CUSTOM HOUSE REVENUE.—The customs duties received during the month of October, up to 1 o'clock to-day, amounts to $104,000. Last year, when upwards of $10,000 was realised as duties on tea and coffee, the entire receipts were only $98,400. The number of entries this month is 8,709; in the same period last year 8,400. The export duty this month amounts to $4,800—about $1,000 more than during the same period last year.—*Globe.*

THE BAY VERTE CANAL.—The late survey at Bay Verte, by Samuel Keefer, Esq., C. E., has disclosed a new route. This starts from the Bay of Fundy between the rivers La Planche, Missiquash—hence called the La Planche Route—proceeds on the Fort Lawrence side of the marsh, via Blash Point, through Long Lake and Black Ash Swamps to the head water at or near Doyle's Mills in the Tidnish River, thence via Tidnish Head to a deep water terminus a few hundred yards from the shore. This route is said to be shorter, with a lower summit, than any yet surveyed. Little rock formation has been encountered in the borings, and the summit is of a light nature. The survey of this new route is under the direction of Mr. Stark, C. E., and has occupied about four weeks.—*News.*

NEW SWEDEN.—The wife of Anders Anderson arrived there from Old Sweden on Friday, with four little children, only to find that her husband, whom she supposed strong, and well, had been dead a month. Four months ago Mr. Anderson had purchased and sent tickets for his family, and in the meantime contracted disease, which developed into blindness and ultimate death.

Mr. C. Anderson has had his new saw mill on the little Madawaska, in that part of New Sweden called New Jutland, running about a month. It is cutting boards for the new building going up in that part of the Swedish Colony.

The second steam-shingle mill in New Sweden has been set up by Mr. Mayhew, the inventor of the justly celebrated revolving shingle machine.—*Tel.*

PERSONAL.—We were pleased to receive a call, during the past week, from Dr. AYER's traveller, who was in our town devoting his time and attention to the preparations of the great medicine man. This call has become a pleasant annual to us from the able and reliable business character of the accomplished gentlemen whom this firm send out to transact their business. No house is better known or valued by the press for its promptness in settlement than the well established and popular J. C. AYER & Co., Lowell, Mass., whose medicines have become a household necessity, and won the confidence and praise of all. Our own acquaintance with them has extended over a series of years, and we have invariably found them, their travellers and their medicines, worthy of the commendations they everywhere receive.—Jackson (Tenn.) Tribune.

ENGLISH AND FOREIGN.

LONDON, Nov. 1.—W. E. Baxter, member of Parliament for Montrose, addressed his constituents last night. He said that the result of the Geneva Arbitration was the greatest triumph of modern civilization. The award was just and the decision calculated to make nations careful, while it was eminently serviceable for the protection of English shipping and commerce in the time of war.

TURIN, Nov. 1.—River Po continues to rise and inundation is spreading. Families are flying, and those who cannot escape are starving on house tops and in trees where they have taken refuge. Streams are filled with carcasses of cattle and wrecks of houses and barns.

WINTER DISEASES.—These are usually ushered in by November, in which month the strongest lungs are sorely tried by cold and damp. From the varying temperature few persons escape colds, sore throat or influenza, for all of which Dr. Wilson's Pulmonary Cherry Balsam may be used with a certainty of effecting a cure. No cough or cold can prevail against this remedy. Chests tightened to suffocation with hard, dry cough, are eased and liberated by the use of this Balsam, which relieves, with wonderful facility, the heavy expectoration and the consumptive cough.

We know of no Pills that work on the system so well as Dr. Wilson's Anti-Bilious and Preserving Pills. They do not gripe or weaken in their action, and are the best pills we ever used. For the cure of all disorders of the stomach and bowels, liver complaint, biliousness, sick-headache, loss of appetite, restless nights, debility, and general weakness there is no equal to them.

There is no preparation that stands so high among farmers, grooms, and livery stable keepers, as Dr. Dow's Sturgeon Oil Liniment. It is used with the greatest success as an external application, for all the injuries befalling a horse. From having witnessed its healing powers we cease to wonder at the popularity it enjoys.

Professor Clark writes to his agent. "I have undertaken to supply my fellow citizens in our Dominion with a better, stronger, and more reliable condition powder than has ever been made before, and your public have only to use them and prove it." We could add our own experience, but it is unnecessary, as they are everywhere taking the lead.

Ayer's
Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Among the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of **Consumption**, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing **Coughs**, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of Childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome **Influenza** and painful **Bronchitis**, when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no cost or toil is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected.

NOTICE TO CONTRACTORS.

INTENDING CONTRACTORS are hereby informed that in December next, Tenders will be received for the execution and completion of certain portions of the works connected with the enlargement of the Welland Canal, between Port Colborne and Thorold; also for parts of the new line to the eastward of the present canal, from what is called Mariatt's Pond through the valley of the Ten Mile Creek to Brown's Cement Kilns, thence *via* the Thorold and St. Catharine's Cemeteries to near Port Dalhousie.

The works are to be let in sections of a length suited to circumstances and the locality.

The location surveys are now in progress, and at some places sufficiently advanced to admit of contractors examining the ground before winter sets in.

When plans, specifications and other documents are prepared, due notice will be given. Contractors will then have an opportunity of examining them, and be furnished with blank forms of Tender, at this office, or at the offices of the respective resident Engineers on the works.

By order. F. BRAUN, Secretary.
Department of Public Works, Ottawa, 4th Oct., 1872.
