rejuvenated by this product, know how much they are indebted to the toil of these humble laborers, who dig health for thousands of Dr. Ayer's patrons, while they sometimes lose their own.—[Boston Commercial.

March 19, 1869.

No medicine has been more successful and given more universal satisfaction by curing the diseases for which it was intended, than Dr. Dow's Sturgeon Oil Liniment, and it must be gratifying to the Doctor to know that he was the inventor of such a splendid remedy.

If your Cows are thin, with a rough, shabby coat, or their milk deficient in quality, try Professor Clark's Derby Condition Powders, and you will be pleased with the result.

UNITED STATES.

WASHINGTON, April 2.—The committee on Foreign Affairs has voted in favor of Gen. Banks' Cuban report. Banks' report, as sanctioned by the committee, provides for a joint resolution of sympathy with the people of Cuba in their struggle for independence, and pledges Congress to give its constitutional support to President Grant whenever he may deem it expedient to formally recognize the independence and sovereignty of the Island. There is no doubt of the adoption of the joint resolution by both Houses, and the friends of Cuba say that it will exercise a great influence on the war, by securing the revolutionists moral as well as physical support.

It is expected that the Spanish Minister will present a remonstrance to the State Department against the recognition of Cuba, and that he will leave the country in case of the adoption of Banks' resolution.

NEW YORK, April 5.—A short time ago the House of Representatives called upon the President, if not incompatible with the public interests, to furnish a list of vessels captured during the late war by Rebel cruisers. This information was laid before the House on Saturday. The list is made up from documents filed by those whose property has been destroyed in support of their claims for indemnity where the records of the department are incomplete. References has been made to such other unofficial records and materials as were deemed reliable and trustworthy, in order to render the statement as complete as possible, and exhibit, as far as within the power of the Department in connected tabular form, the amount and character of the injury inflicted, and the variety and extent of these interests. It is expected the rogues will seek Canada, and as they cannot be reached by the Extradition Act they can there dictate their own terms, and the amount of cash for which they will surrender the Bonds.

A friend of ours who is chief clerk in the Governmental Dispensatory, says that no medicine chest is now complete without *Johnson's Anodyne Liniment.* We always supposed it was prescribed by law; if it is not, it ought to be, for certainly there is nothing in the whole *materia medica* of so much importance to the soldier and the sailor as "Johnson's Anodyne Liniment."

NEW SABBATH SCHOOL BOOK.

JUST PUBLISHED,—"THE MORNING STARS," a book of Religious songs for Sunday Schools and the Home Circle. The authors believed that by resources in the Folk Songs of Germany—a rich mine of sweet and simple melodies (liberty but little worked—music at once very easy, very attractive, beautiful and of high order, might be placed in the hands of children; and from a careful examination of about four thousand of those German Folk Songs the present collection has been selected. Great pains has been taken to put the music into proper keys, for children's usage. It is our experience that music for children is very generally written too high. A child's voice should seldom be carried above D; and as a rule, it cannot be maintained for a number of bars on C or D without flatting. Accordingly, we have so selected the keys that only a very few melodies, in which it was impossible to avoid it, will be found to run above D, in any part of them.
