There is, probably, no way in which we can benefit our readers more than by recommending to them for general use *Johnston's Anodyne Liniment.* It is adapted to almost all the purposes of a Family Medicine; and is a specific for coughs, colds, whooping cough, soreness of the chest, lame stomach, rheumatism, spitting blood, and all lung difficulties, it has no equal that ever we saw or heard of.

The propriety of giving condition medicine to horses, cattle and sheep, was discussed and admitted by many of the Agricultural Societies throughout the State last Fall, and we believe that in every case but one they decided in favor of *Sheridan's Cavalry Condition Powders.* Good judgment.

MOMENTOUS ENQUIRY.—No diseases are more trying to the temper or more exhausting to the constitution than diseases of the pulmonary organs, brought about often, but not always, from exposure to wet and cold. Whenever we feel the first symptoms of a cough it will only be necessary to take Dr. Wilson's Pulmonary Cherry Balsam to obtain immediate ease. All lung complaints are speedily removed and cured by the use of this unequalled remedy. Whenever persons subject to pulmonary disorders feel exhausted or out of sorts, they should immediately resort to this wonderful restorative. All tender chested persons will save endless misery by adopting this treatment.

Dr. Wilson's Anti-bilious and Preserving Pills are the best remedy now on sale in this city, the ingredients of which are so unijurious that they cannot harm the most delicate constitution. They are compounded entirely of medicinal herbs. They are the production of a doctor who has made it his study to alleviate the ills to which the human family are all liable. They must therefore be hailed with delight as supplying a want long felt in this country.

It is a rare thing for any physician to prepare or countenance a medicine the manufacture of which is kept secret. The only exception we know of is Dr. Dow's Sturgeon Oil Liniment. This we believe they all endorse from their confidence in the inventor and from the virtues of the article itself, and many of them use it in their practice with the greatest success.

Extract of a letter from a respectable druggist, ordering a quantity of the celebrated Clark's Derby Condition Powders. "I must say the Derby Condition Powders are the best horse medicine I ever sold; at any rate they give general satisfaction, which I consider the best evidence of their excellence. I am the first person who introduced them here, and they take well. I think I shall be able to sell a large quantity the coming fall and winter. I can send you numerous certificates regarding their effect if you desire it."
